

regulation of action potential in neuron

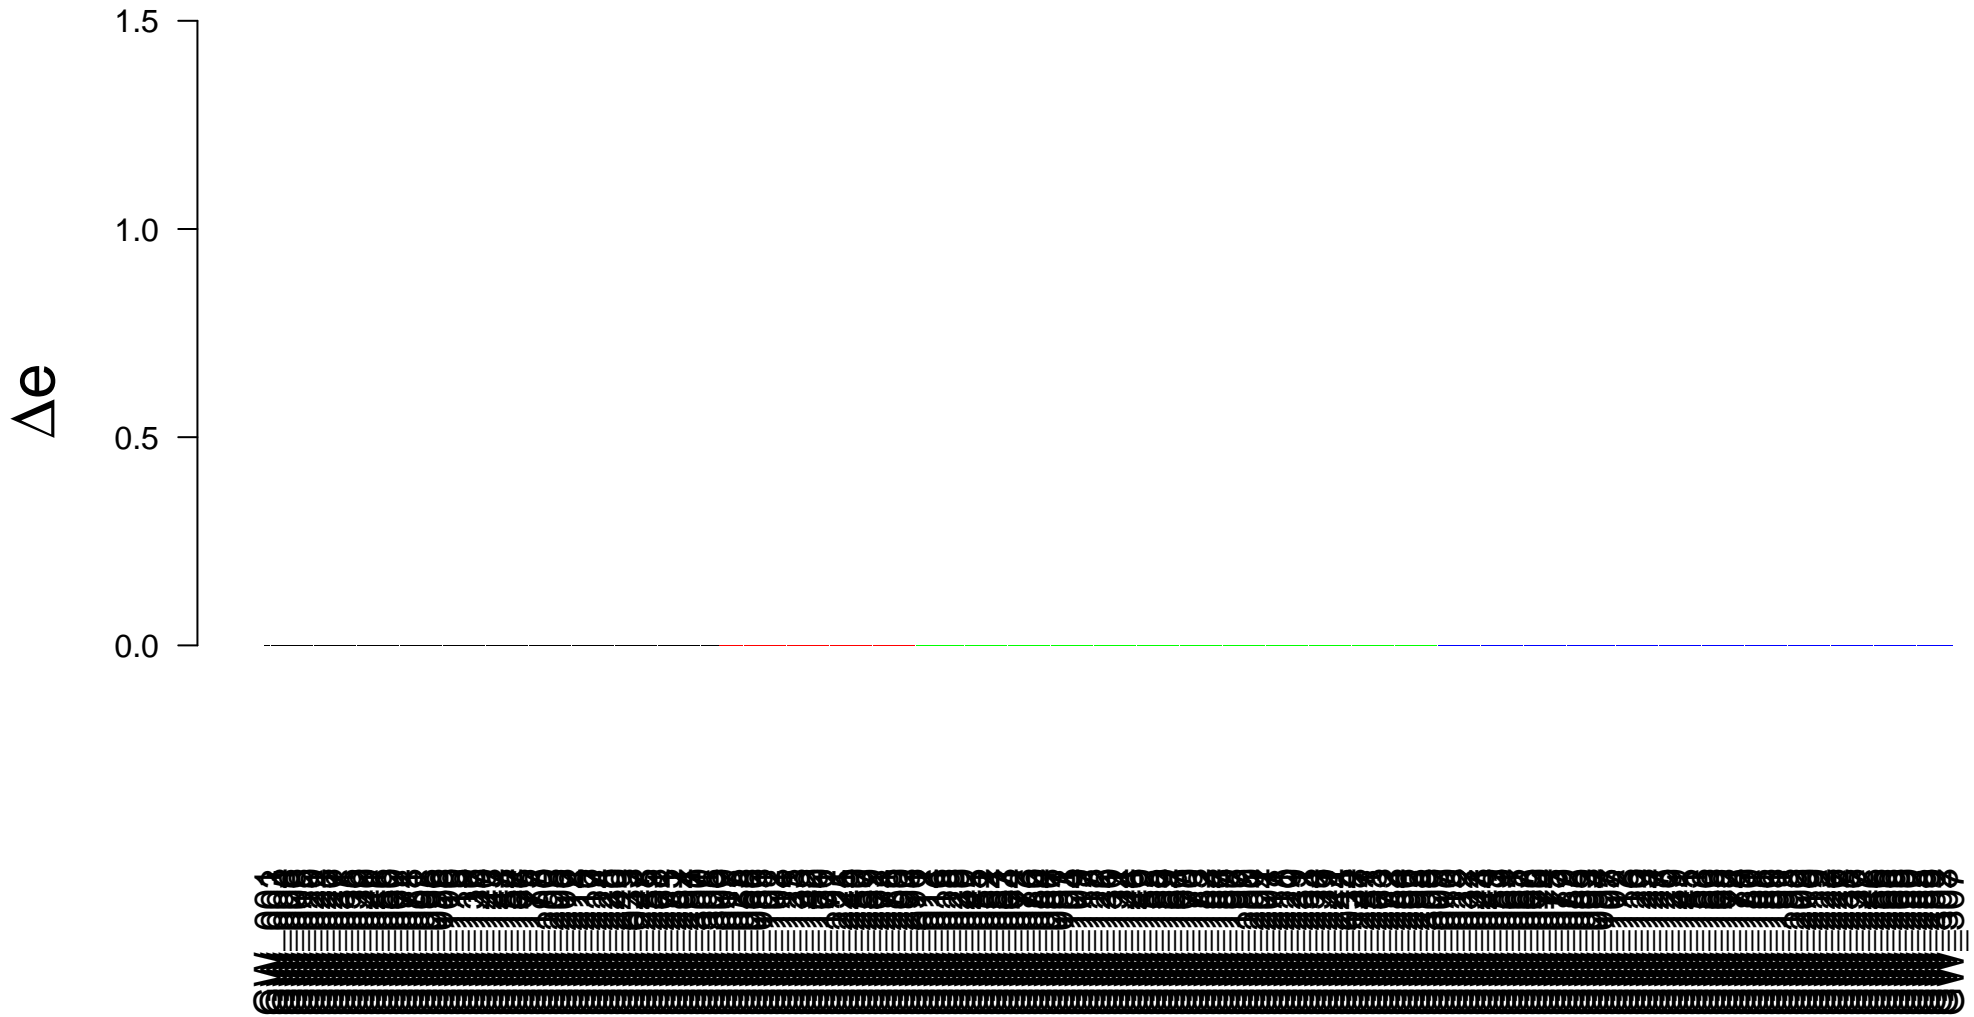

regulation of action potential in neuron

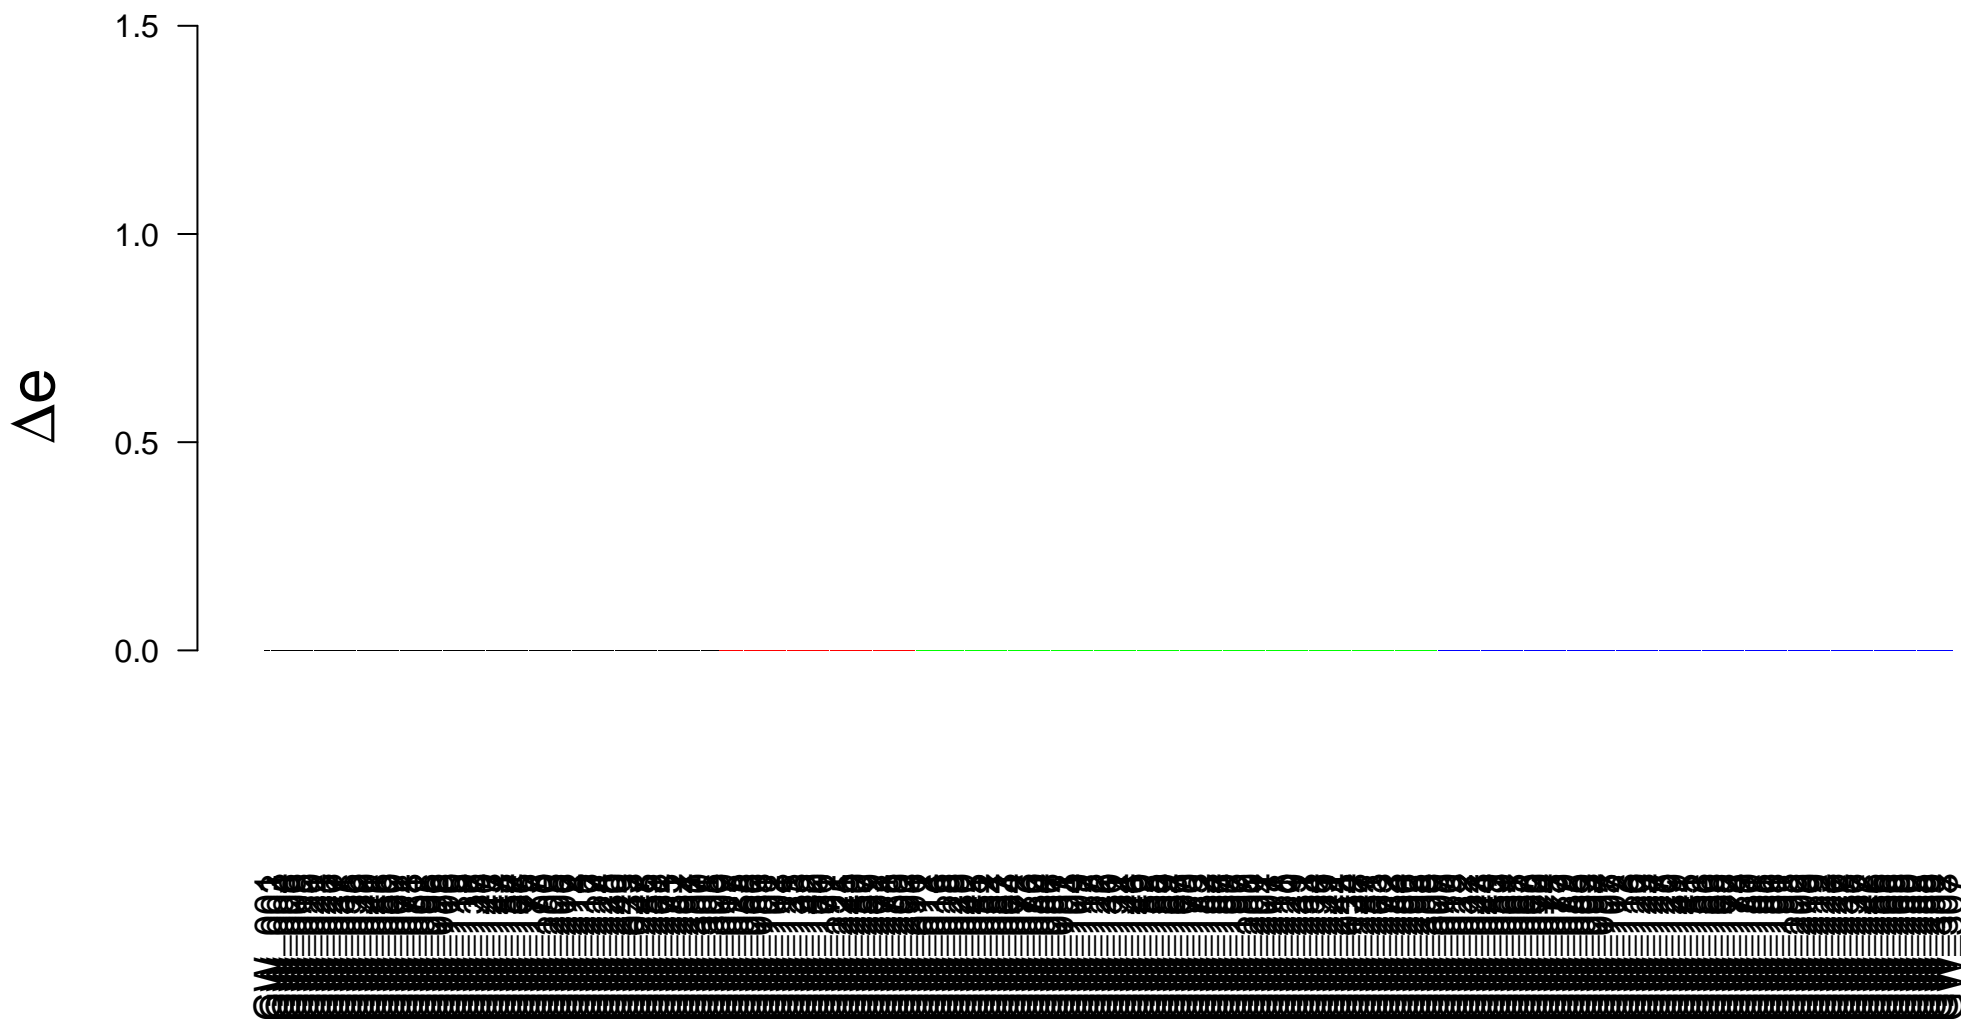

Enrichment in spots: regulation of action potential in neuron

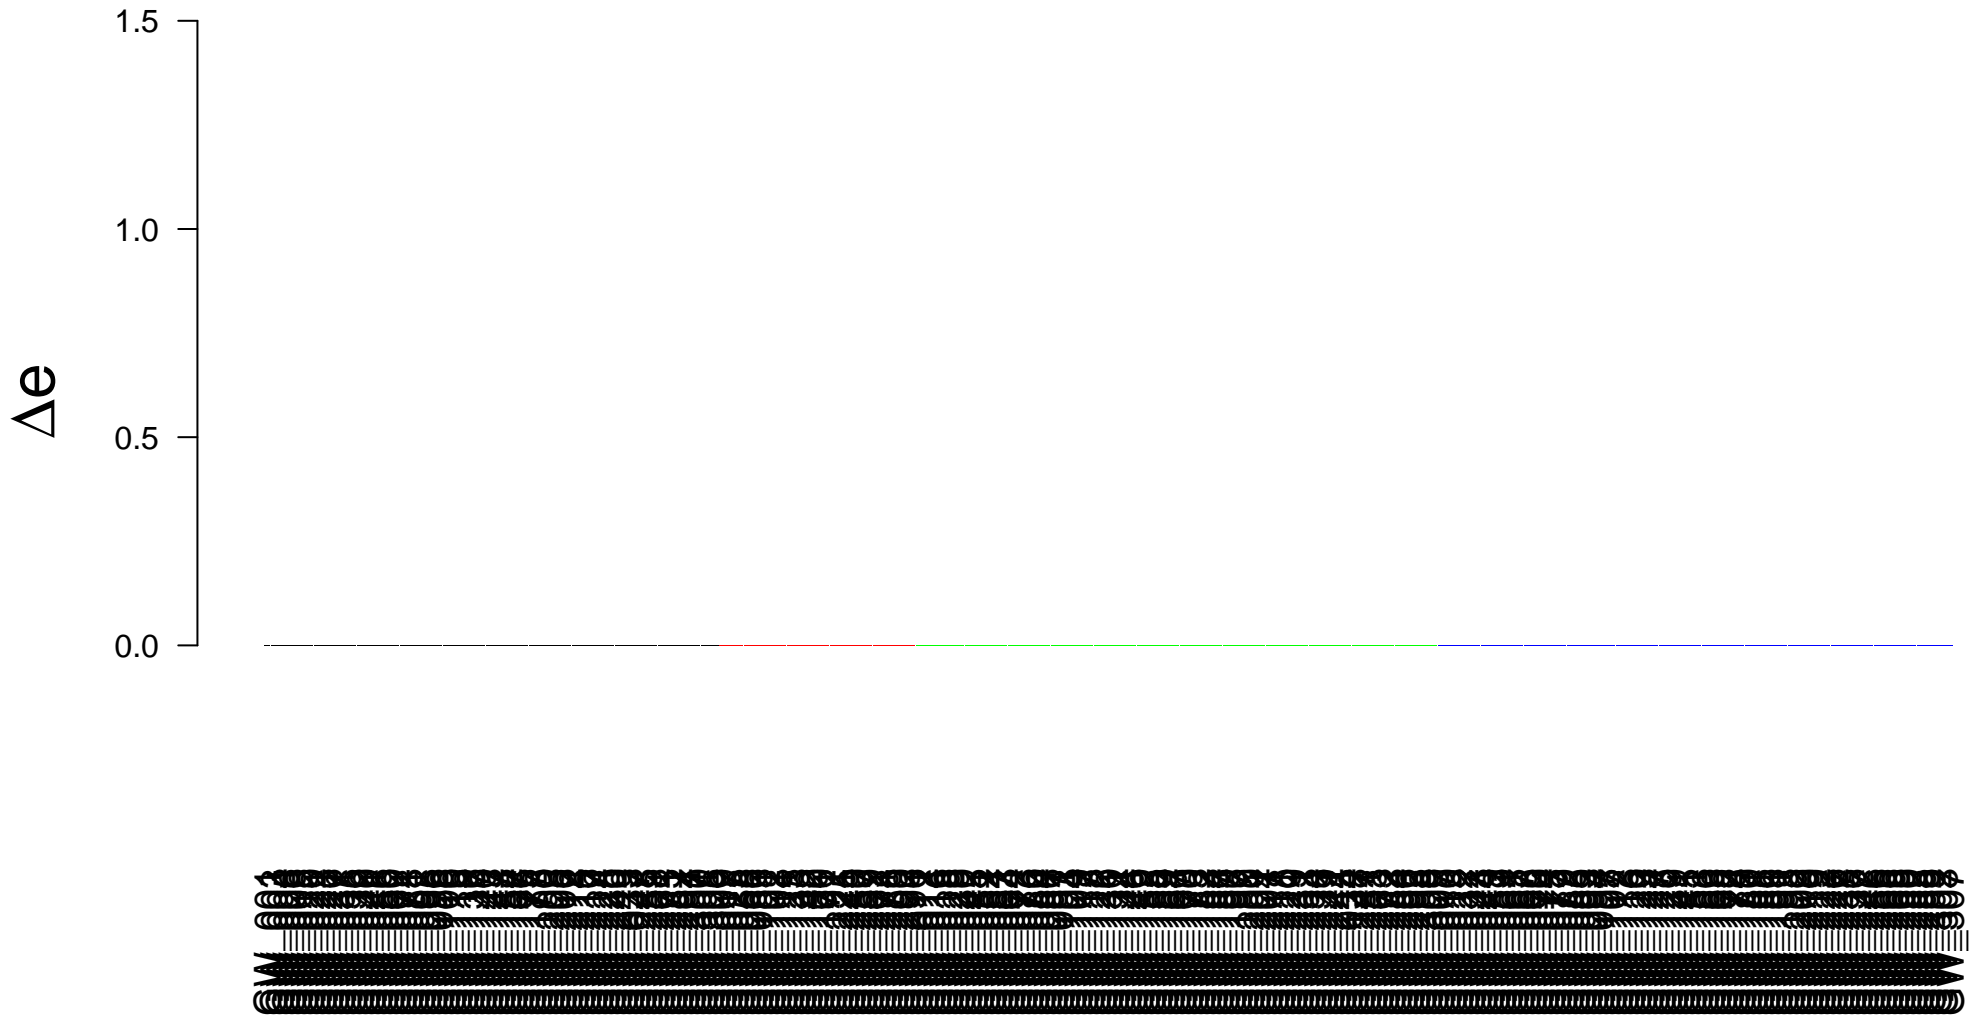

Expression of regulation of action potential in neuron in Spot A

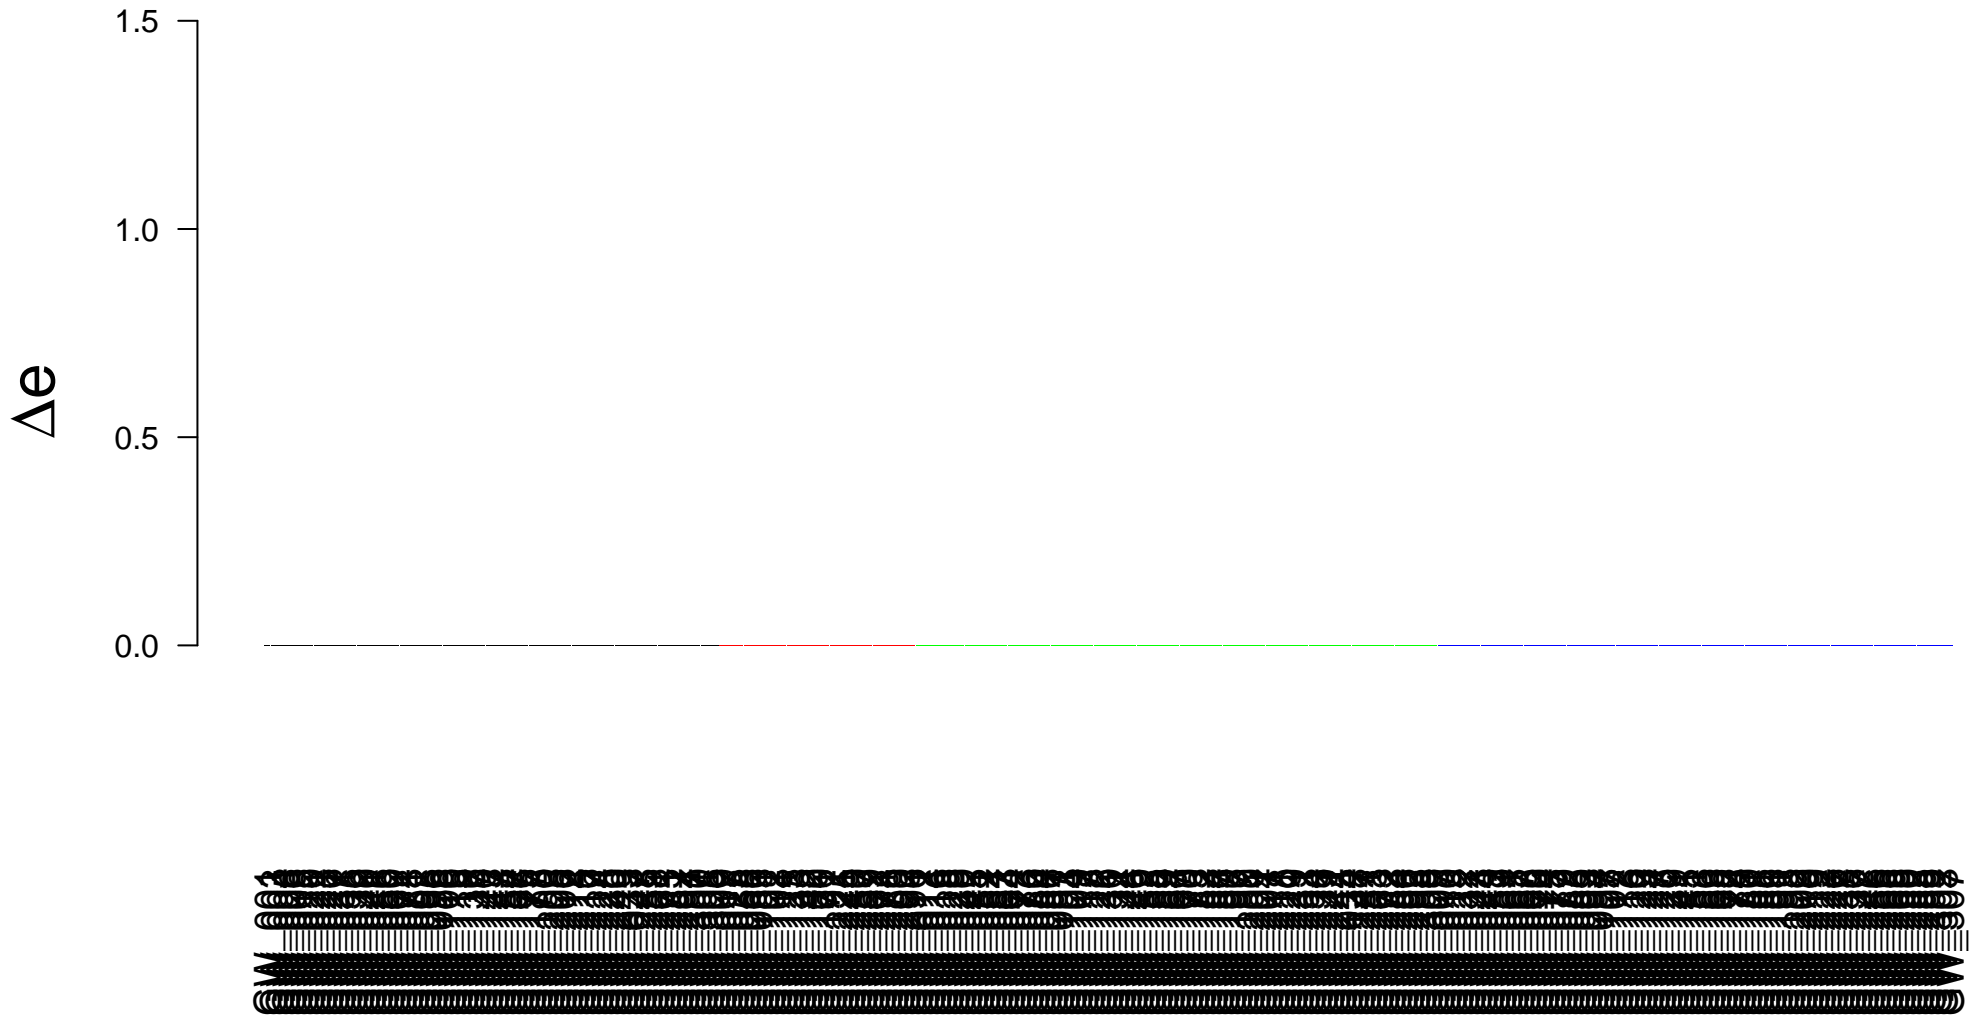

Expression of regulation of action potential in neuron in Spot B

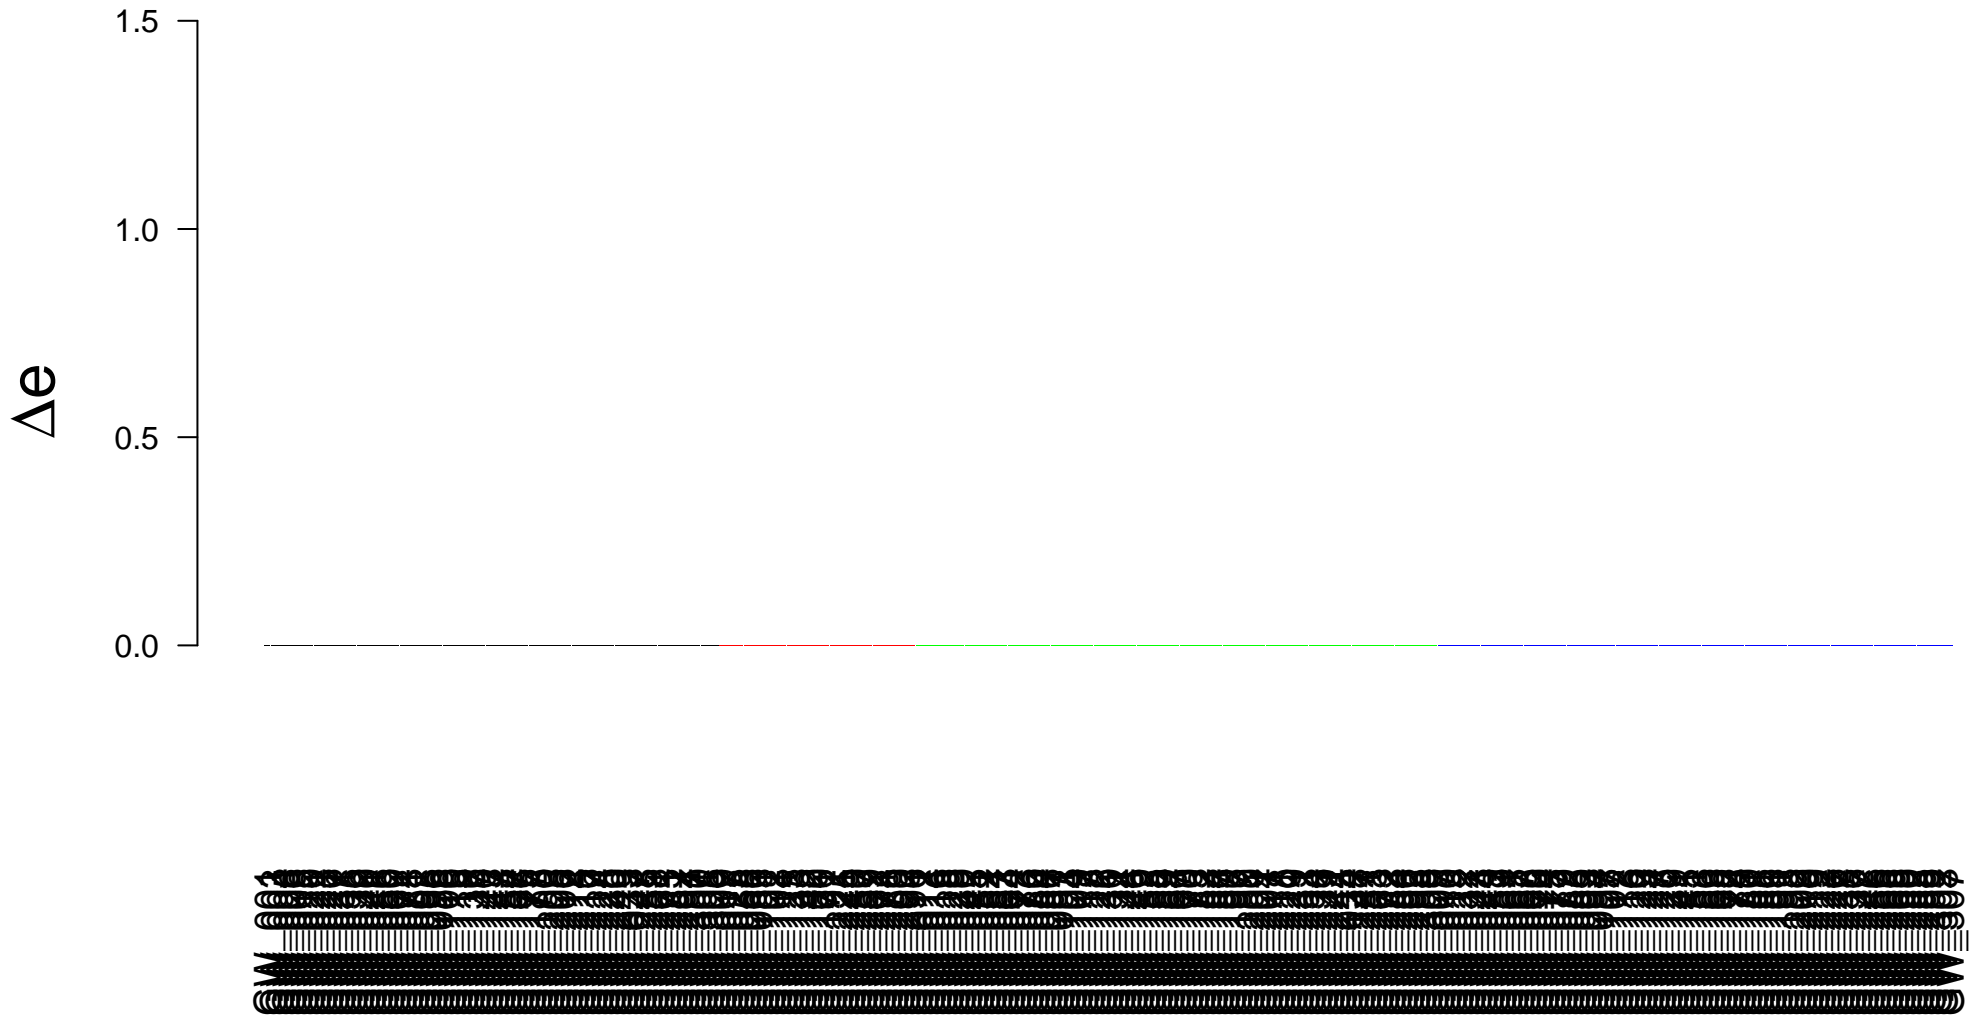

Expression of regulation of action potential in neuron in Spot C

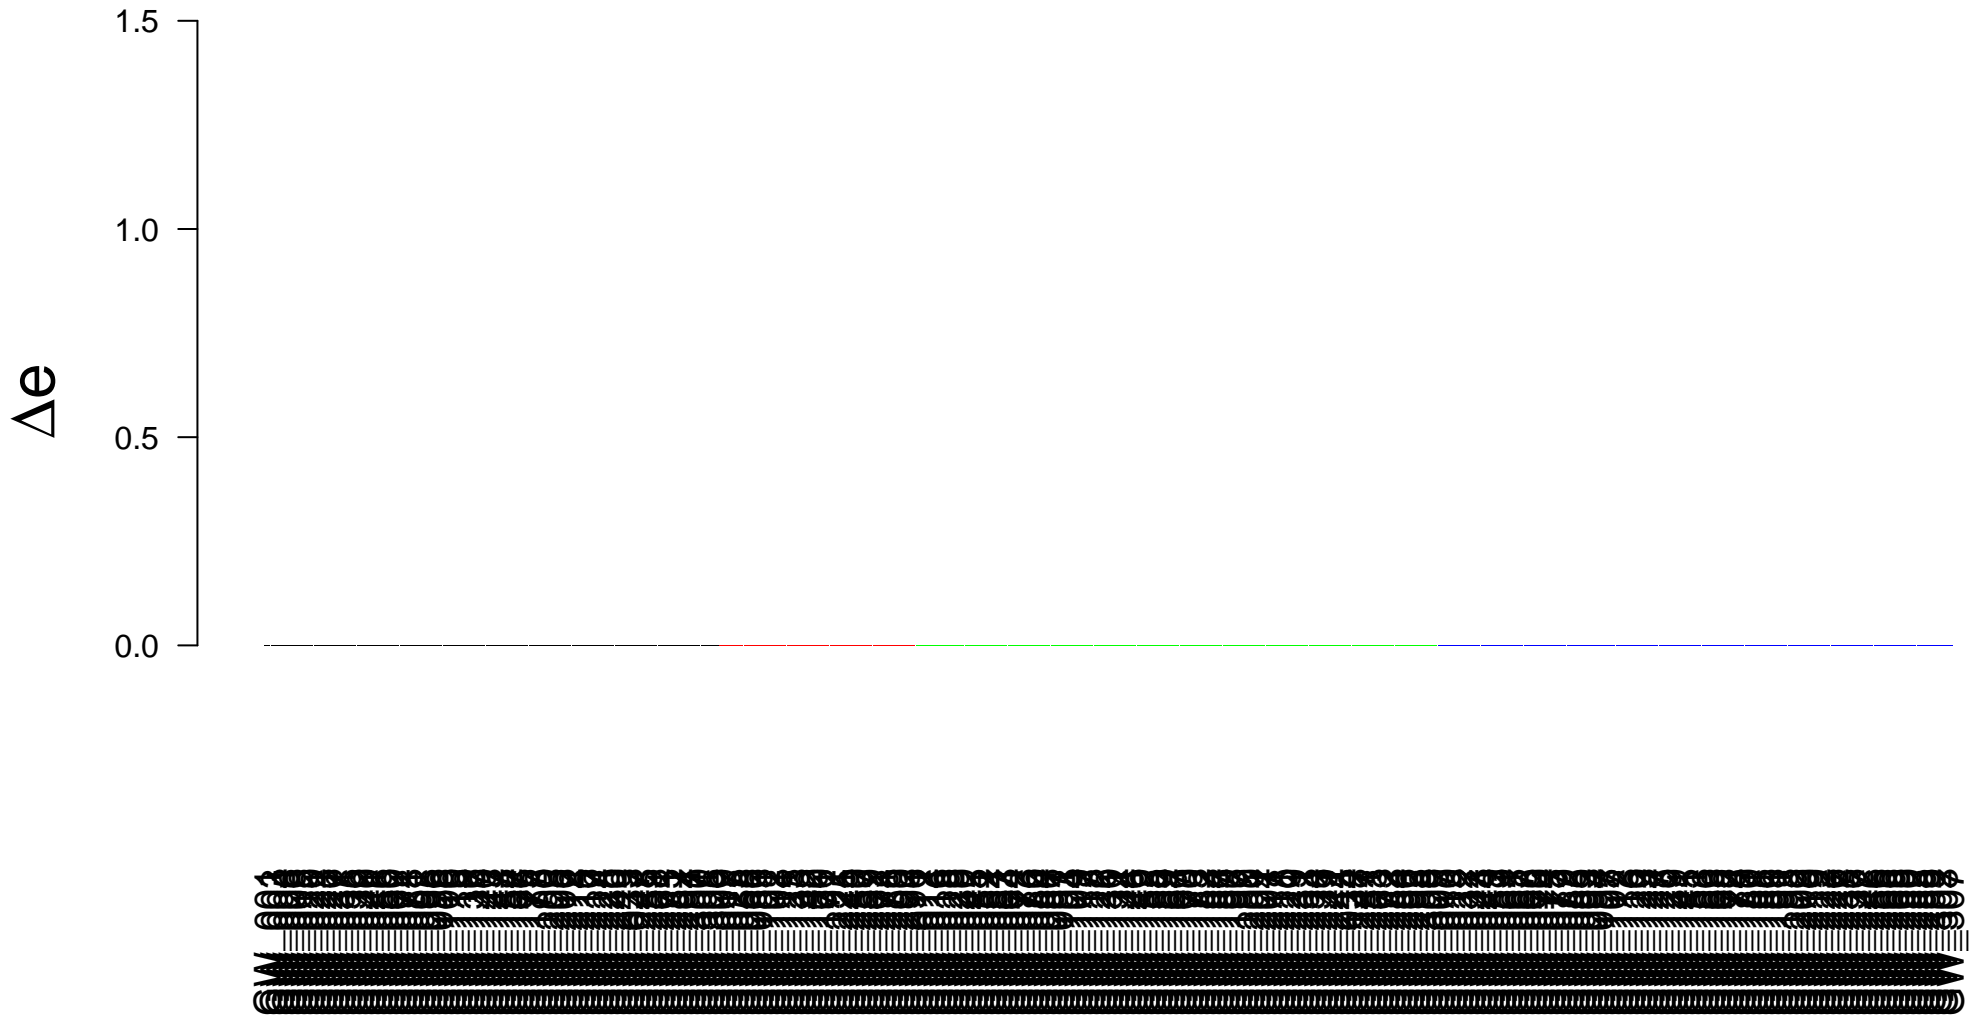

Expression of regulation of action potential in neuron in Spot D

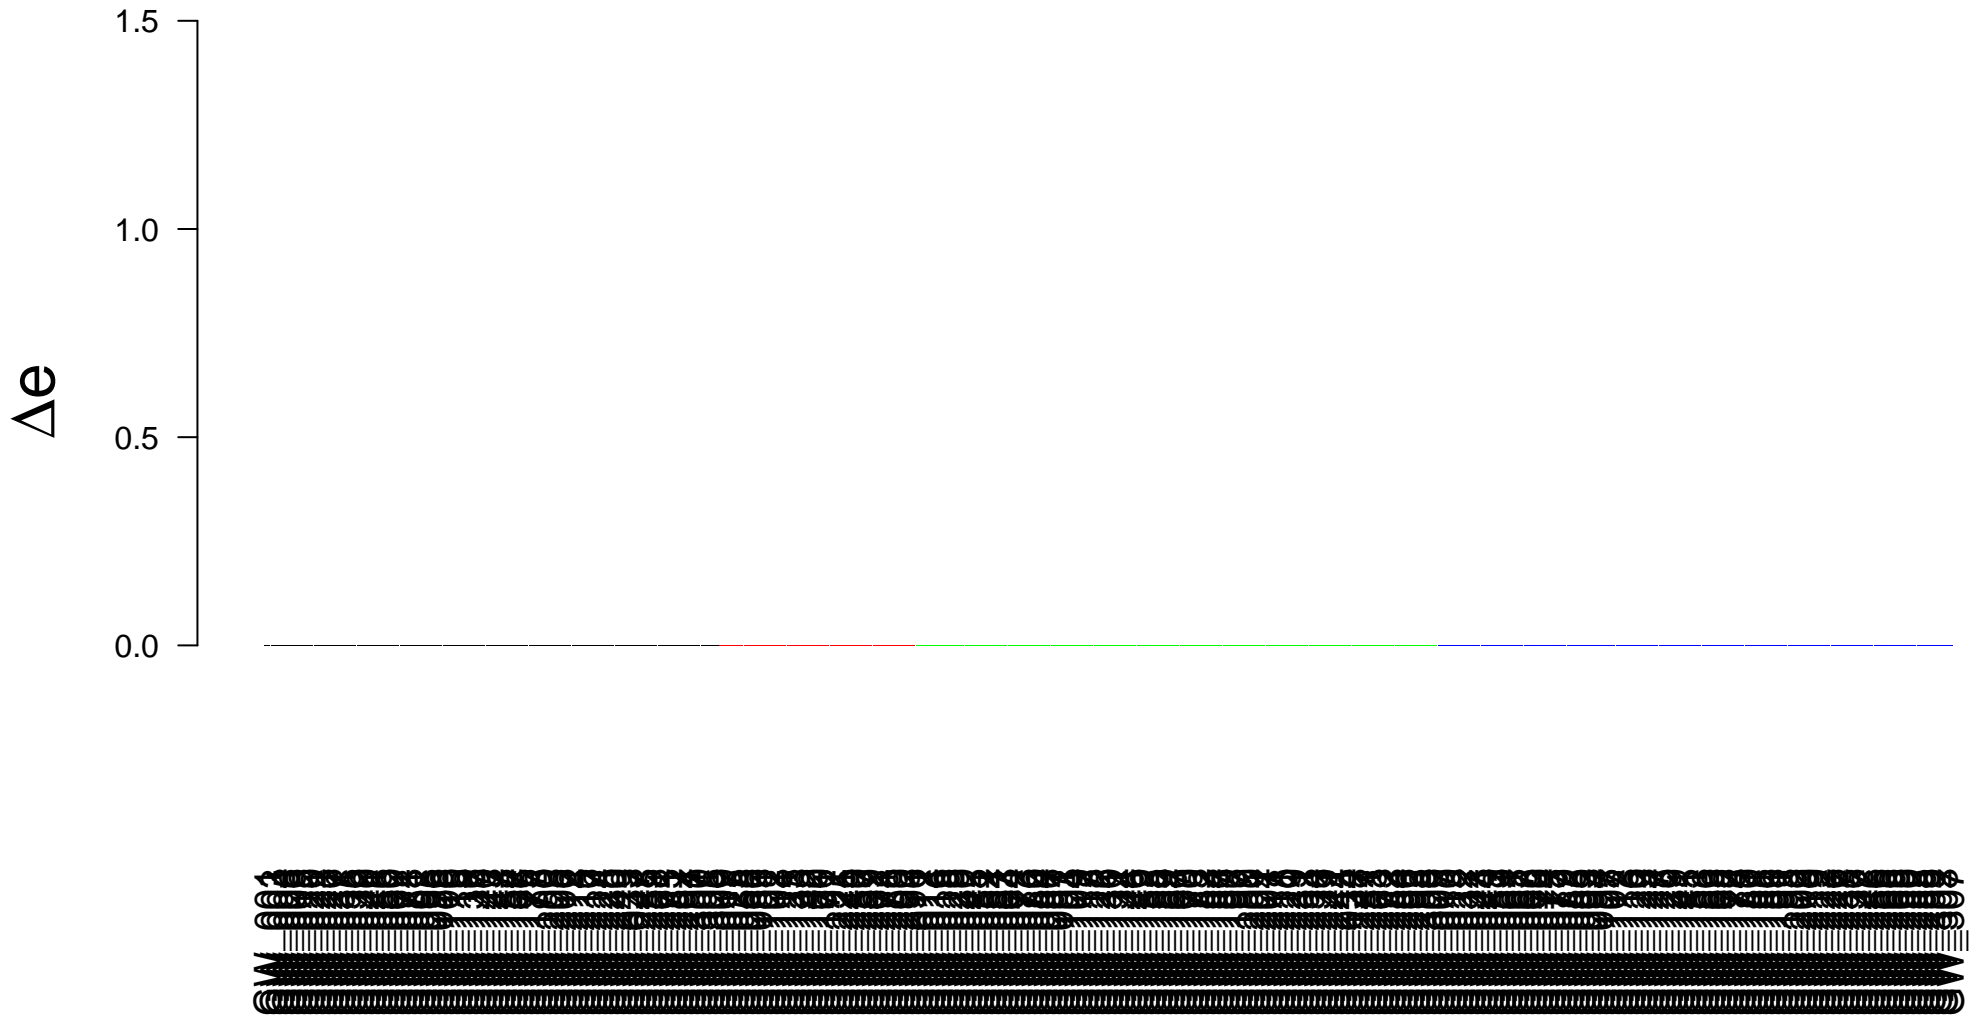

Expression of regulation of action potential in neuron in Spot E

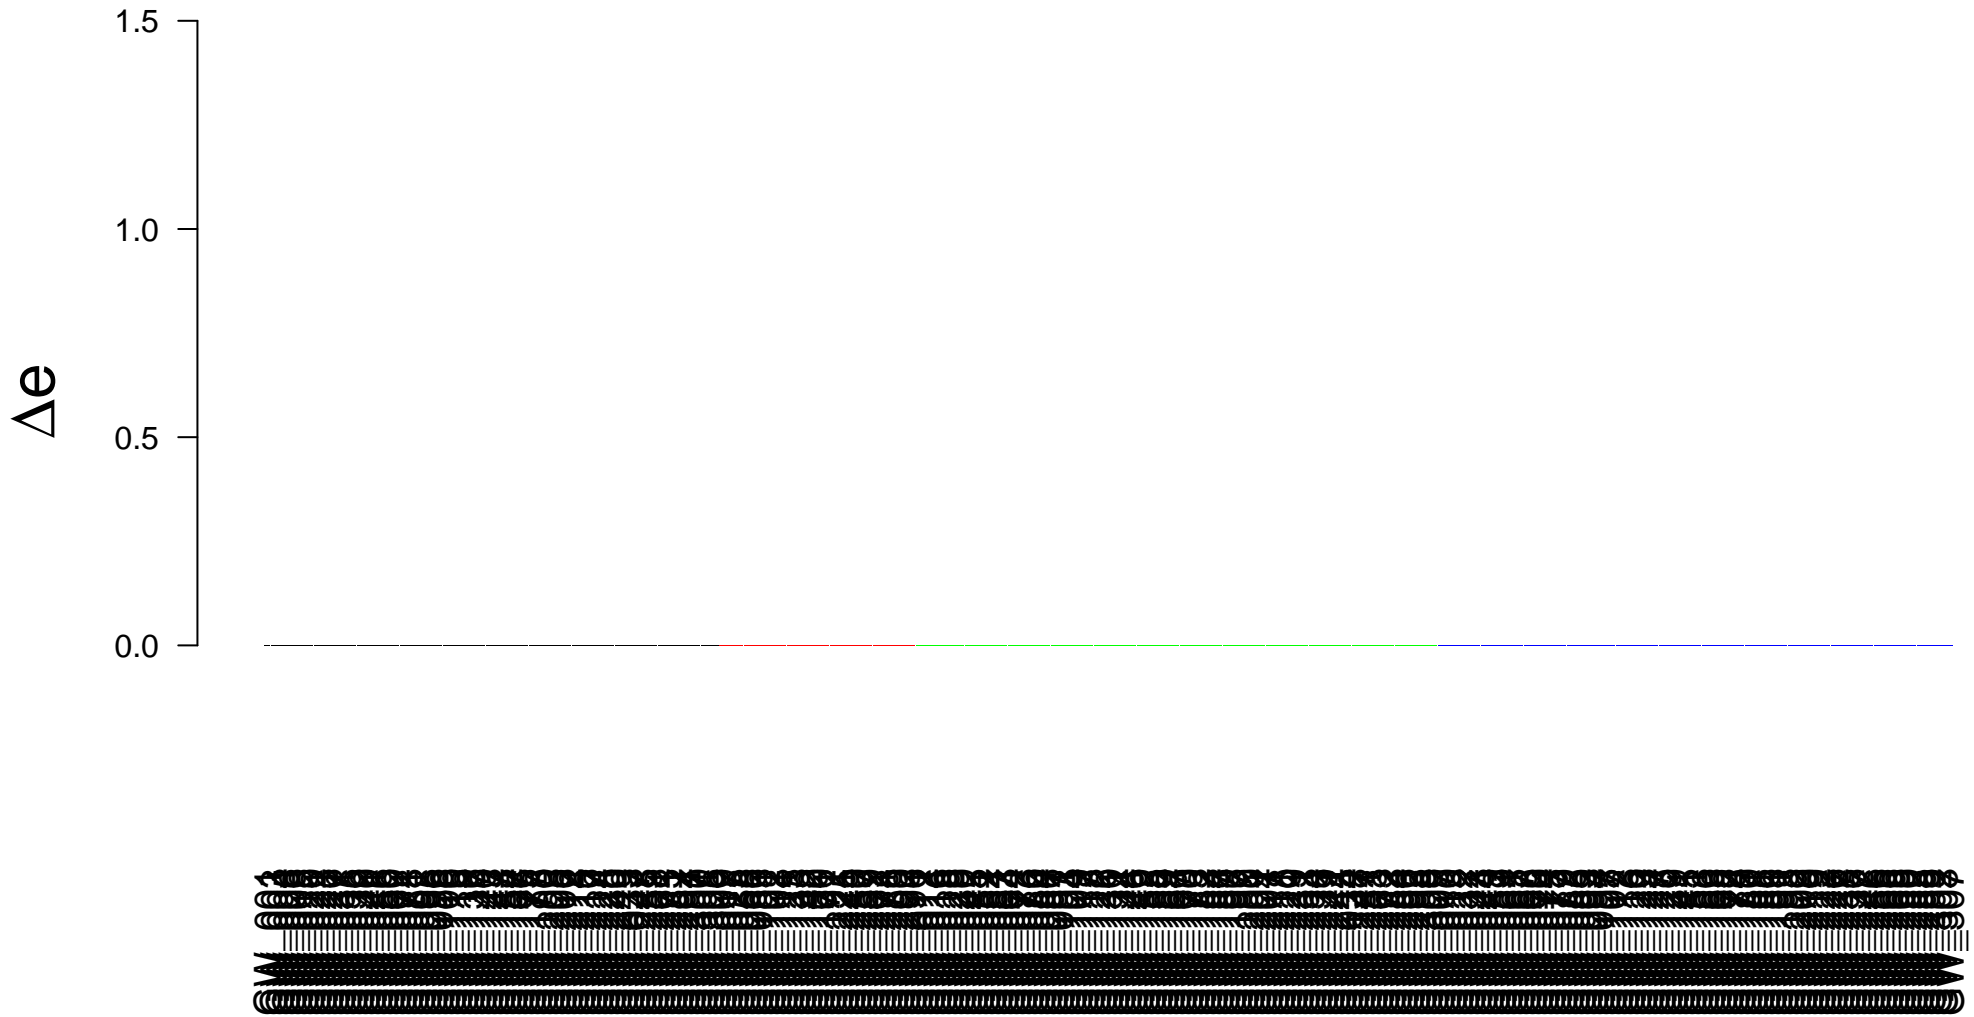

Expression of regulation of action potential in neuron in Spot F

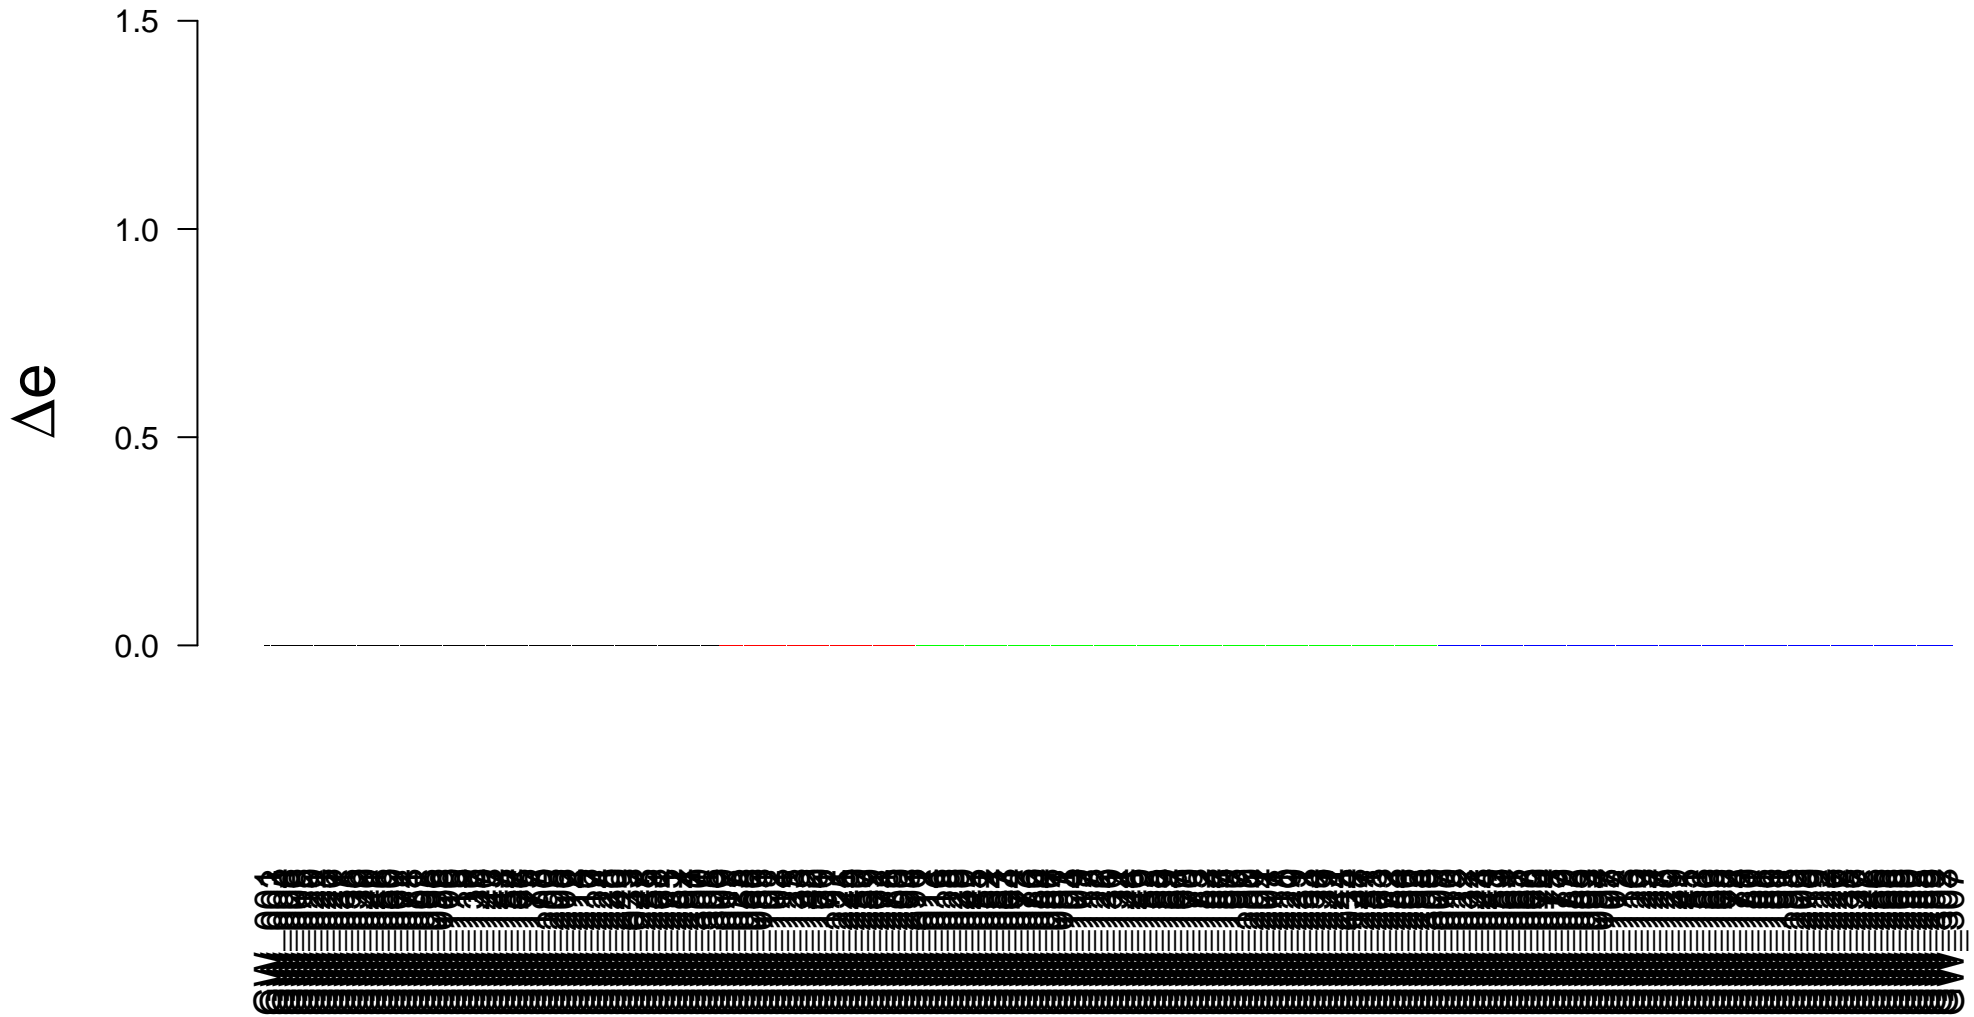

Expression of regulation of action potential in neuron in Spot G

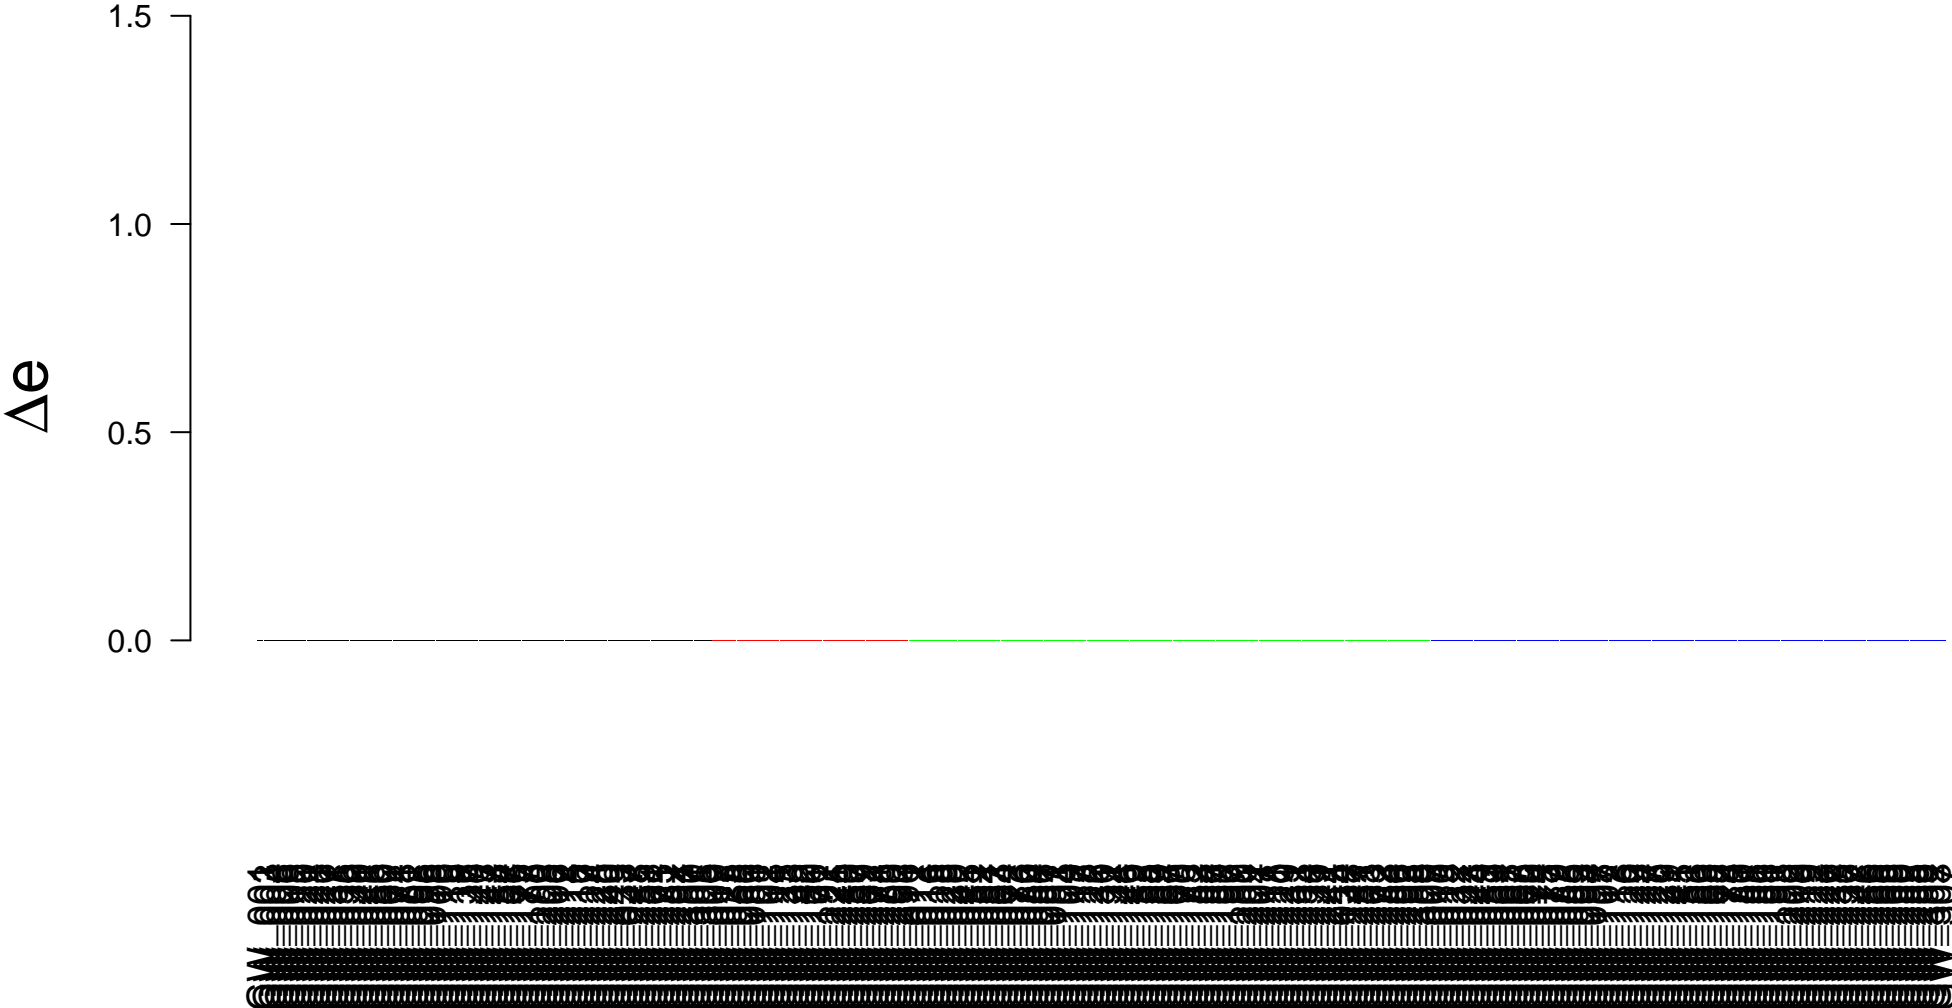

Expression of regulation of action potential in neuron in Spot H

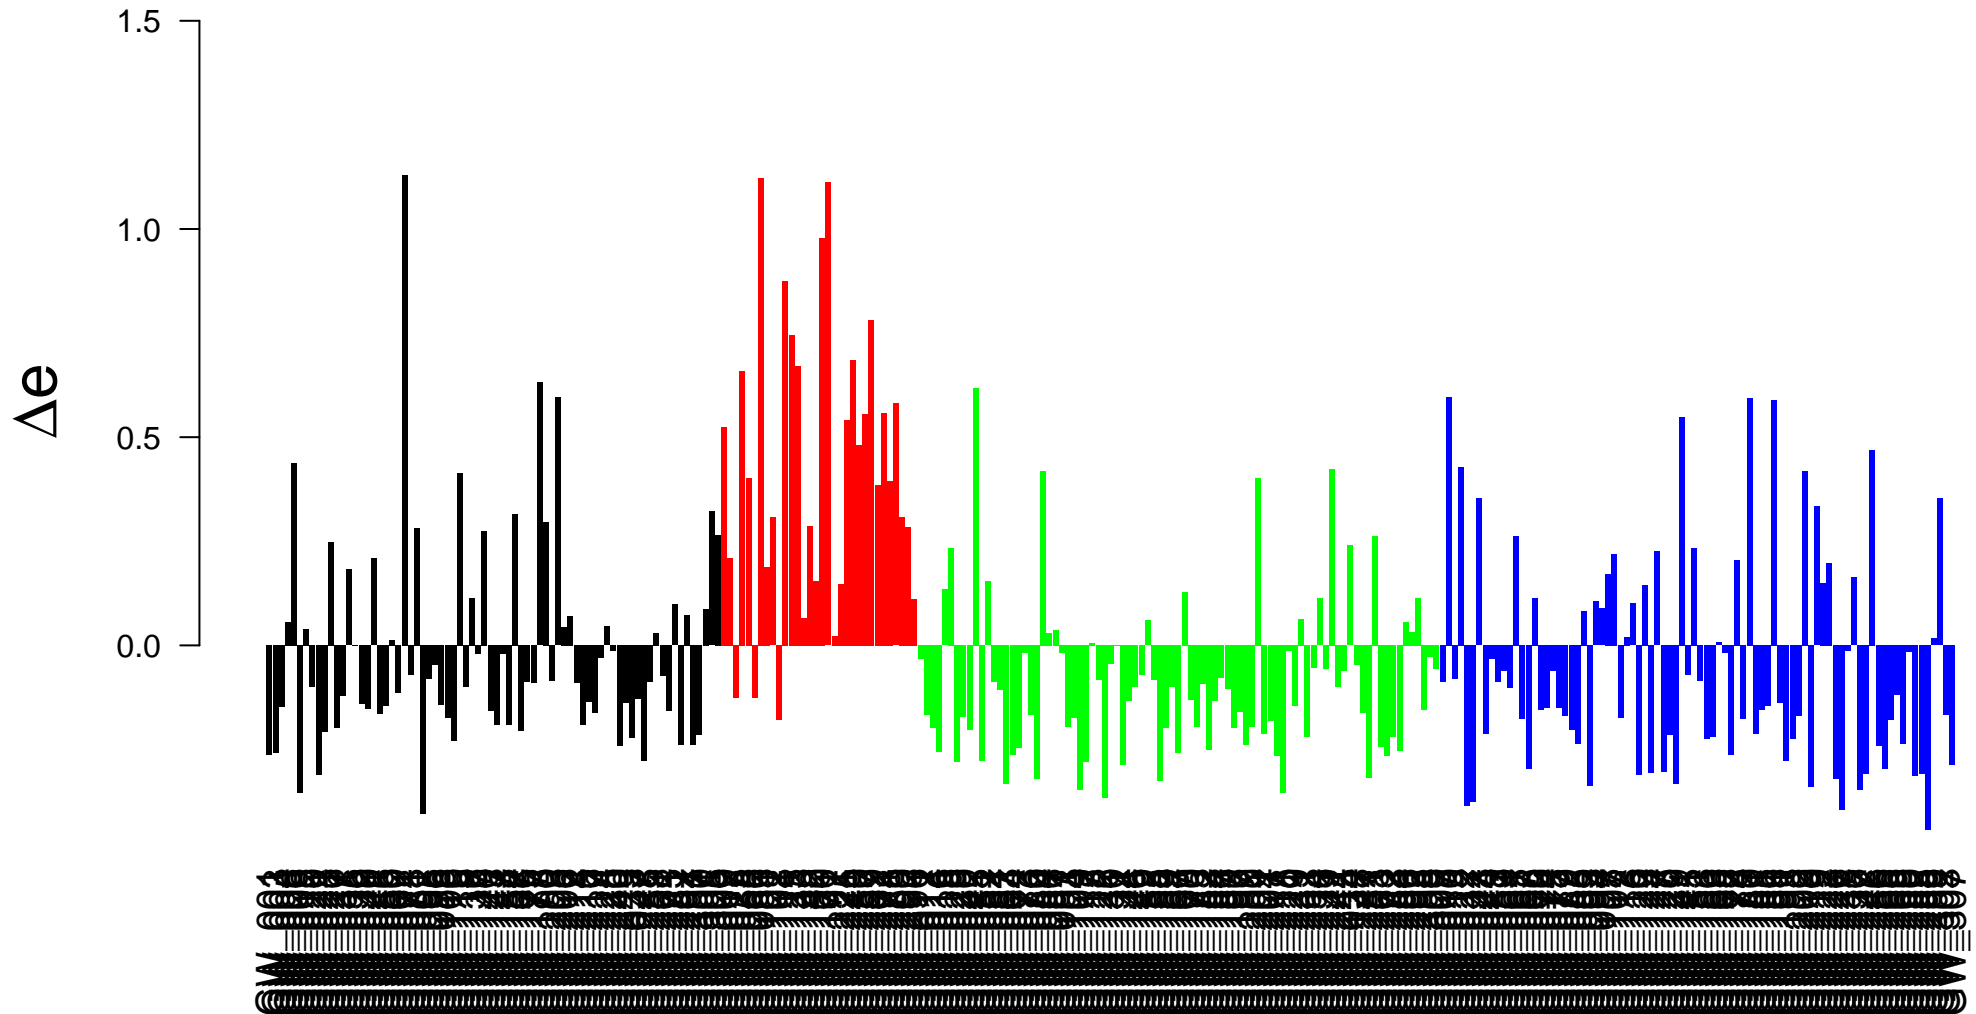

Expression of regulation of action potential in neuron in Spot I

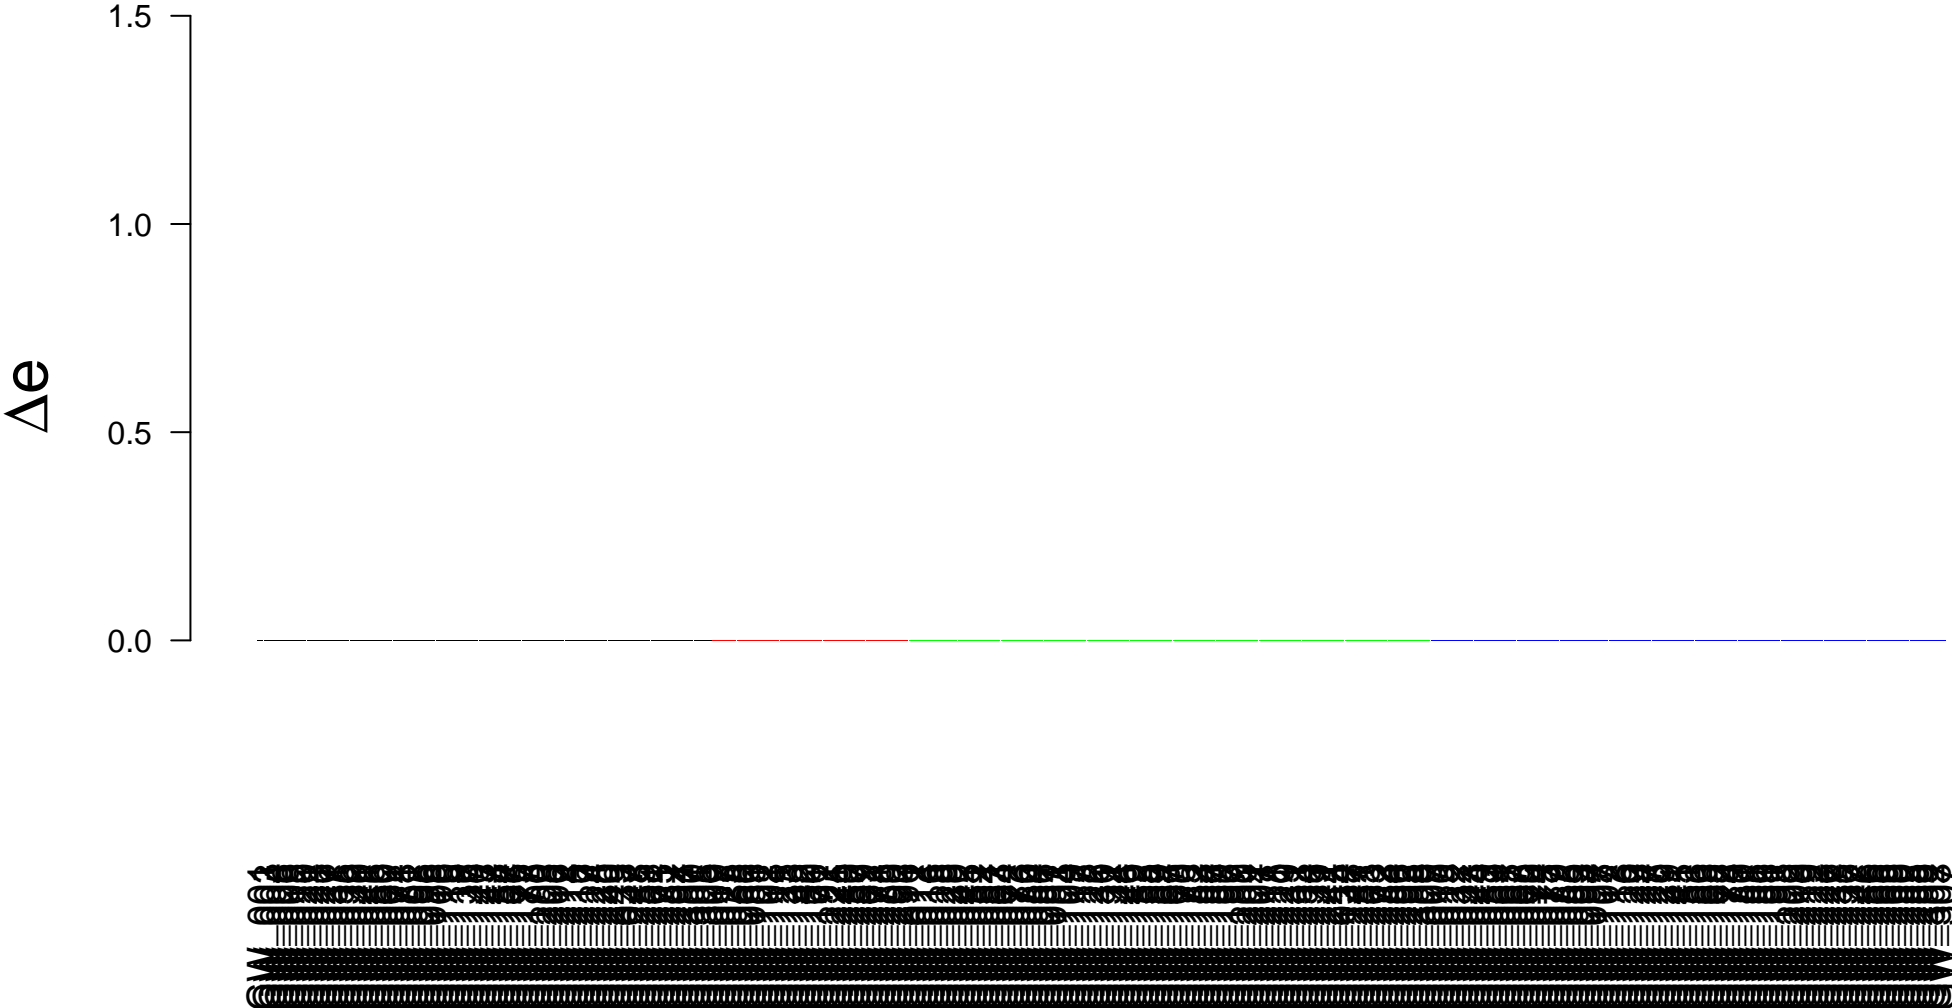

Expression of regulation of action potential in neuron in Spot J

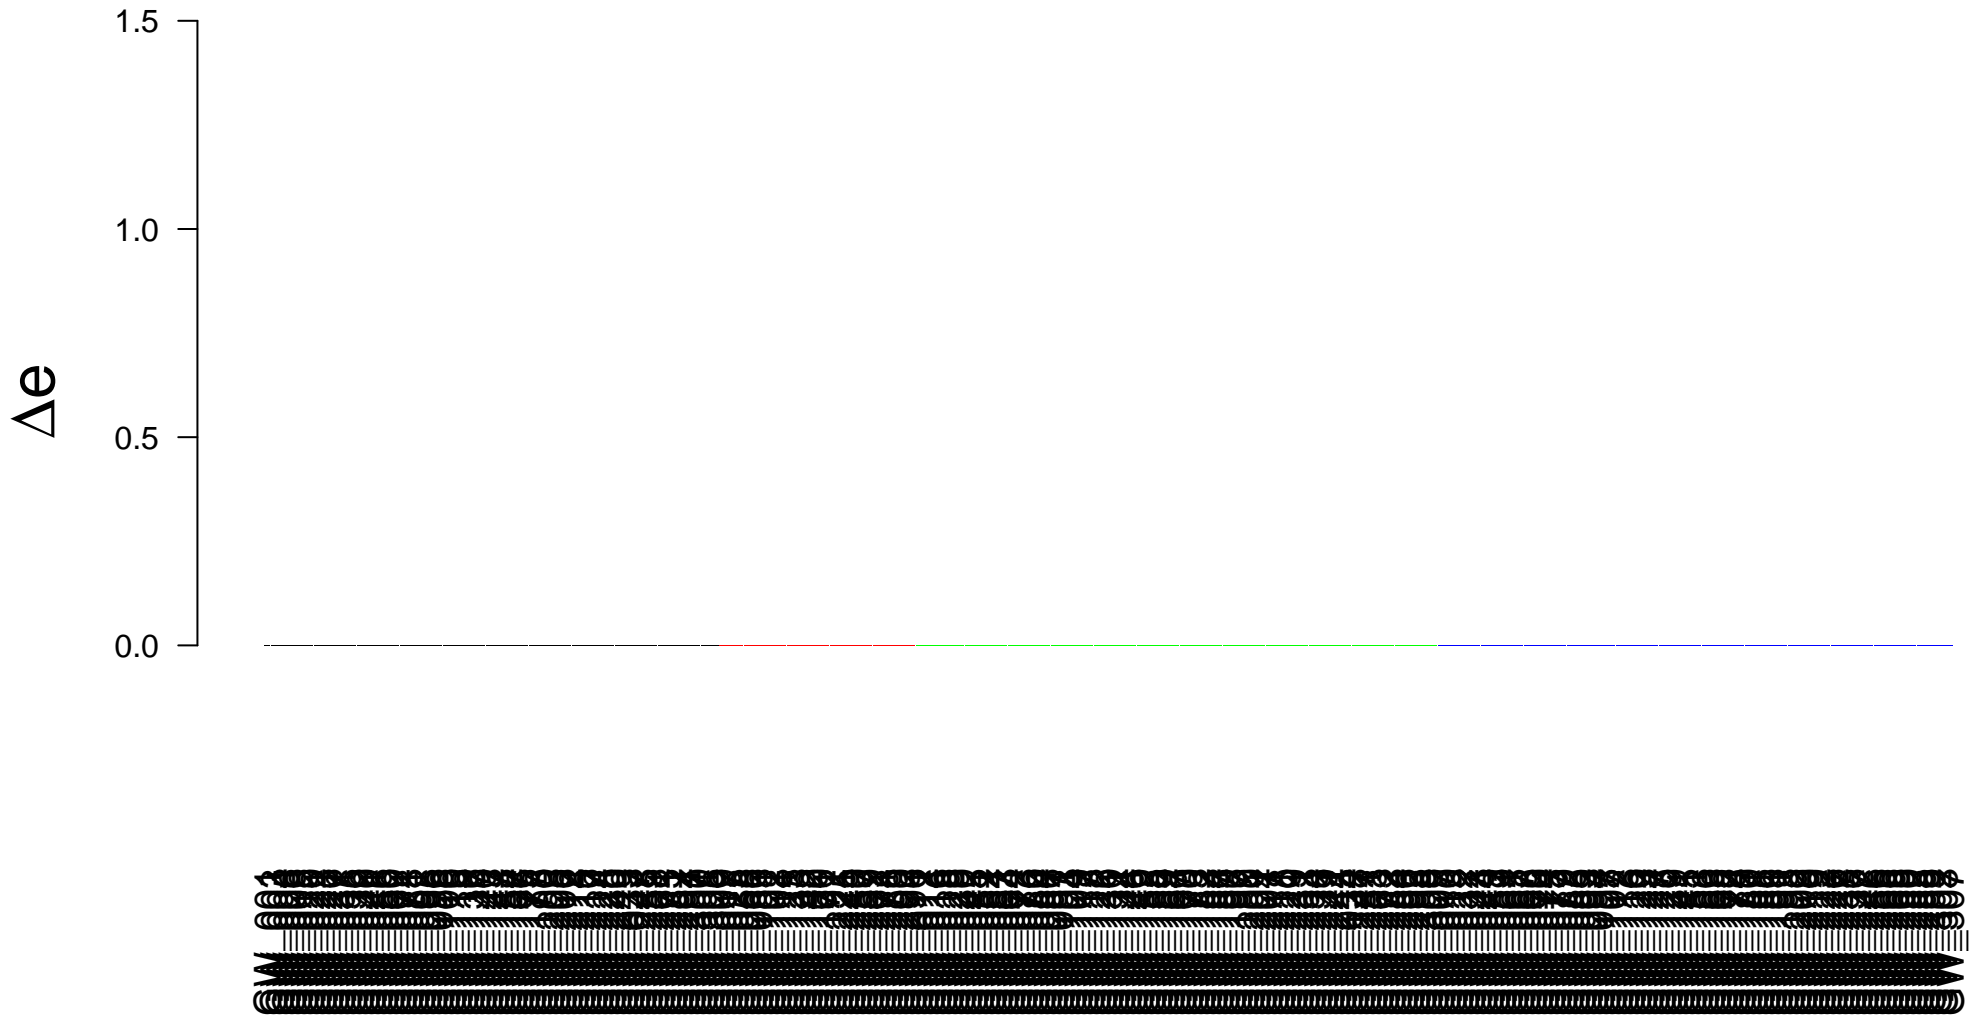

Expression of regulation of action potential in neuron in Spot K

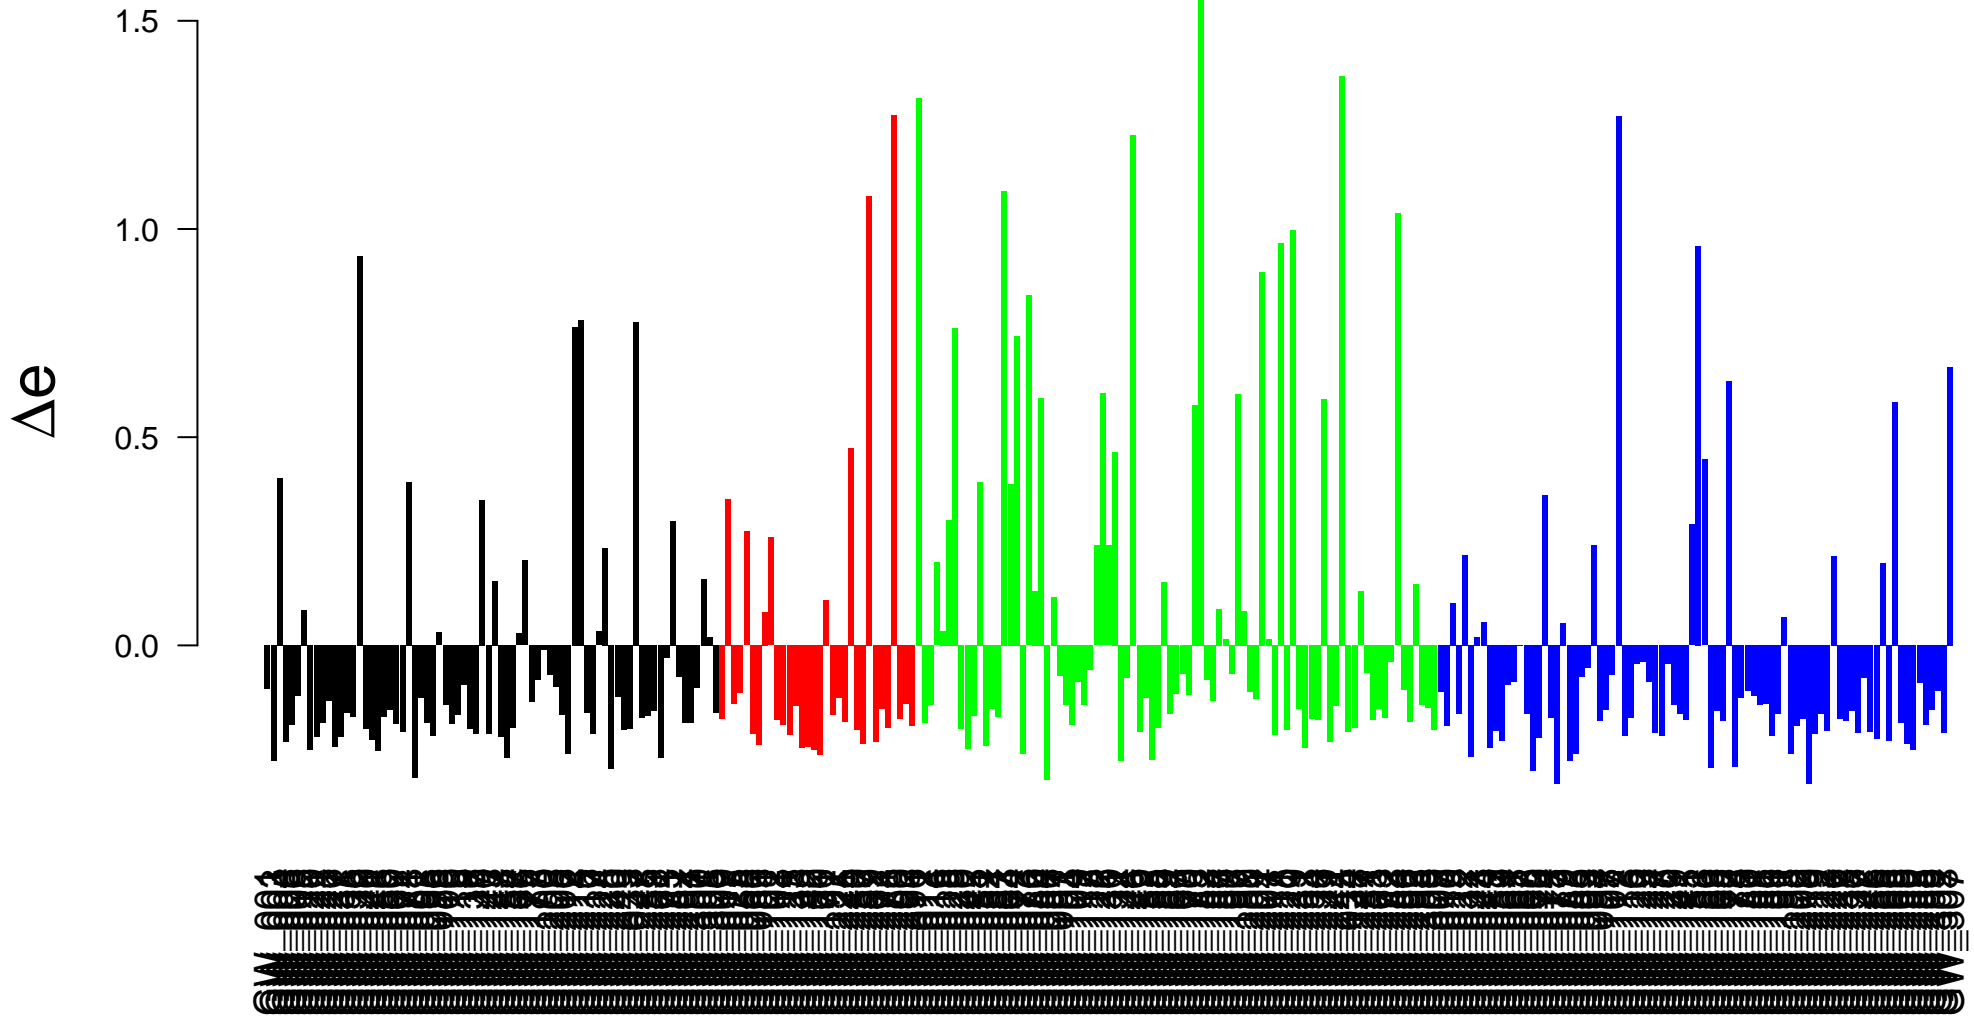

Expression of regulation of action potential in neuron in Spot L

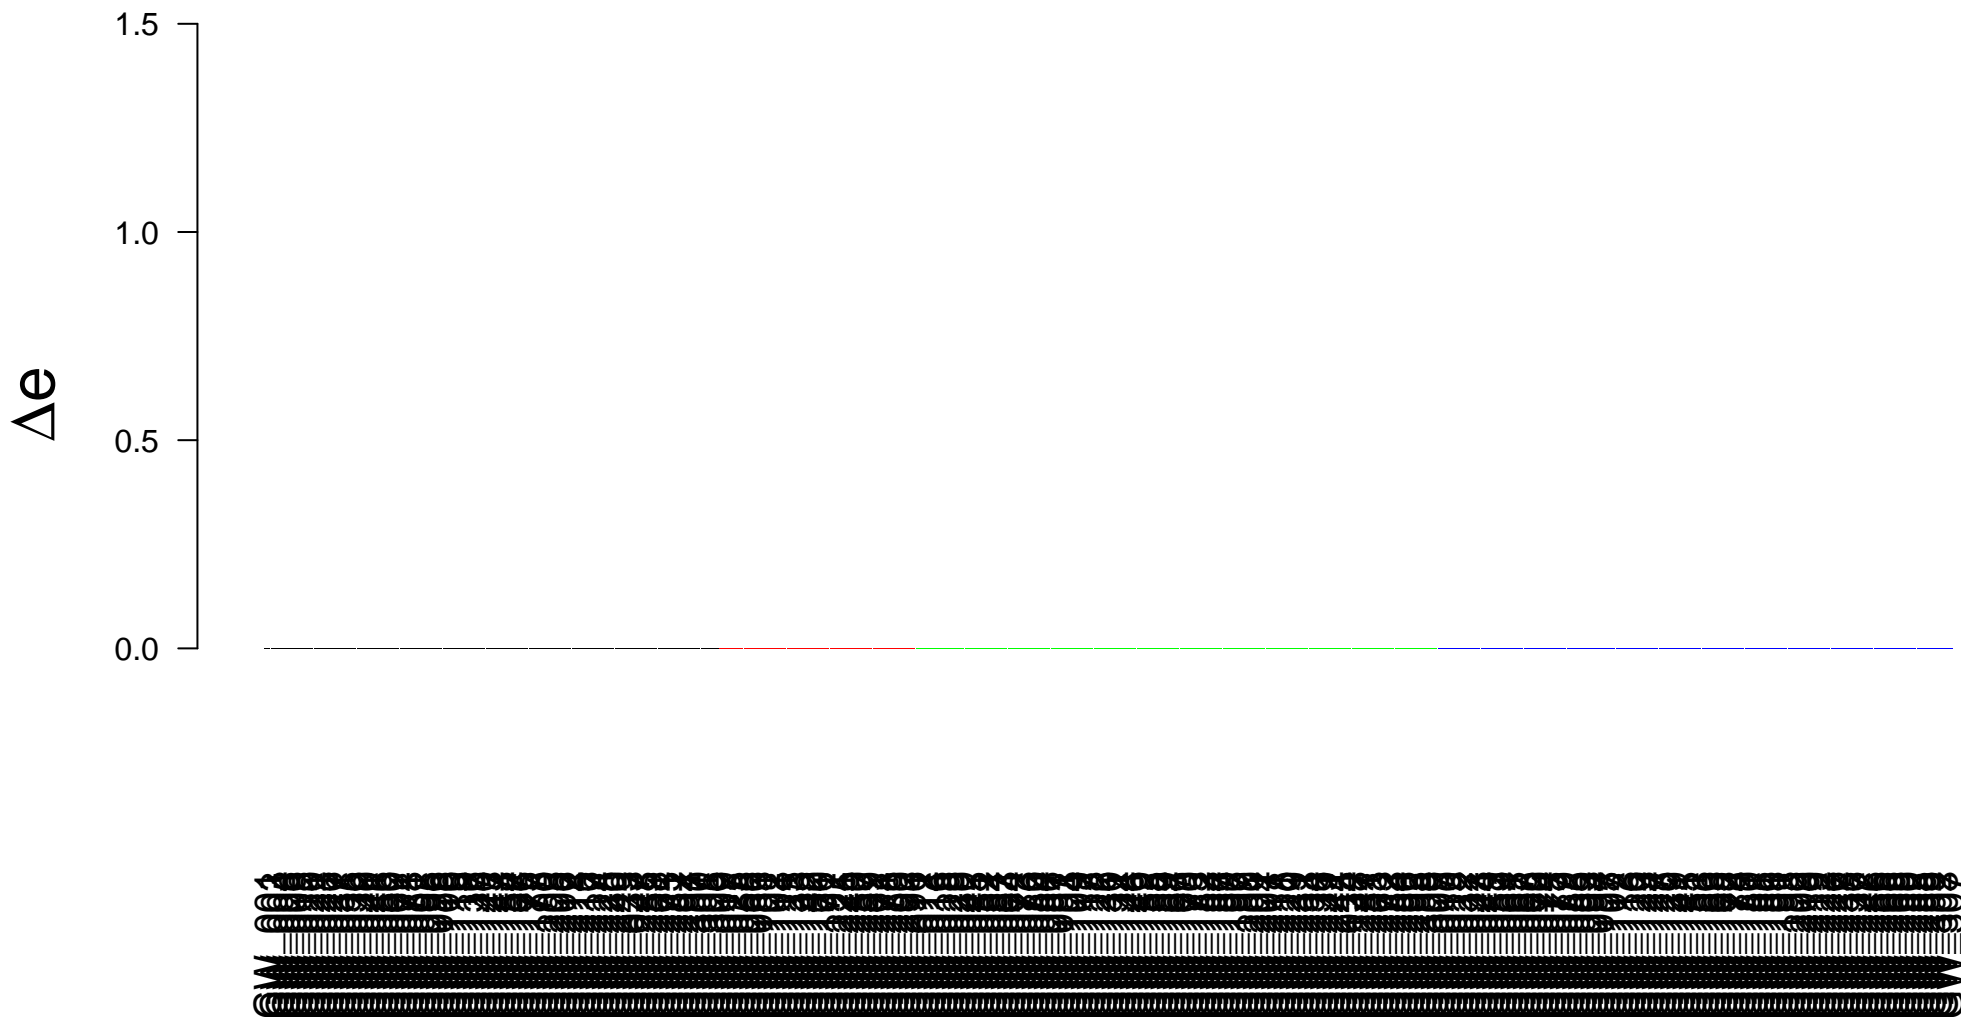

Expression of regulation of action potential in neuron in Spot M

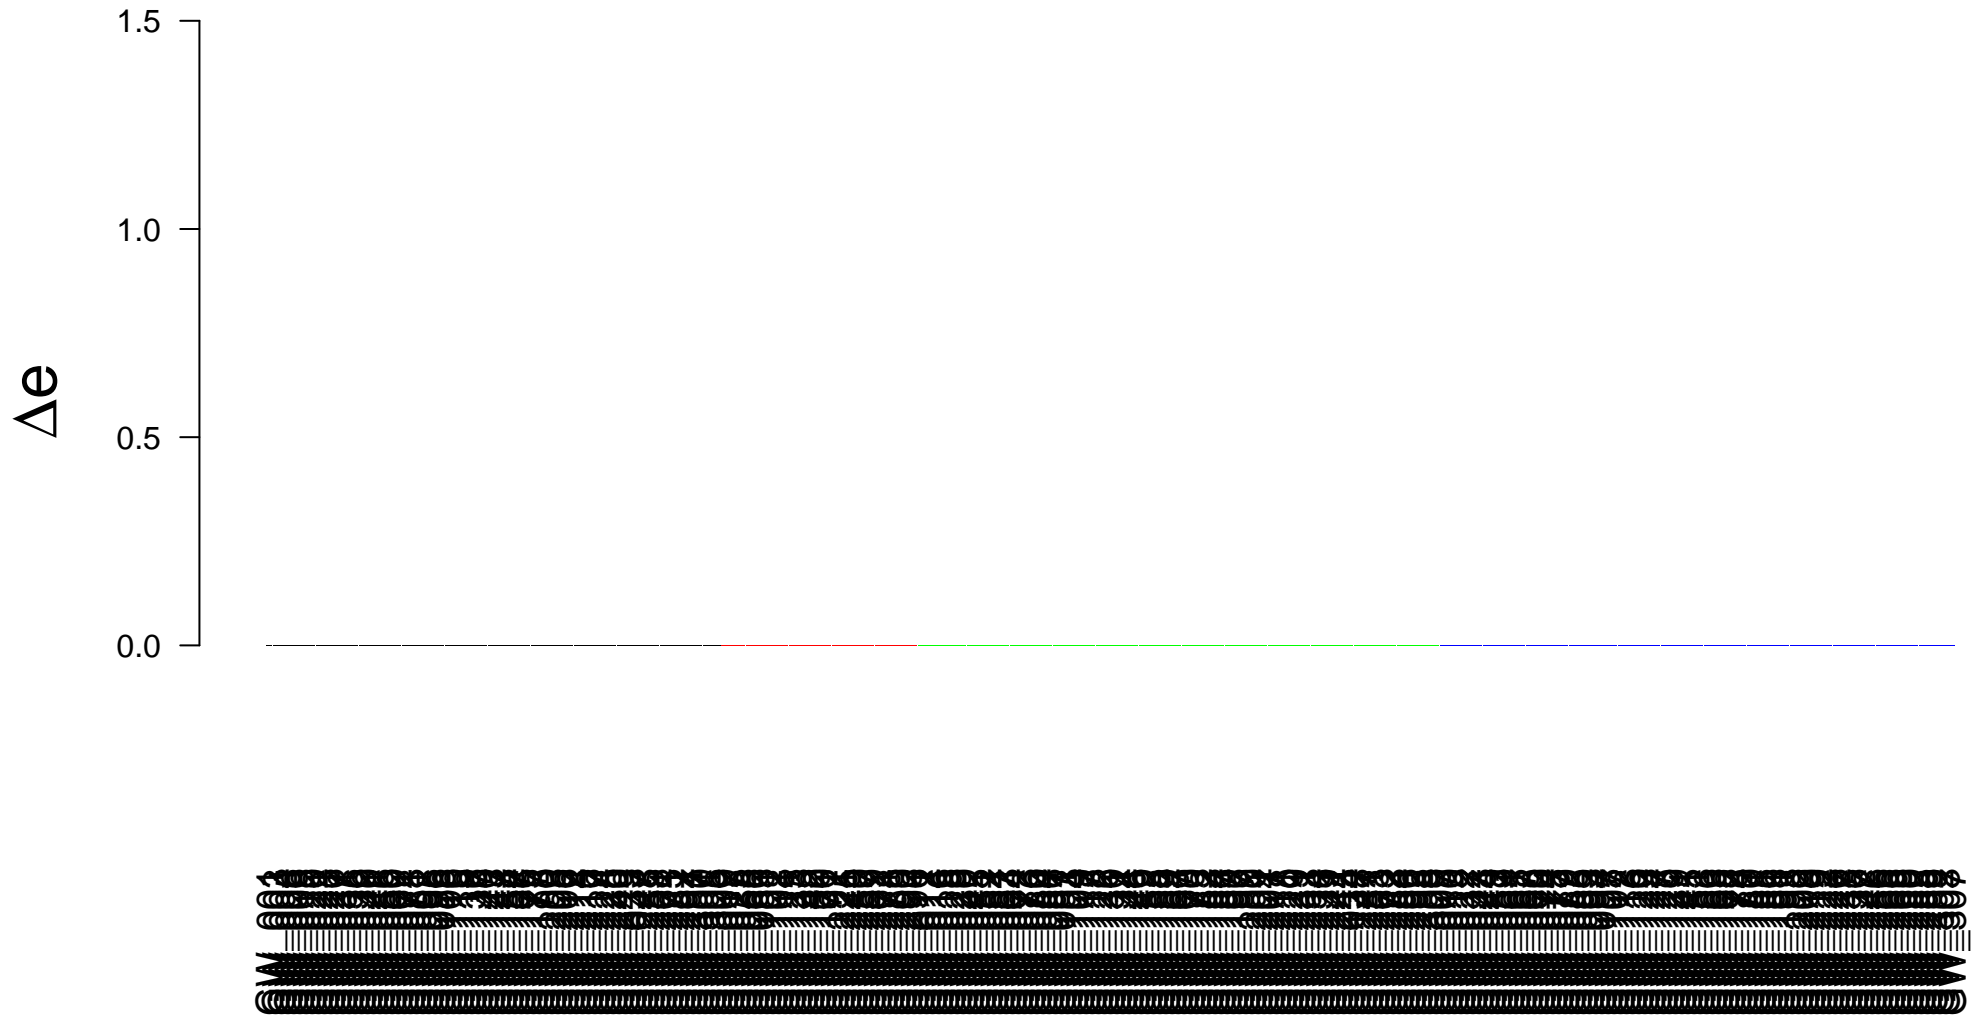

Expression of regulation of action potential in neuron in Spot N

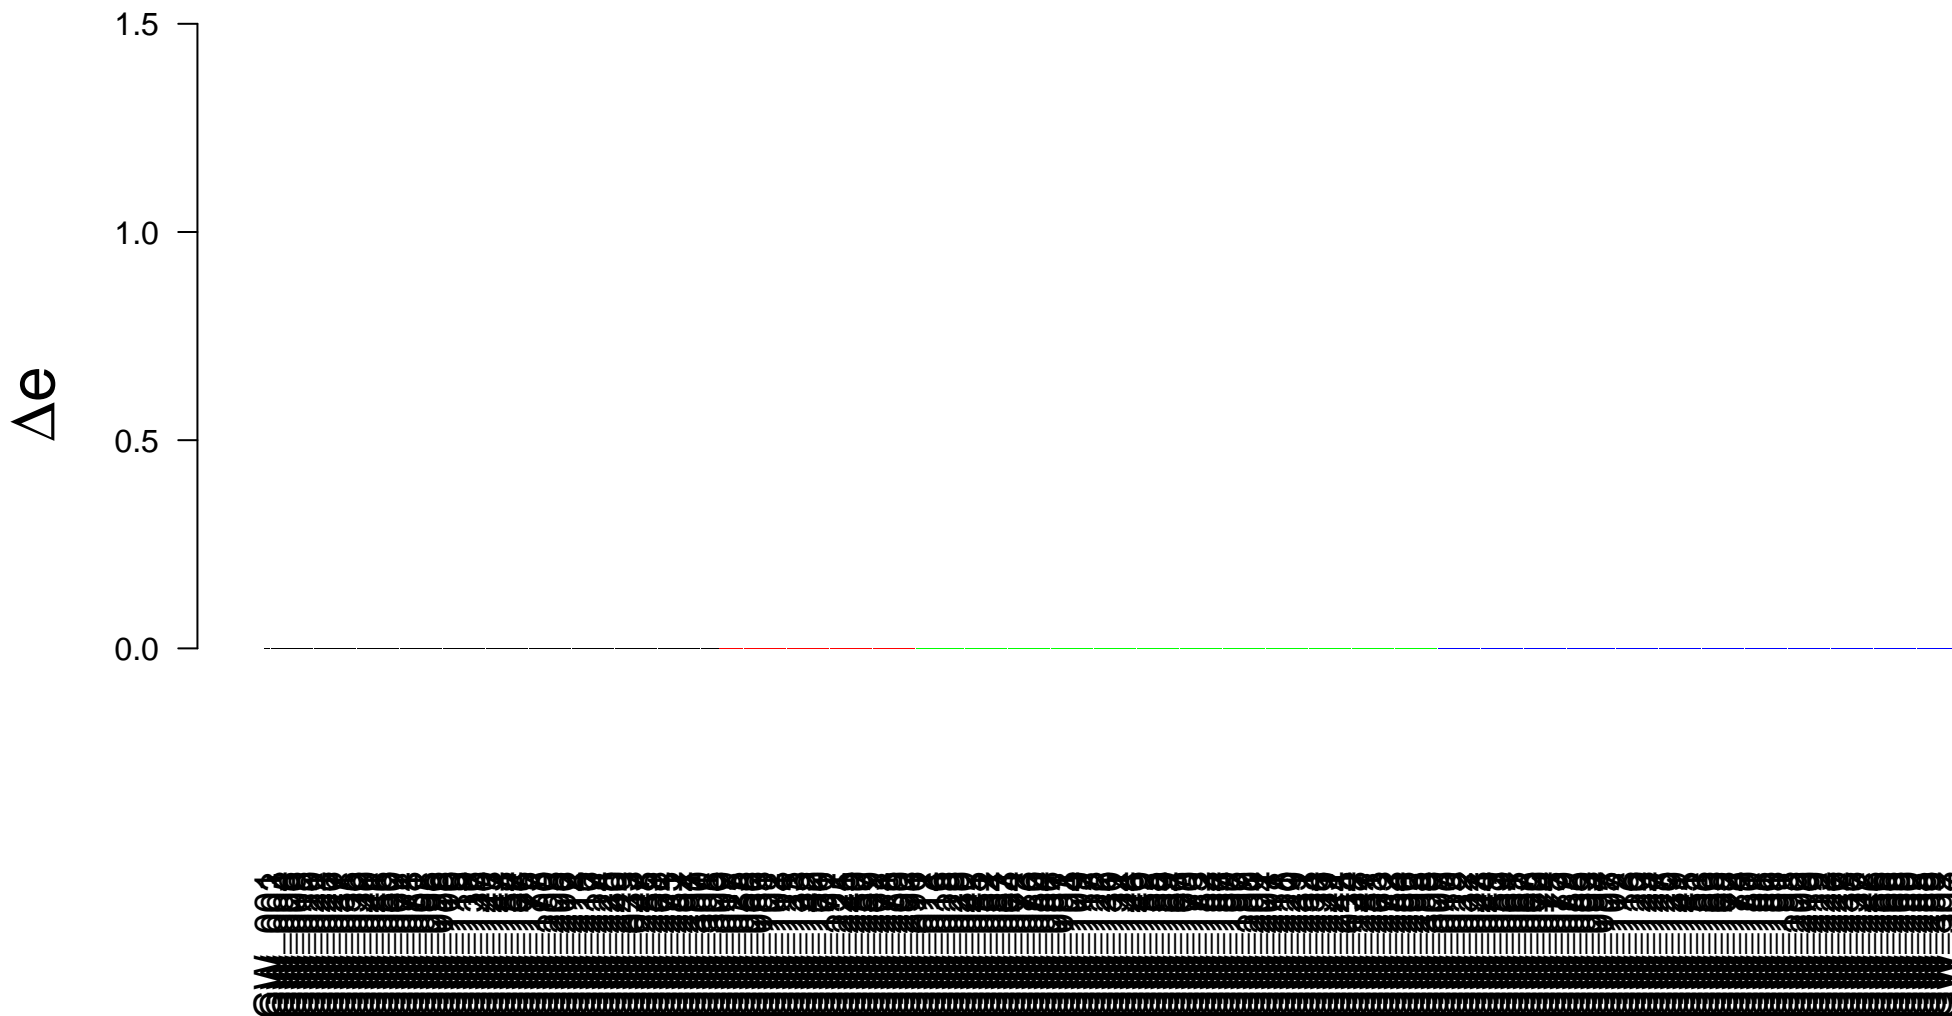

Expression of regulation of action potential in neuron in Spot O

Expression of regulation of action potential in neuron in Spot P

Expression of regulation of action potential in neuron in Spot Q

Expression of regulation of action potential in neuron in Spot R
