

signal transduction by phosphorylation

signal transduction by phosphorylation

Enrichment in spots: signal transduction by phosphorylation

Expression of signal transduction by phosphorylation in Spot A

Expression of signal transduction by phosphorylation in Spot B

Expression of signal transduction by phosphorylation in Spot C

Expression of signal transduction by phosphorylation in Spot D

Expression of signal transduction by phosphorylation in Spot E

Expression of signal transduction by phosphorylation in Spot F

Expression of signal transduction by phosphorylation in Spot G

Expression of signal transduction by phosphorylation in Spot H

Expression of signal transduction by phosphorylation in Spot I

Expression of signal transduction by phosphorylation in Spot J

Expression of signal transduction by phosphorylation in Spot K

Expression of signal transduction by phosphorylation in Spot L

Expression of signal transduction by phosphorylation in Spot M

Expression of signal transduction by phosphorylation in Spot N

Expression of signal transduction by phosphorylation in Spot O

Δe

Expression of signal transduction by phosphorylation in Spot P

Expression of signal transduction by phosphorylation in Spot Q

Expression of signal transduction by phosphorylation in Spot R
