

signal transduction involved in regulation of gene expression

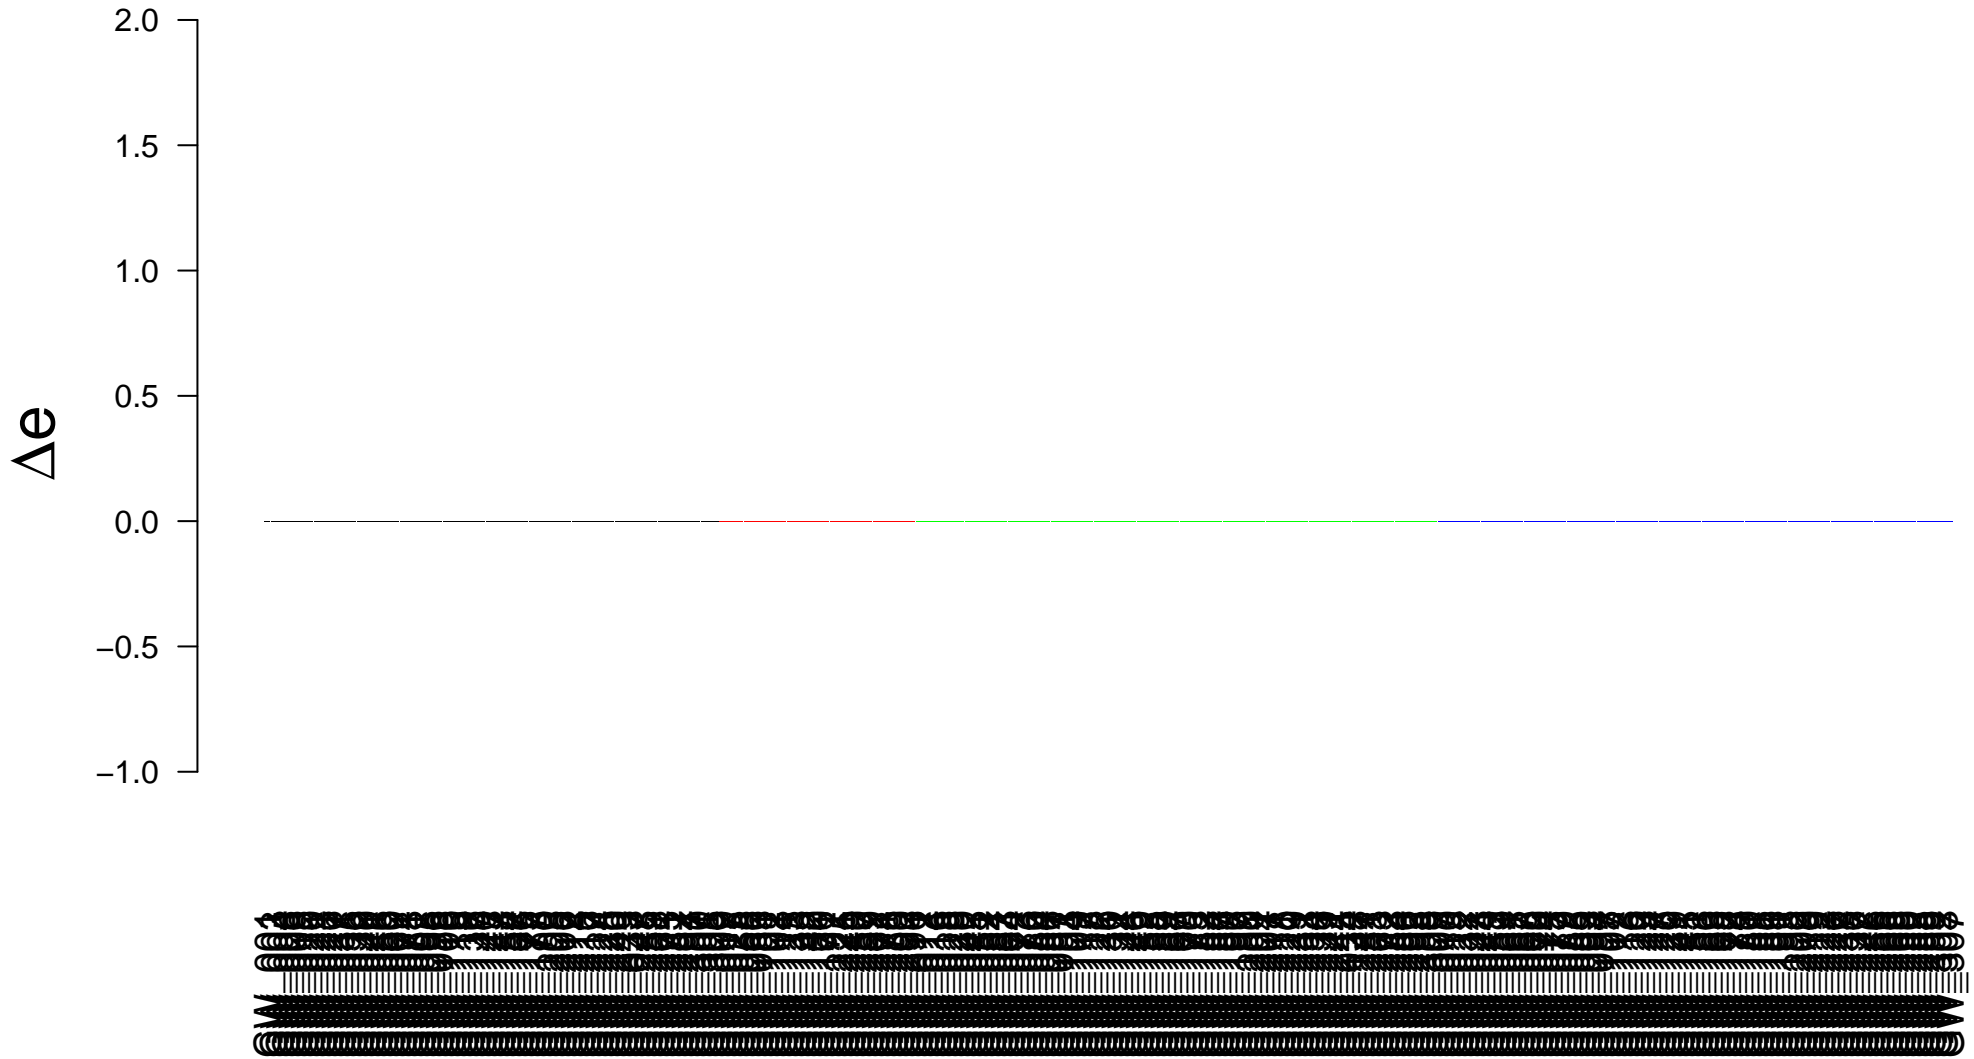

signal transduction involved in regulation of gene expression

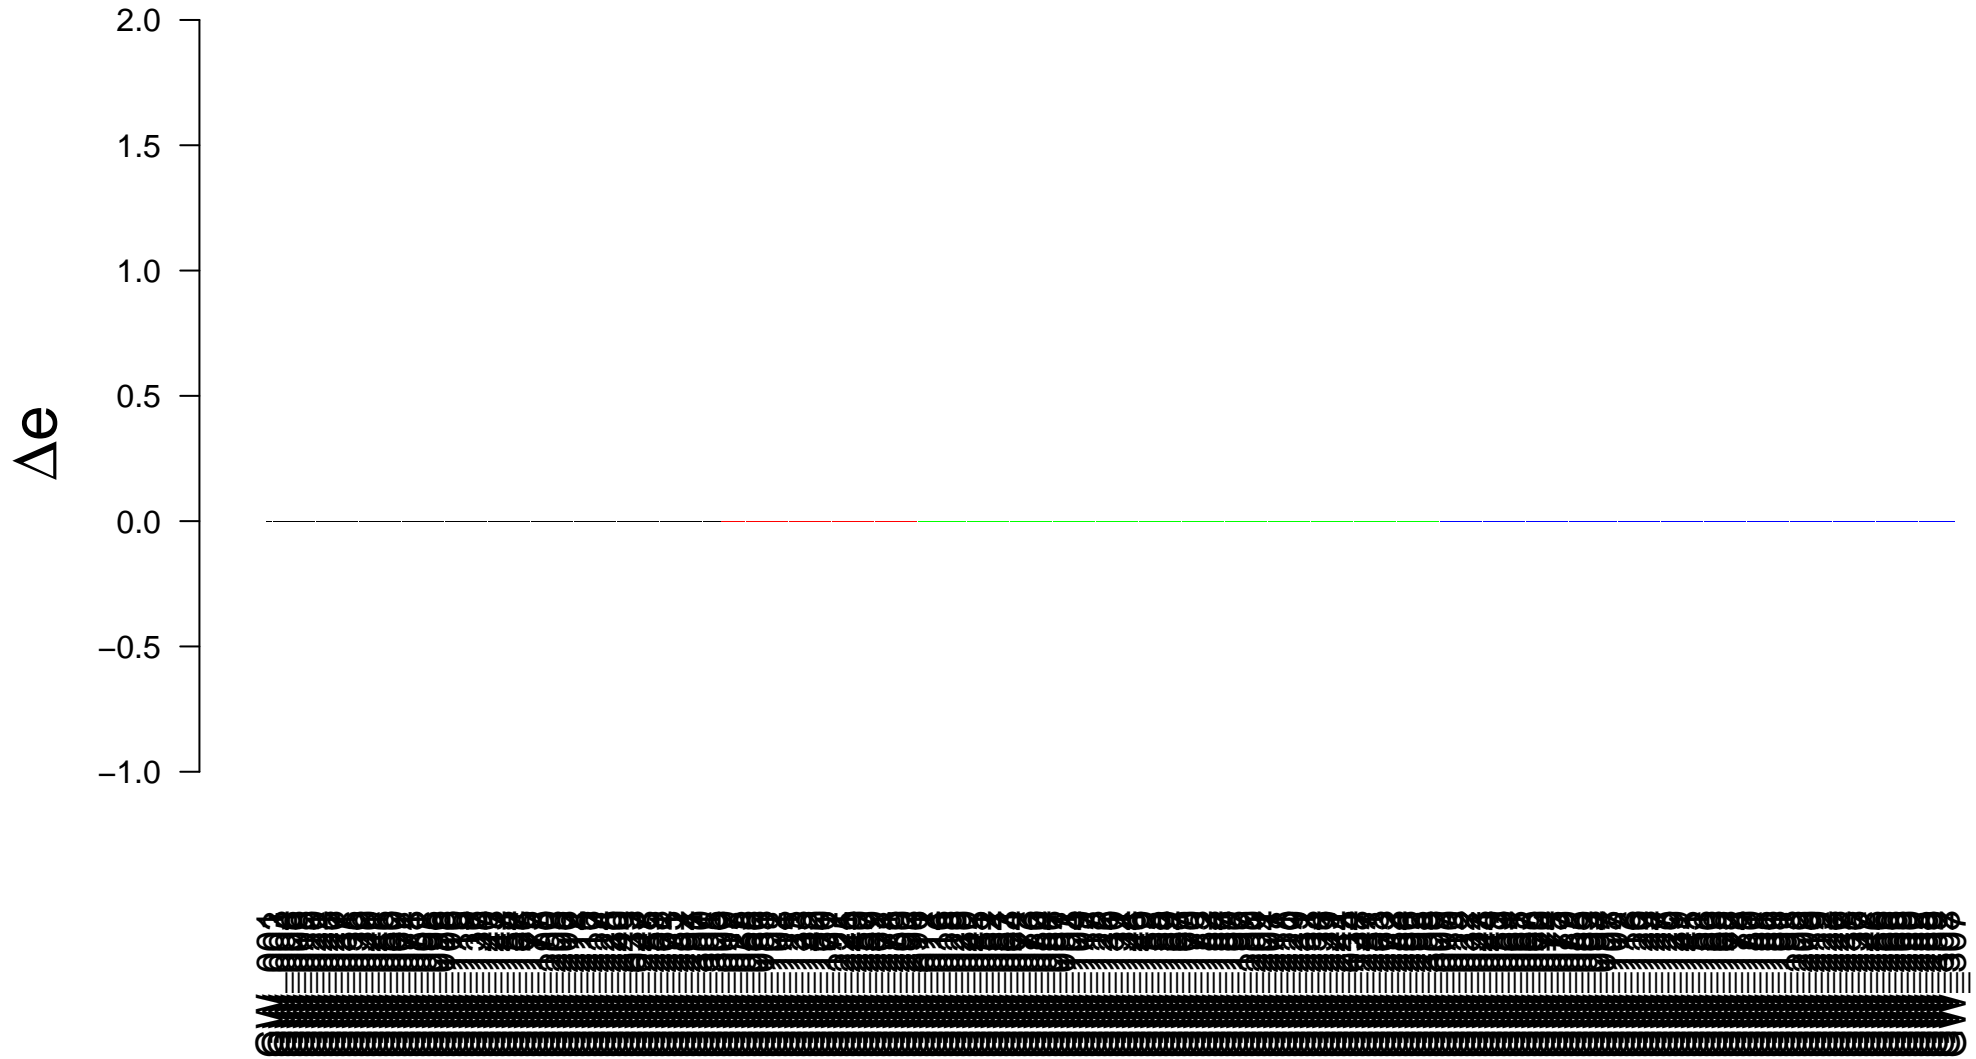

Enrichment in spots: signal transduction involved in regulation of gene expression

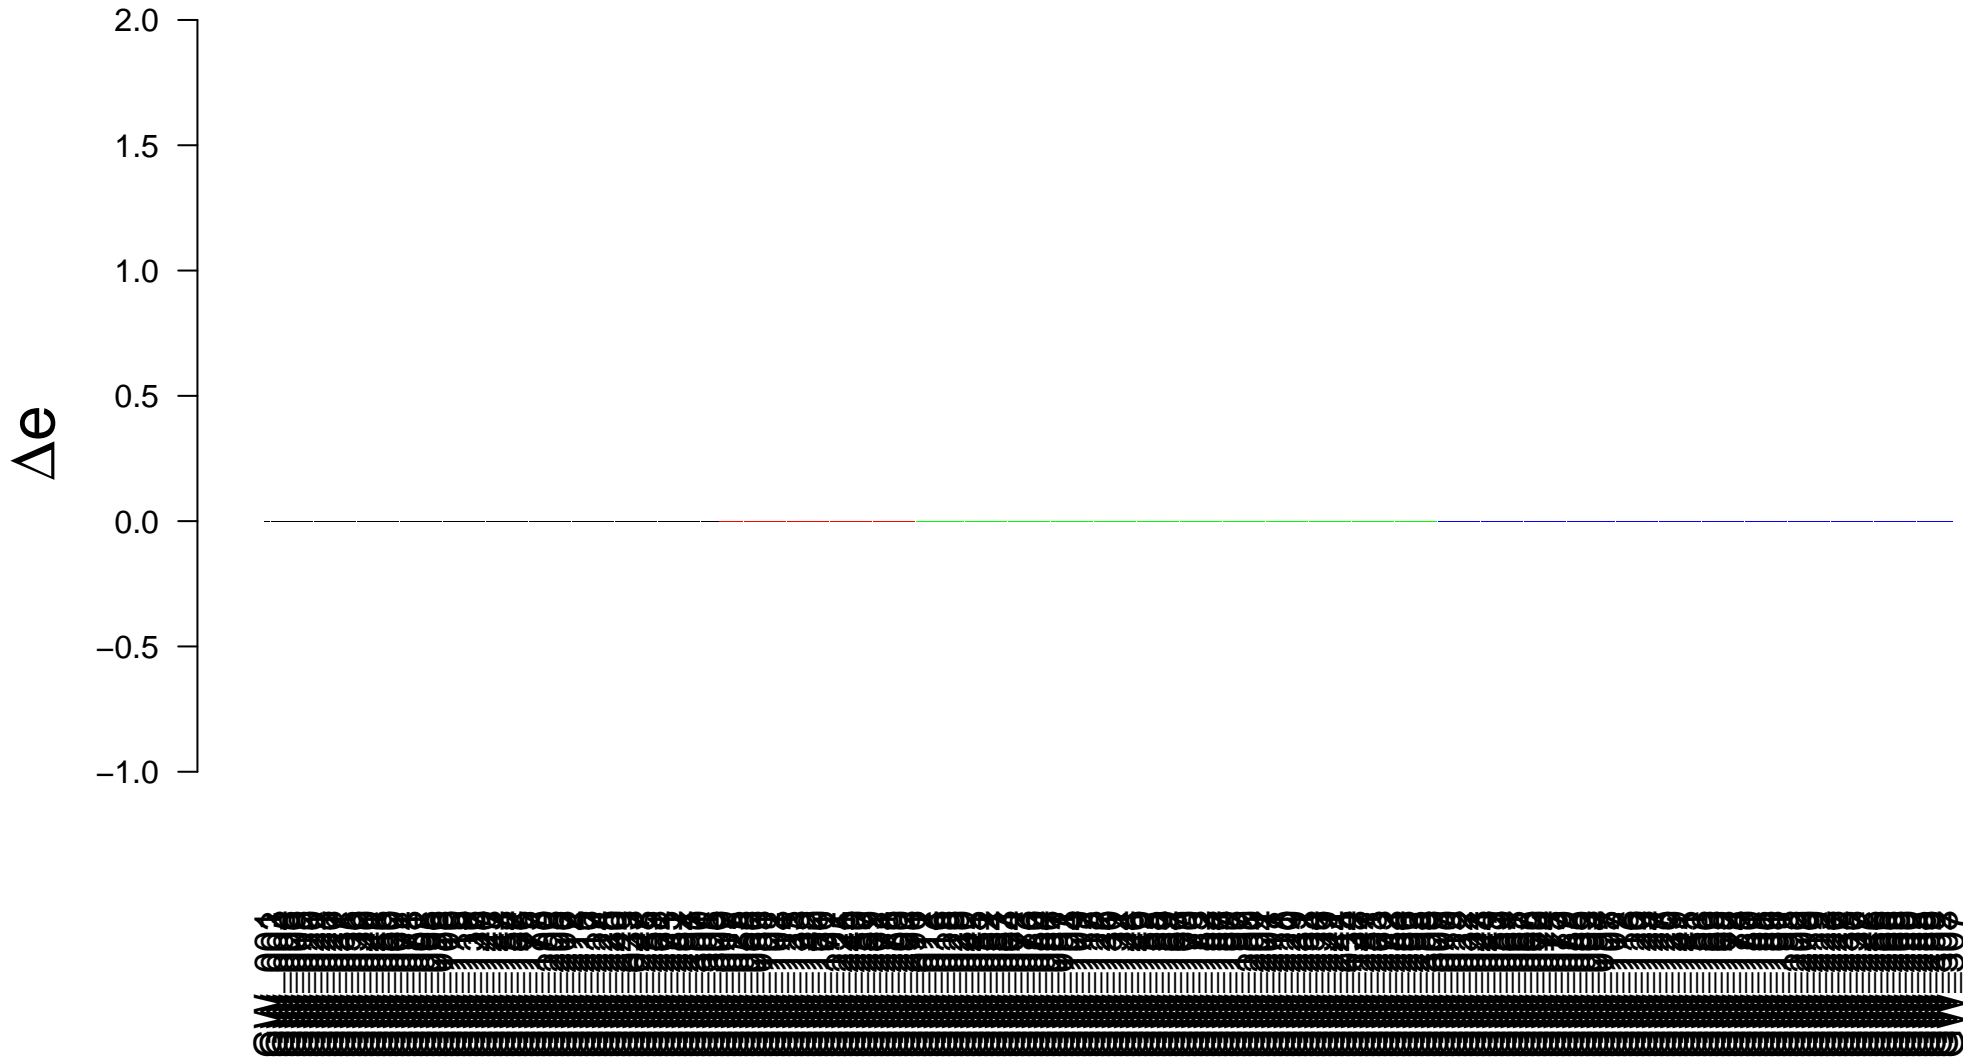

Expression of signal transduction involved in regulation of gene expression in Spot A

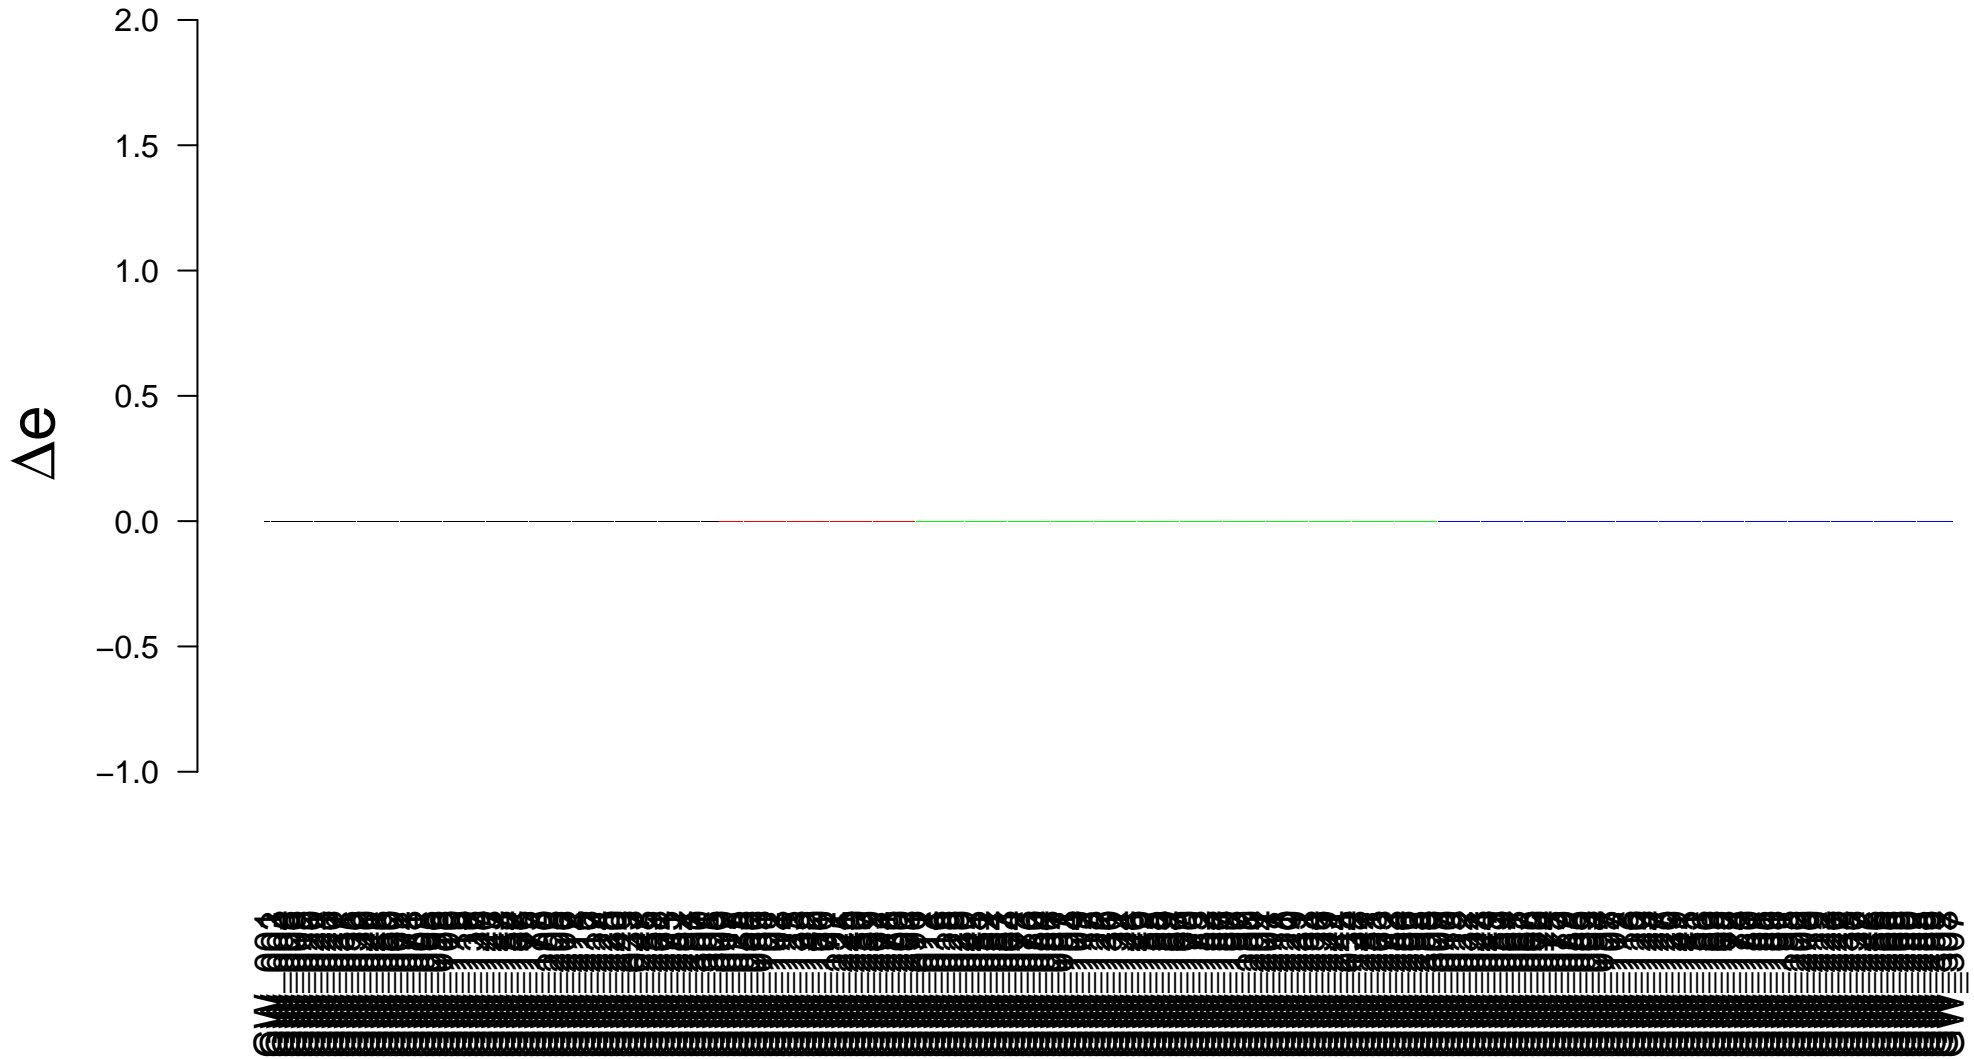

Expression of signal transduction involved in regulation of gene expression in Spot B

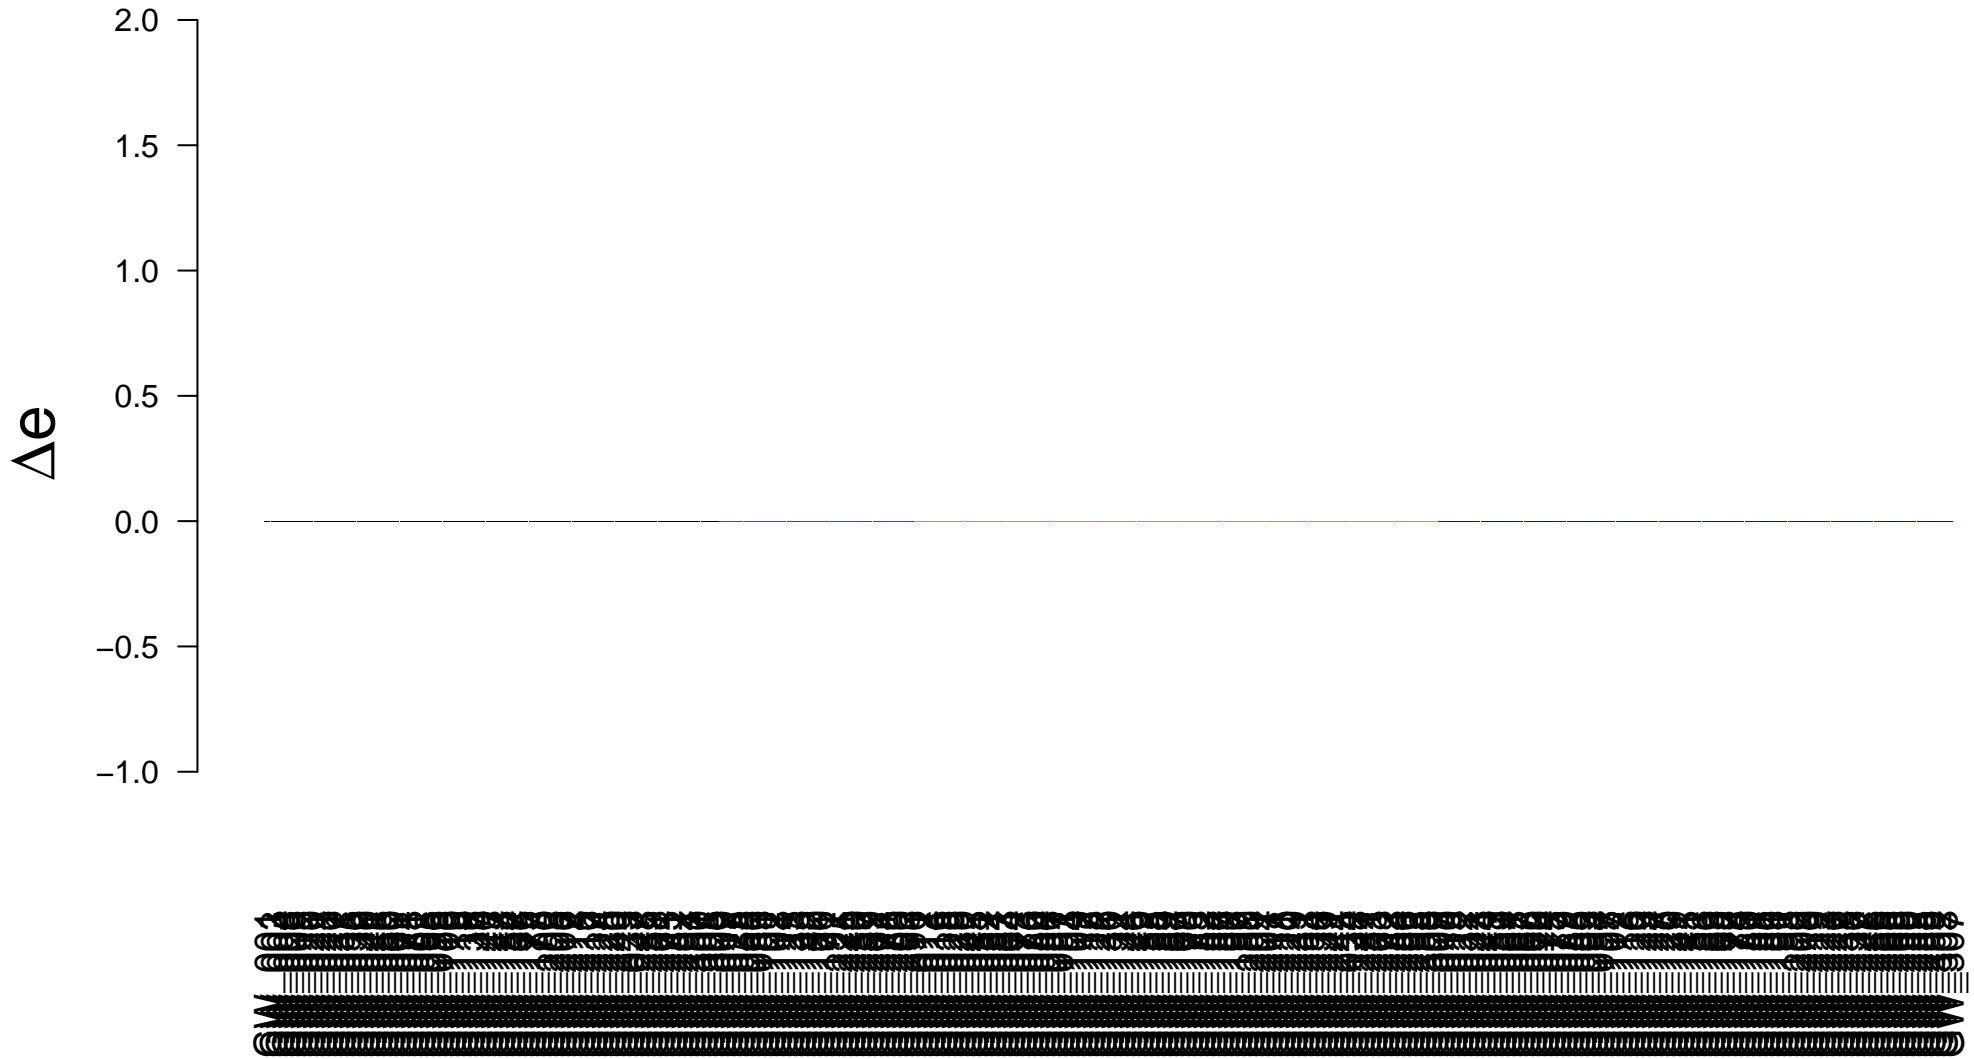

Expression of signal transduction involved in regulation of gene expression in Spot C

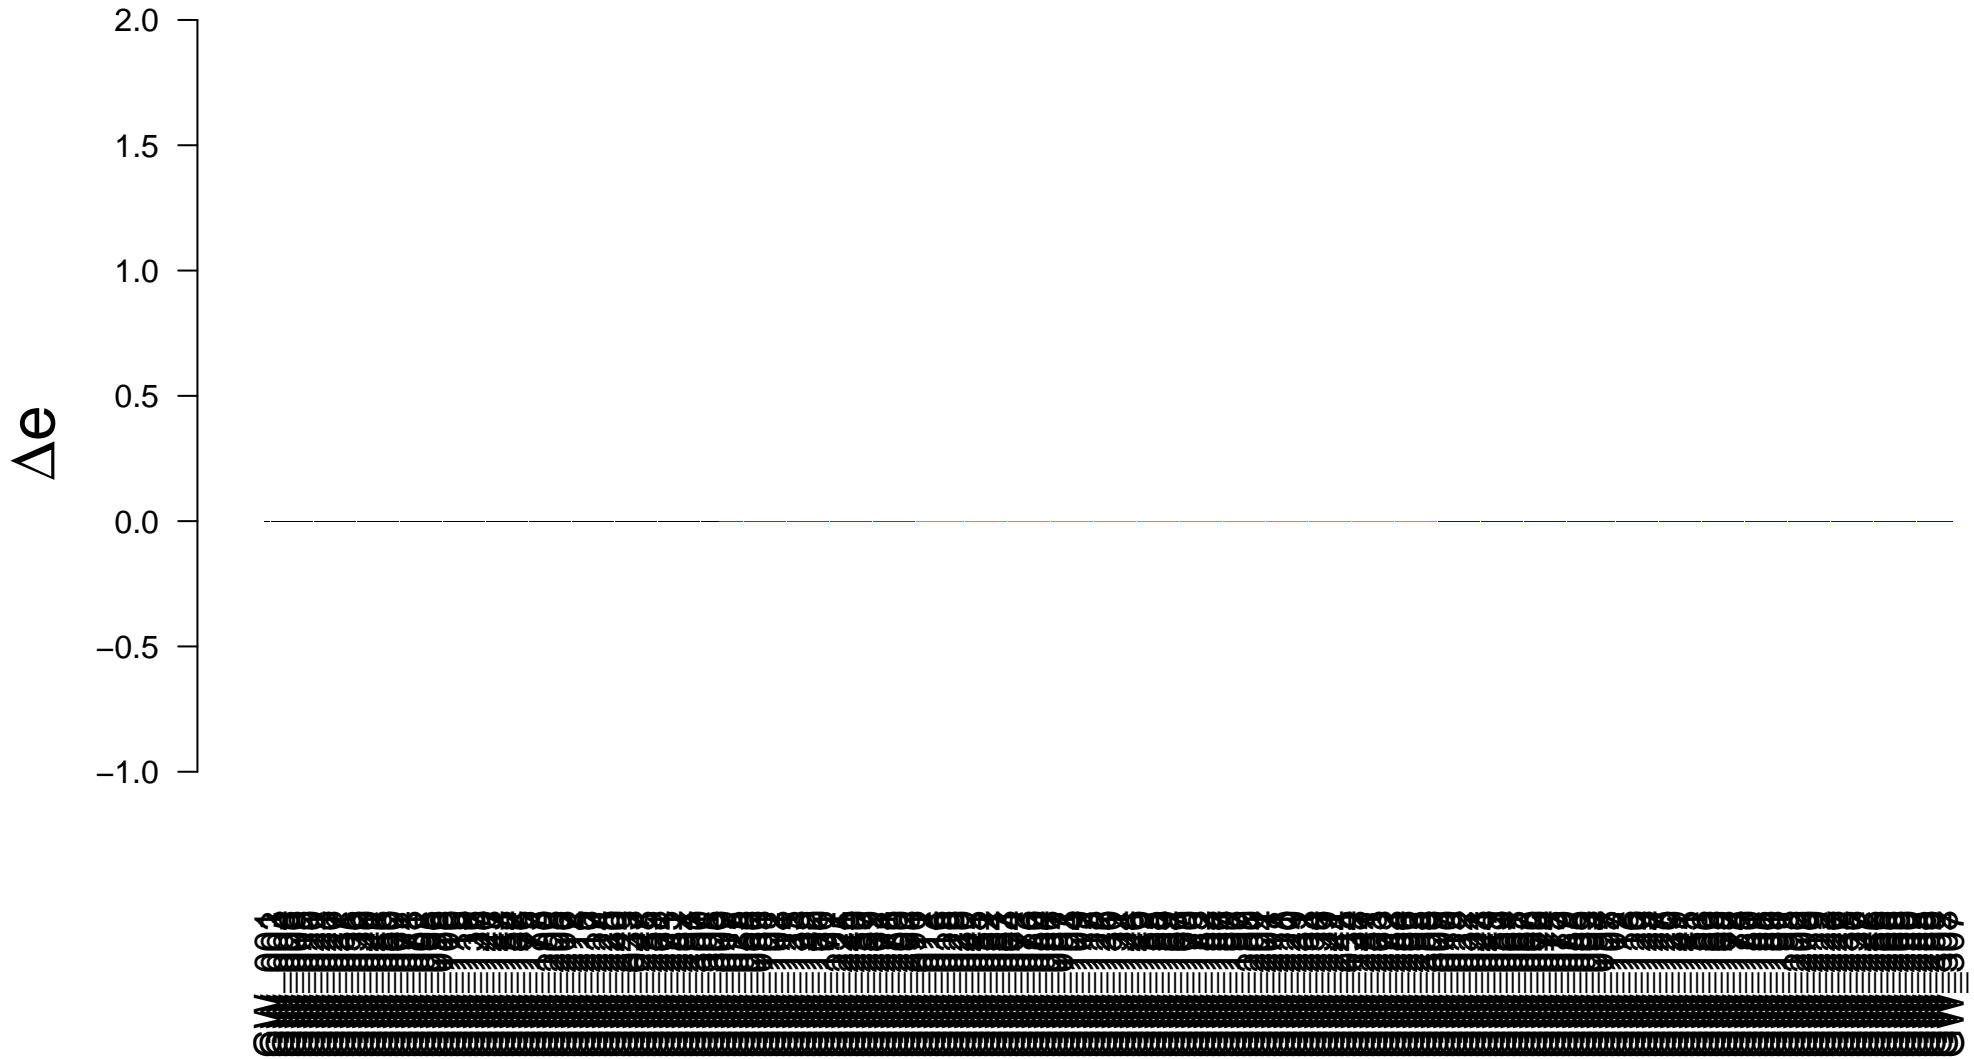

Expression of signal transduction involved in regulation of gene expression in Spot D

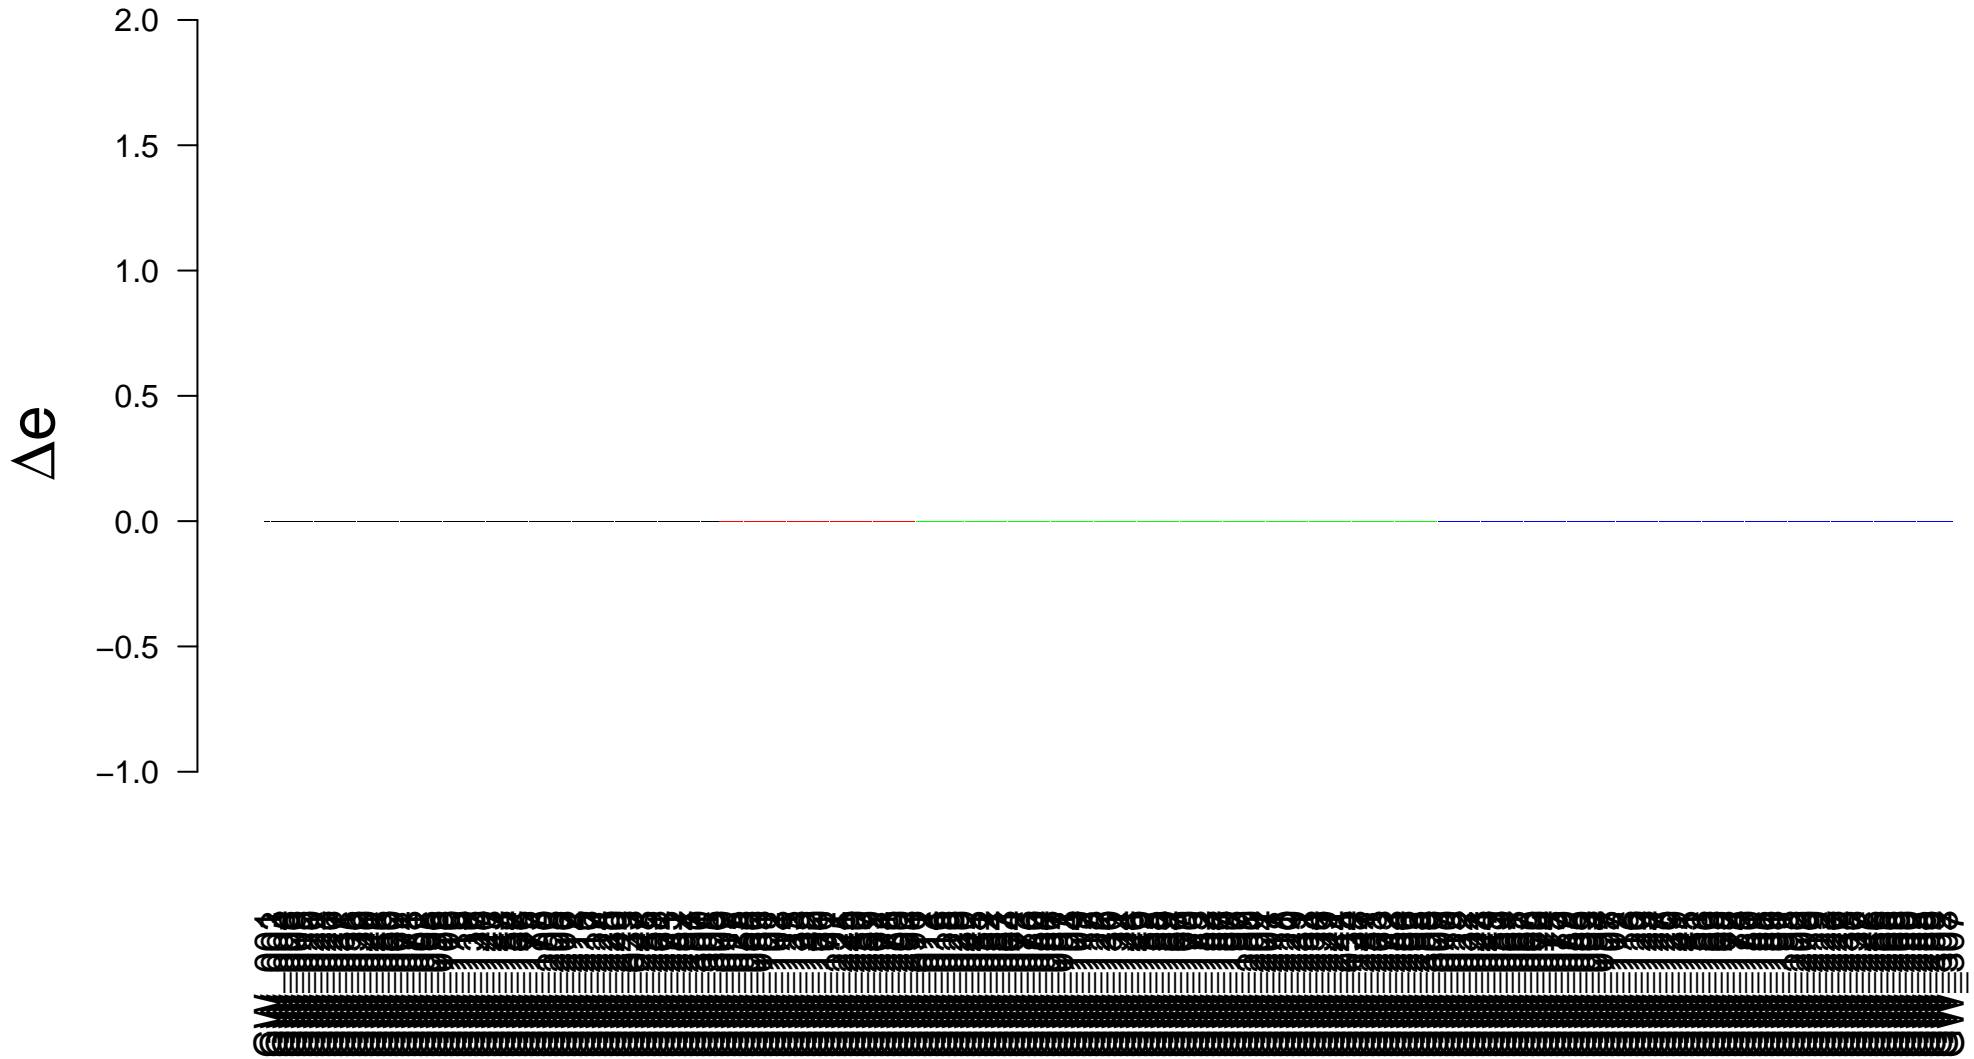

Expression of signal transduction involved in regulation of gene expression in Spot E

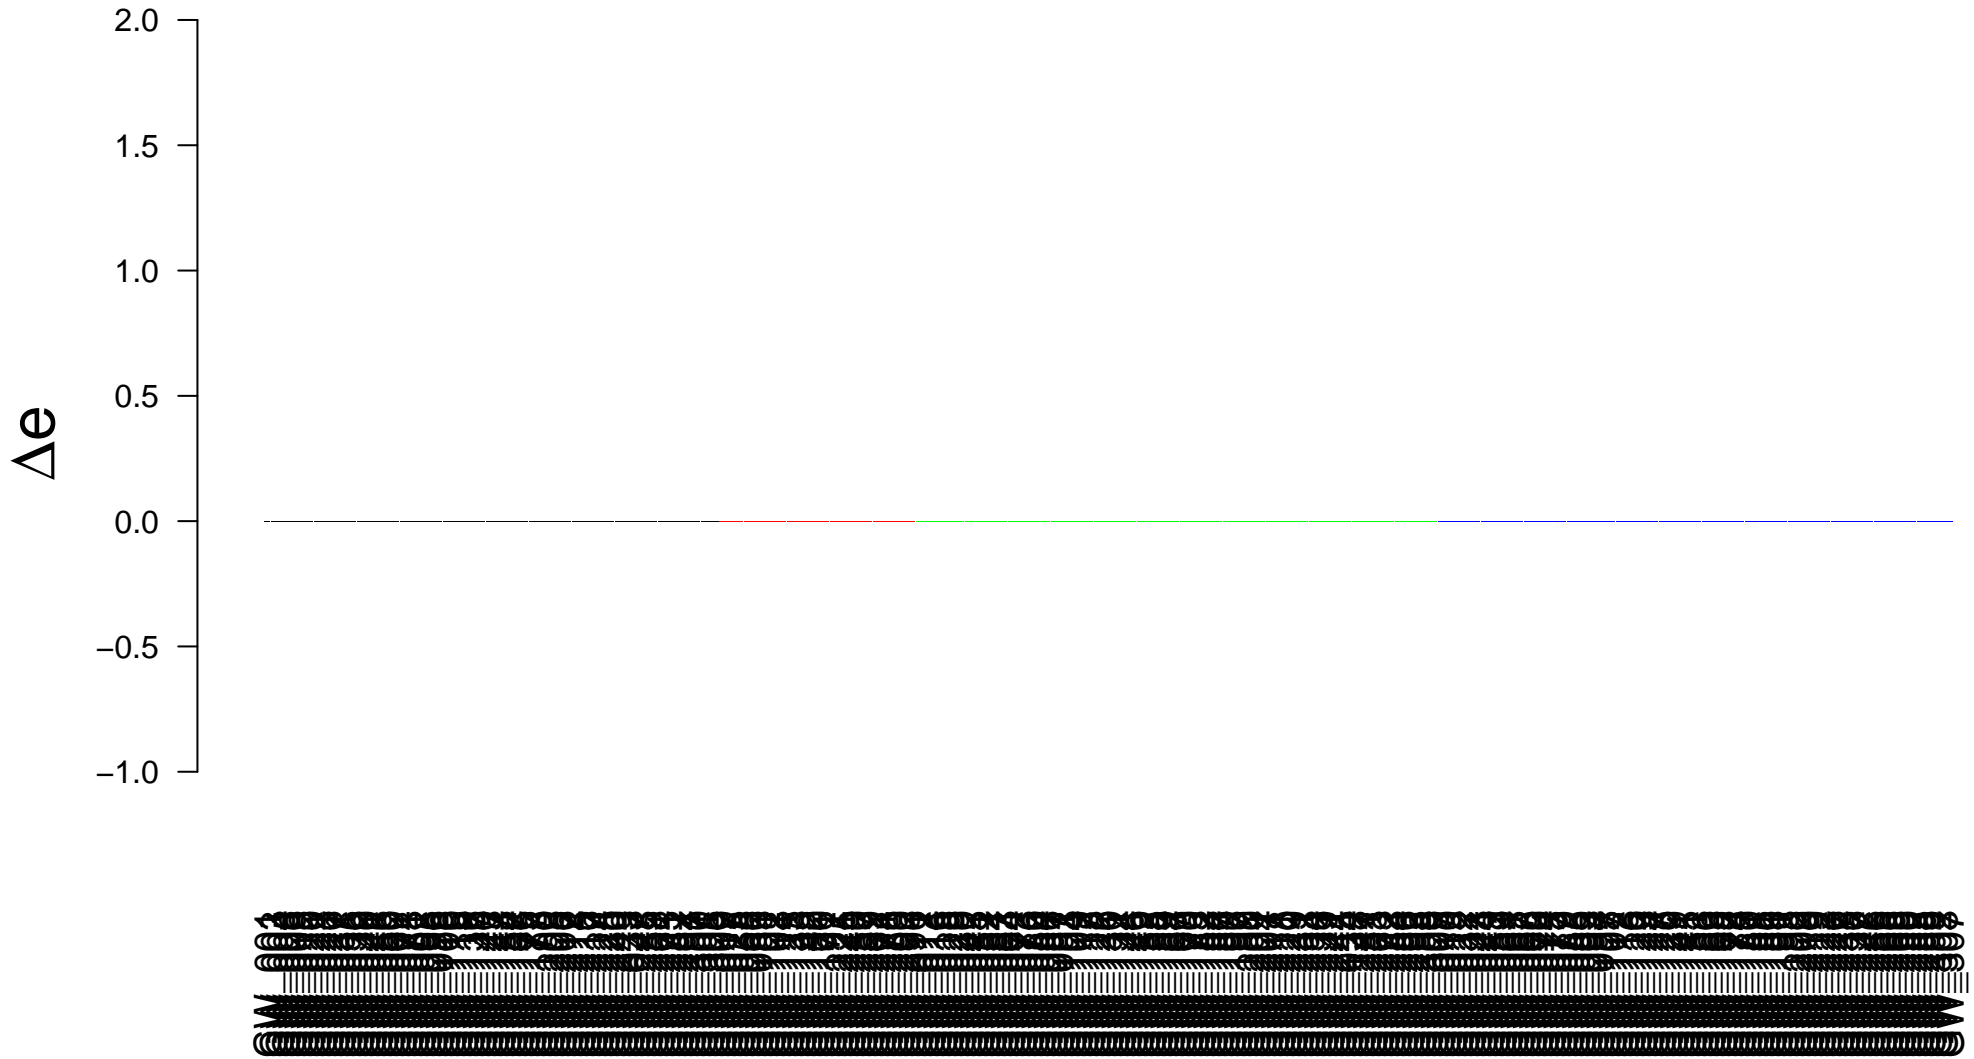

Expression of signal transduction involved in regulation of gene expression in Spot F

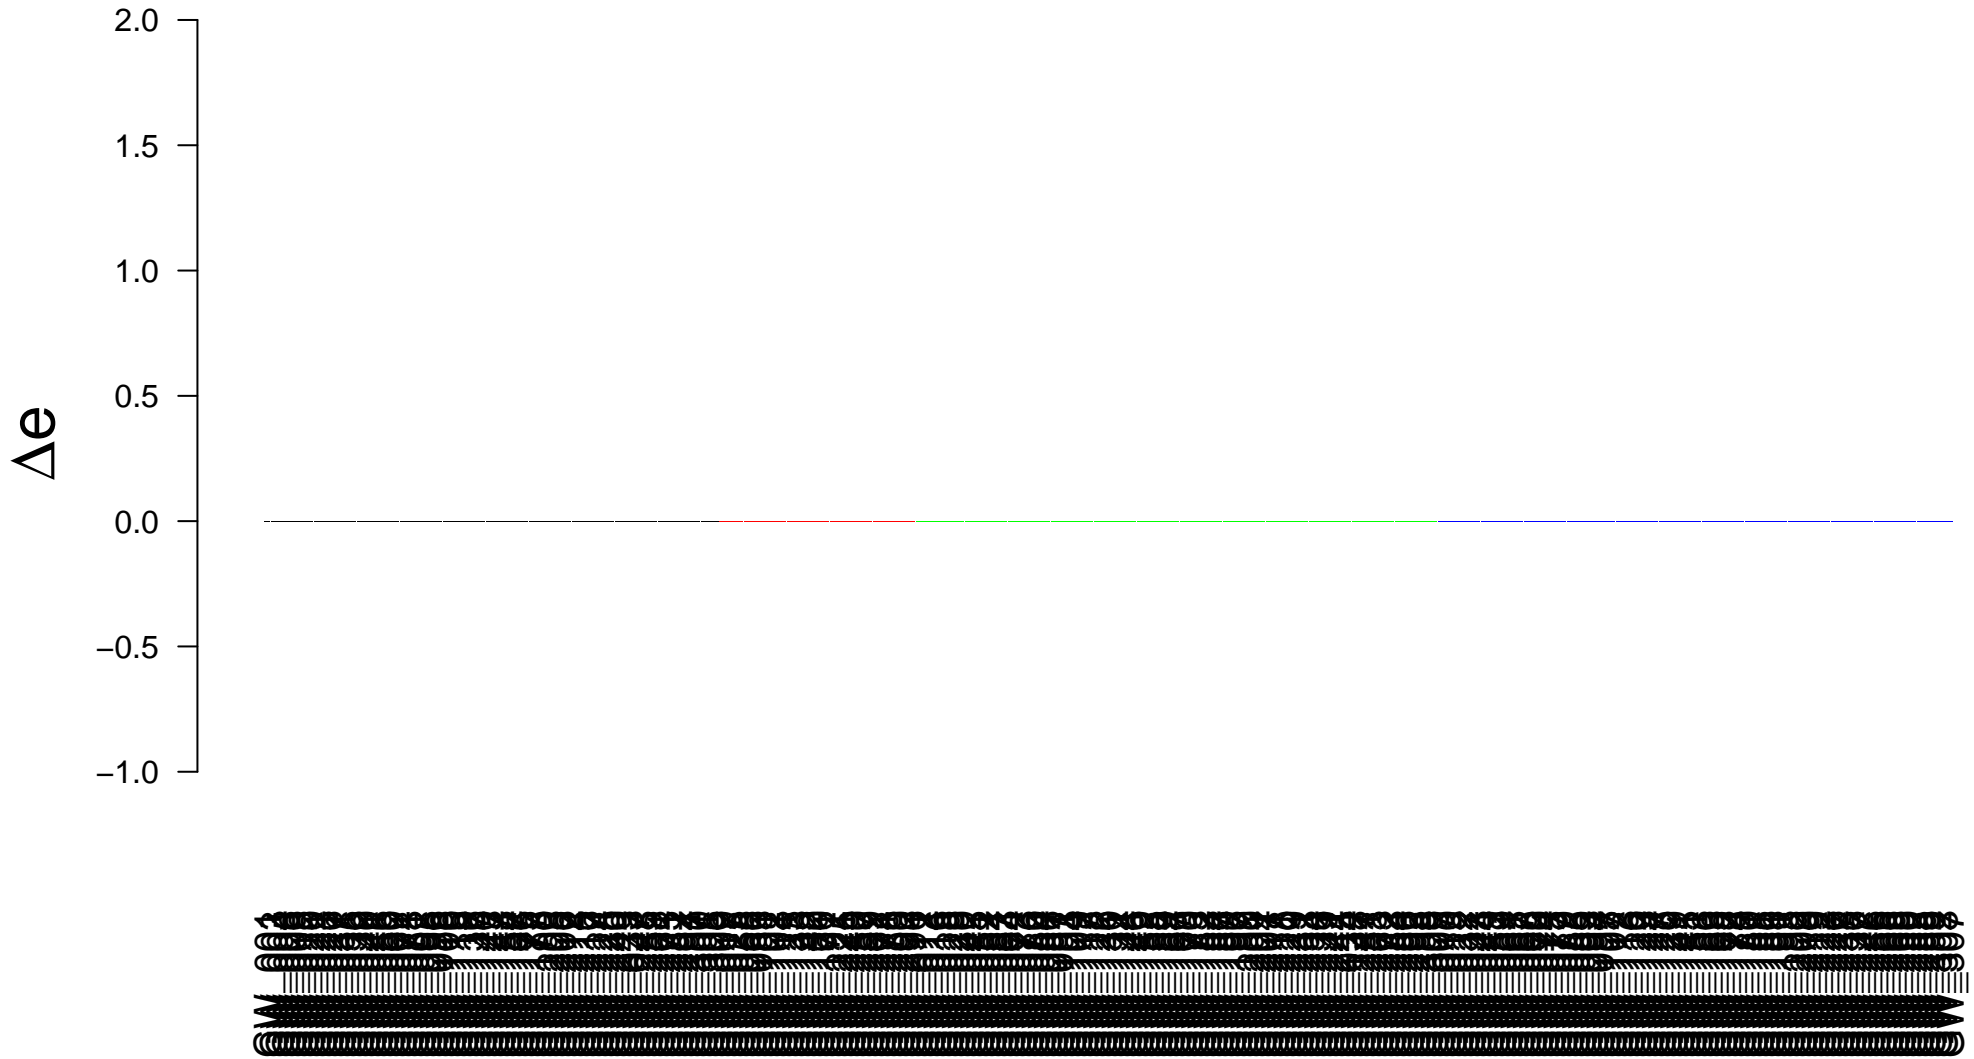

Expression of signal transduction involved in regulation of gene expression in Spot G

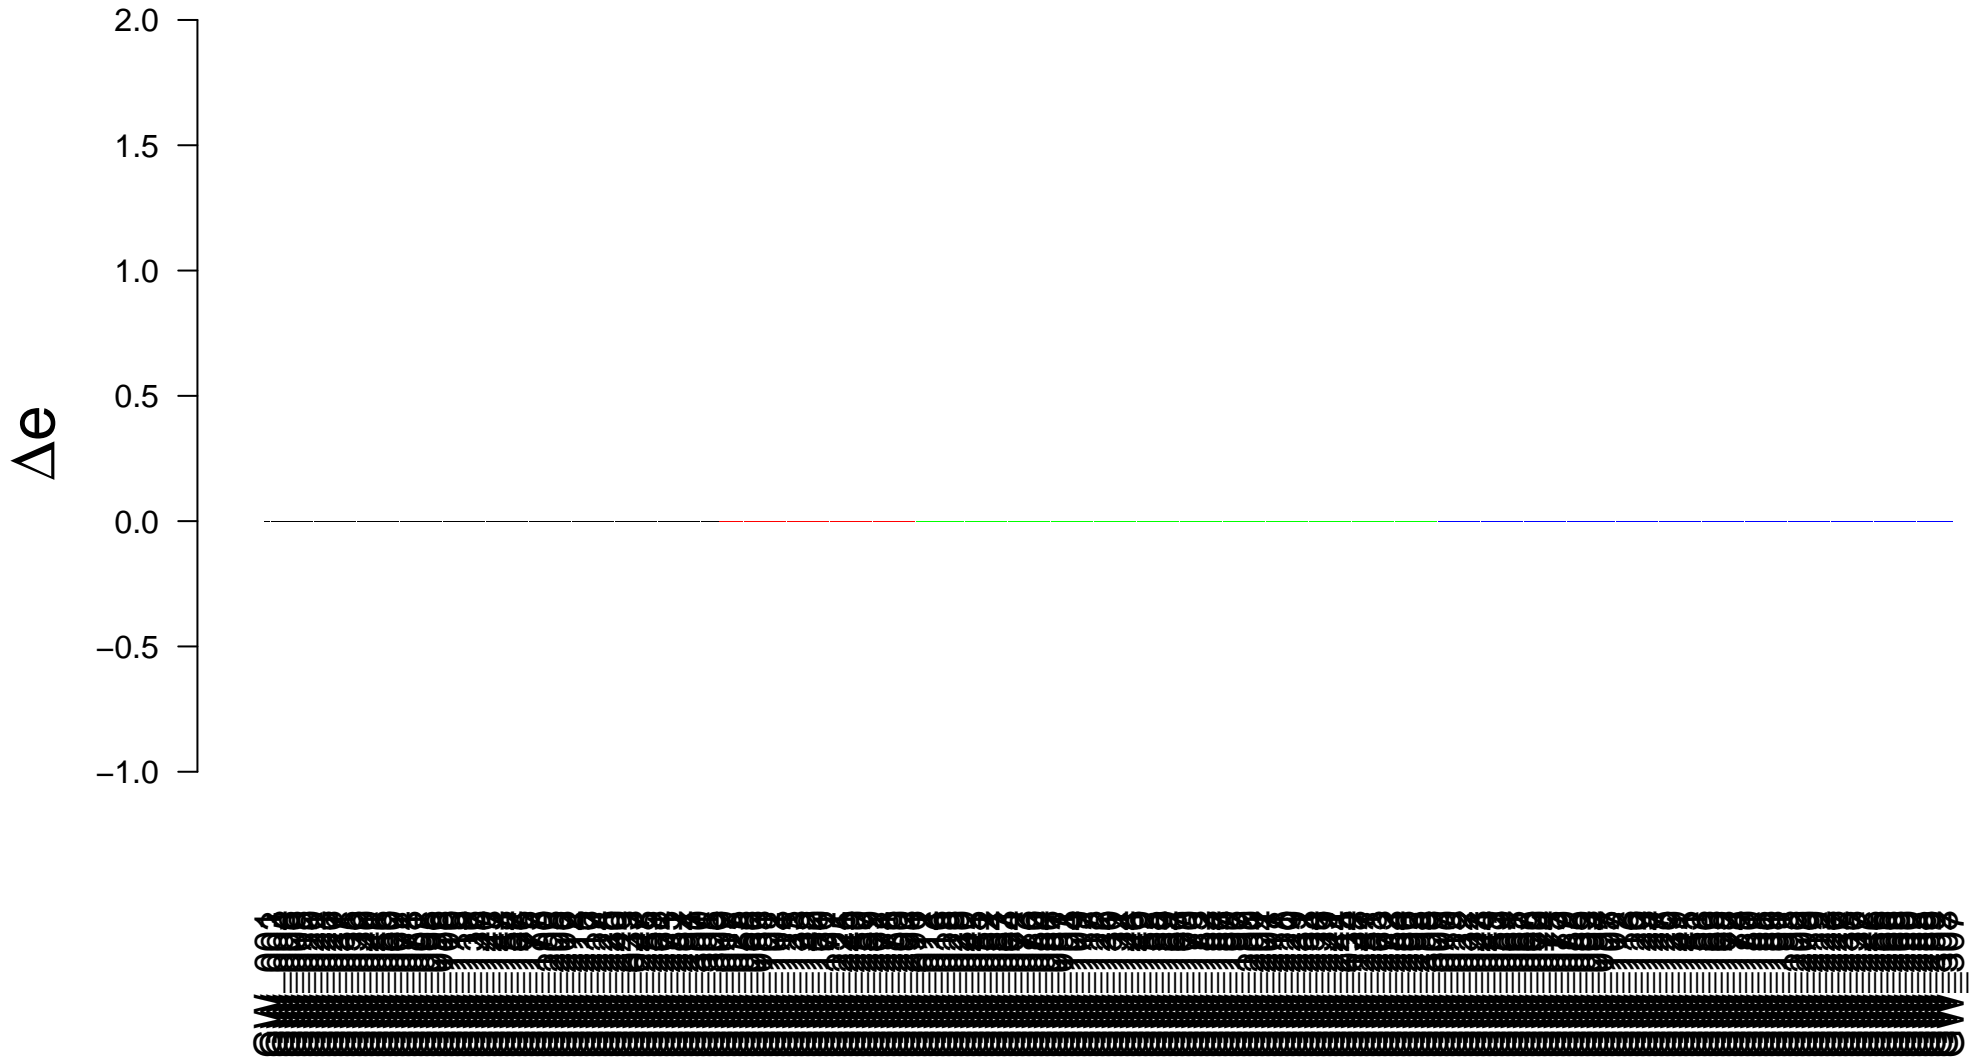

Expression of signal transduction involved in regulation of gene expression in Spot H

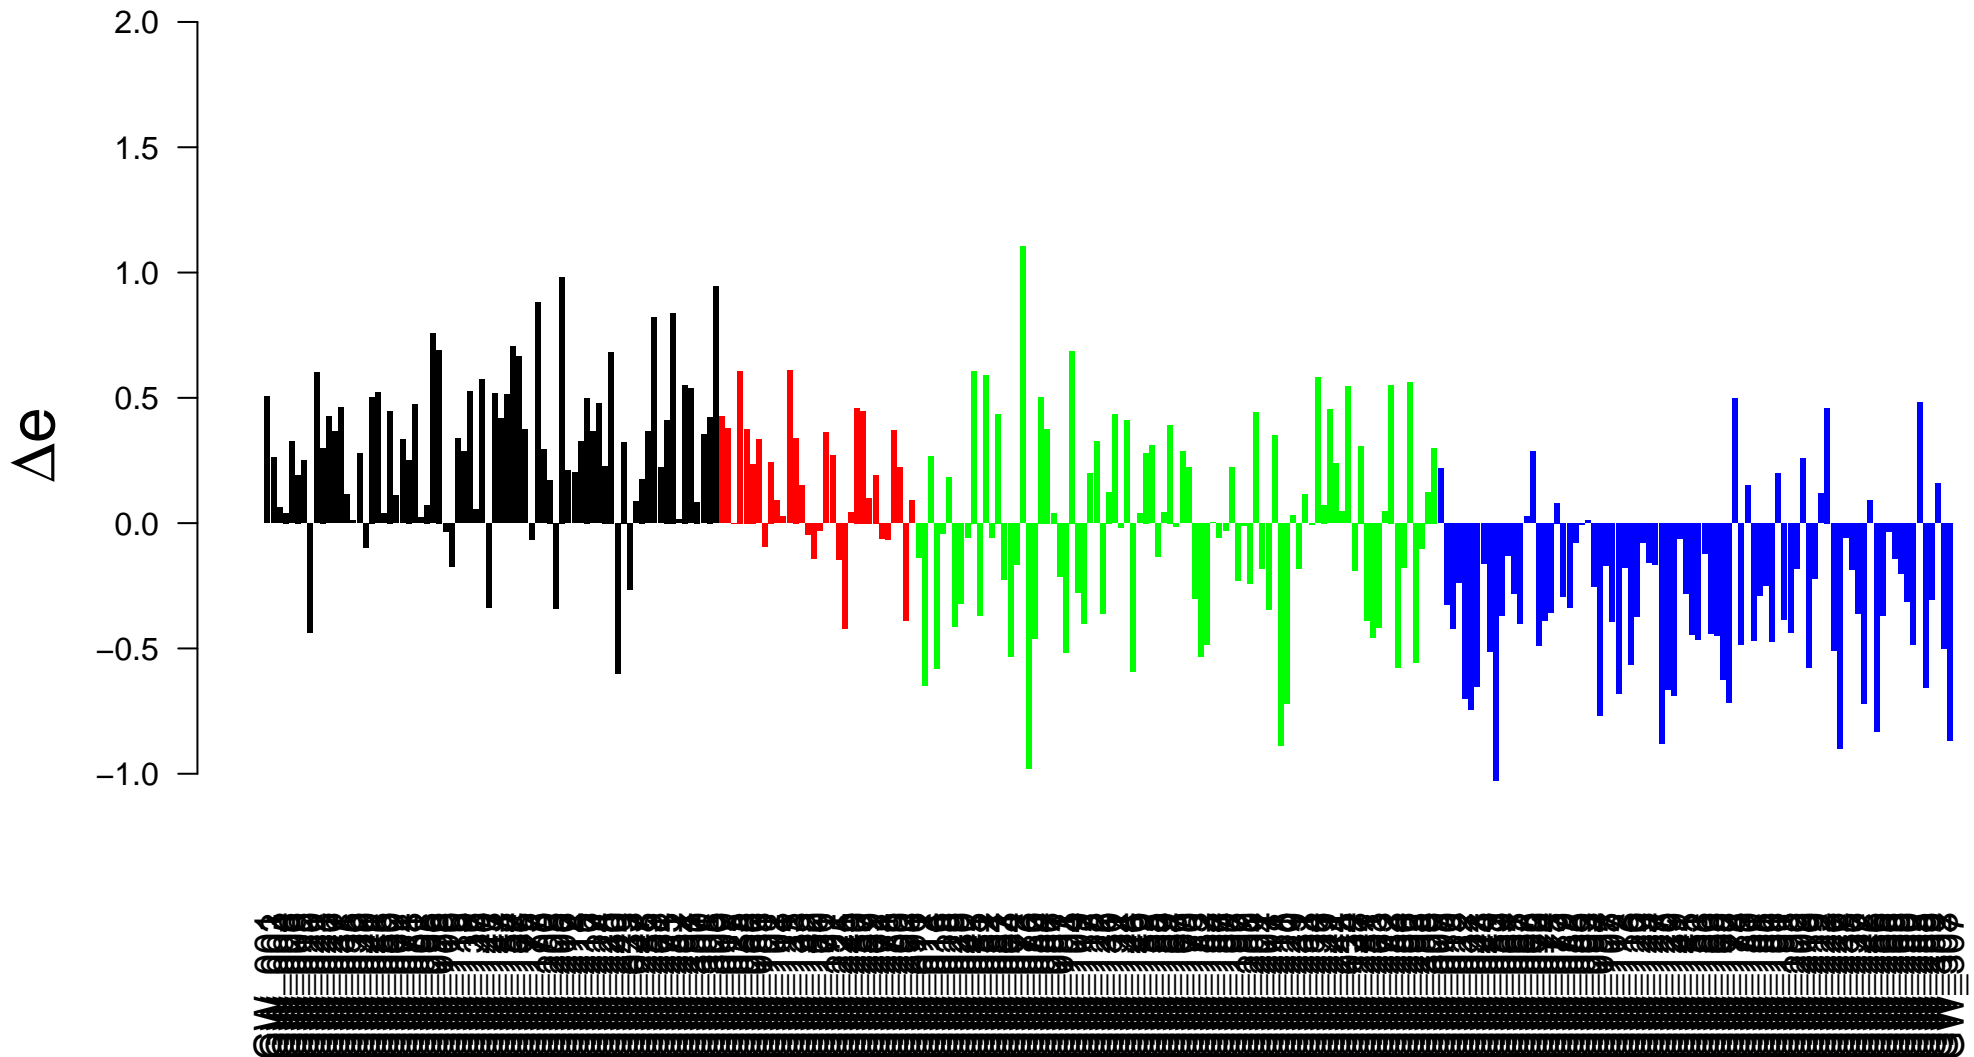

Expression of signal transduction involved in regulation of gene expression in Spot I

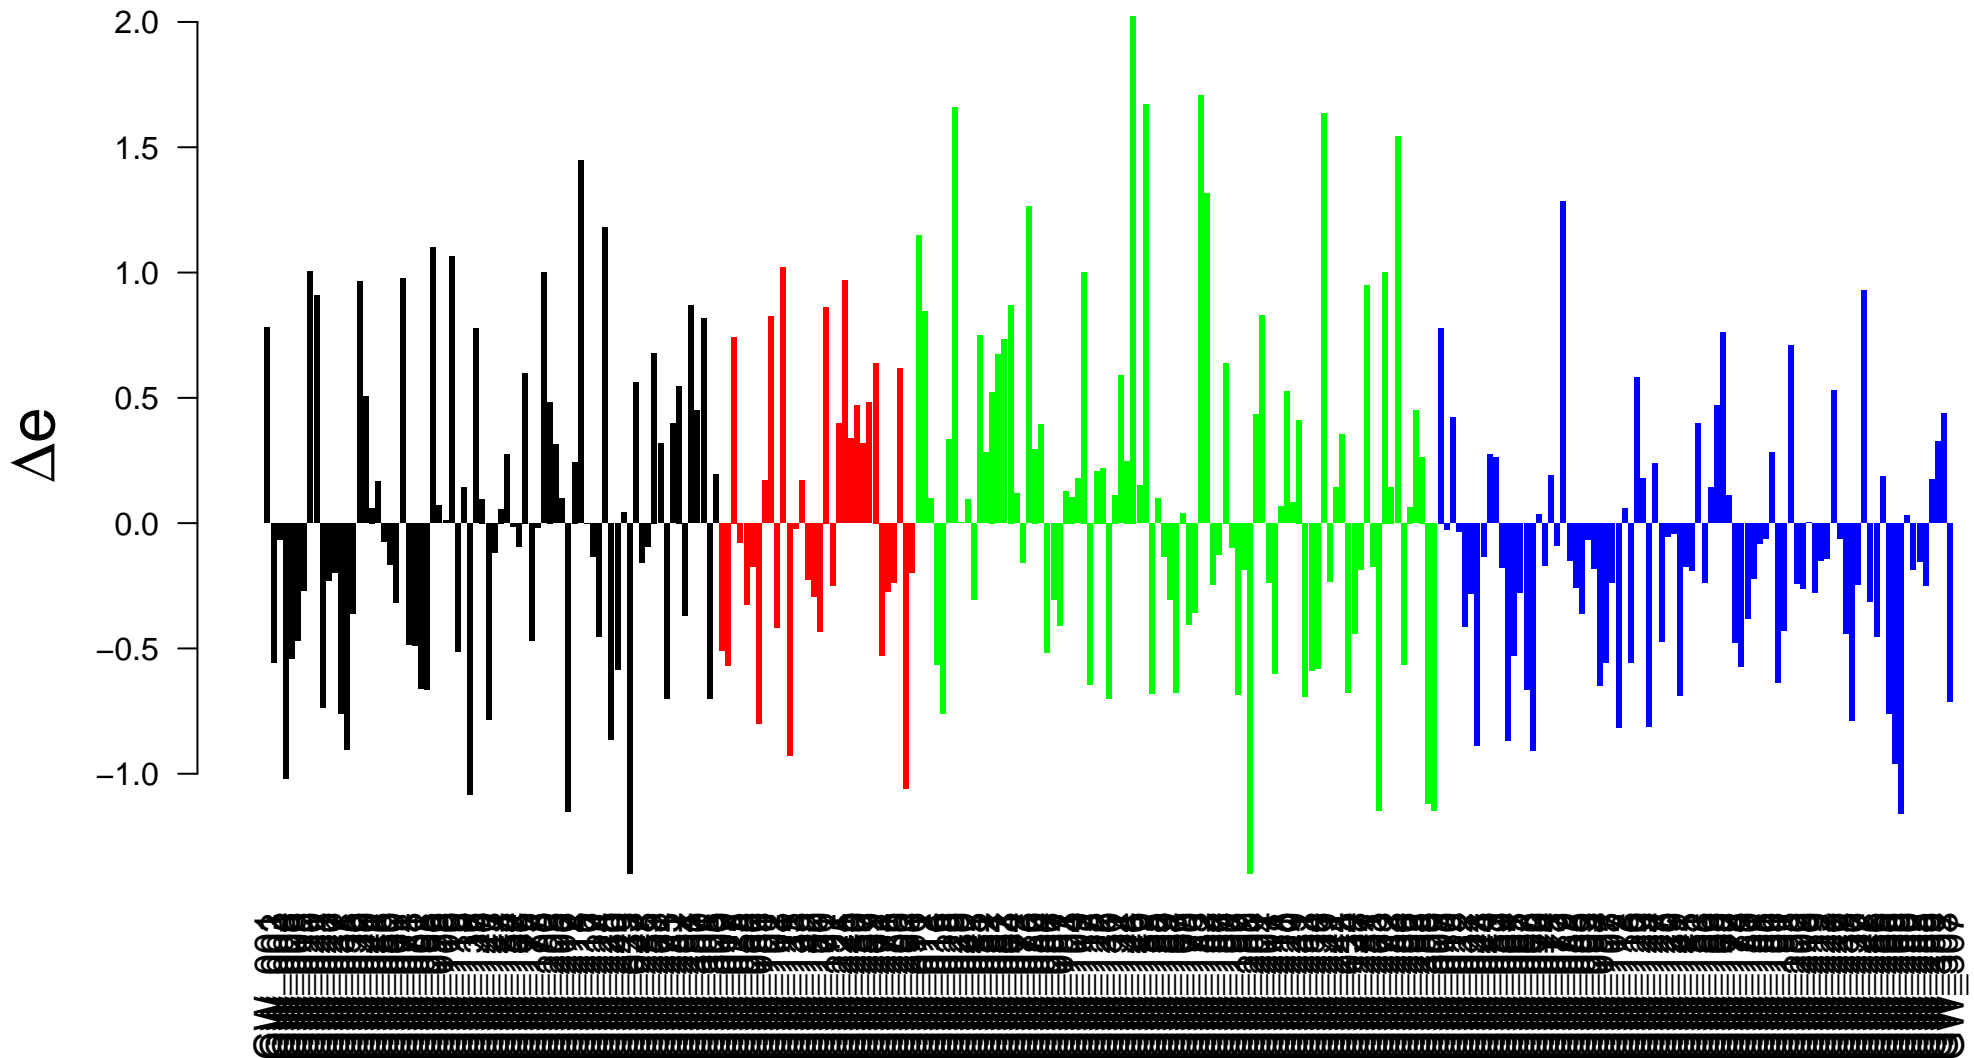

Expression of signal transduction involved in regulation of gene expression in Spot J

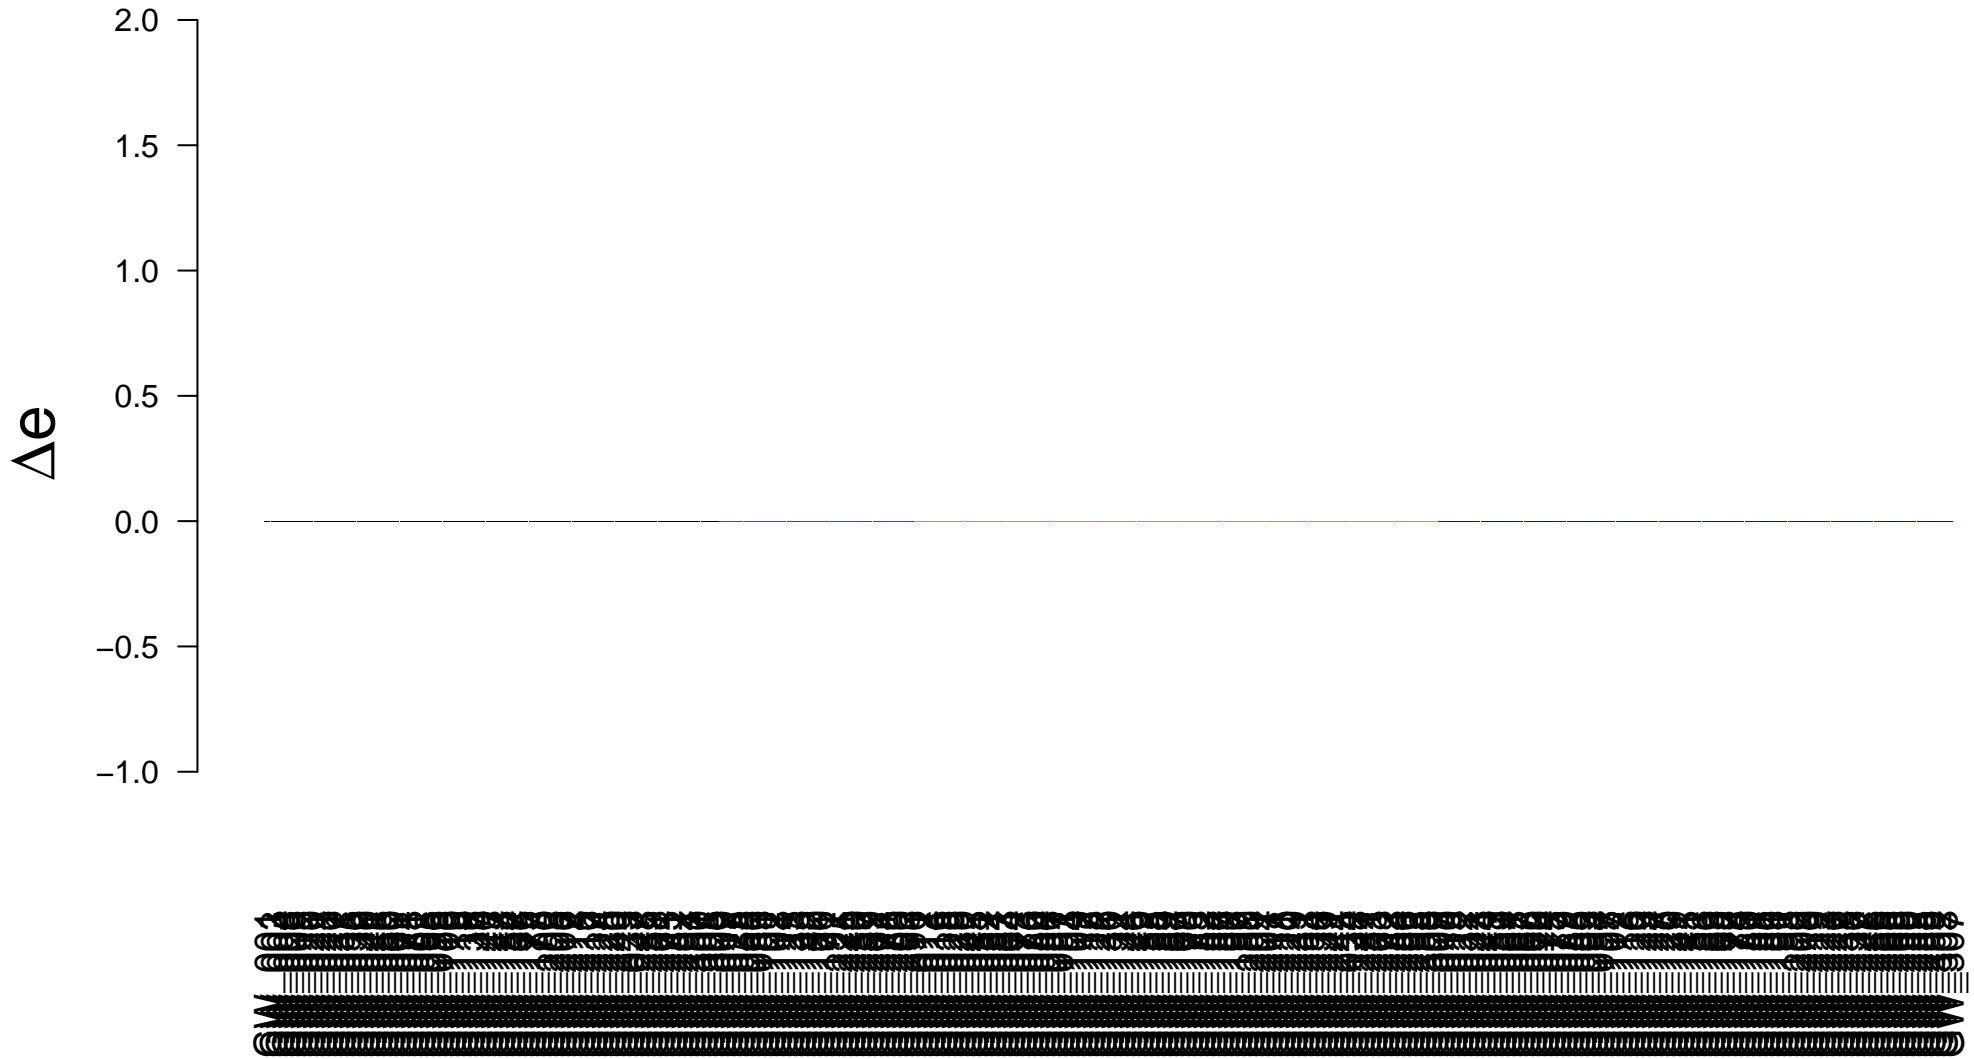

Expression of signal transduction involved in regulation of gene expression in Spot K

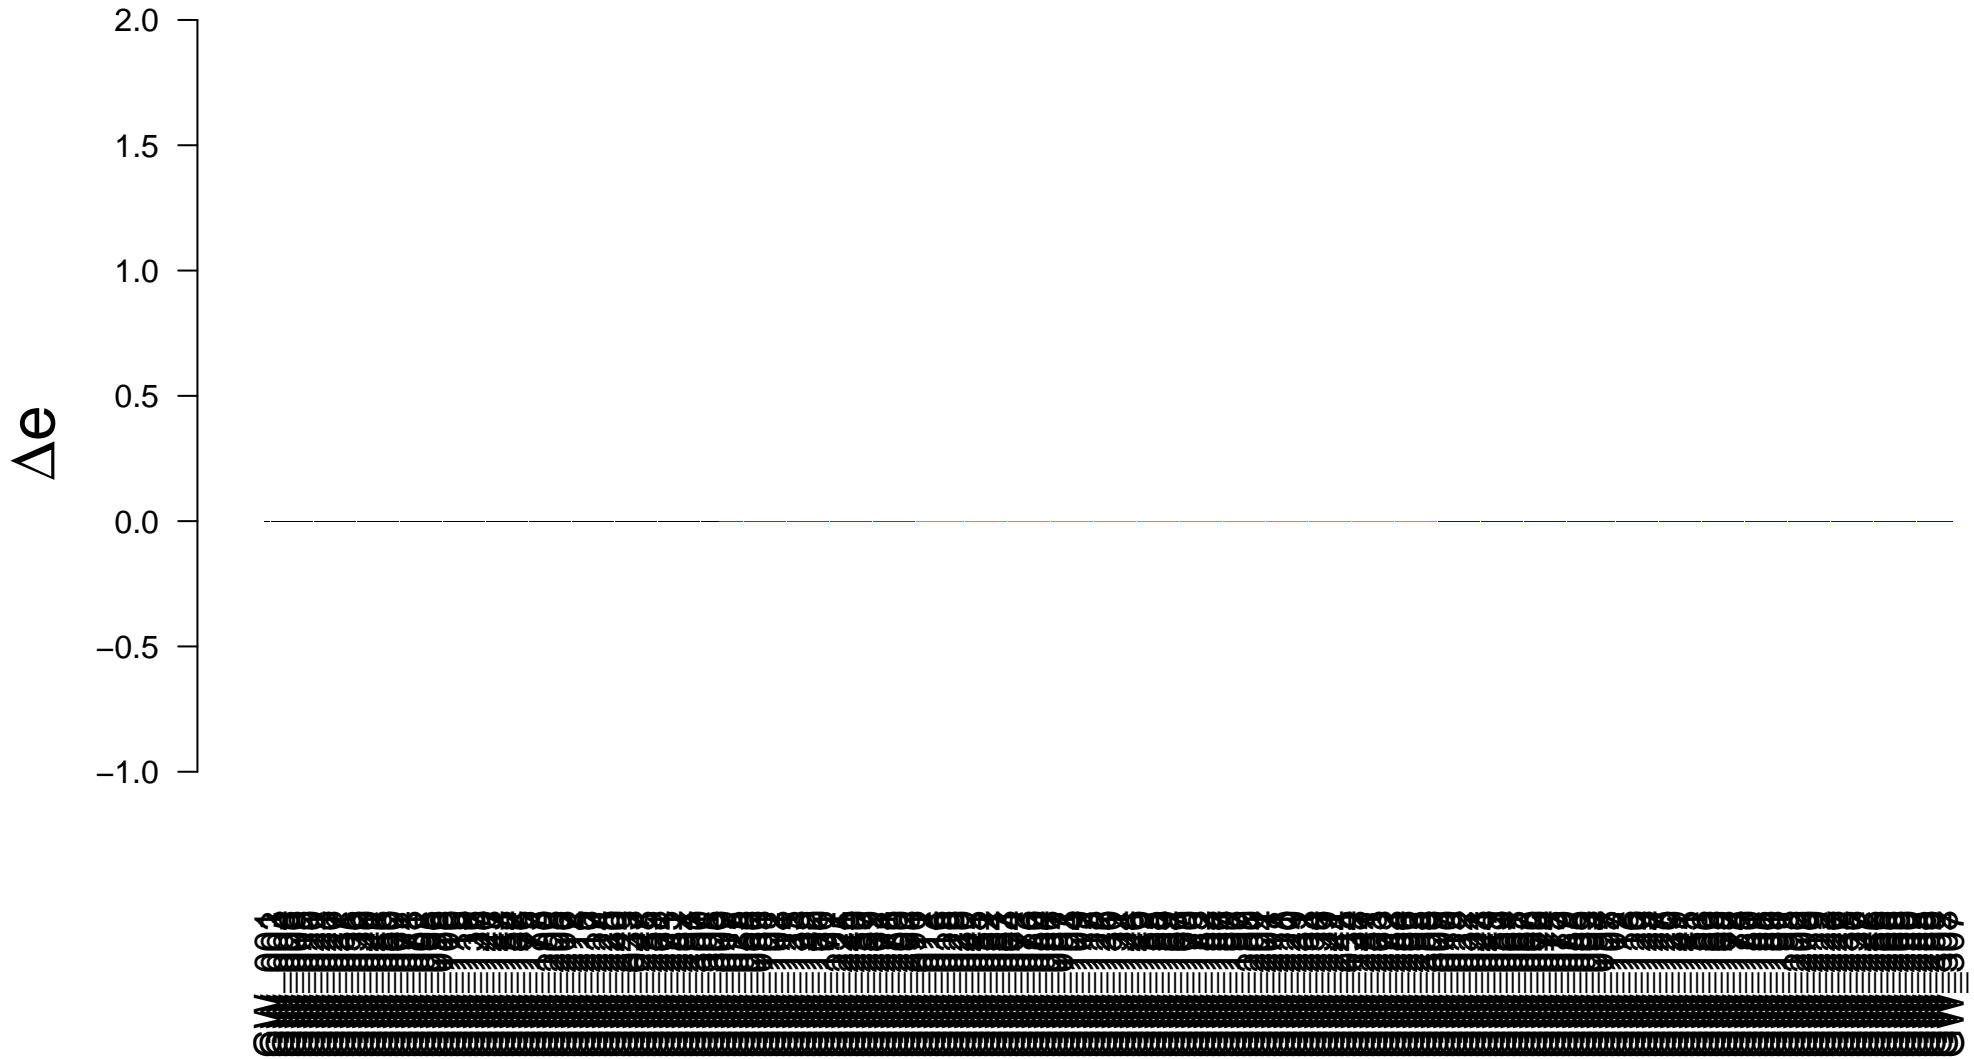

Expression of signal transduction involved in regulation of gene expression in Spot L

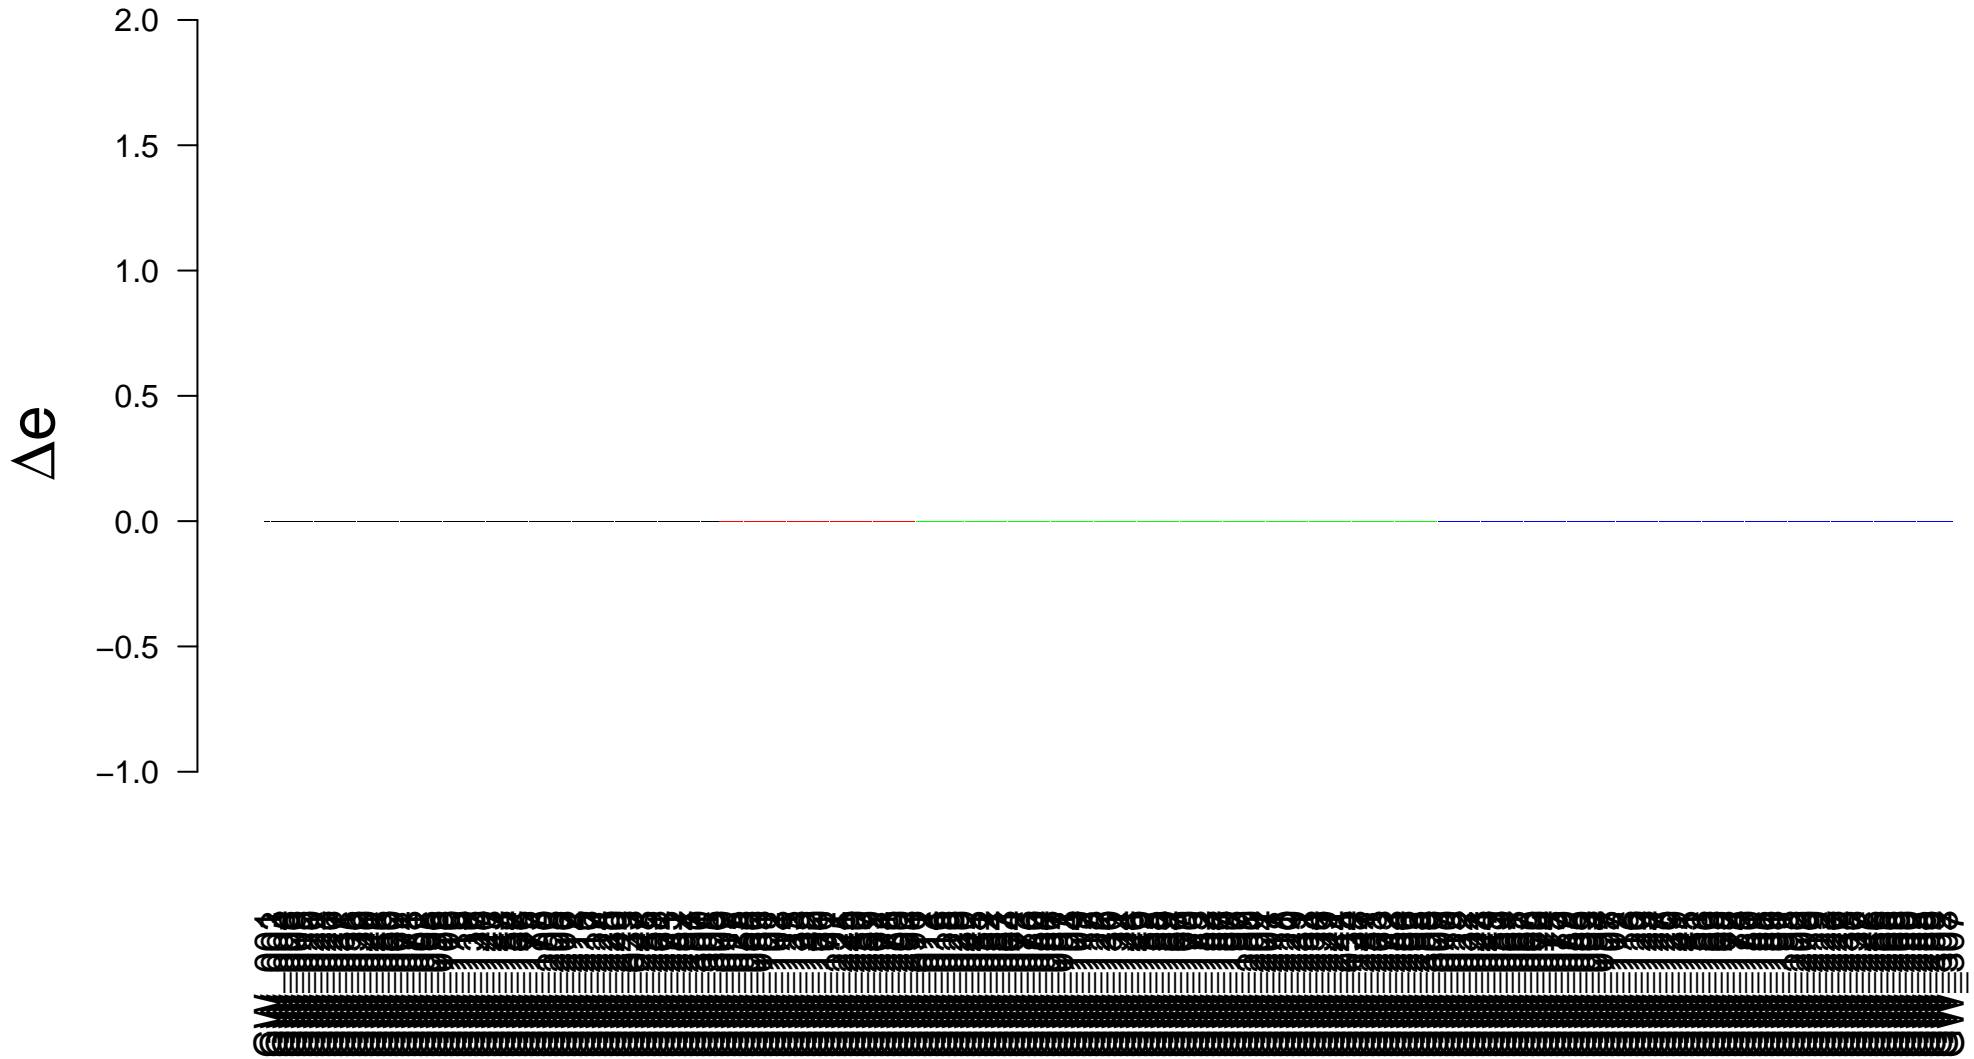

Expression of signal transduction involved in regulation of gene expression in Spot M

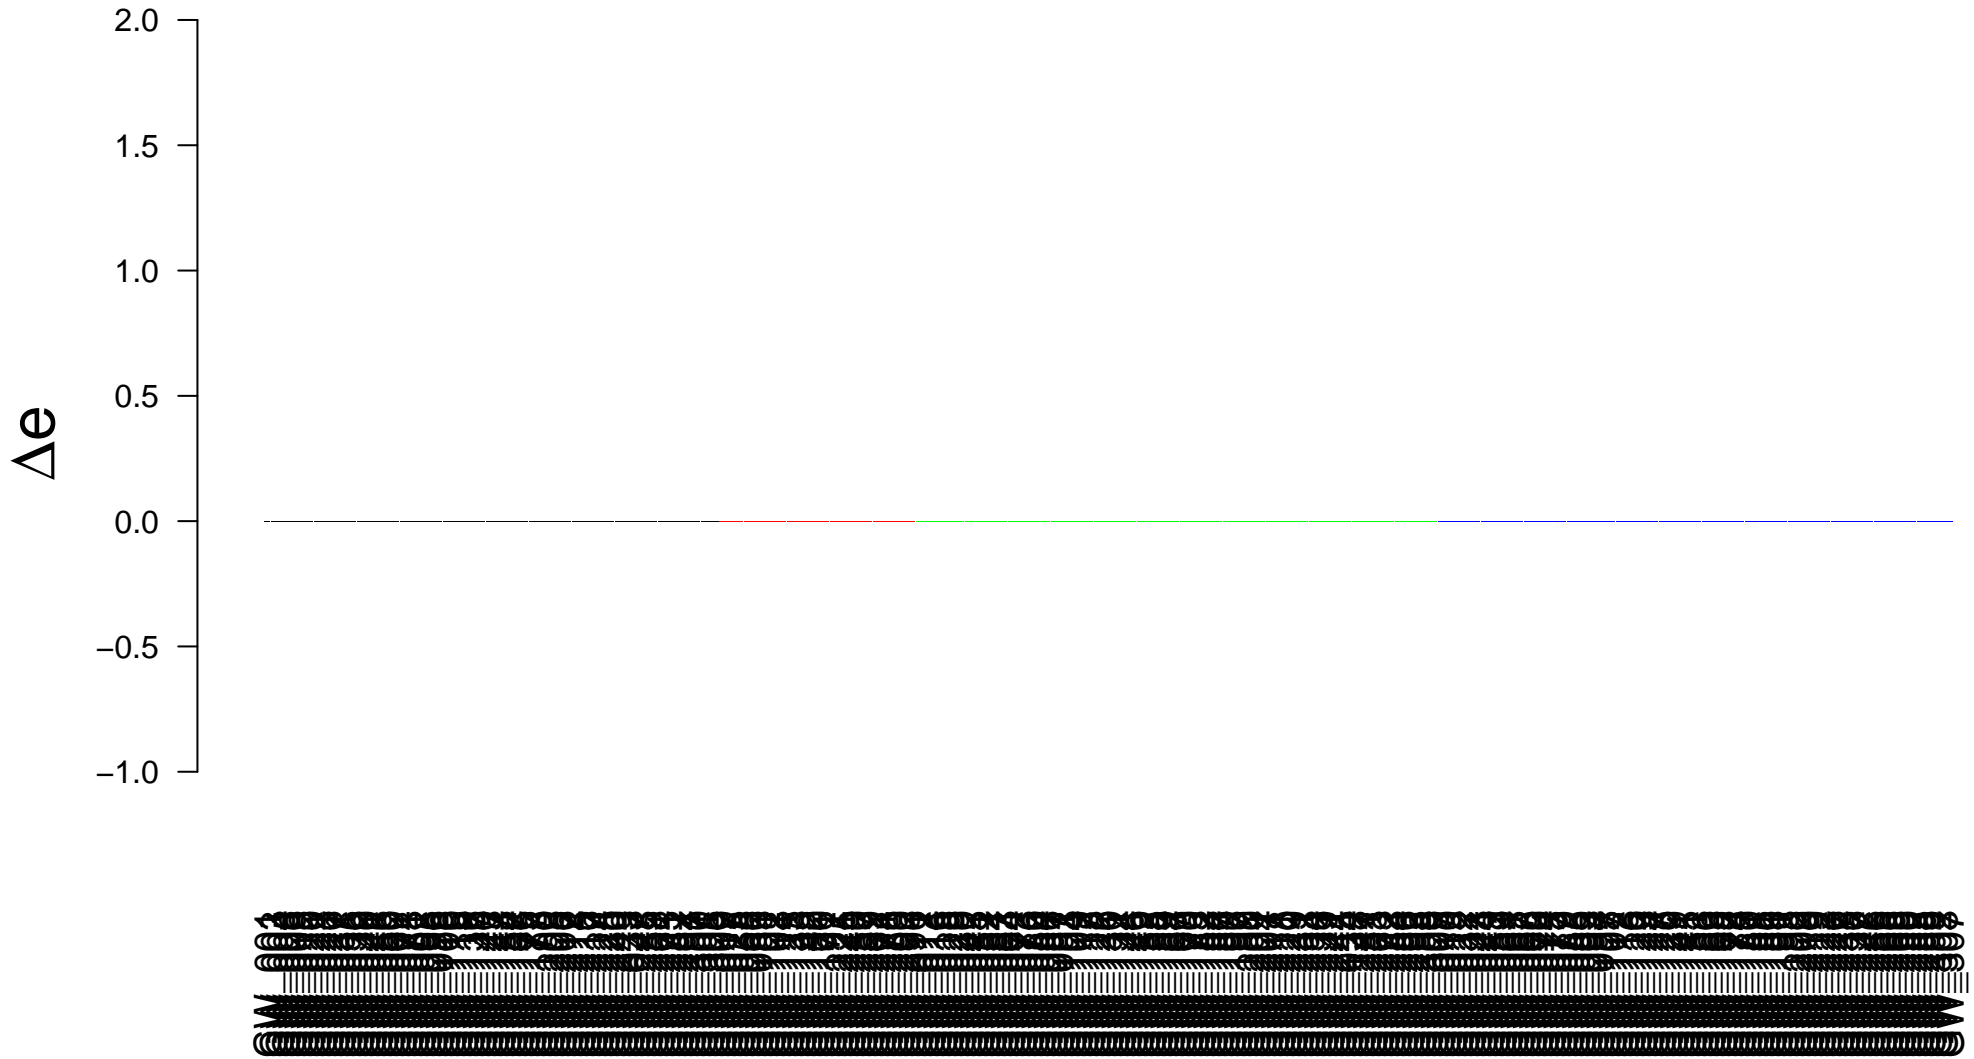

Expression of signal transduction involved in regulation of gene expression in Spot N

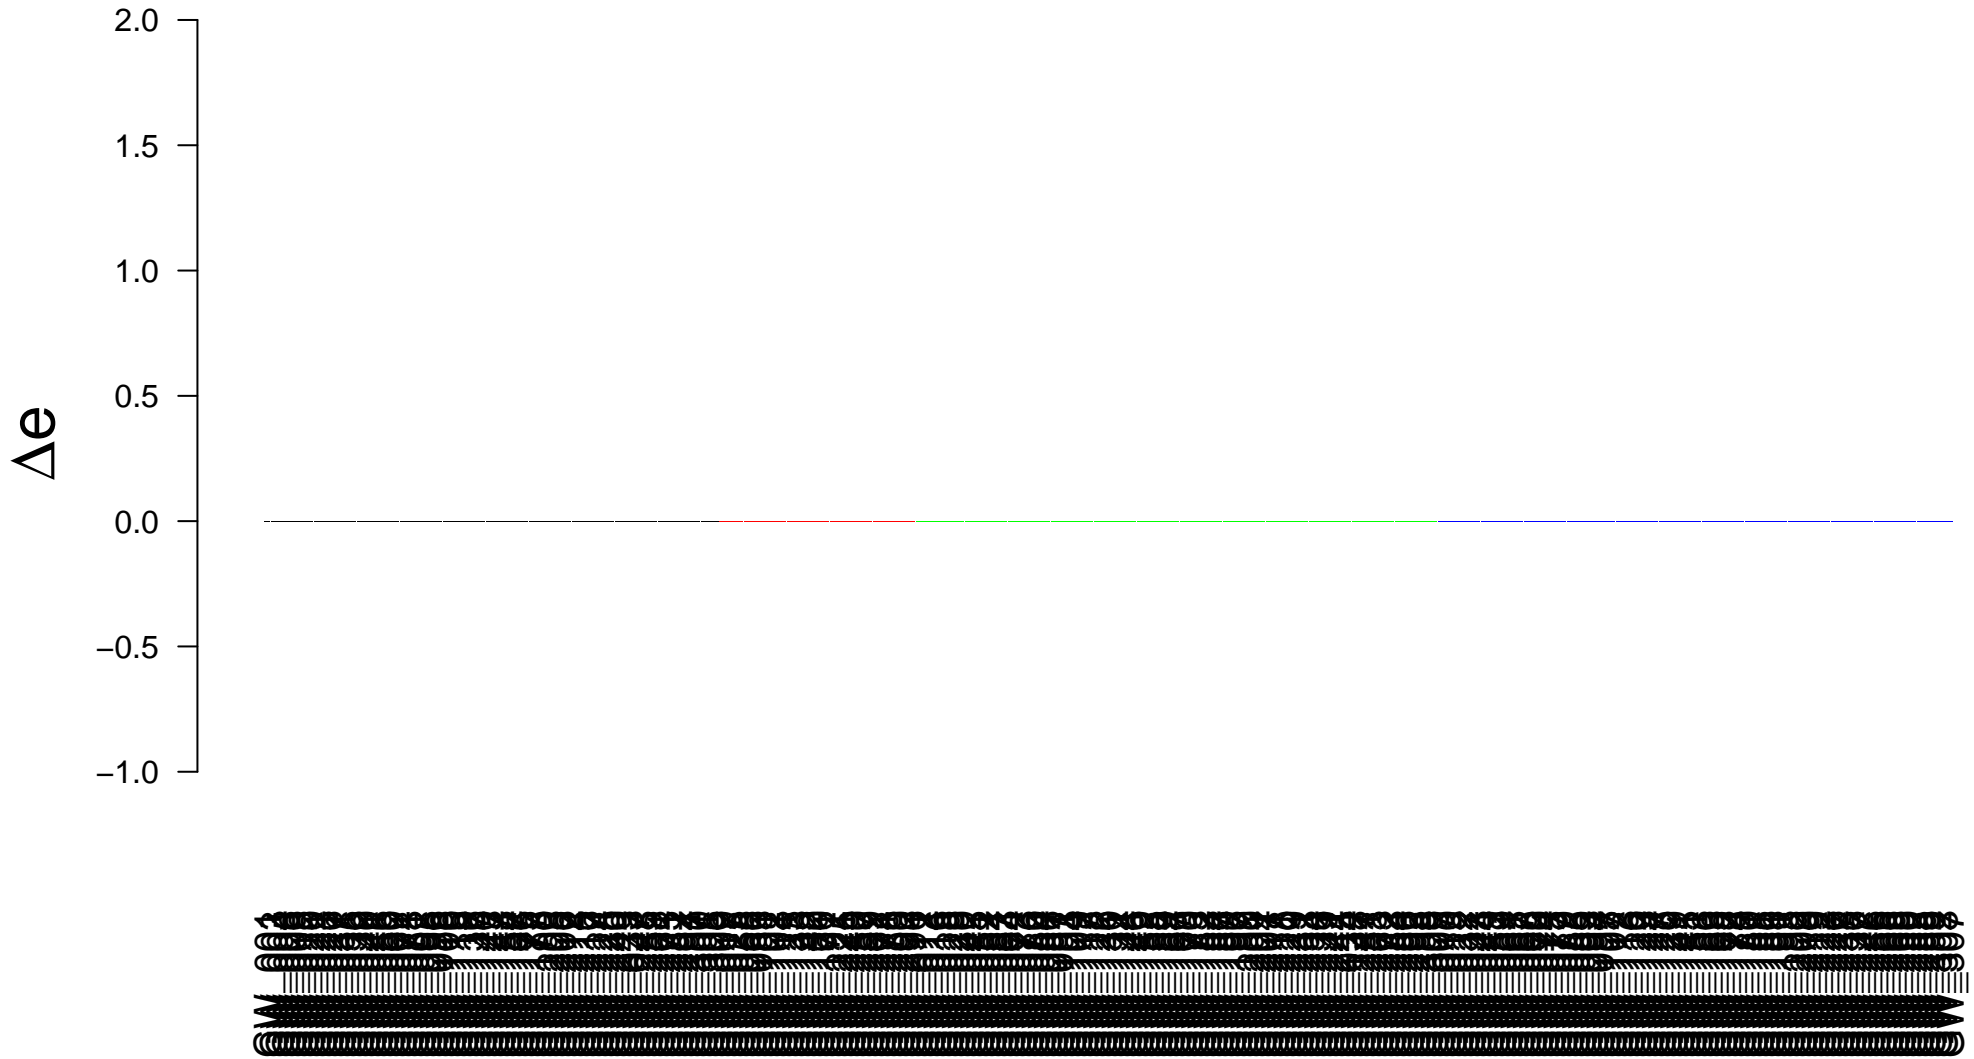

Expression of signal transduction involved in regulation of gene expression in Spot O

Expression of signal transduction involved in regulation of gene expression in Spot P

Expression of signal transduction involved in regulation of gene expression in Spot Q

Expression of signal transduction involved in regulation of gene expression in Spot R
