

Enrichment in spots: regulation of acetyl-CoA biosynthetic process from pyruvate

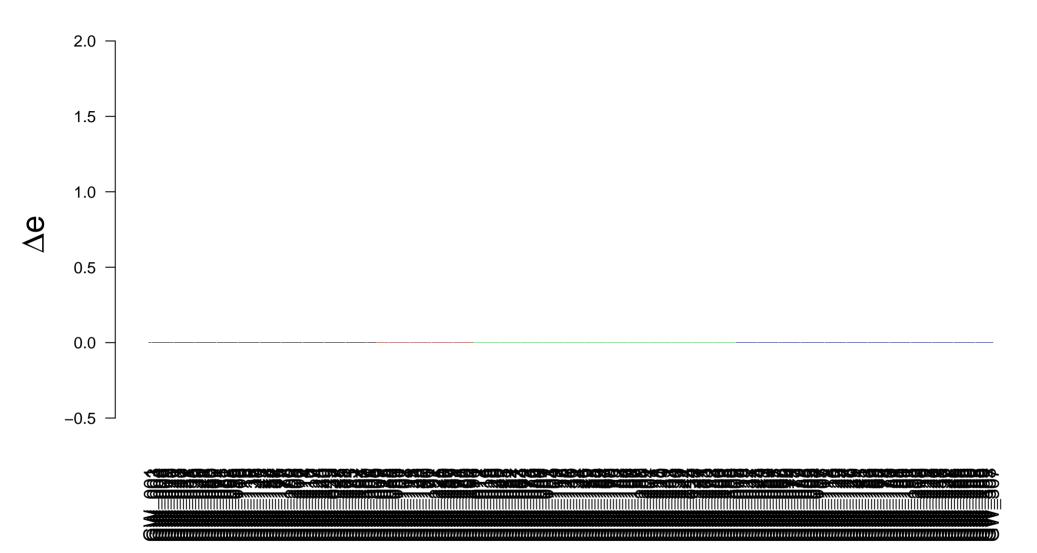

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot A

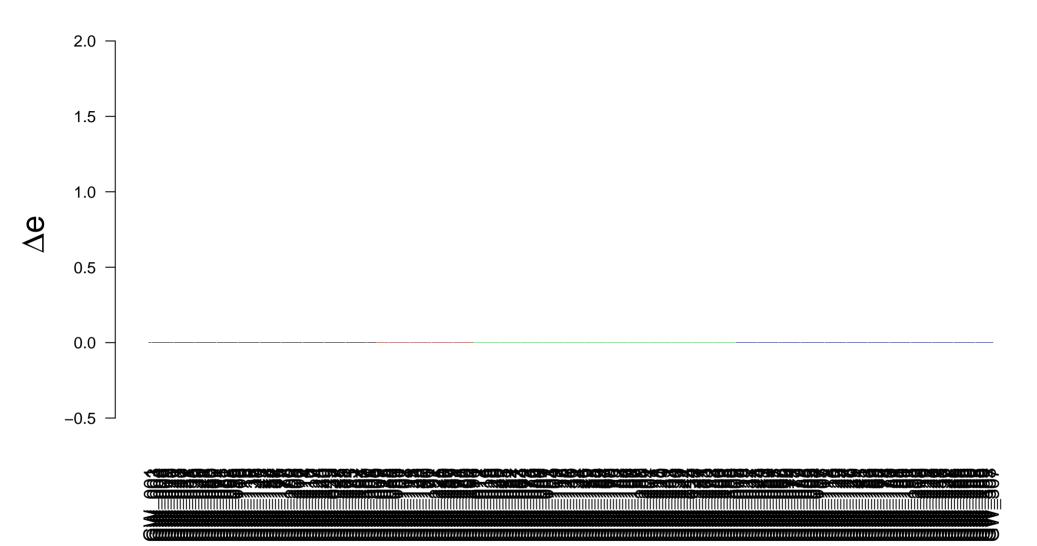

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot B

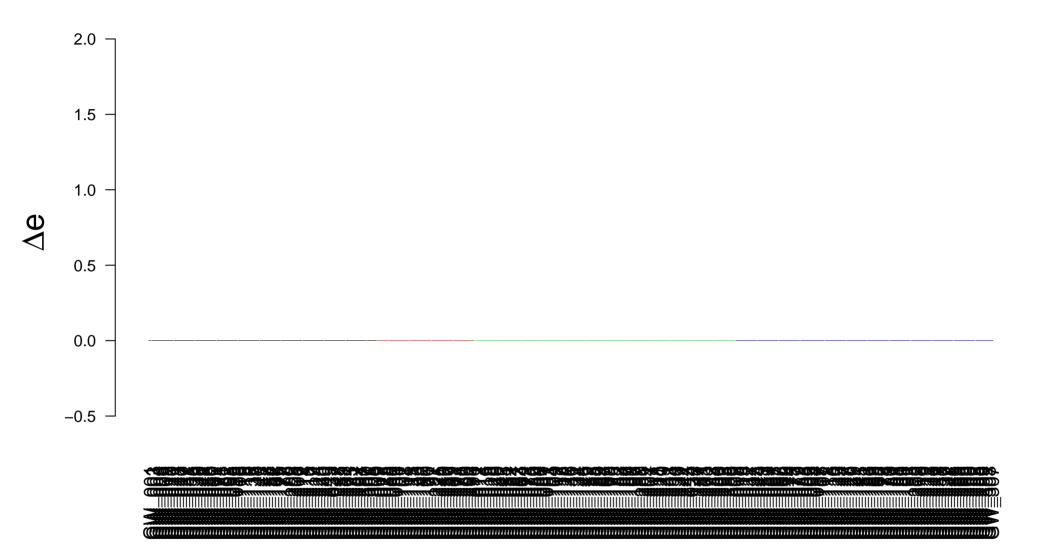

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot C

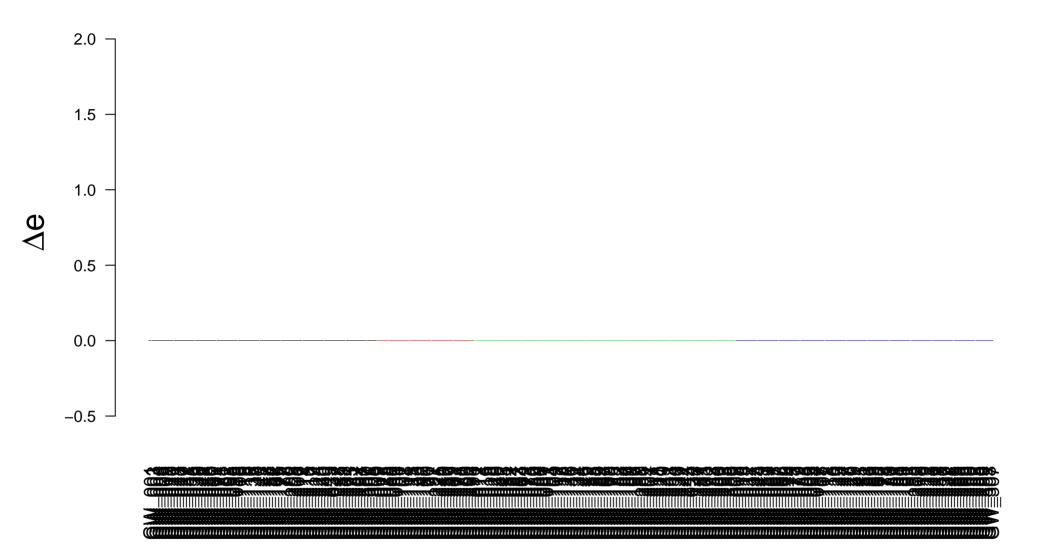

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot D

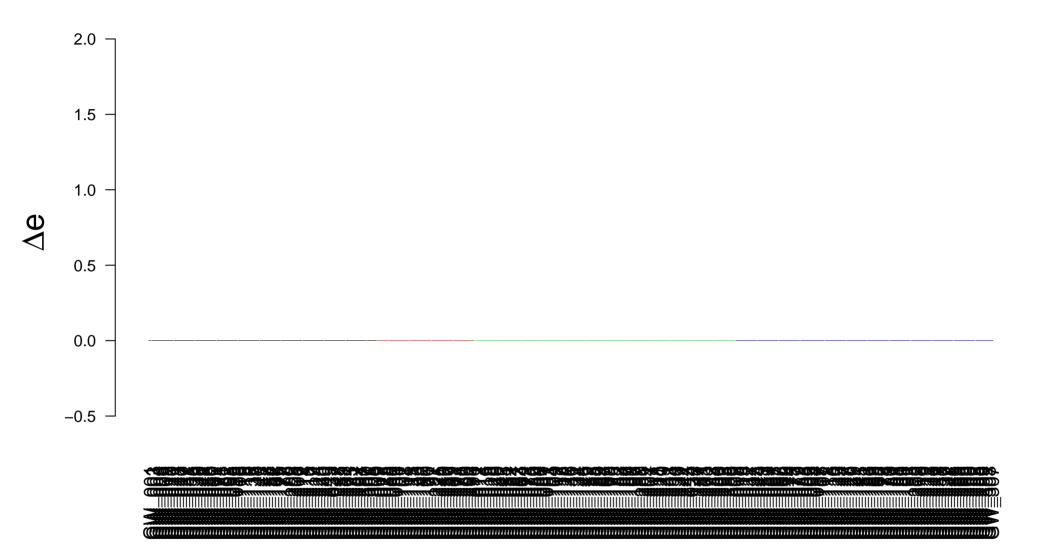

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot E

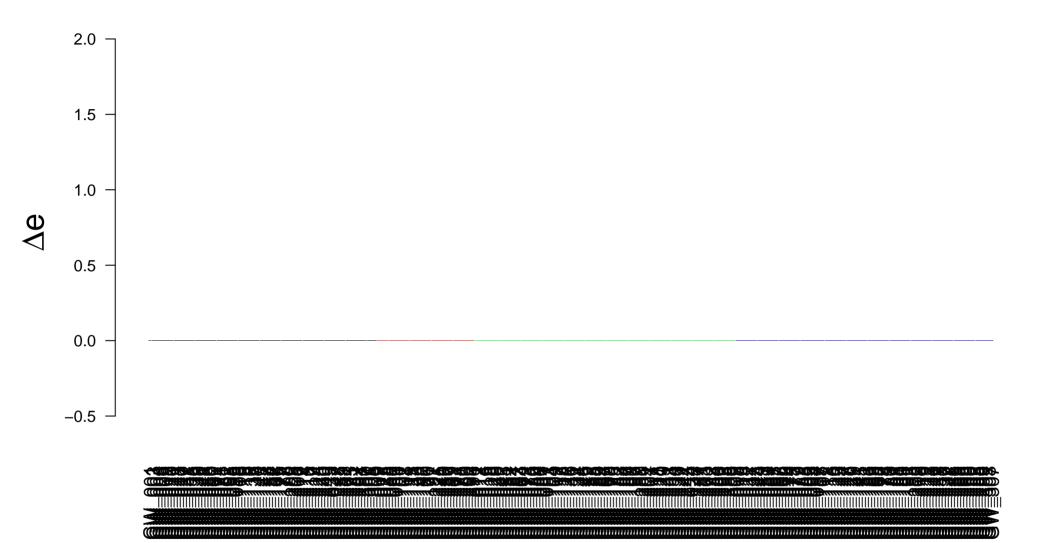

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot F

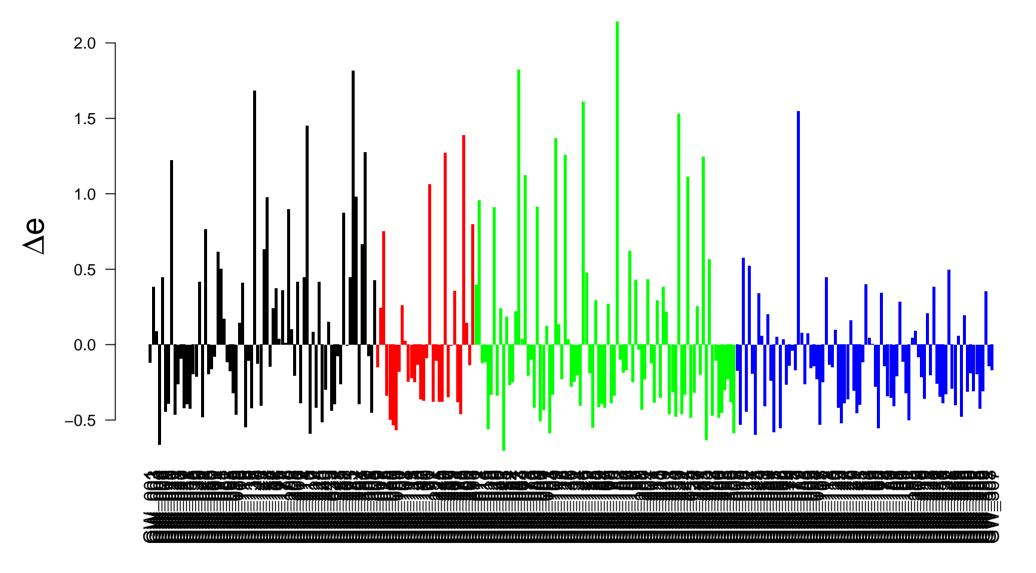

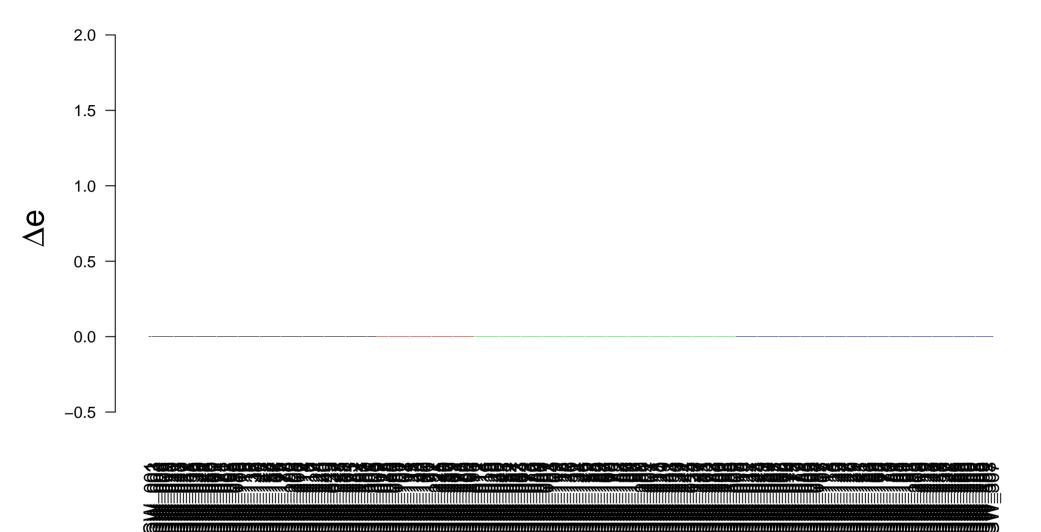

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot G

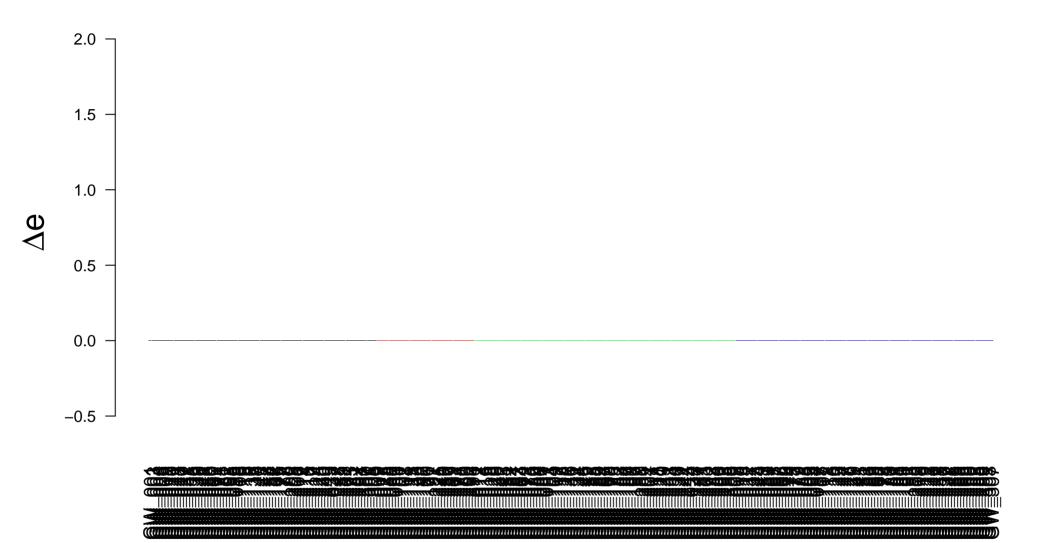

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot H

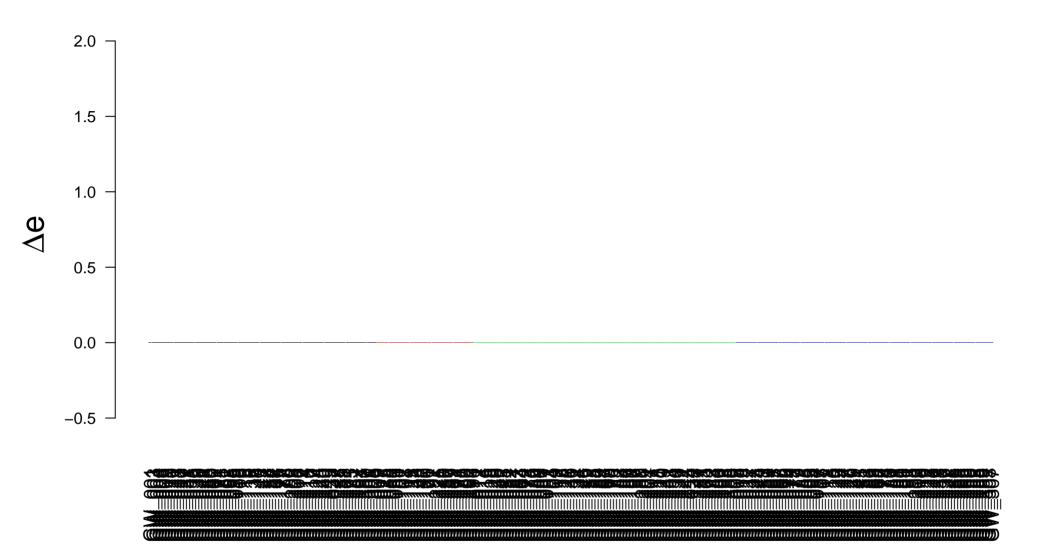

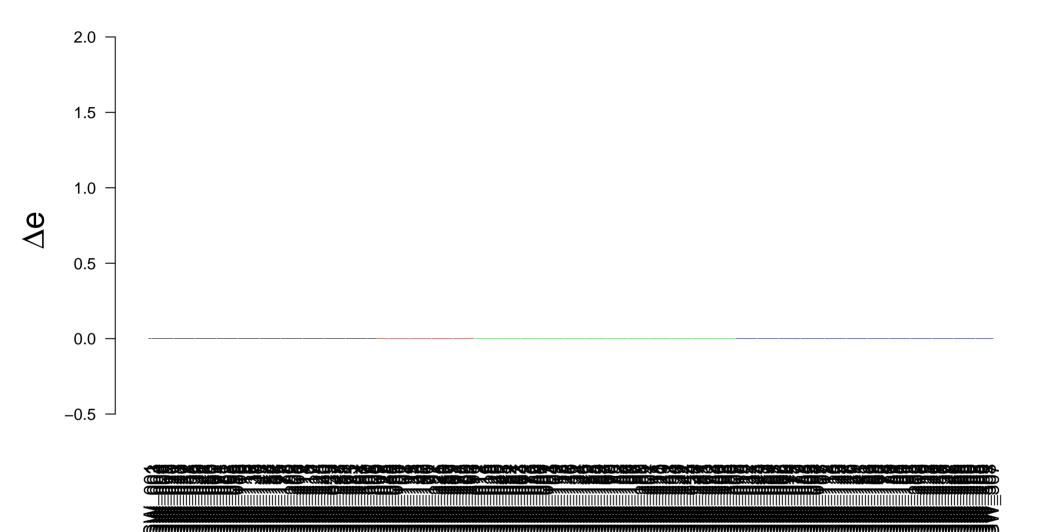

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot K

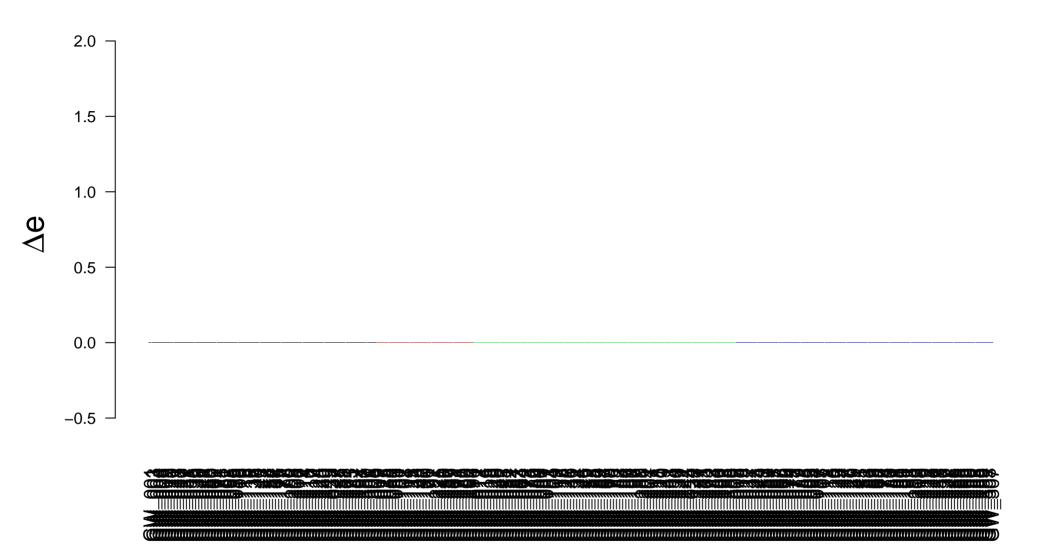

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot L

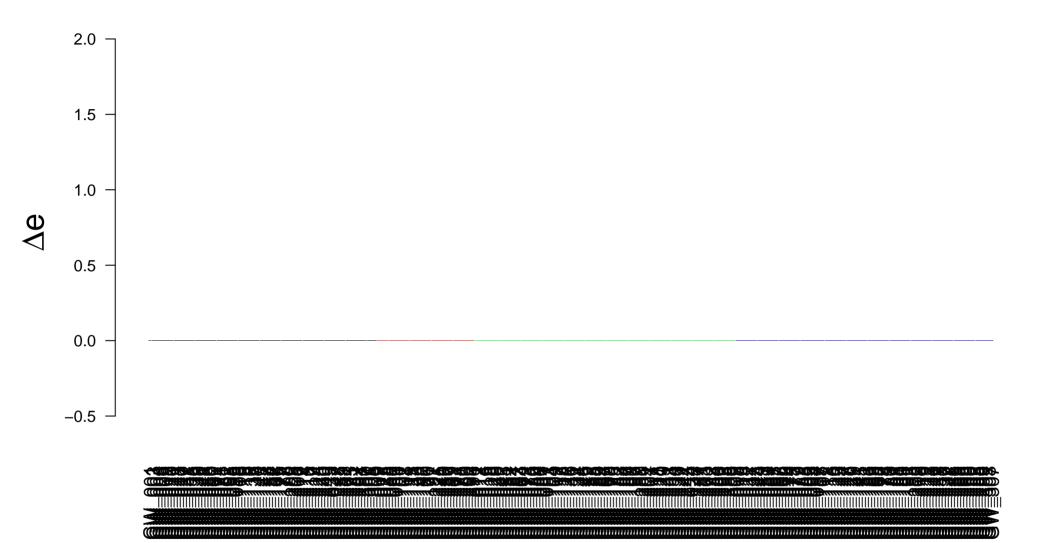

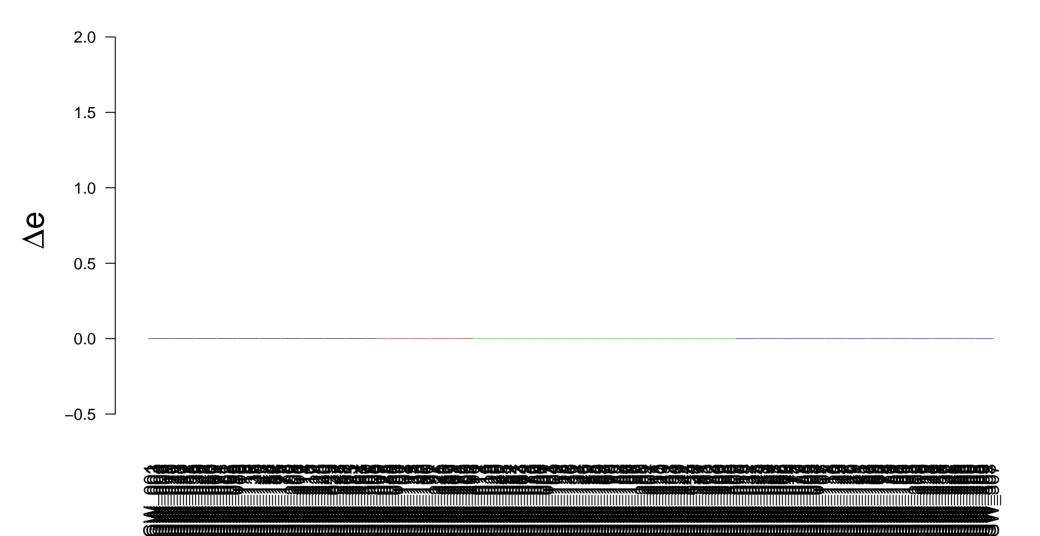

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot N

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot O

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot P

Expression of regulation of acetyl-CoA biosynthetic process from pyruvate in Spot Q
