

# regulation of transcription from RNA polymerase II promoter in response to hypoxia

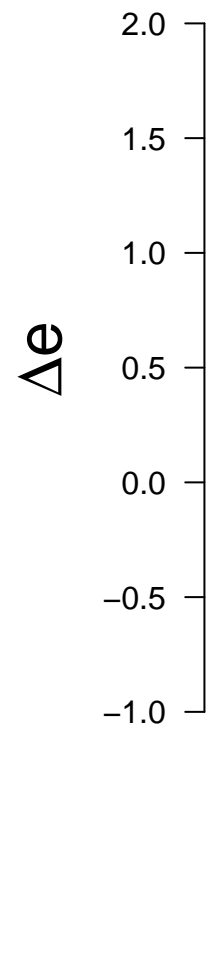

# regulation of transcription from RNA polymerase II promoter in response to hypoxia

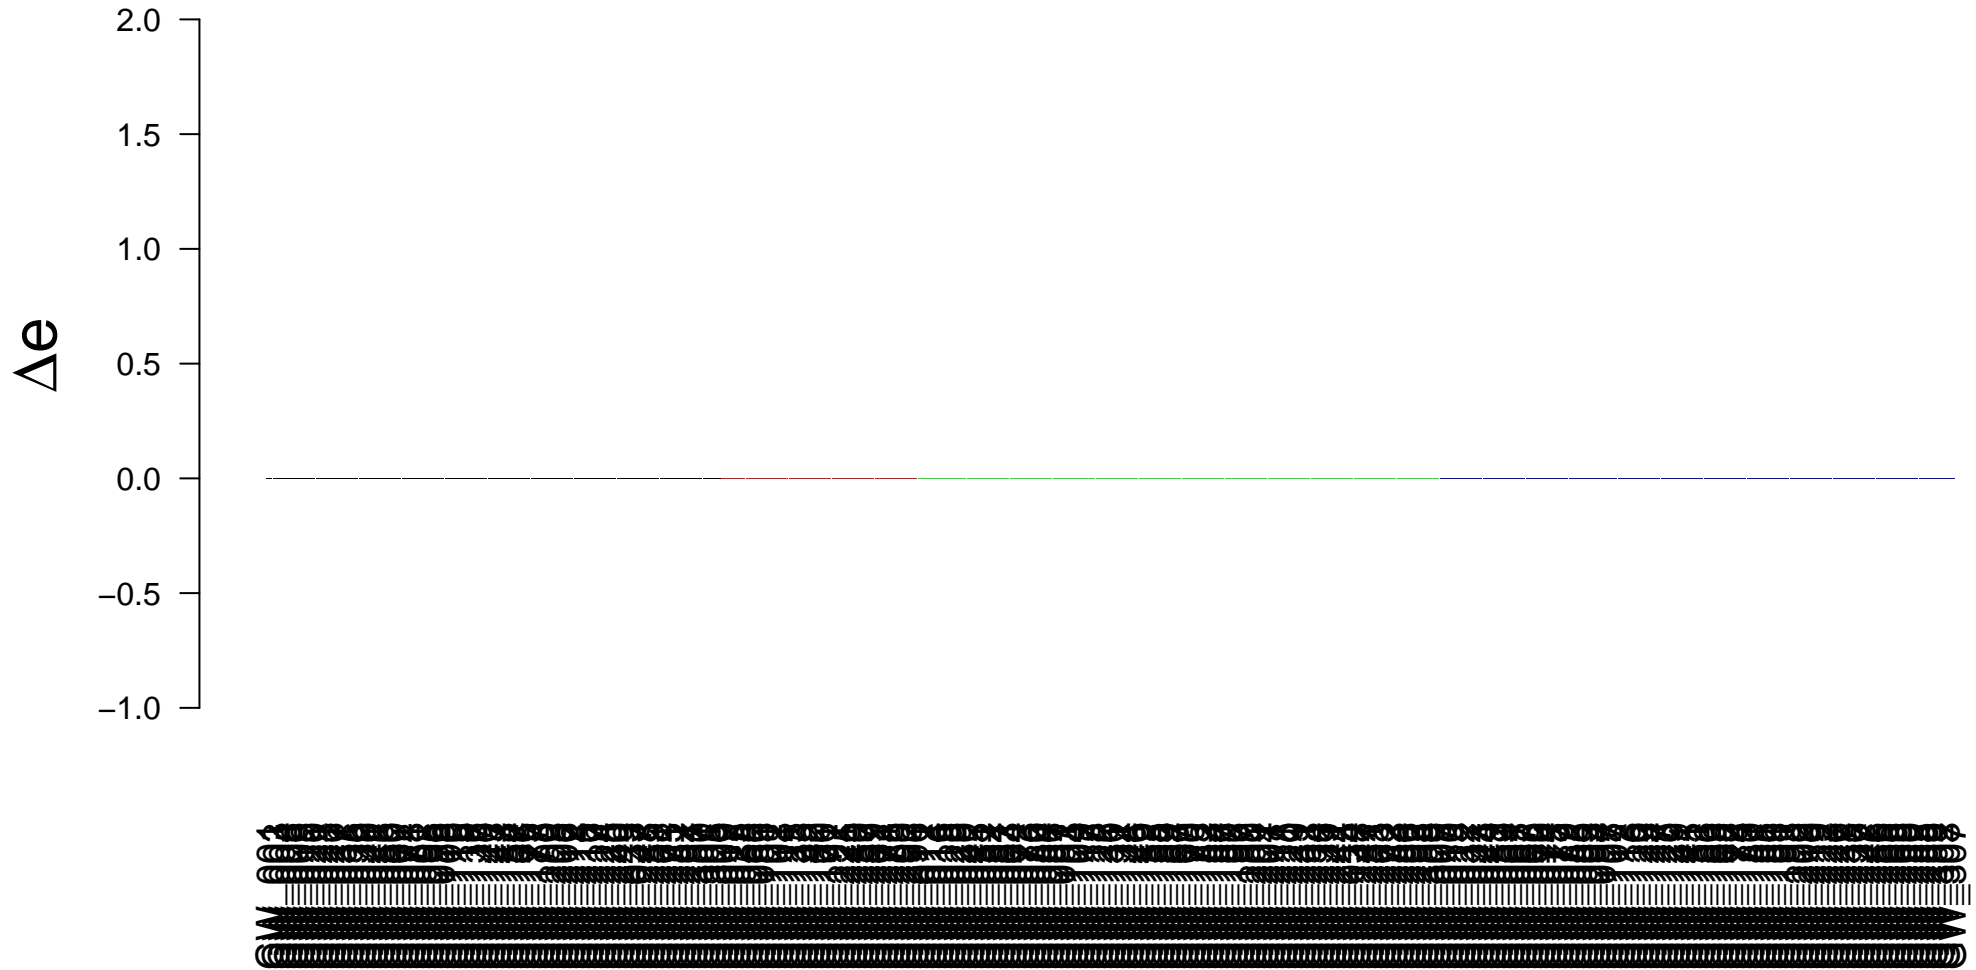

# Enrichment in spots: regulation of transcription from RNA polymerase II promoter in response to hypoxia

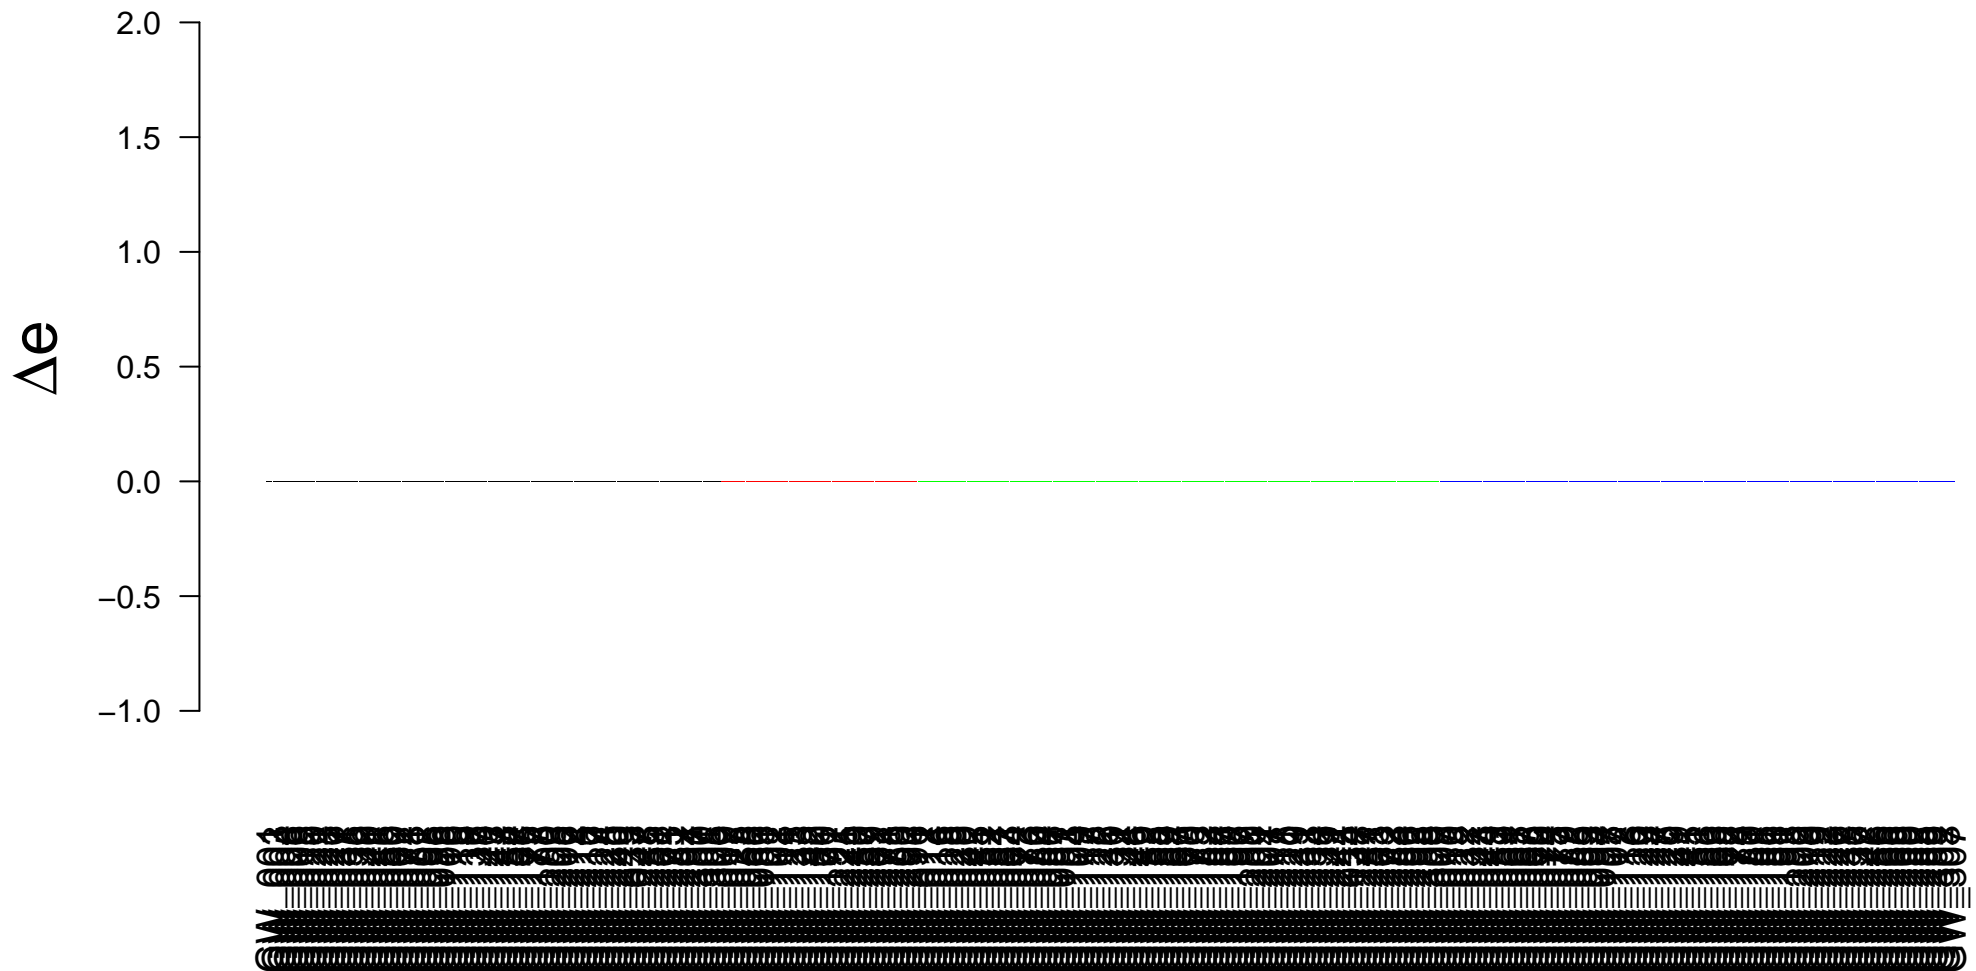

Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot A

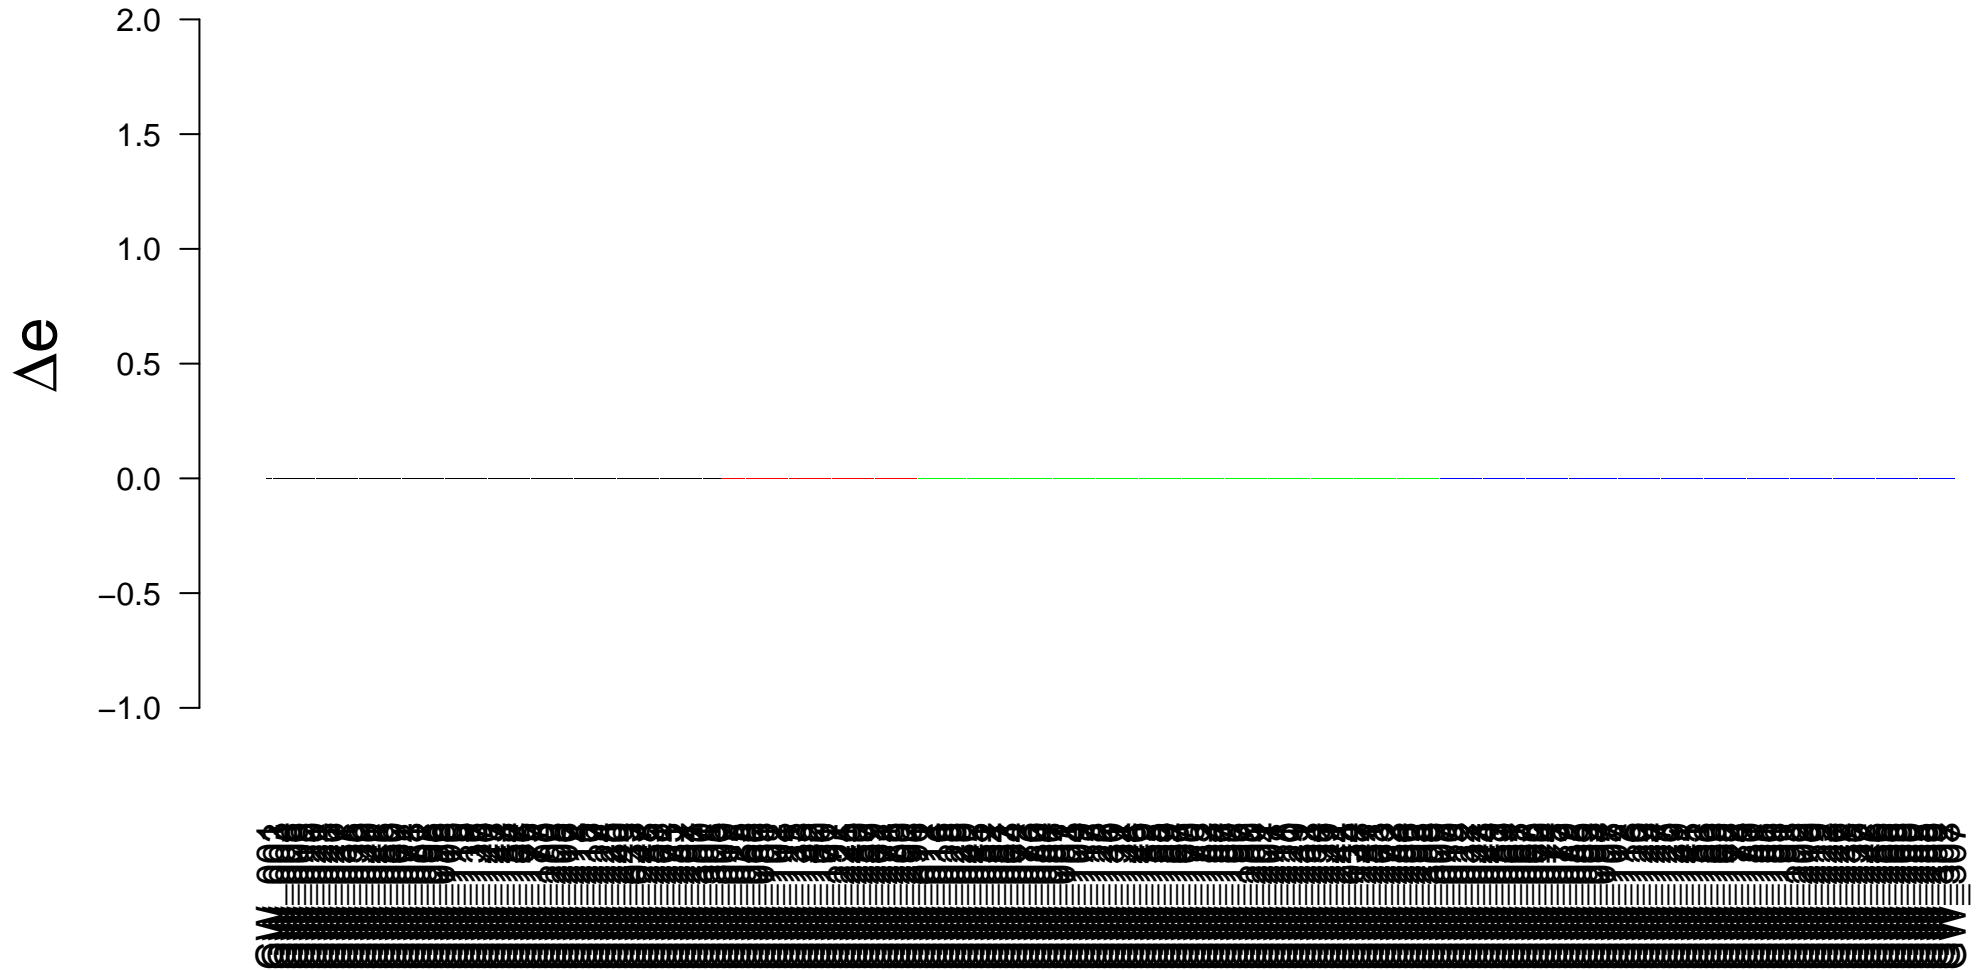

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot B

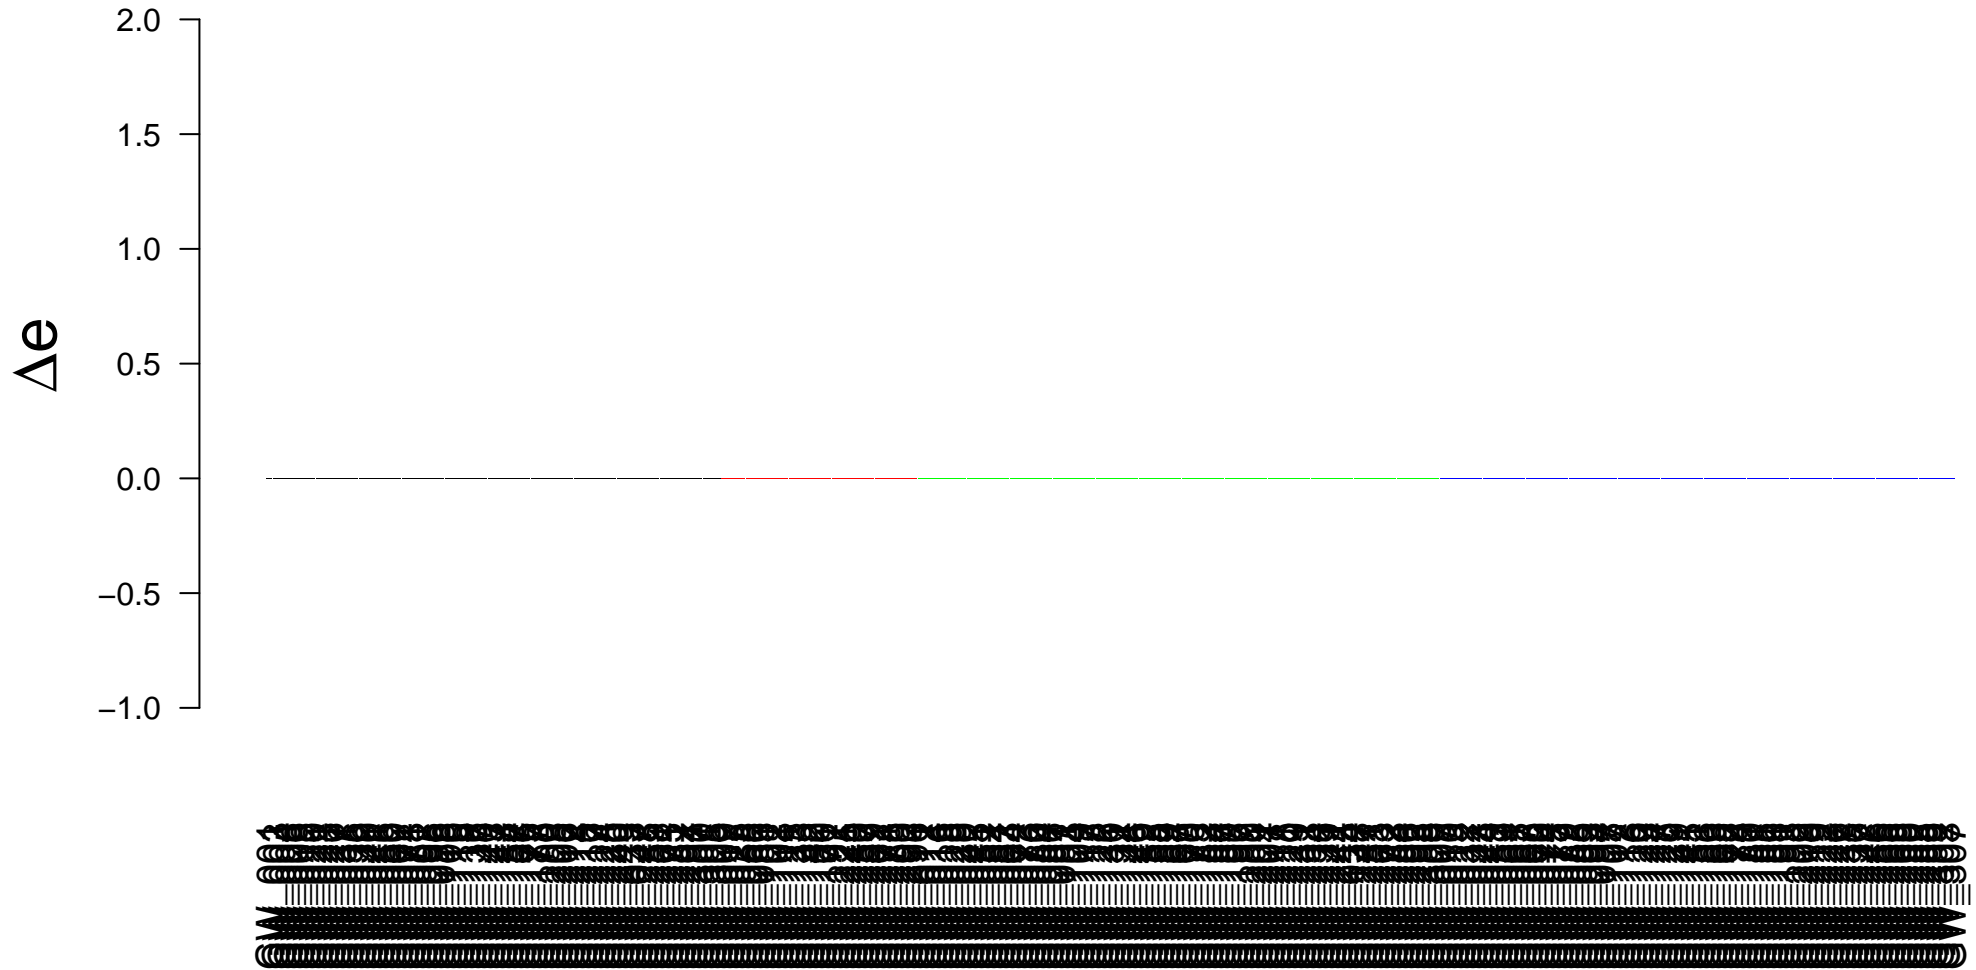

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot C

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot D

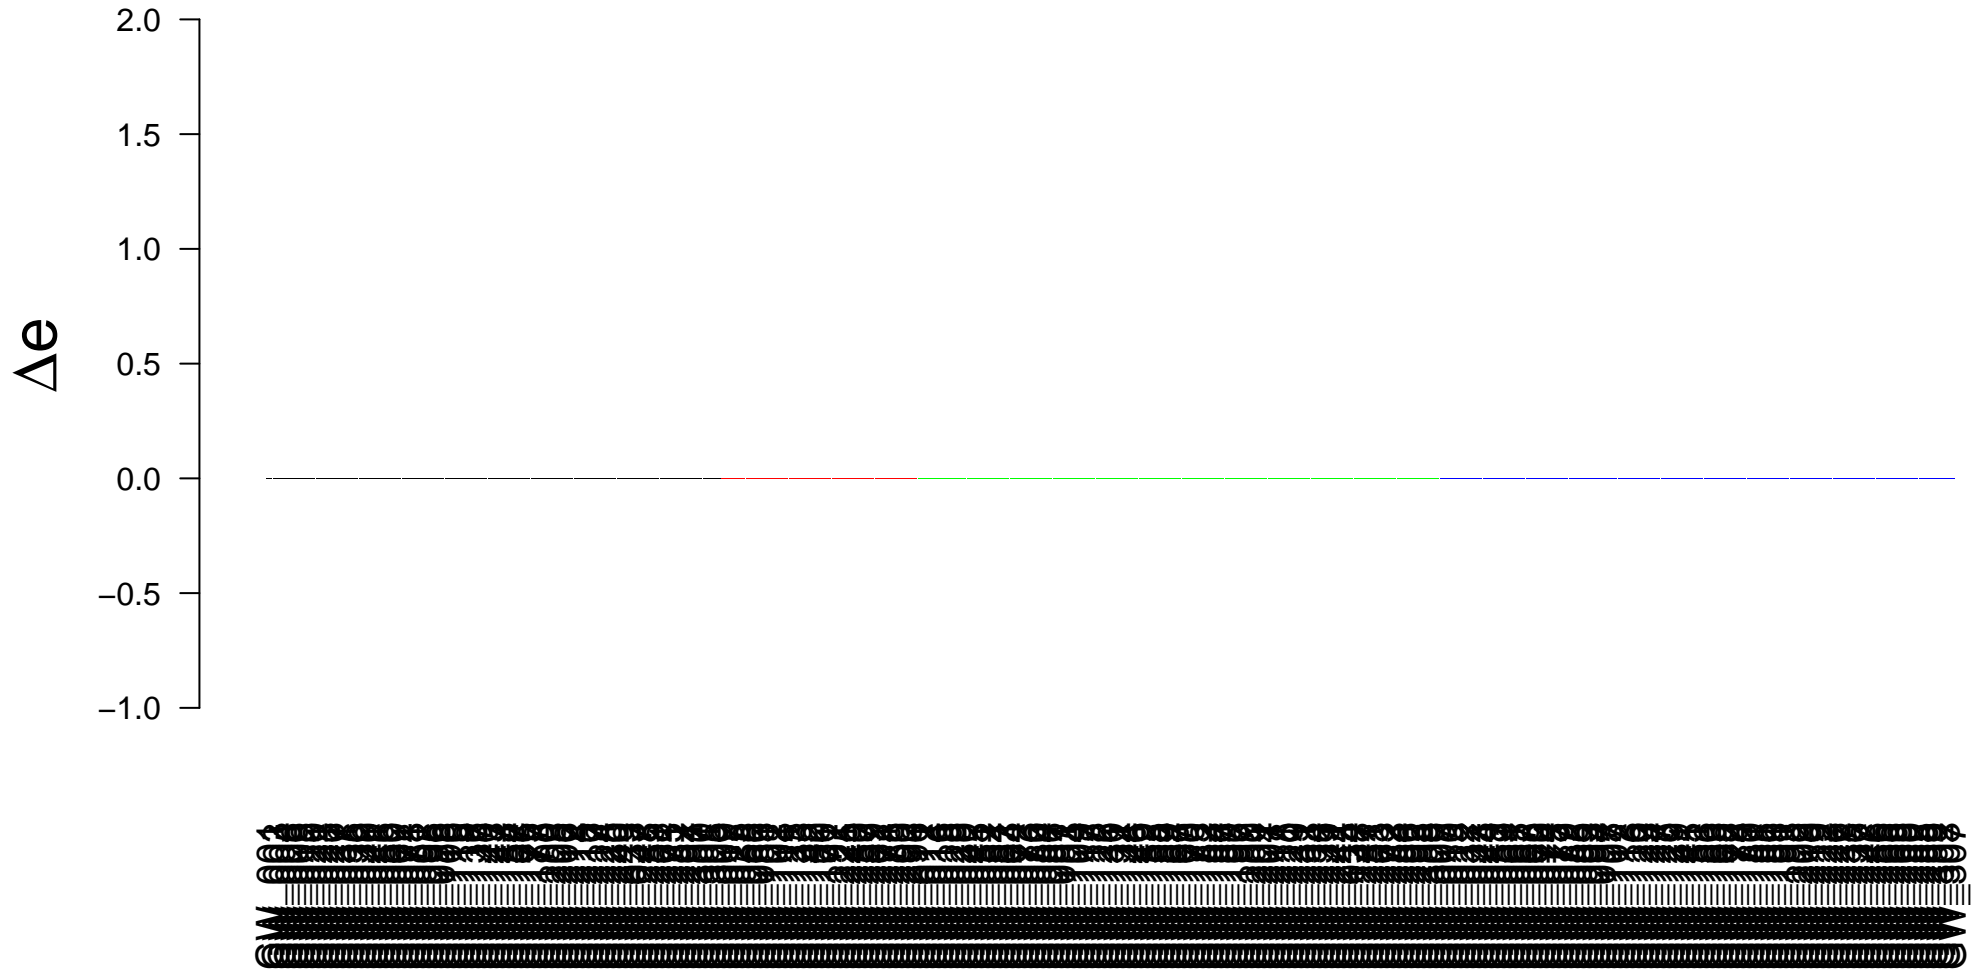

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot E

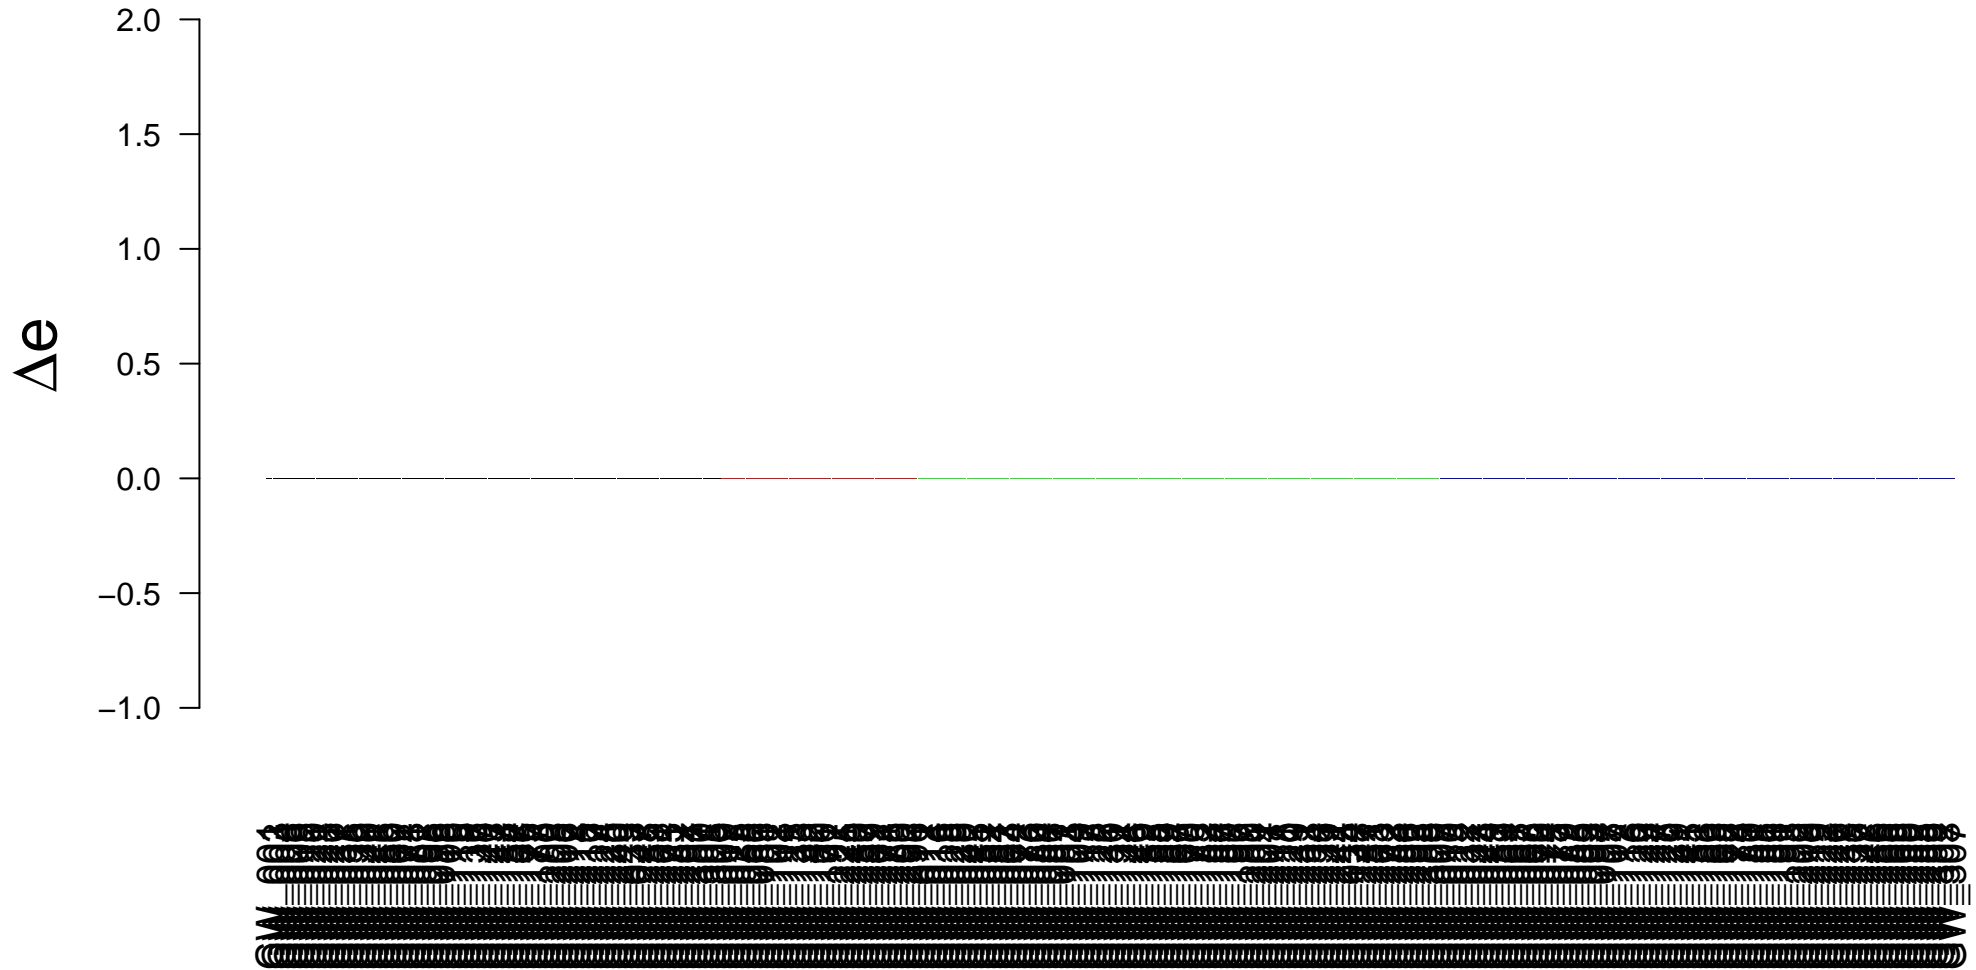

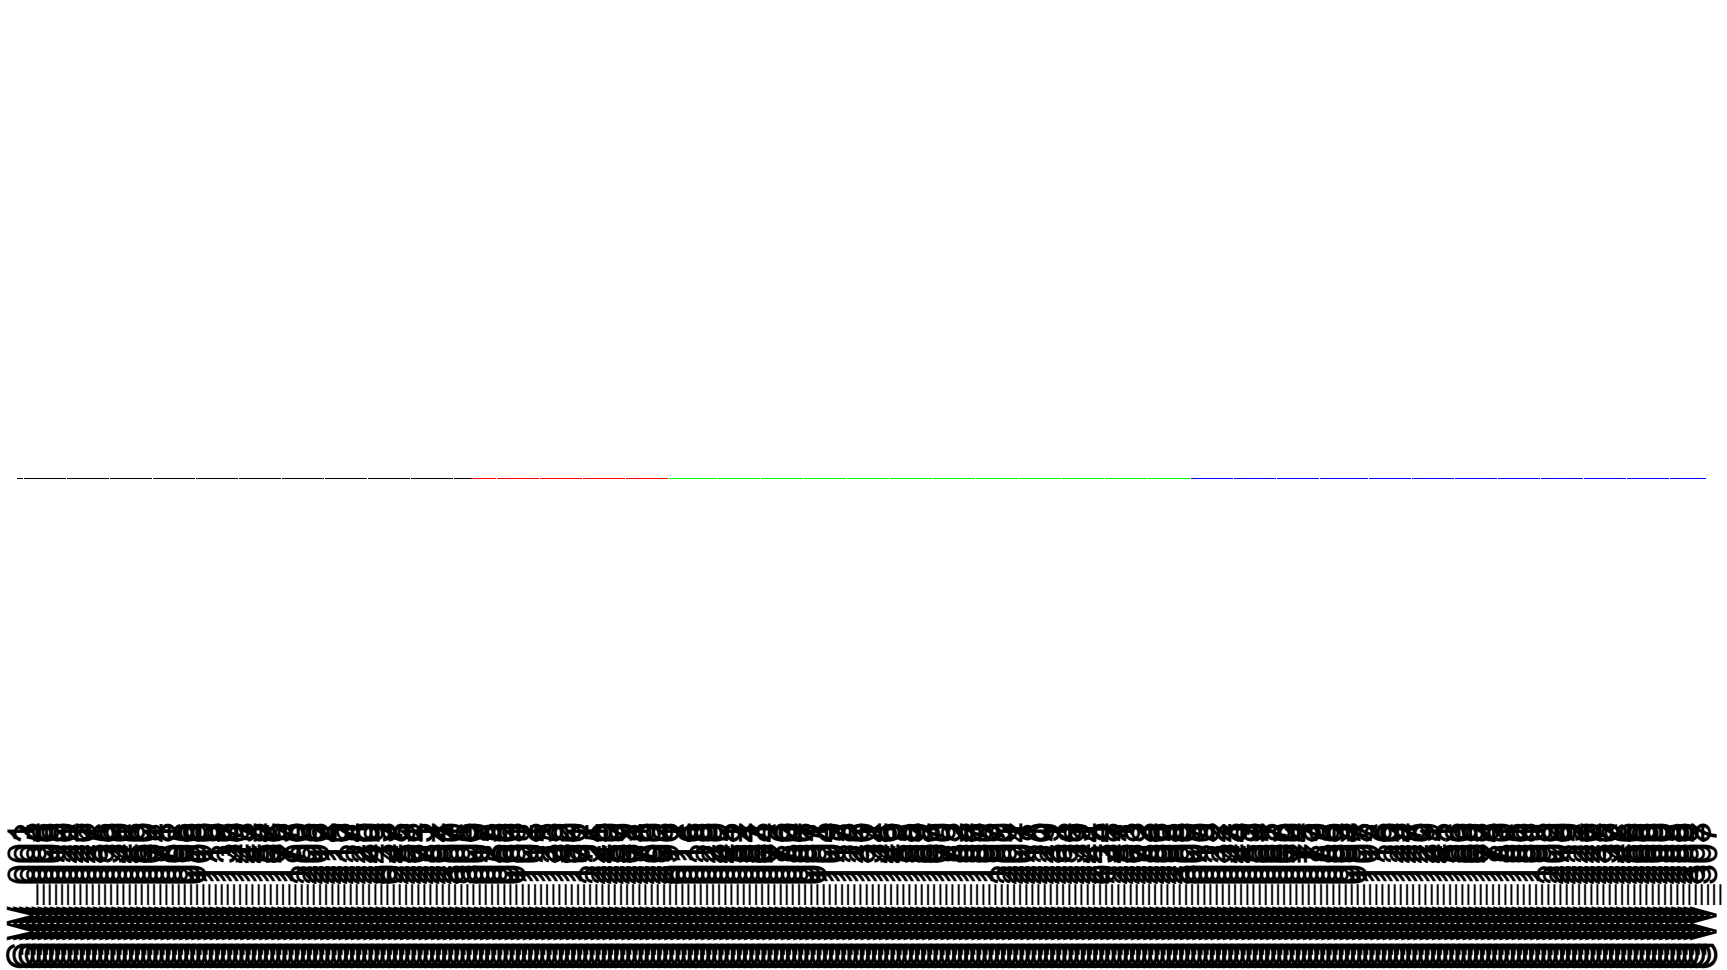

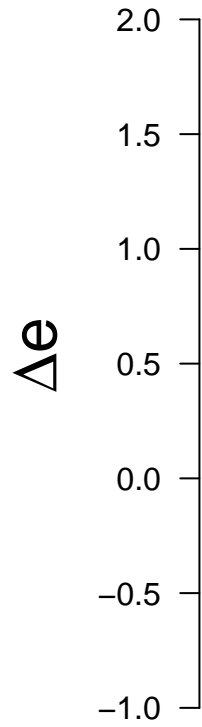

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot F

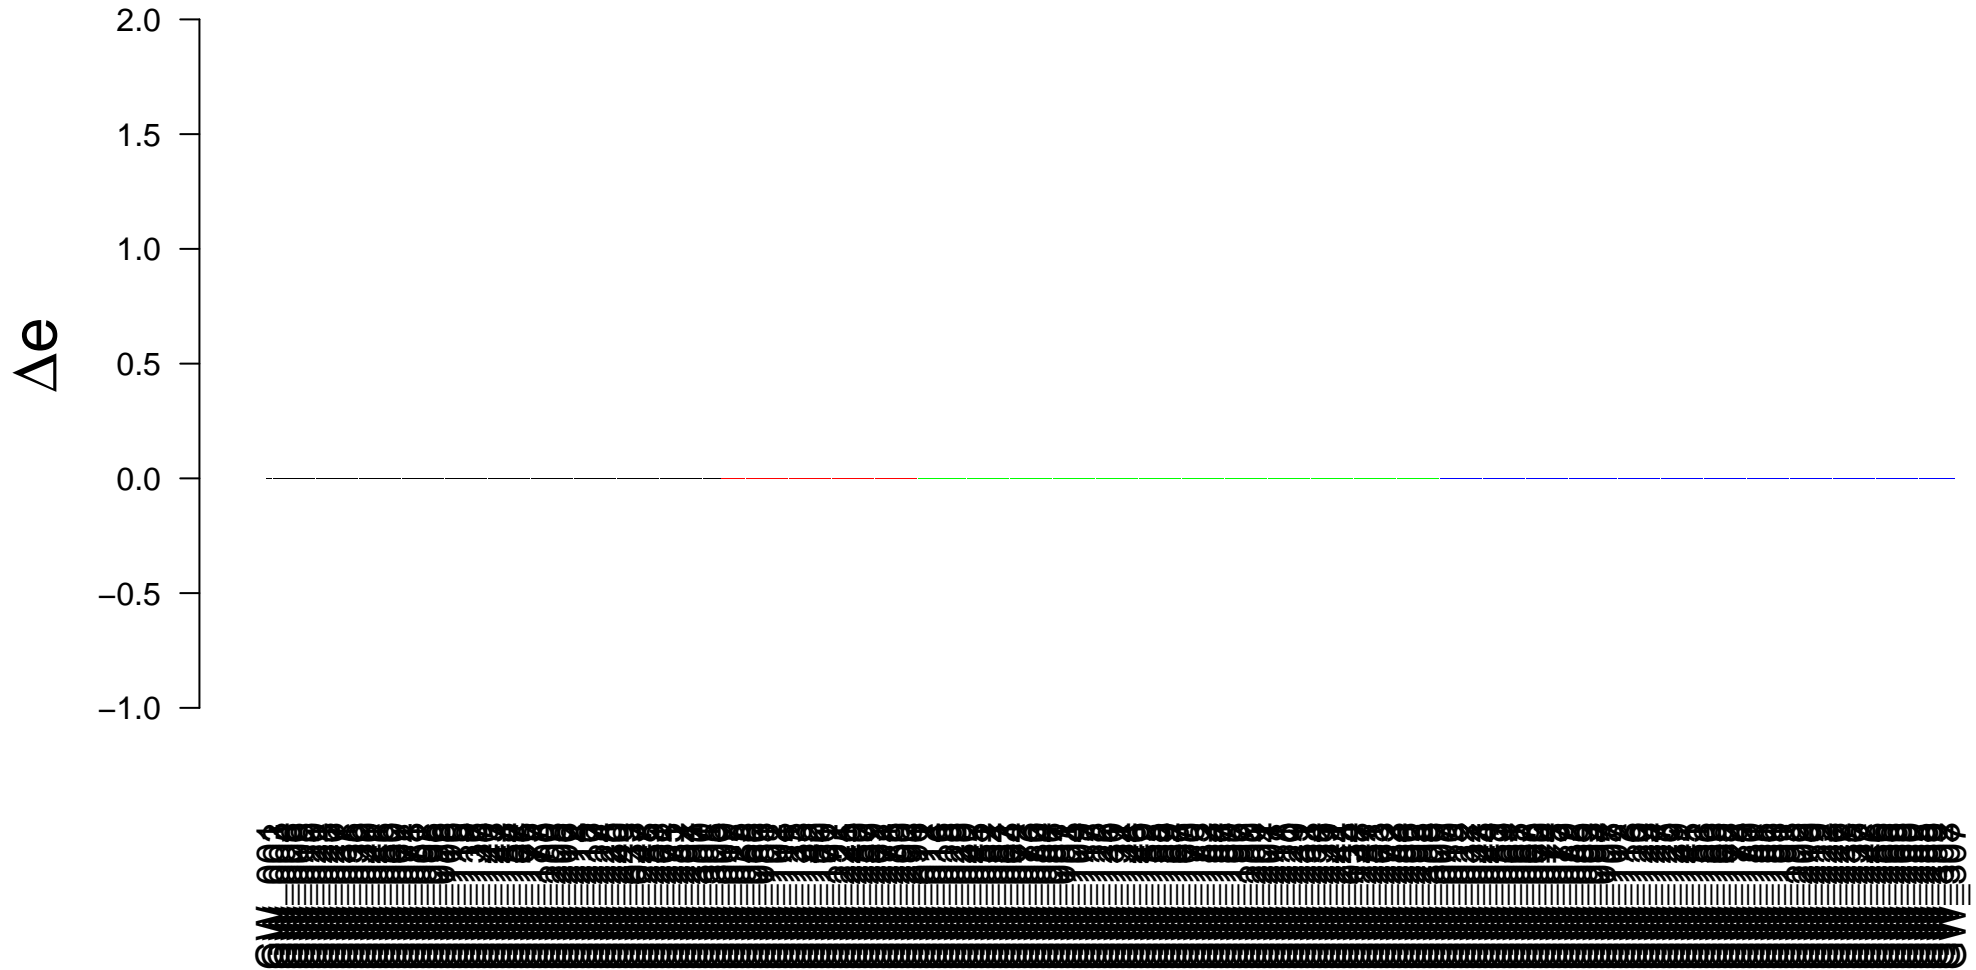

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot G

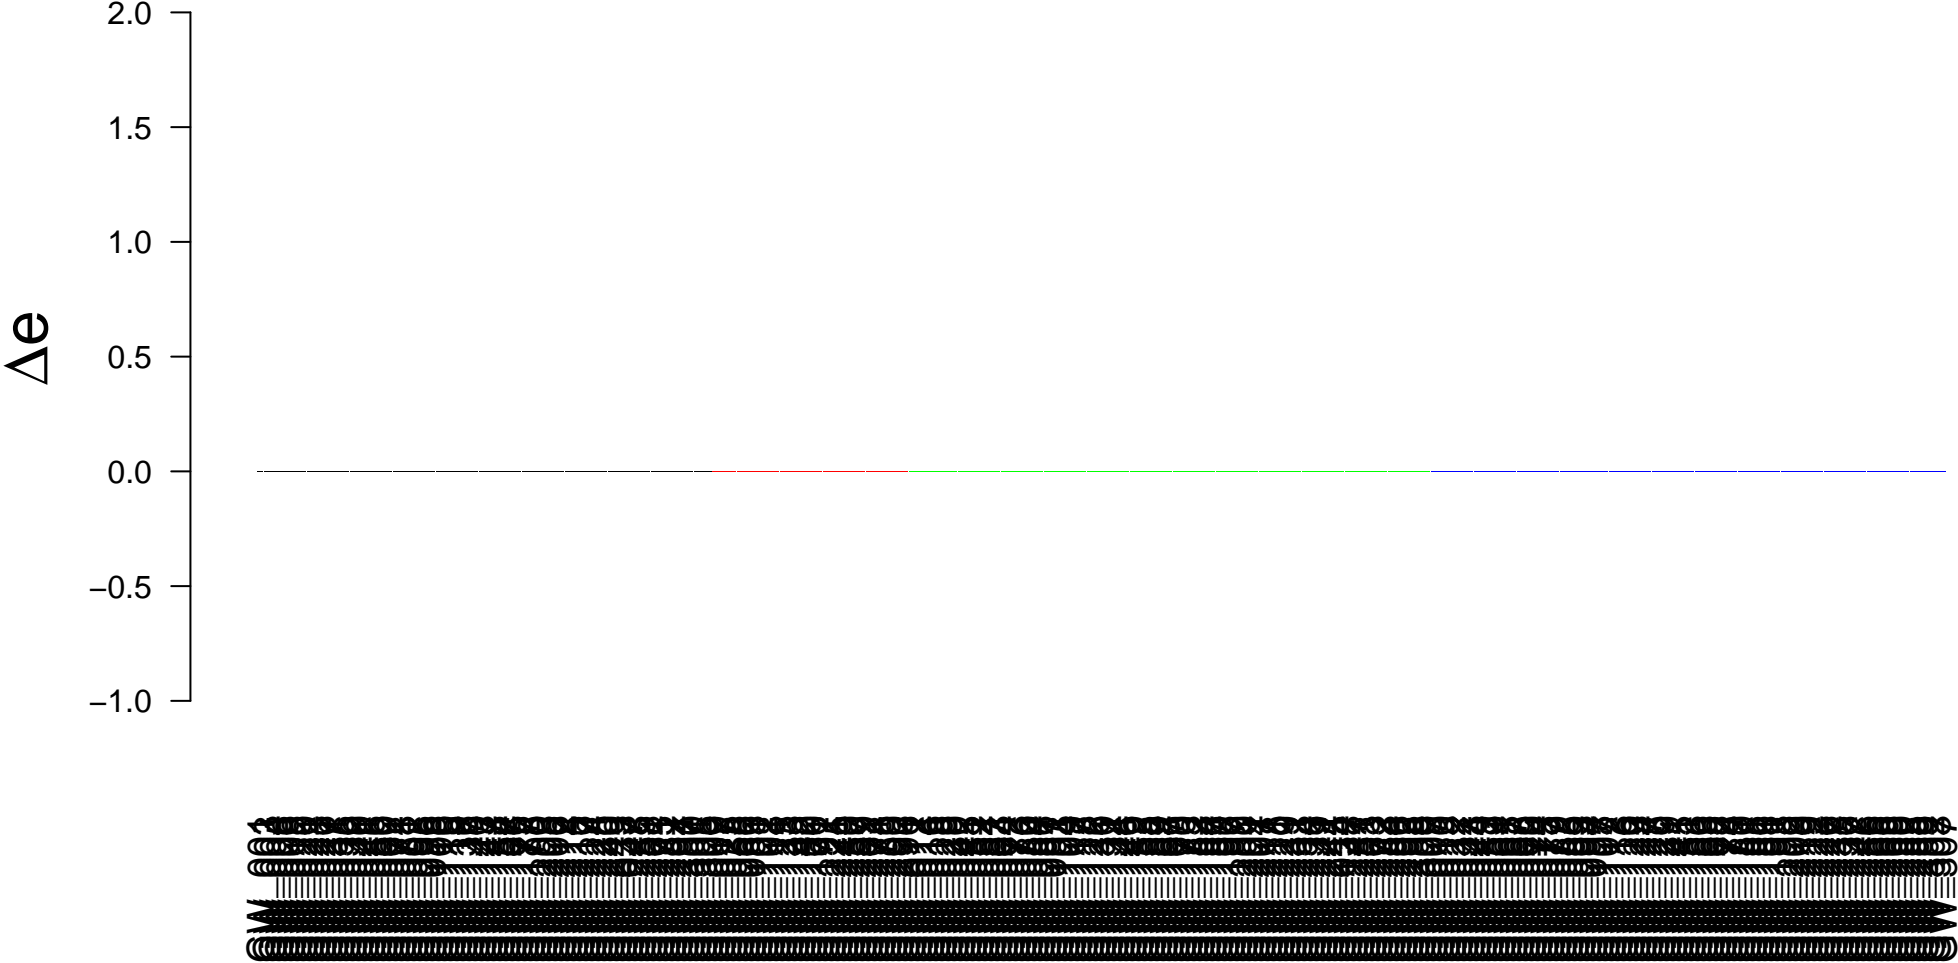

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot H

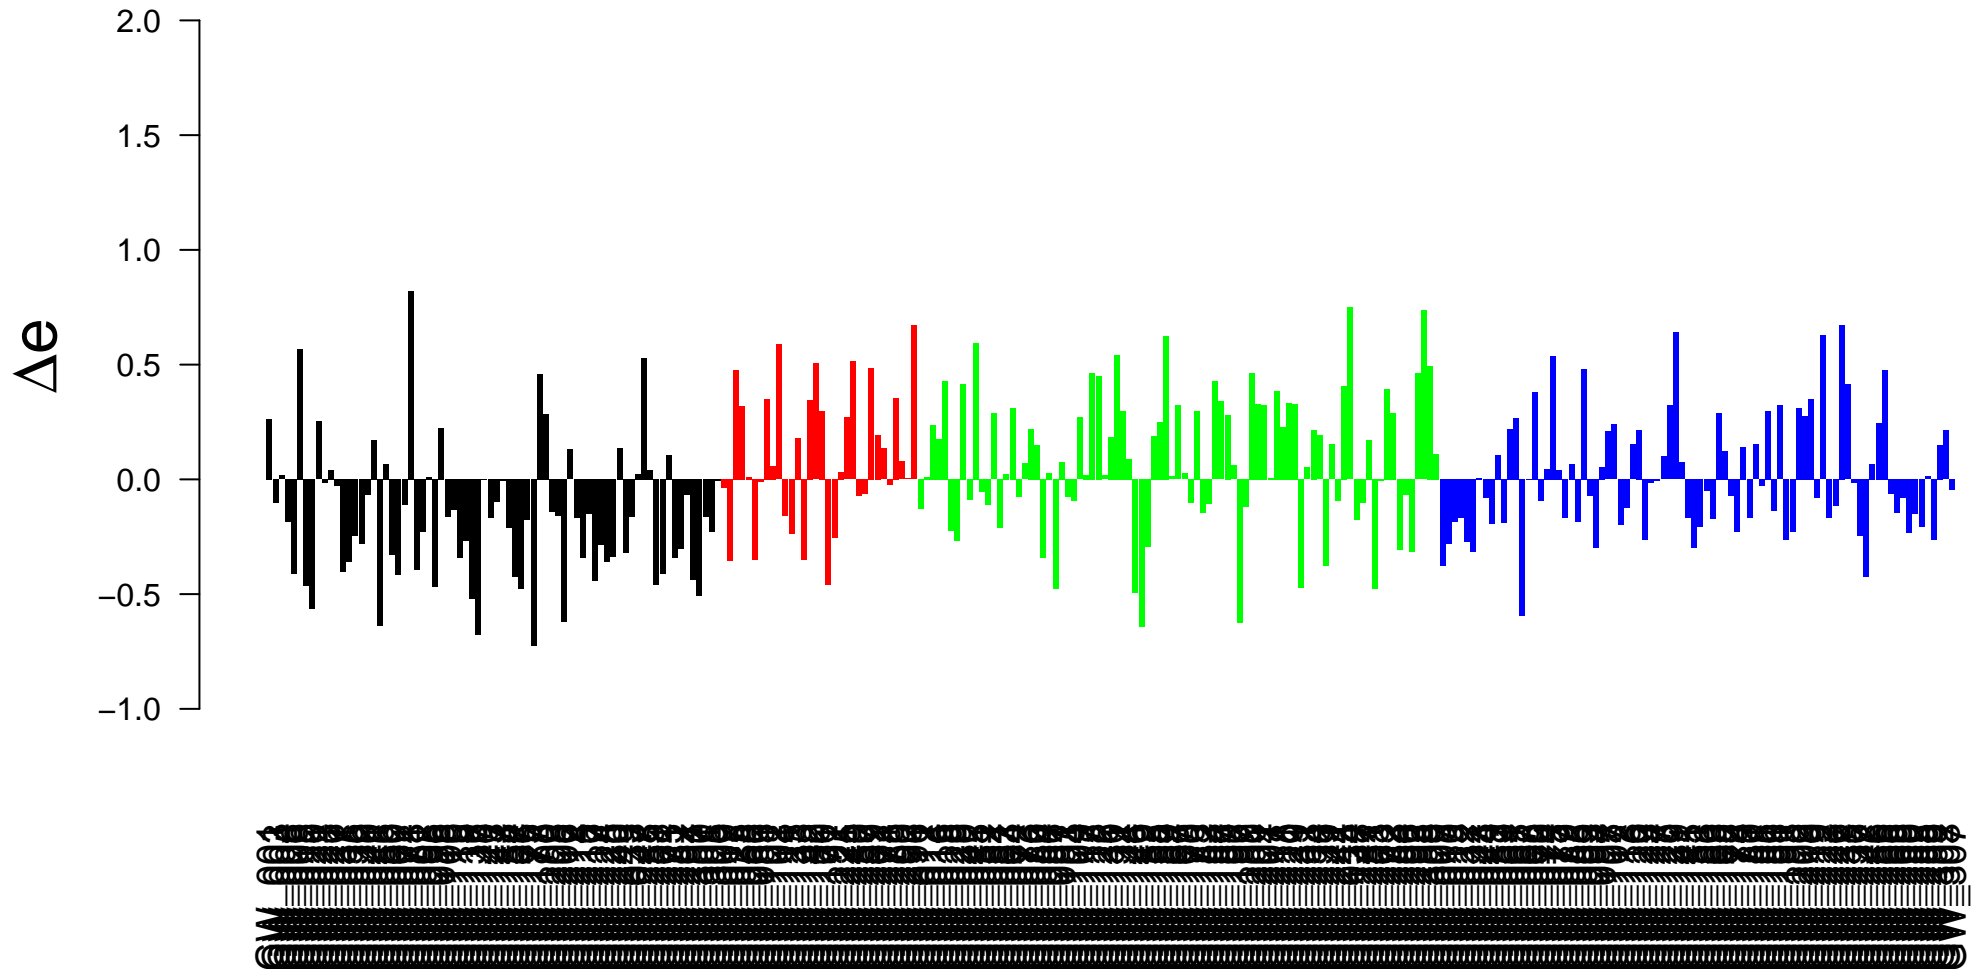

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot I

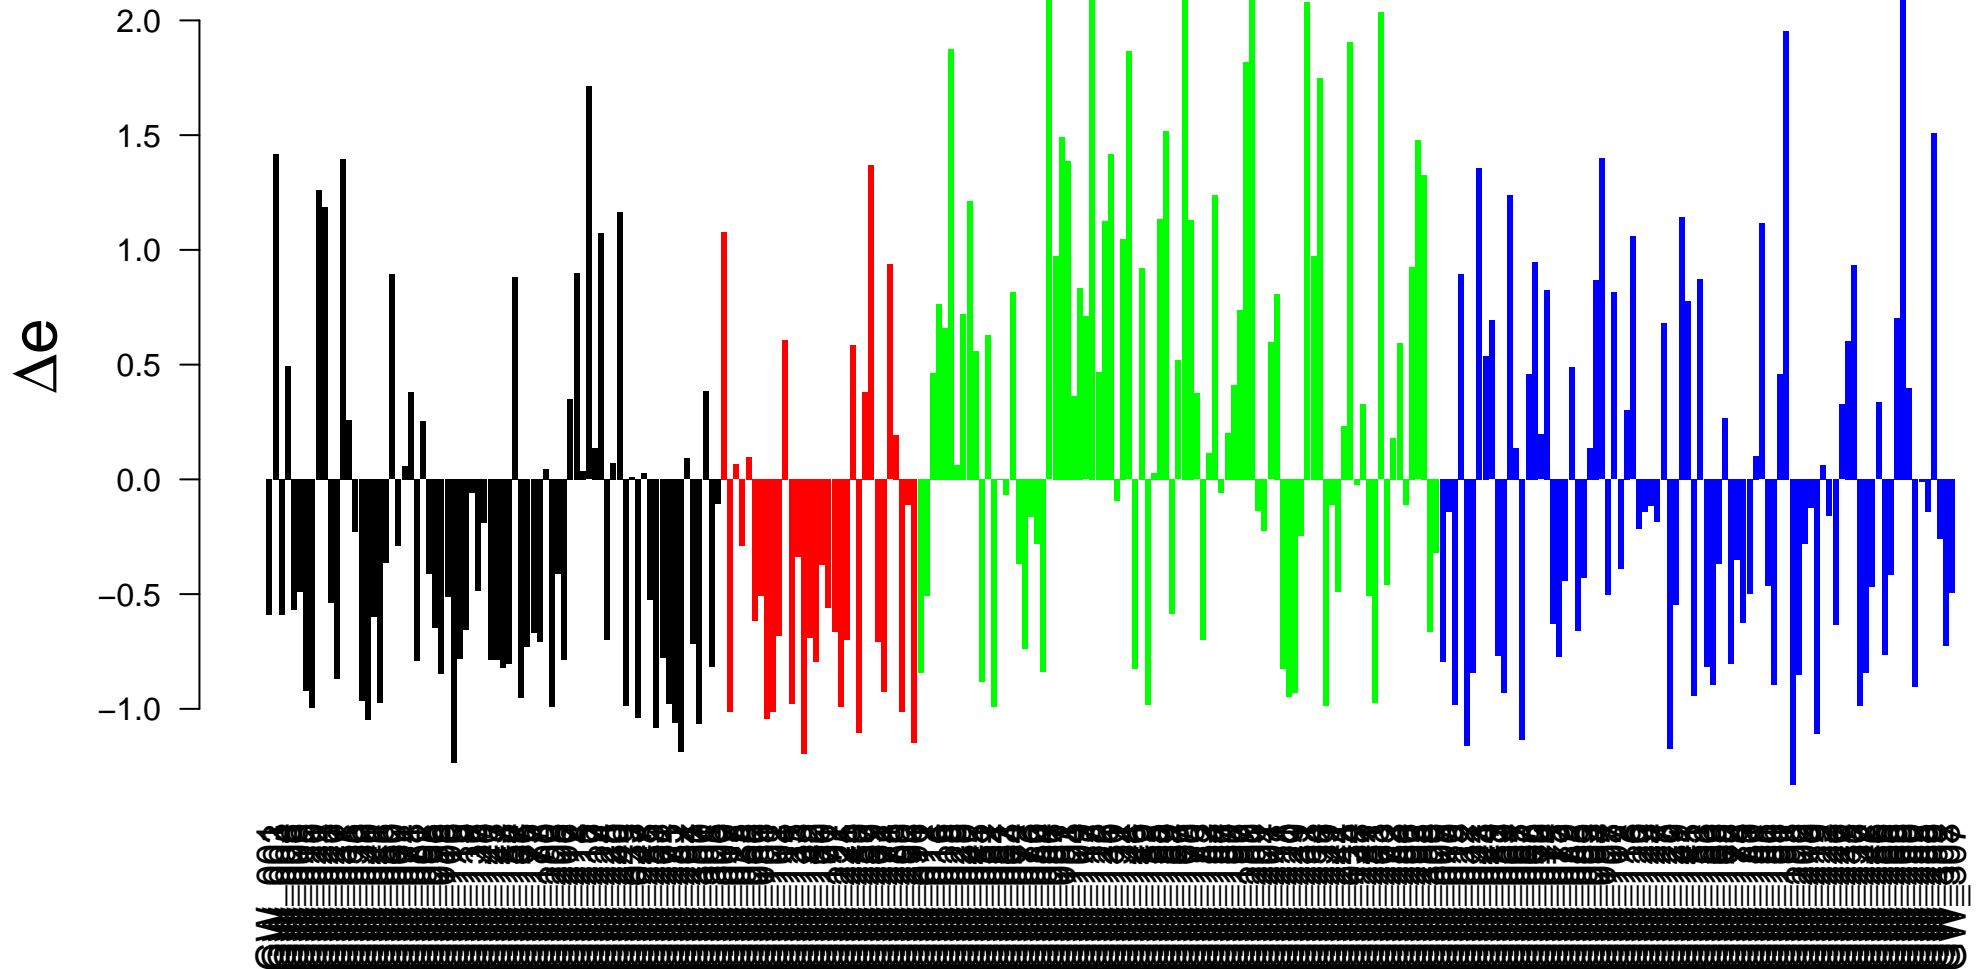

Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot J

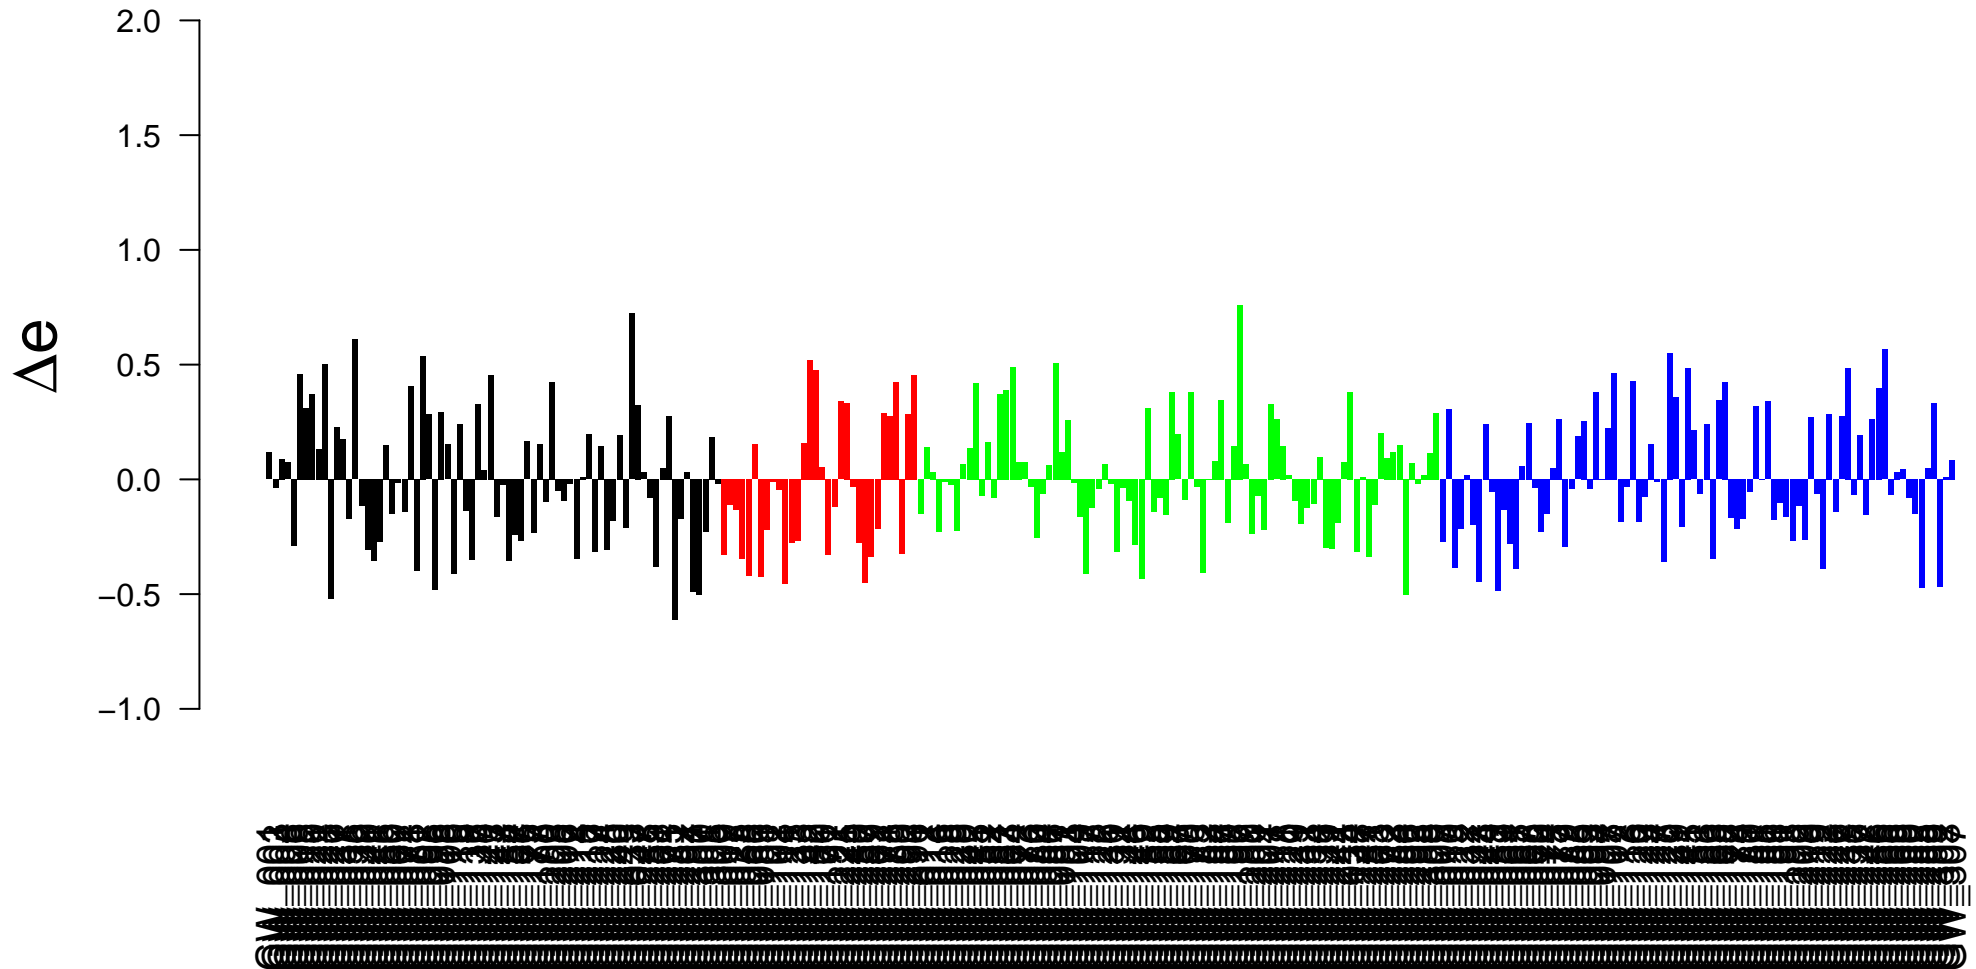

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot K

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot L

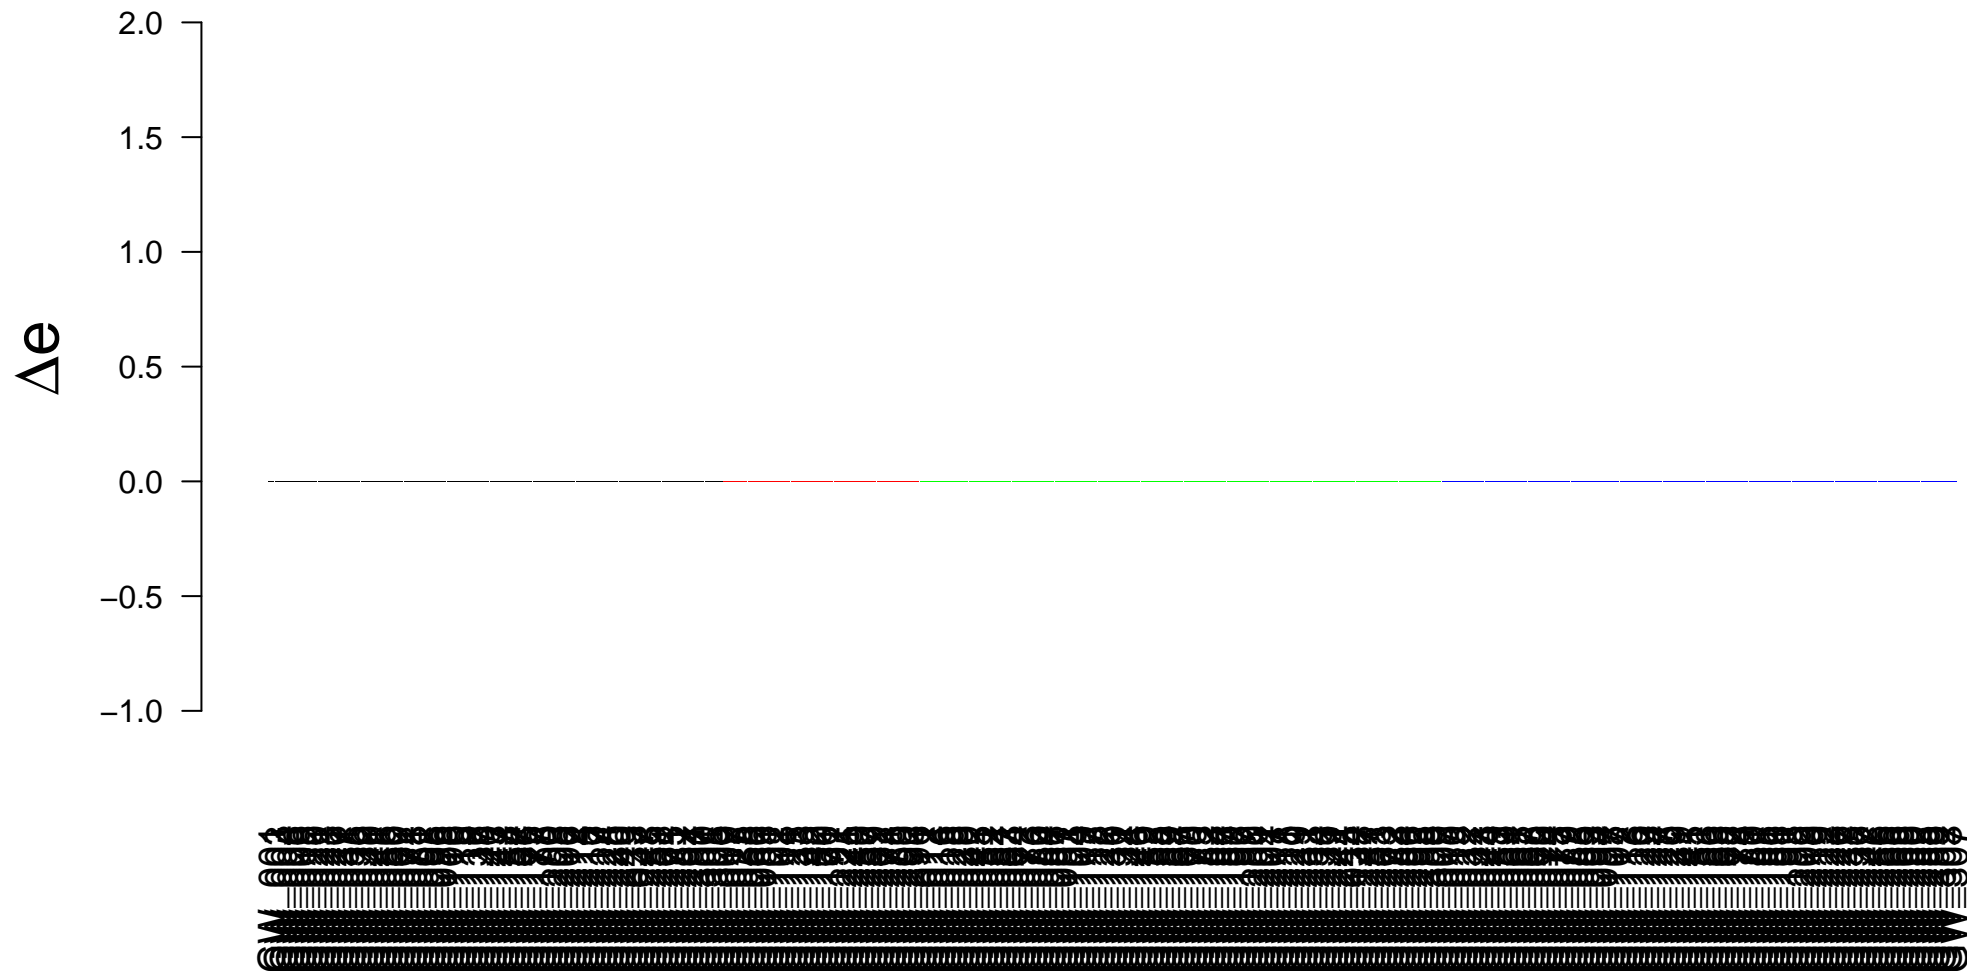

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot M

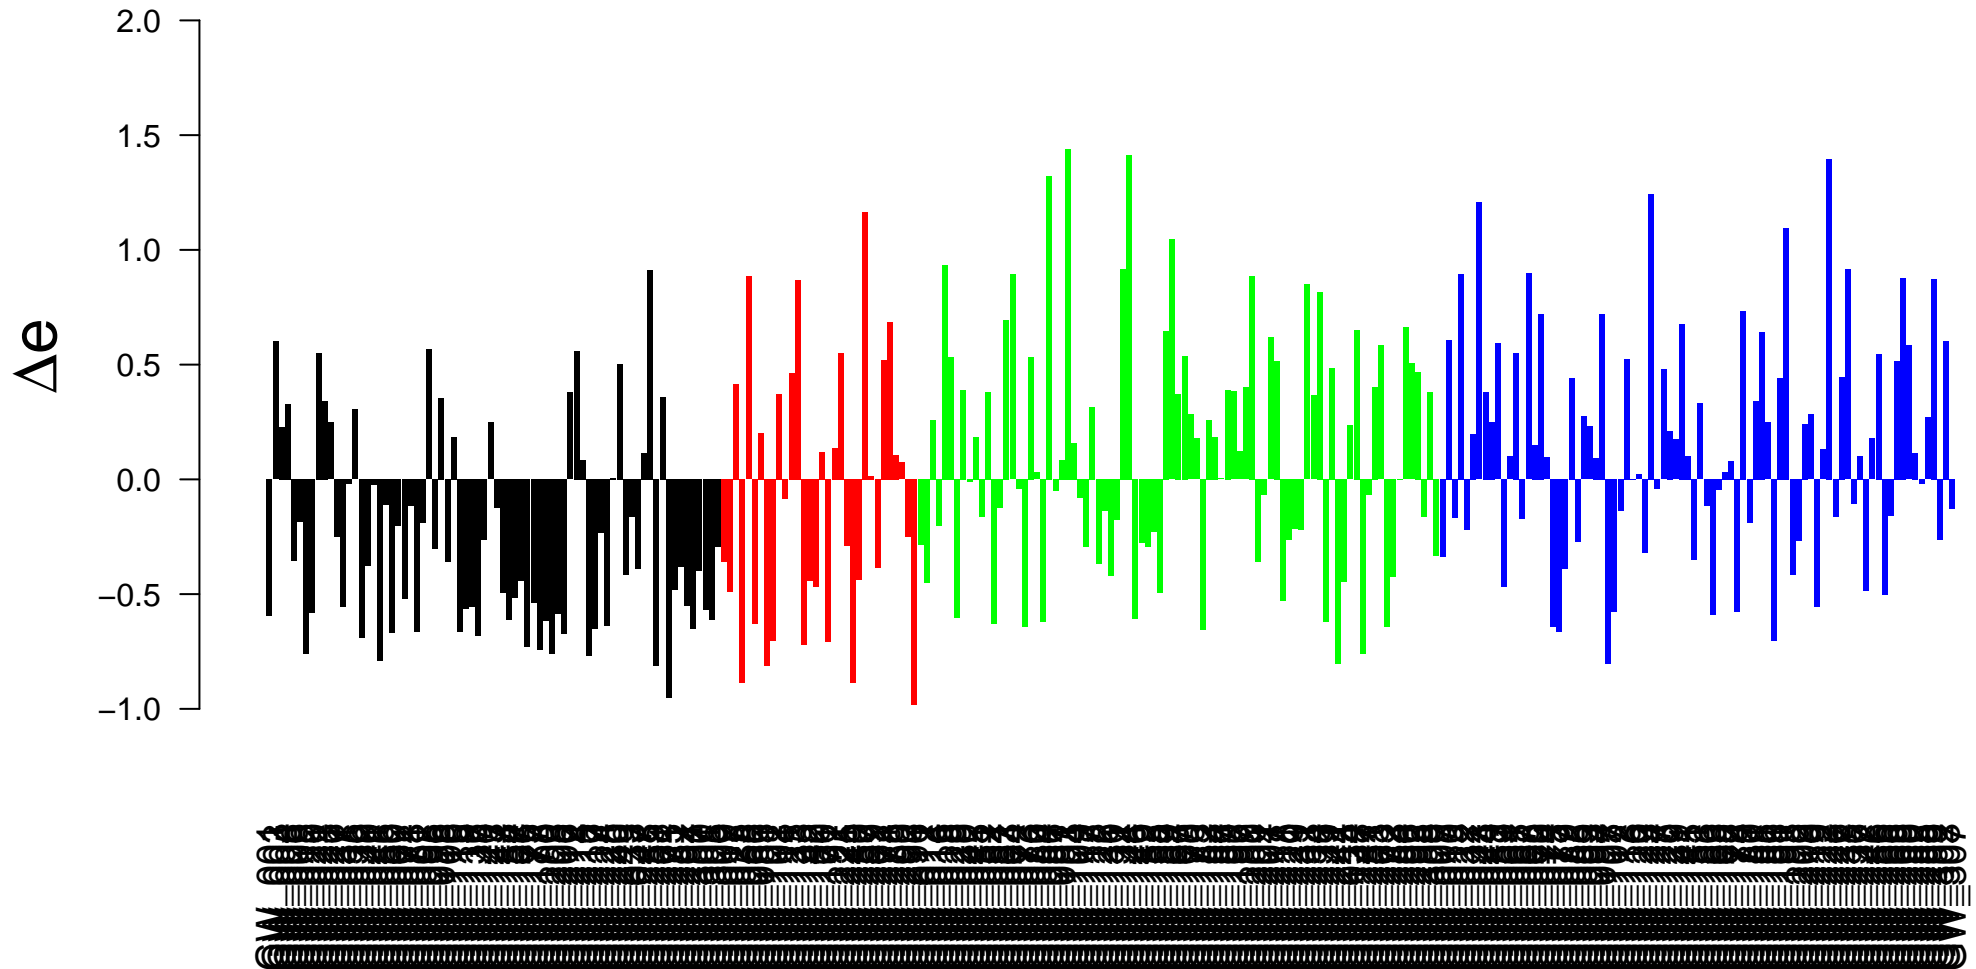

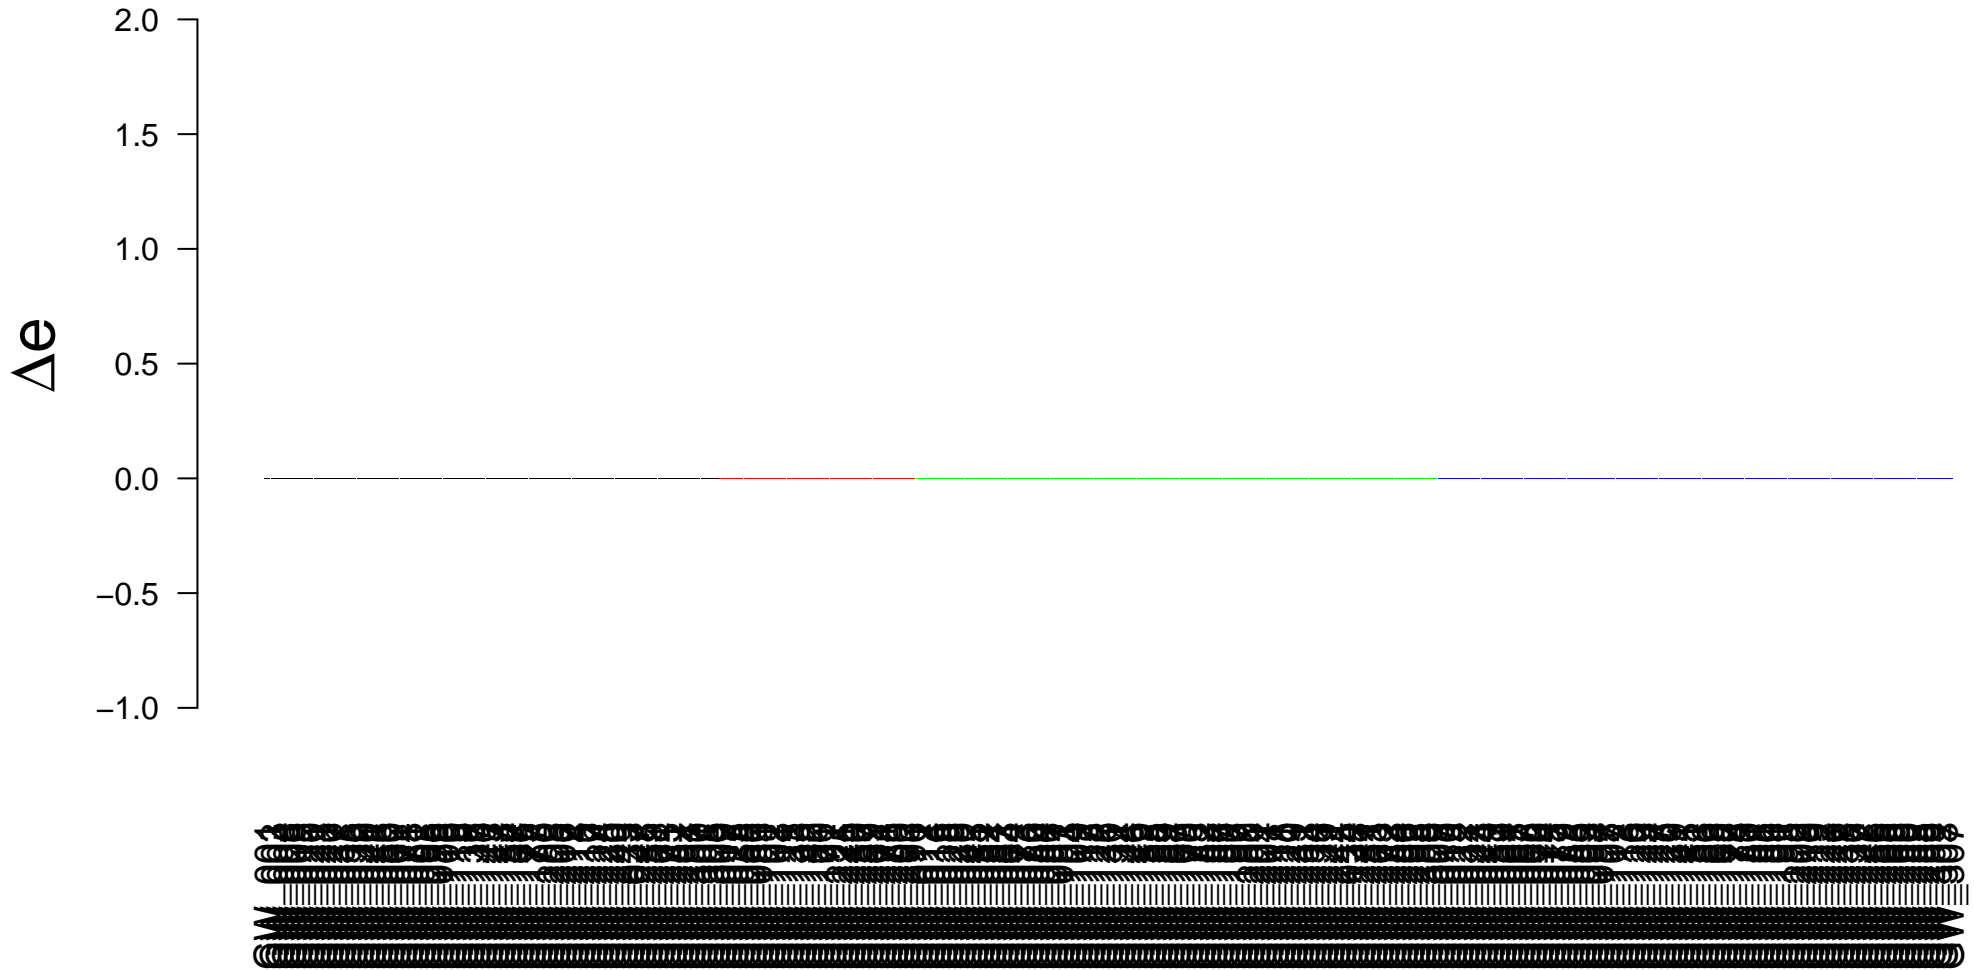

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot N

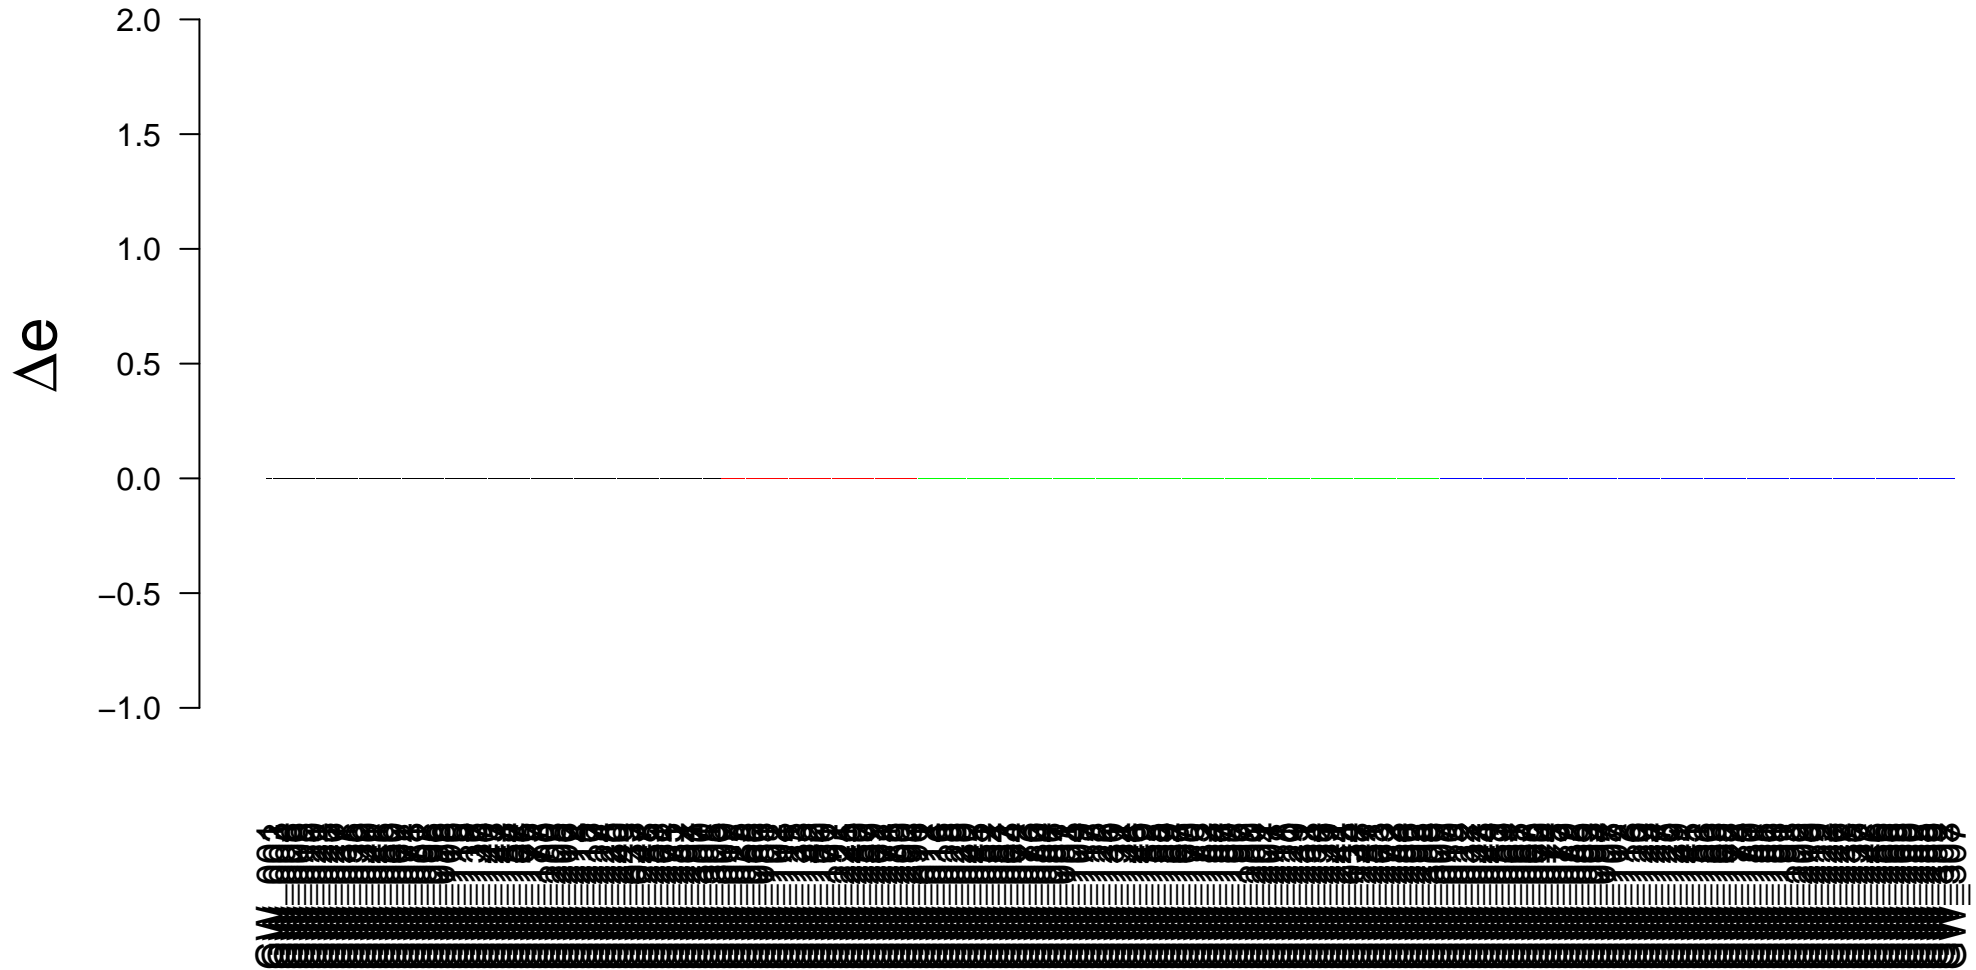

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot O

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot P

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot Q

# Expression of regulation of transcription from RNA polymerase II promoter in response to hypoxia in Spot R
