

sodium-independent organic anion transport

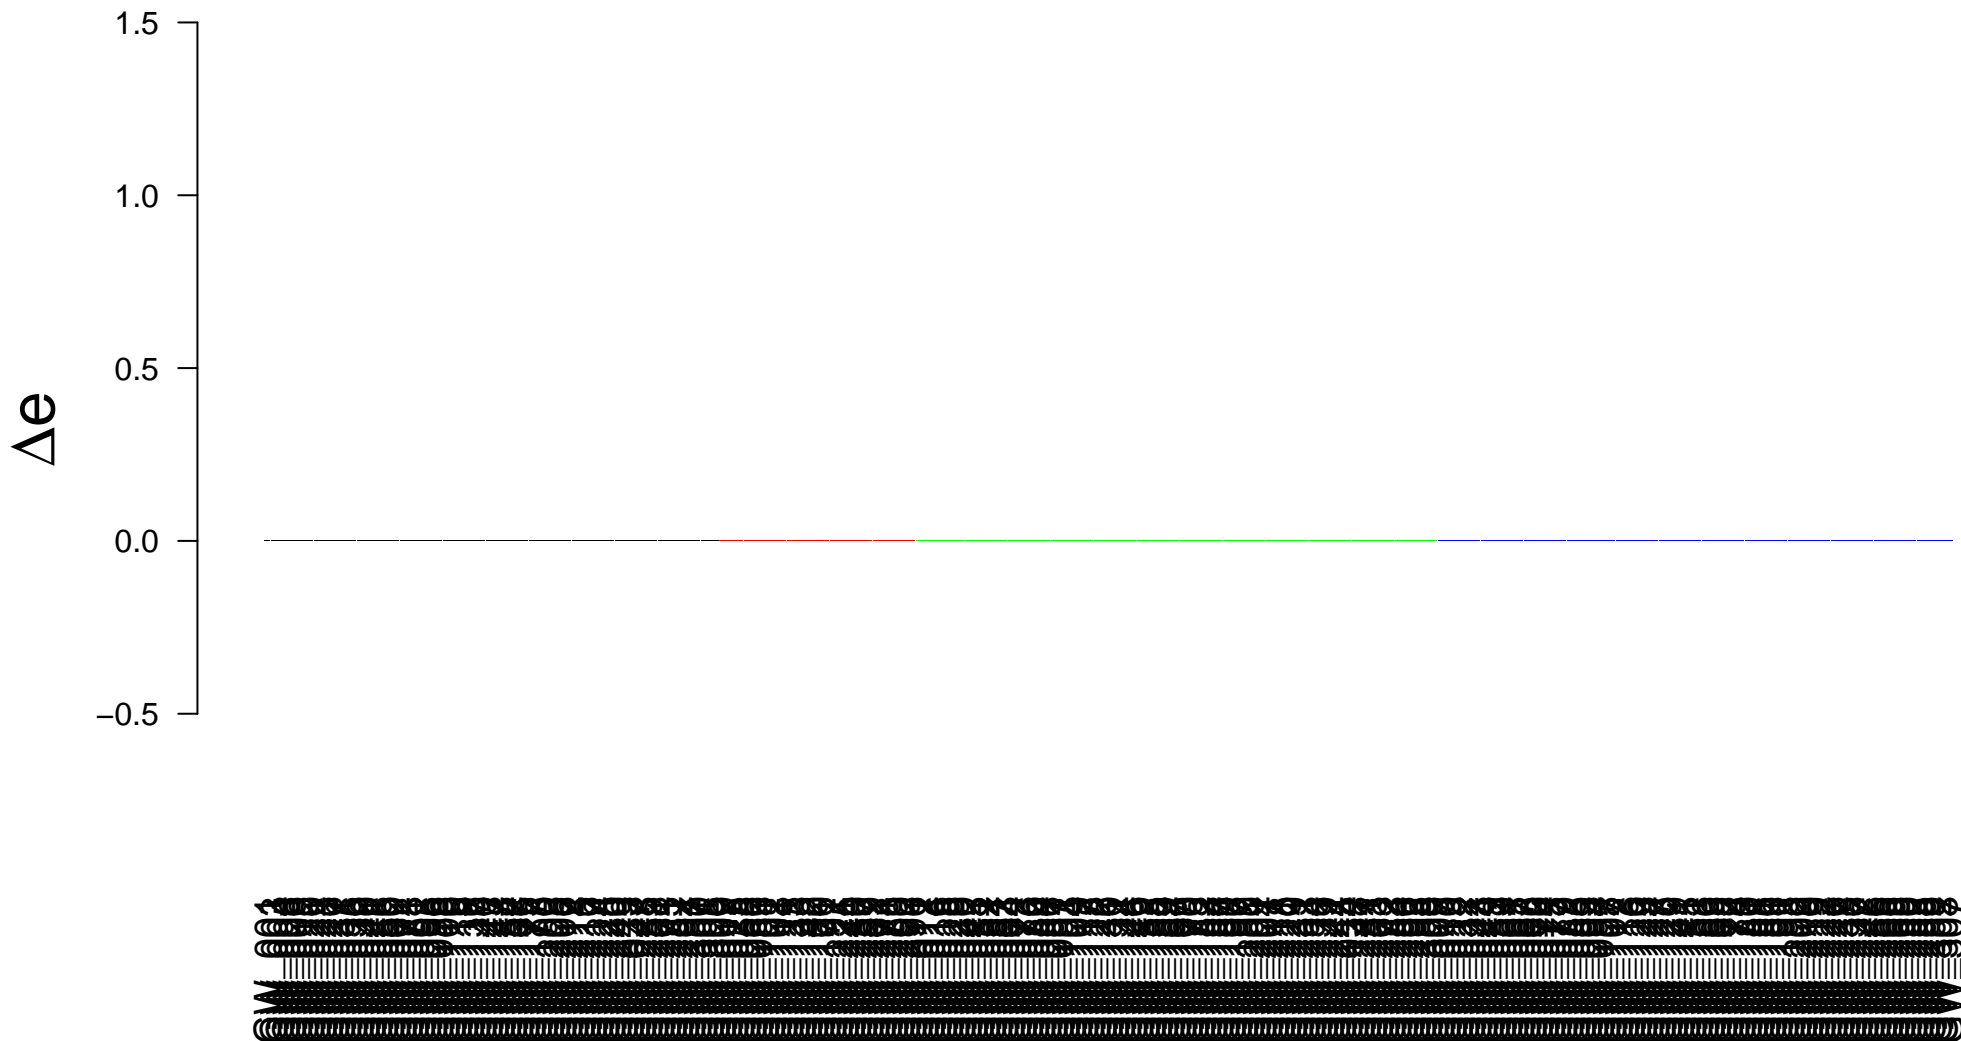

sodium-independent organic anion transport

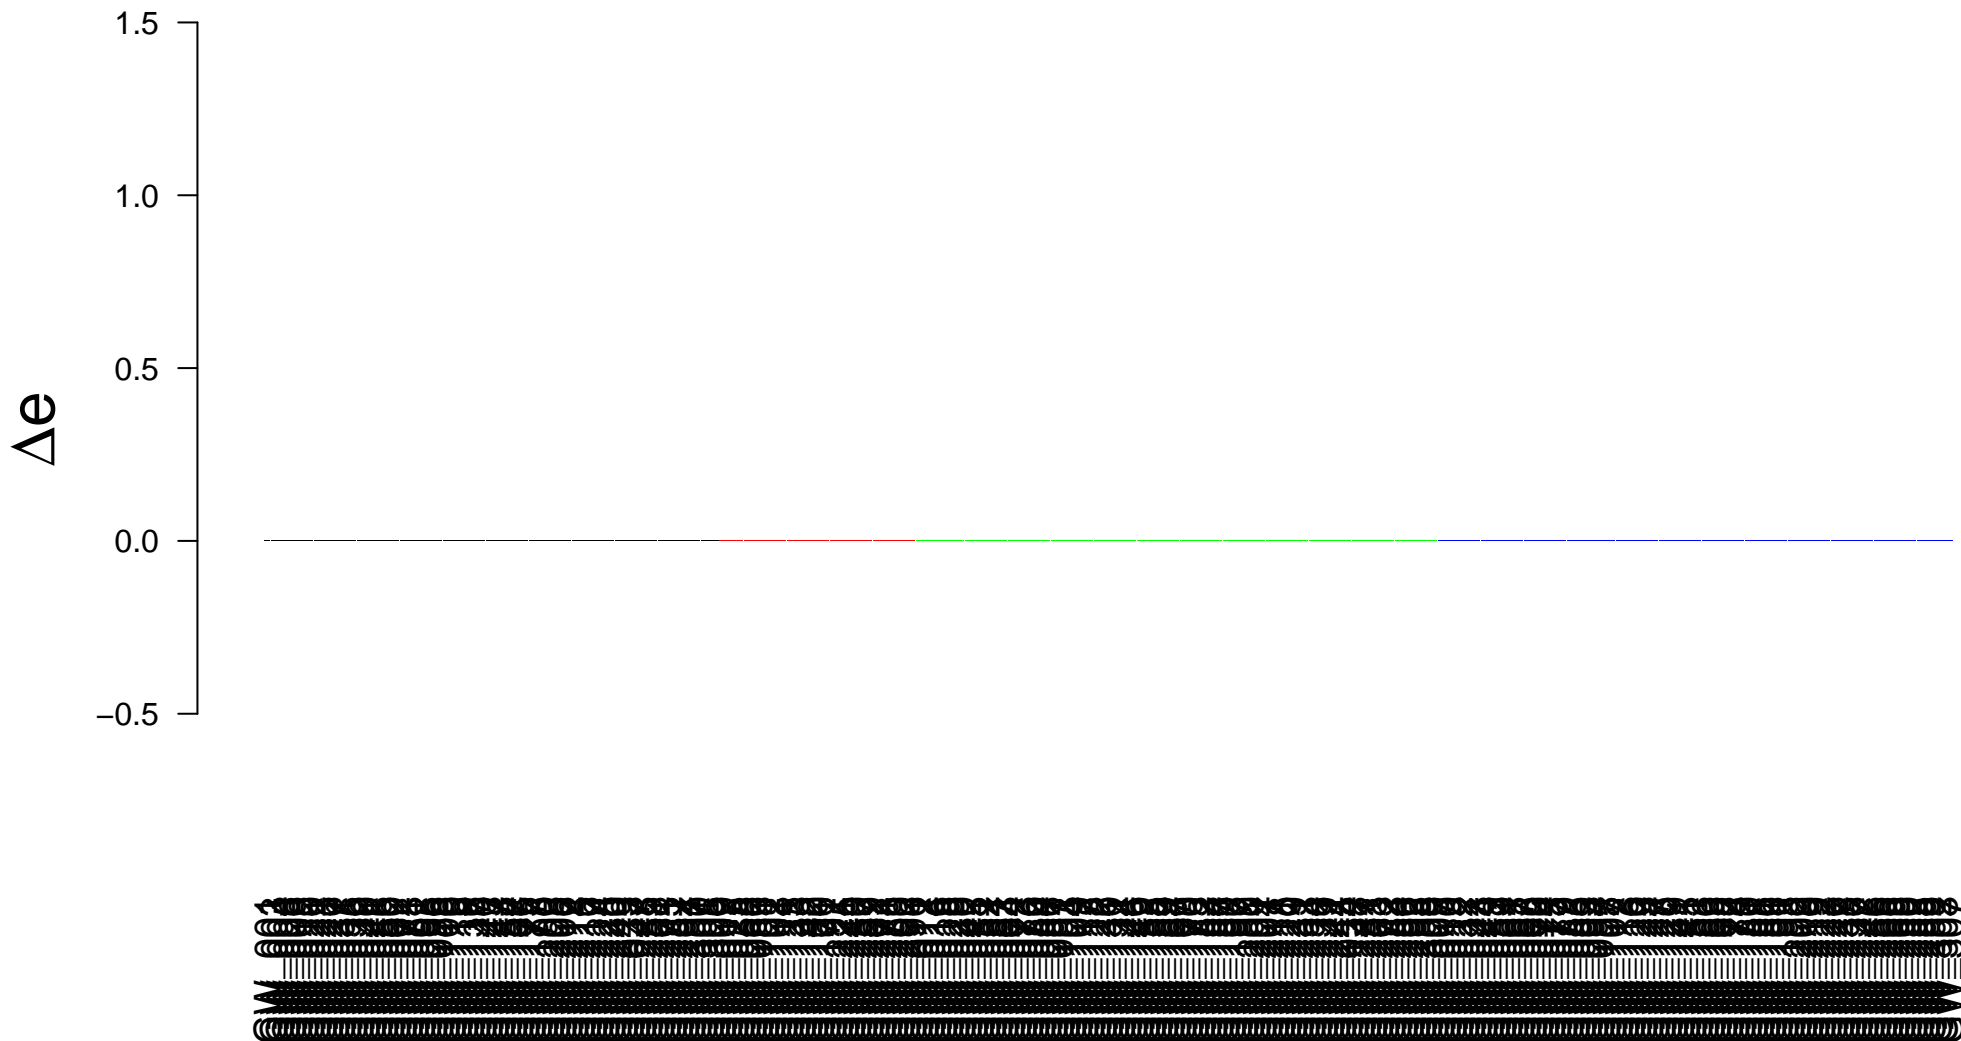

Enrichment in spots: sodium-independent organic anion transport

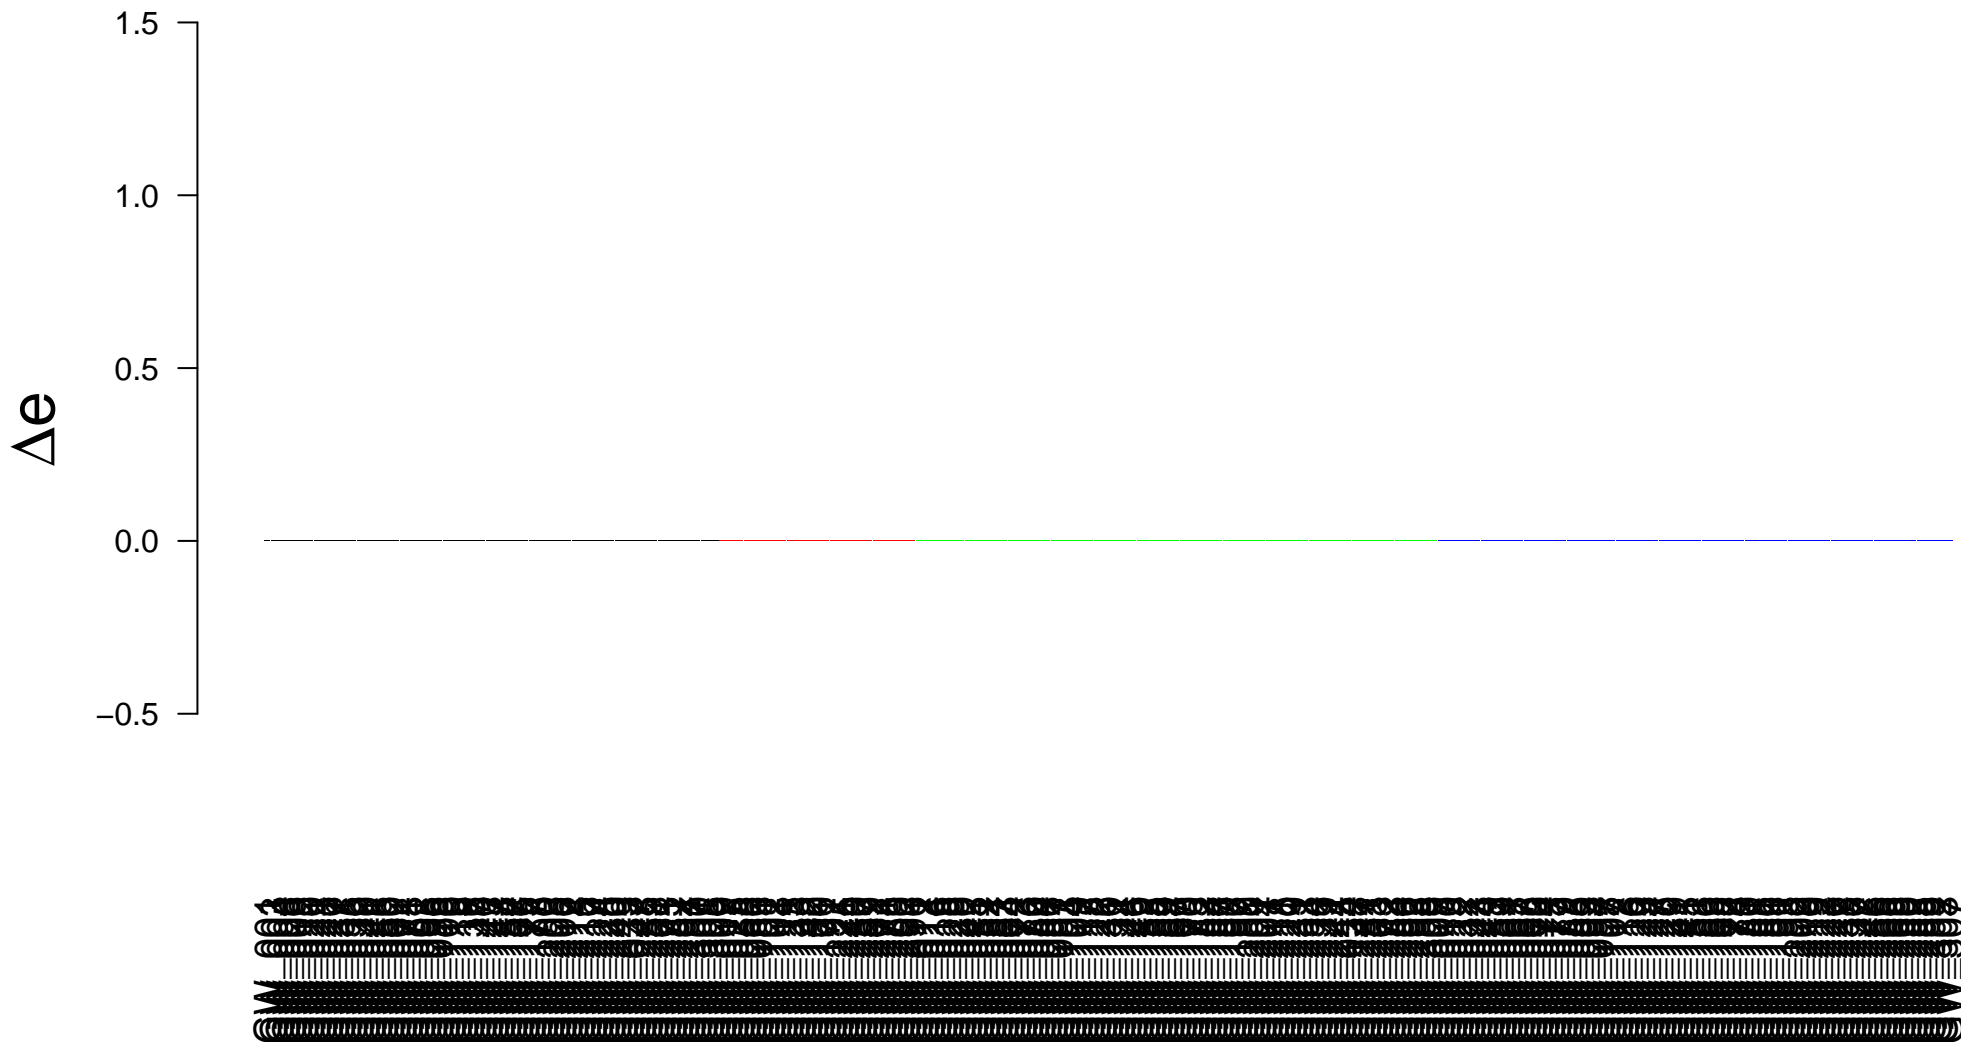

Expression of sodium-independent organic anion transport in Spot A

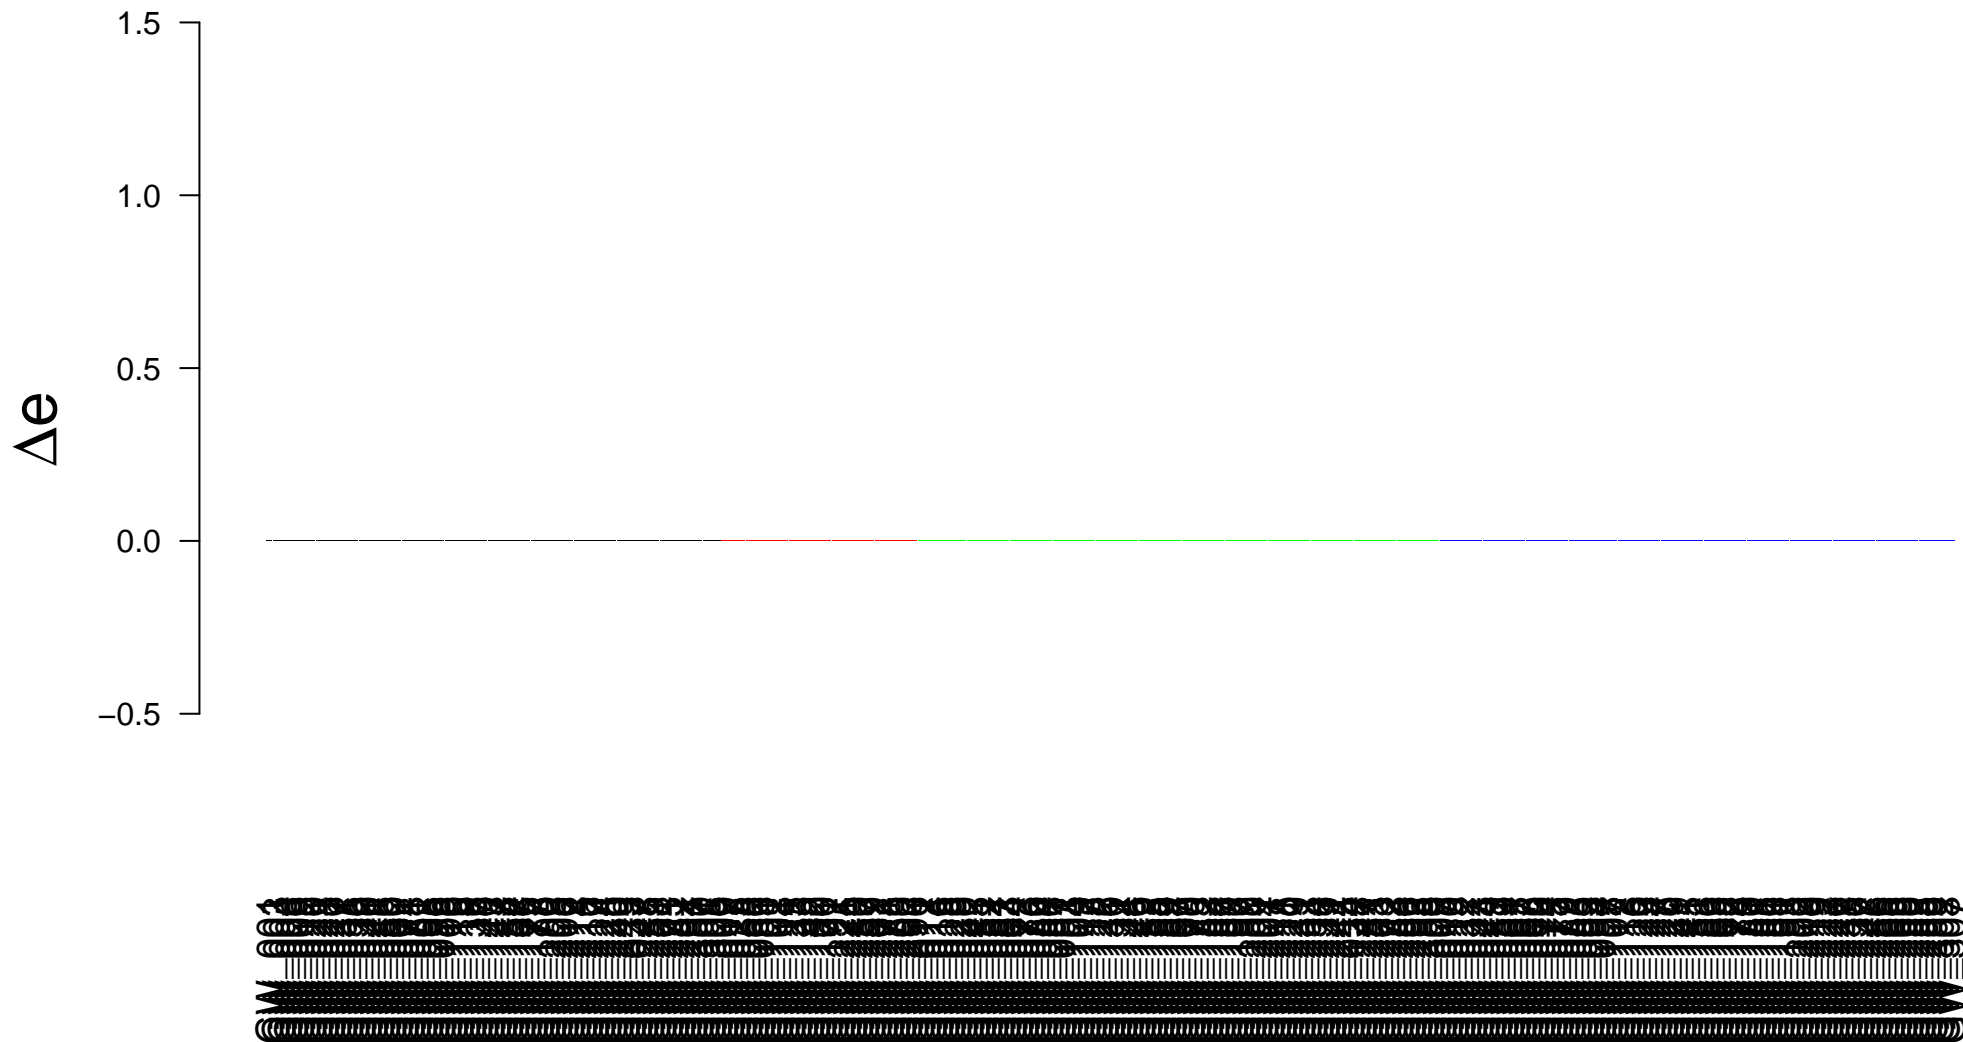

Expression of sodium-independent organic anion transport in Spot B

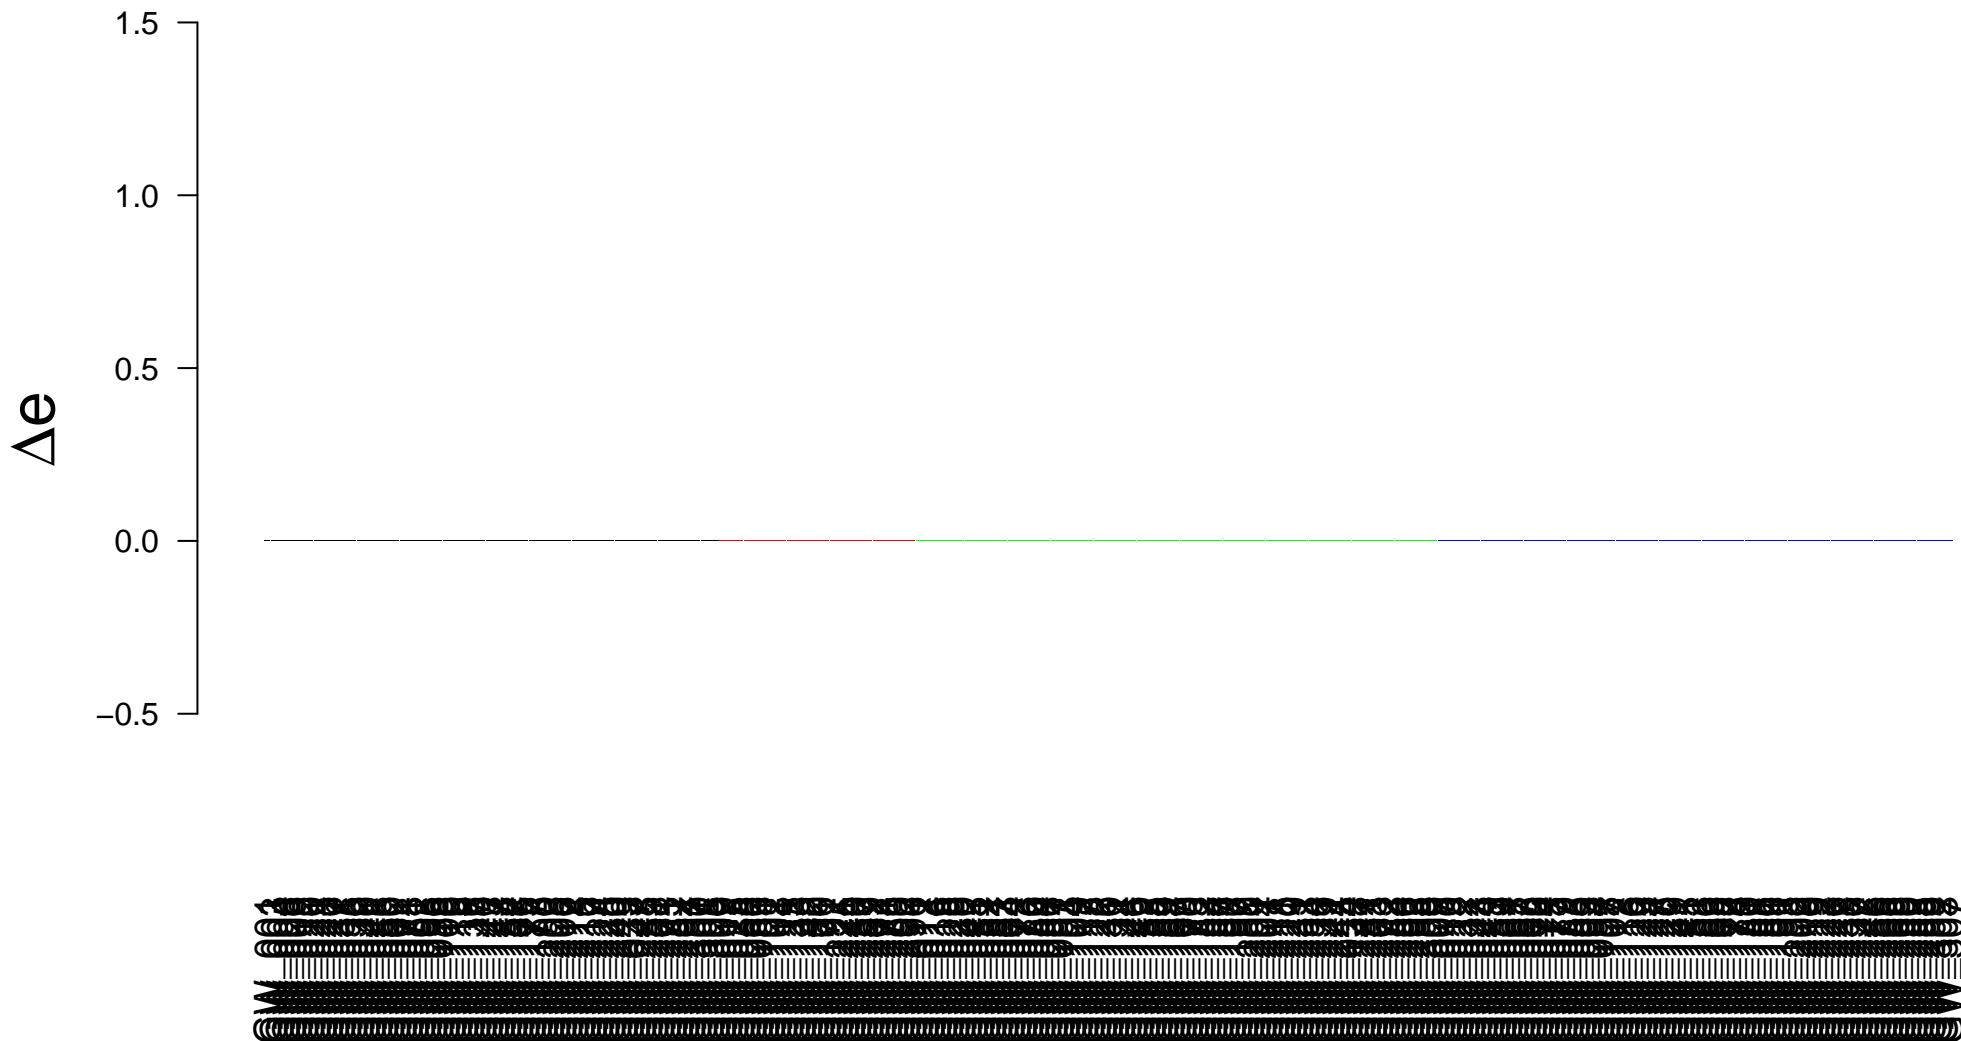

Expression of sodium-independent organic anion transport in Spot C

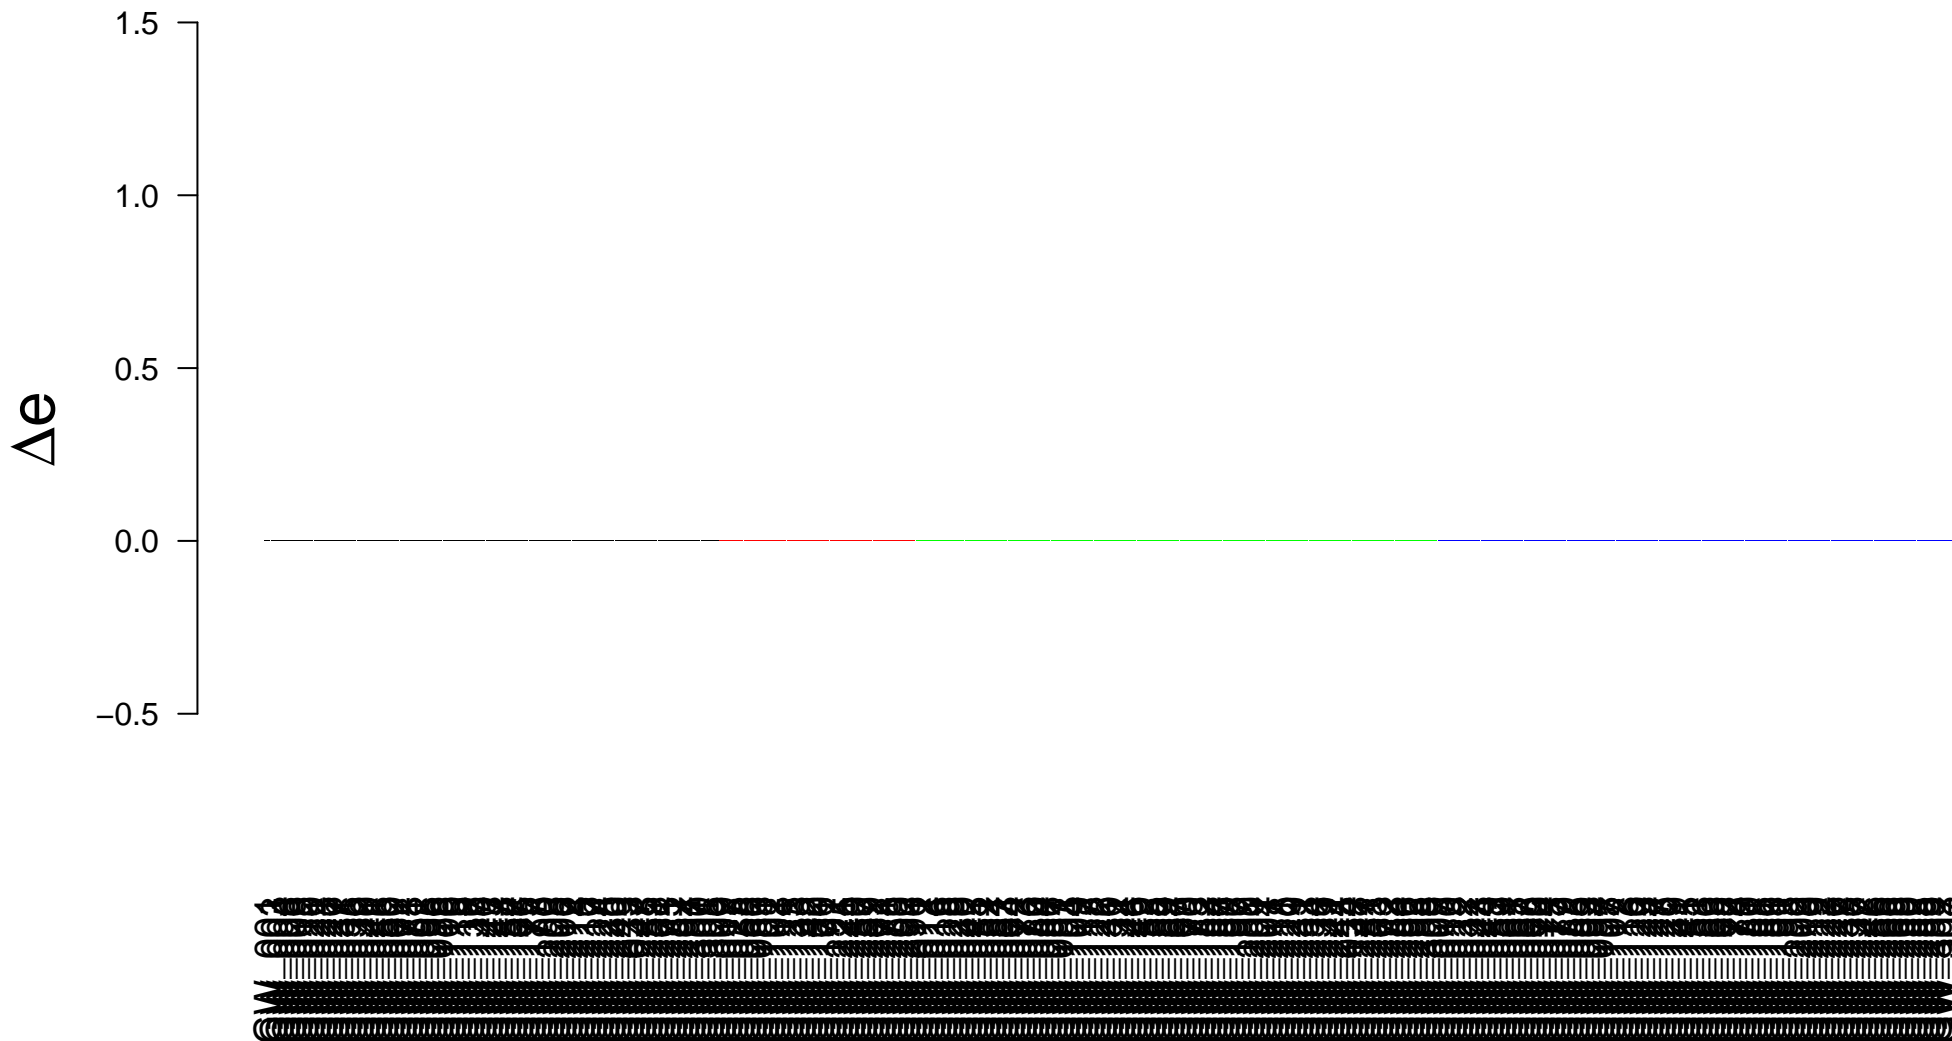

Expression of sodium-independent organic anion transport in Spot D

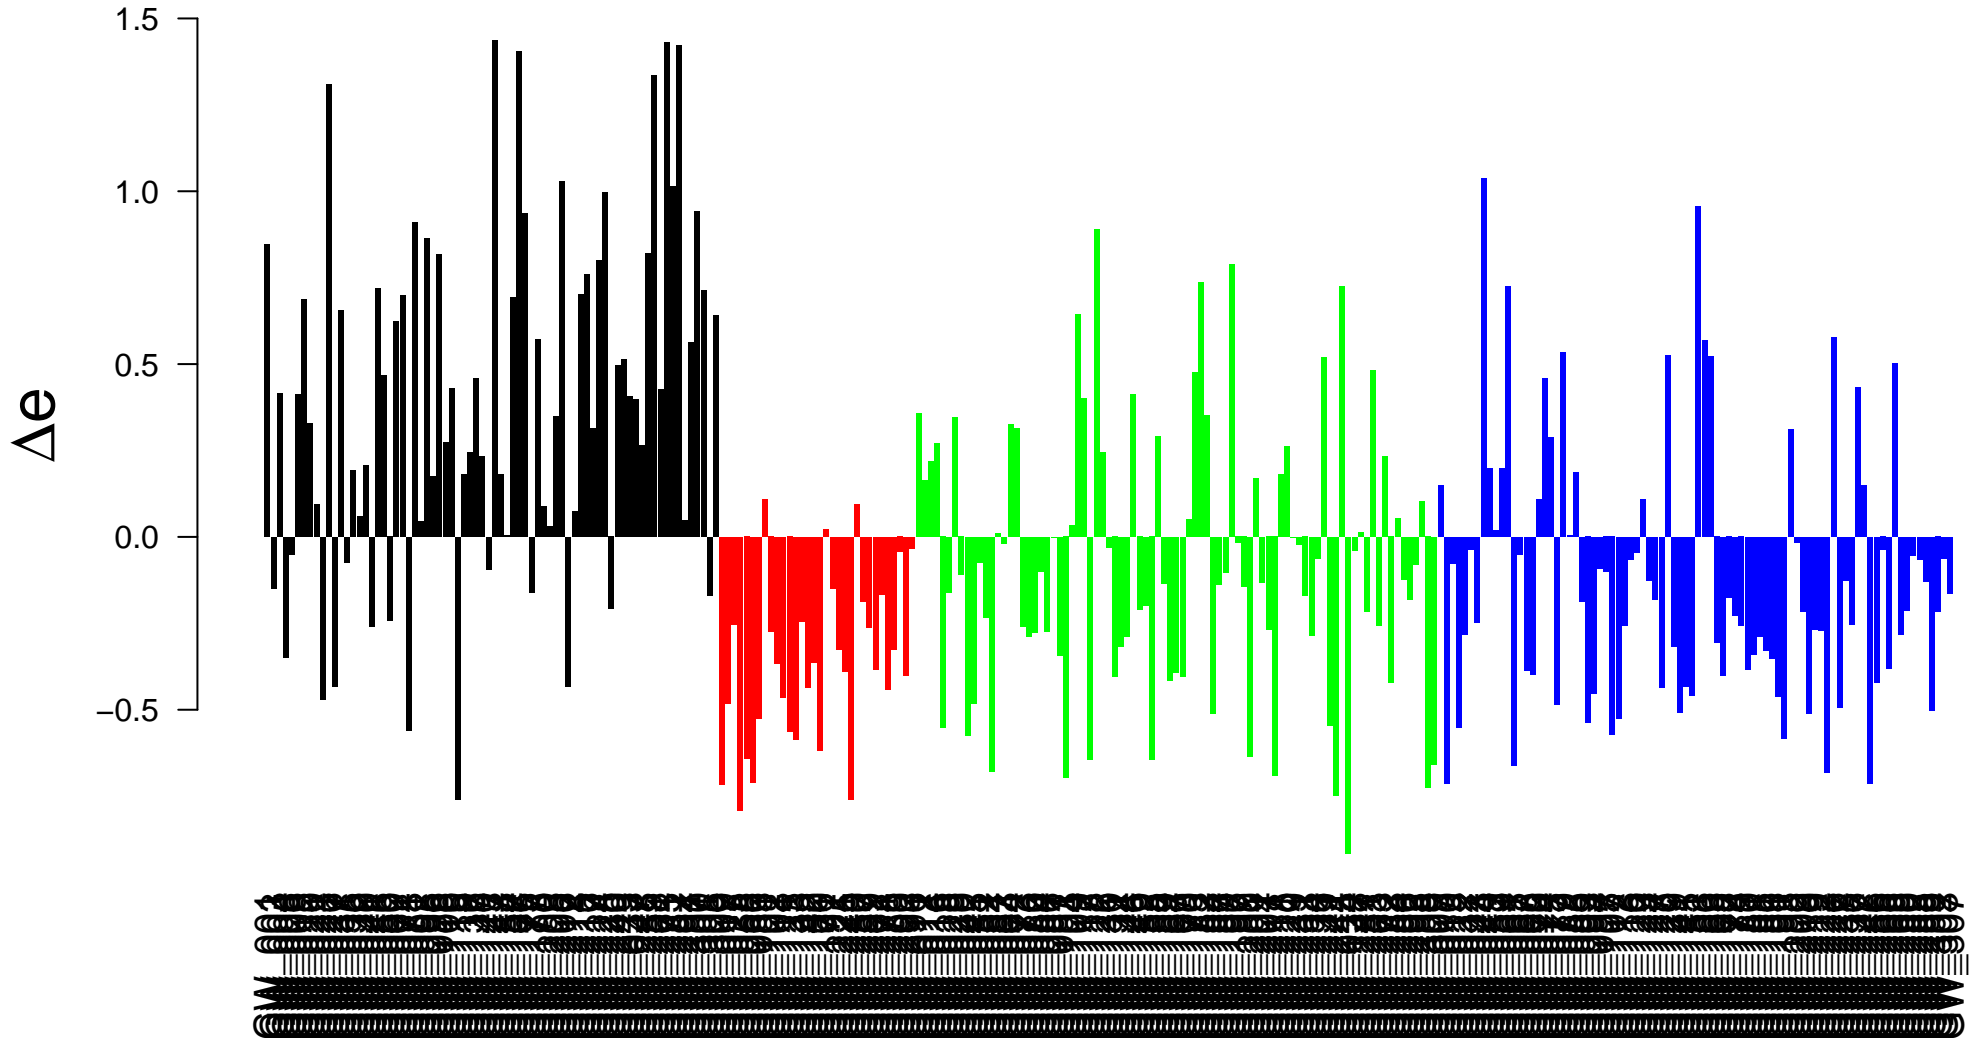

Expression of sodium-independent organic anion transport in Spot E

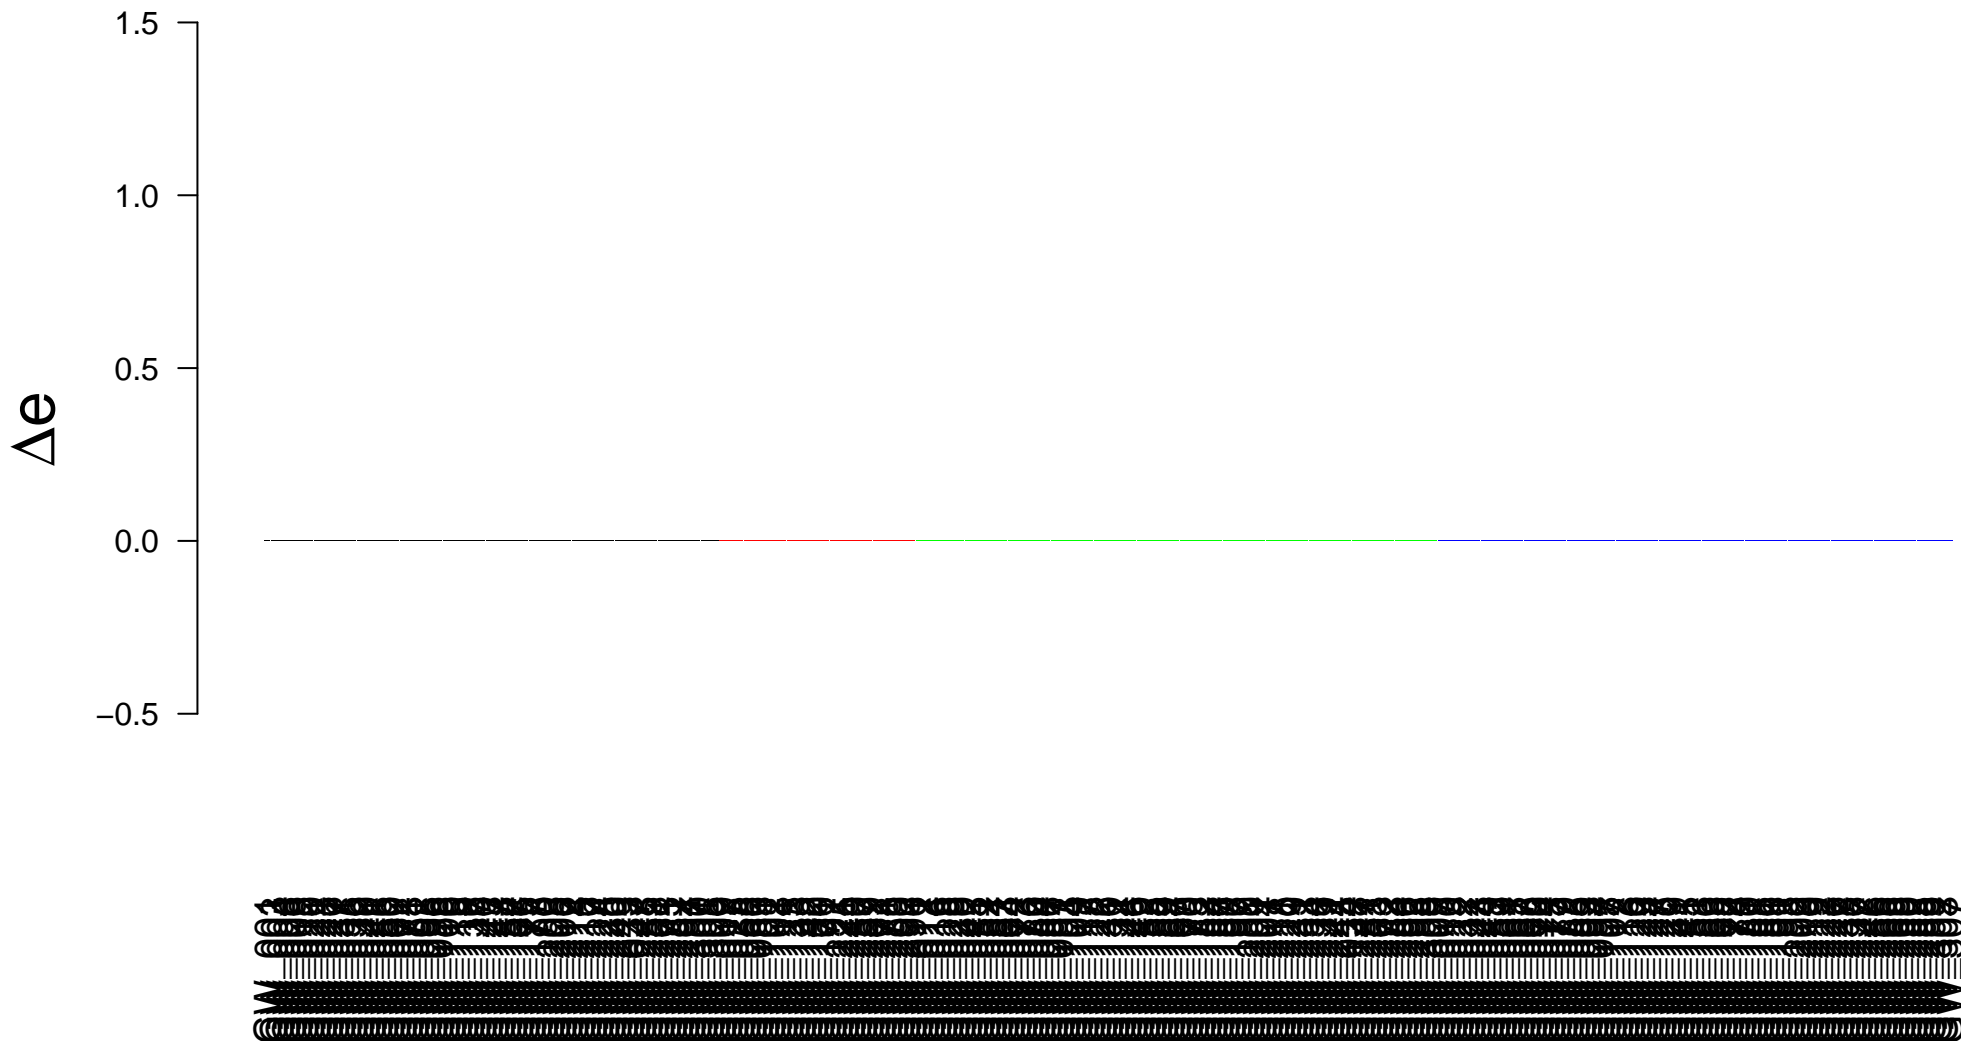

Expression of sodium-independent organic anion transport in Spot F

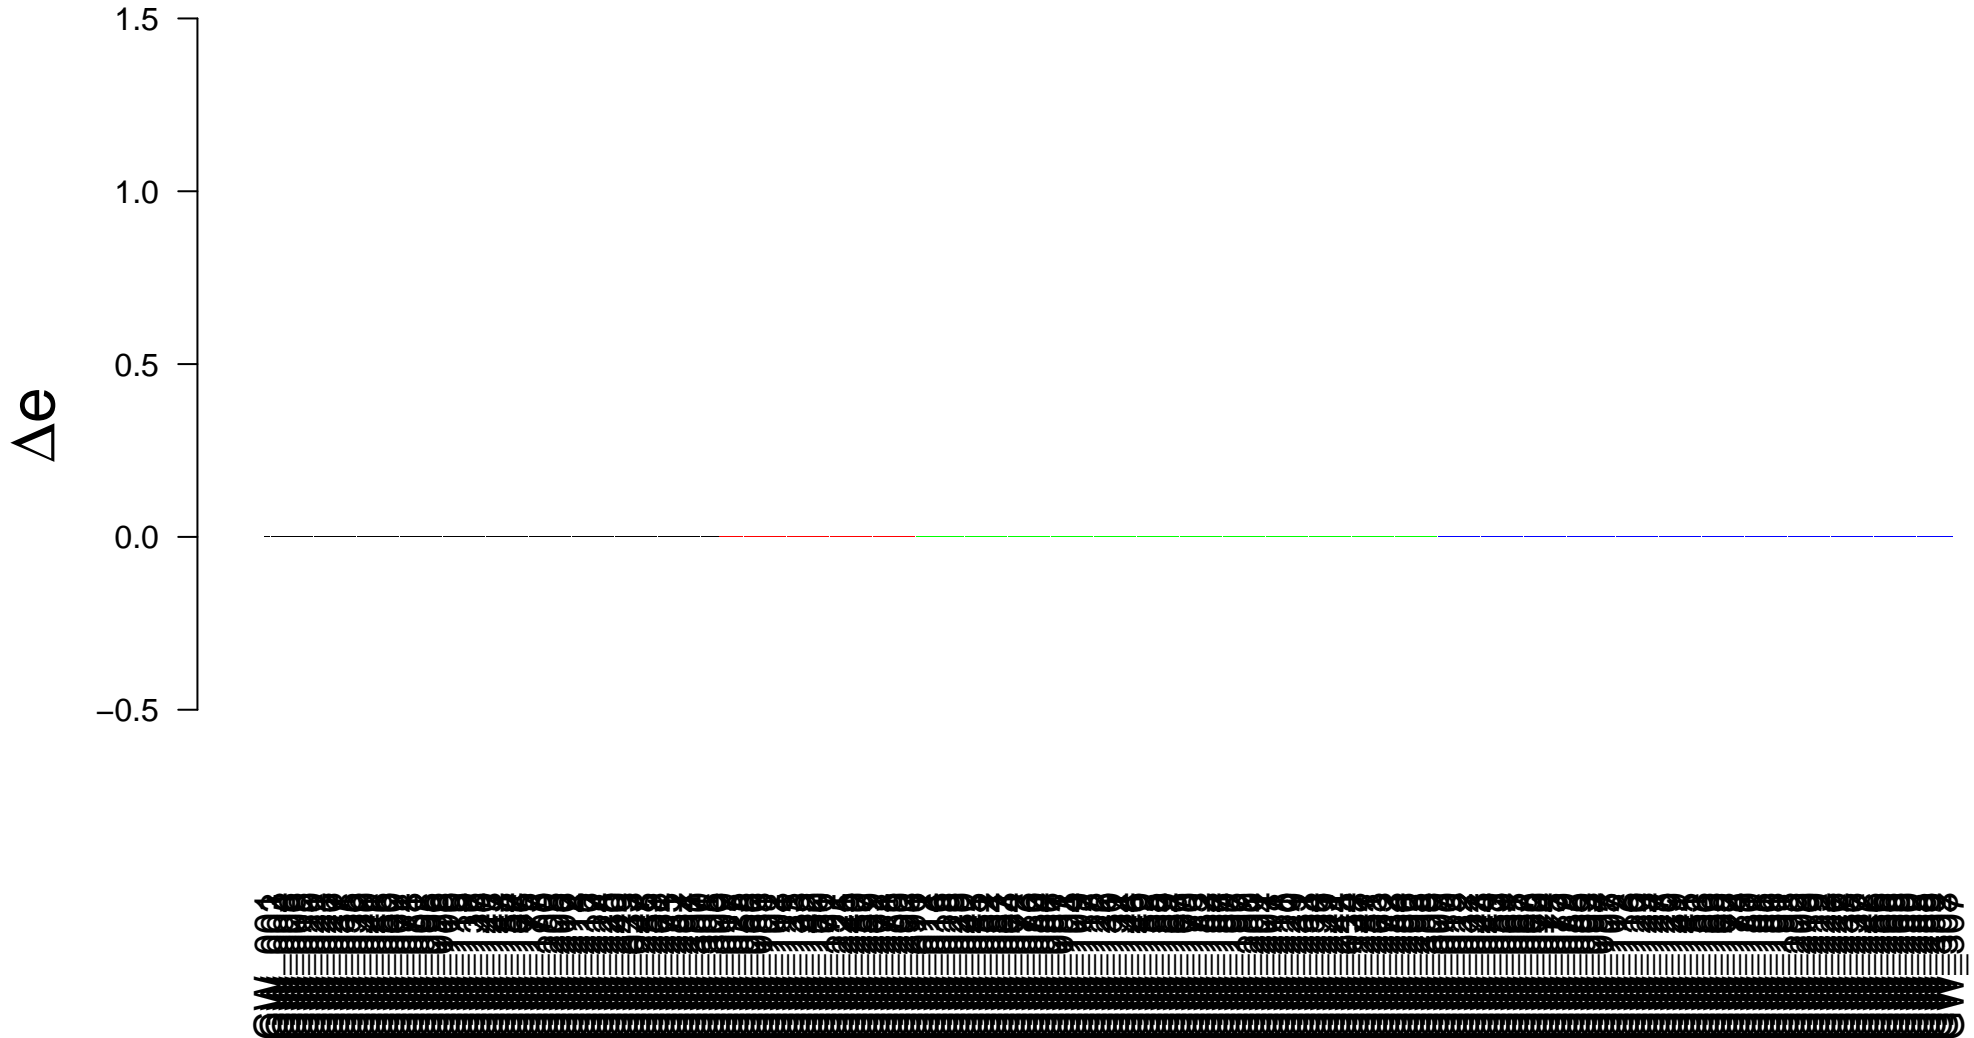

Expression of sodium-independent organic anion transport in Spot G

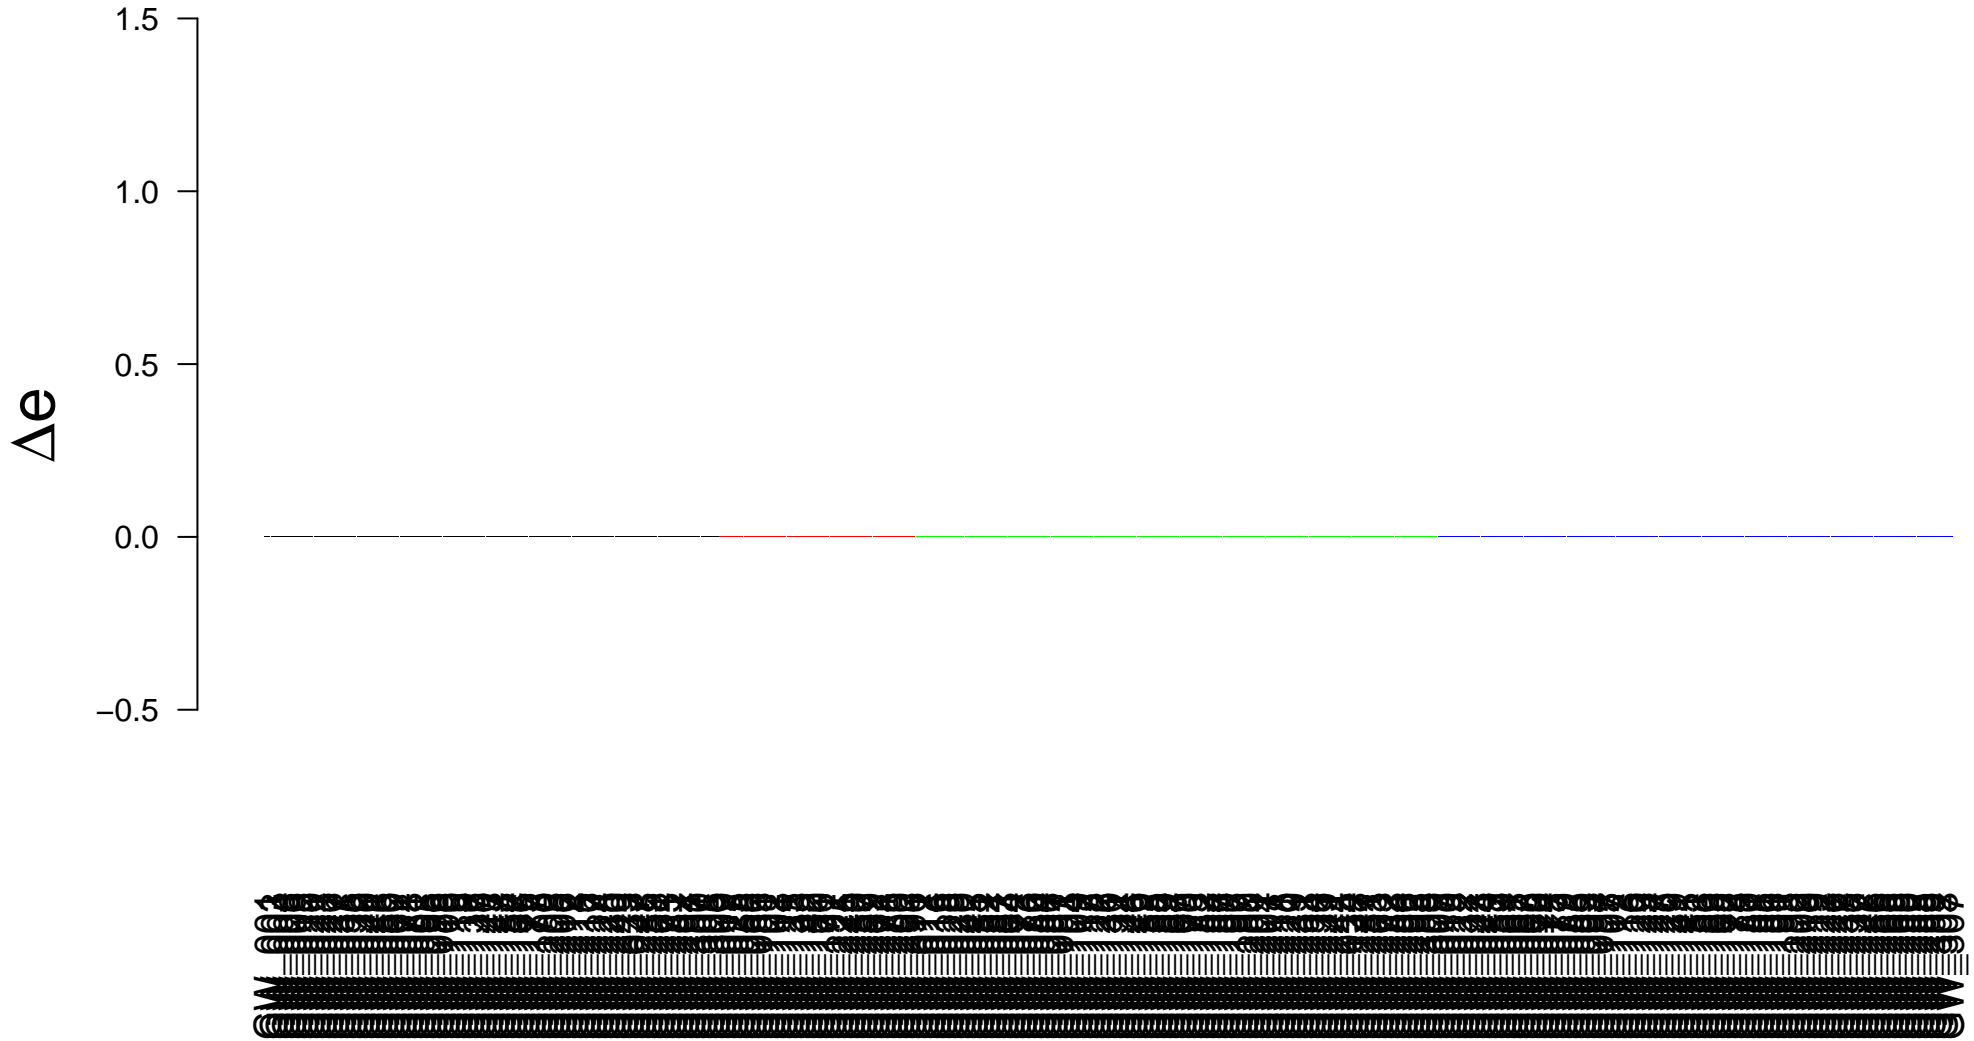

Expression of sodium-independent organic anion transport in Spot H

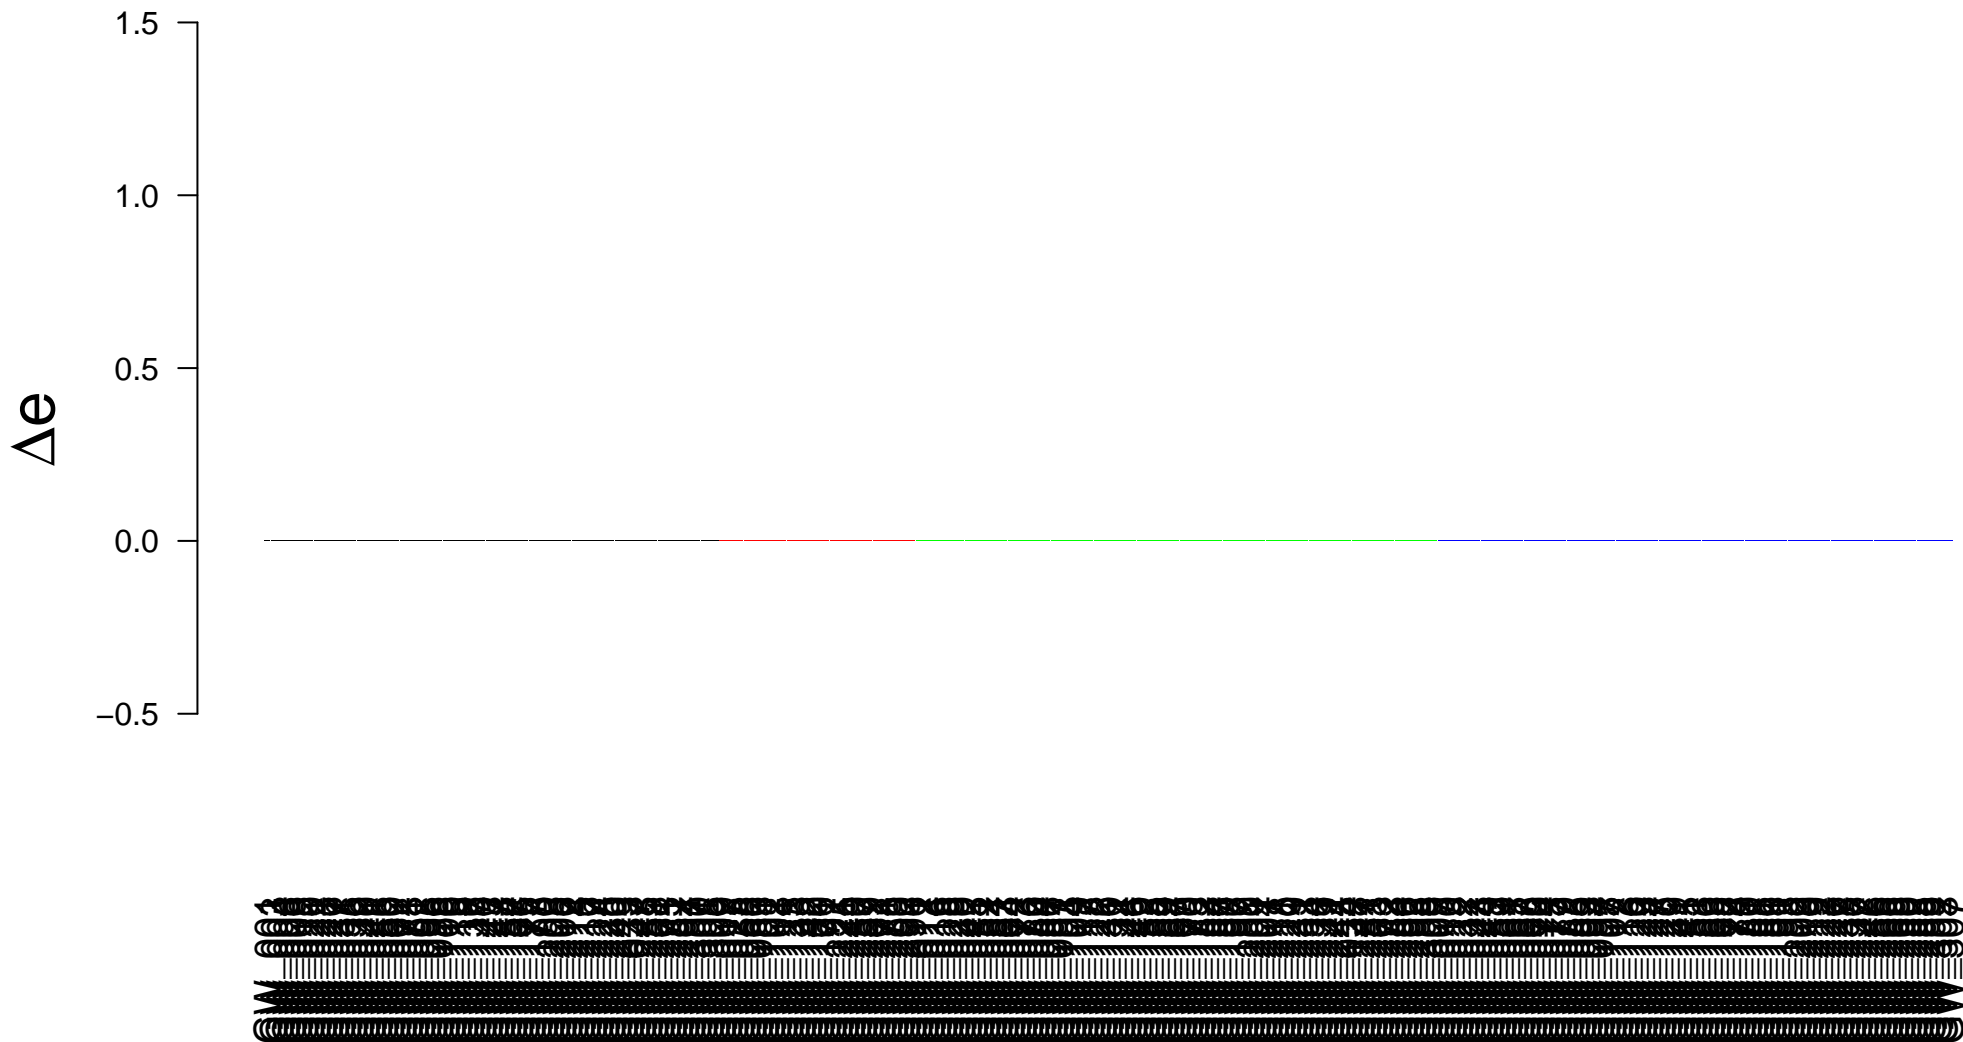

Expression of sodium-independent organic anion transport in Spot I

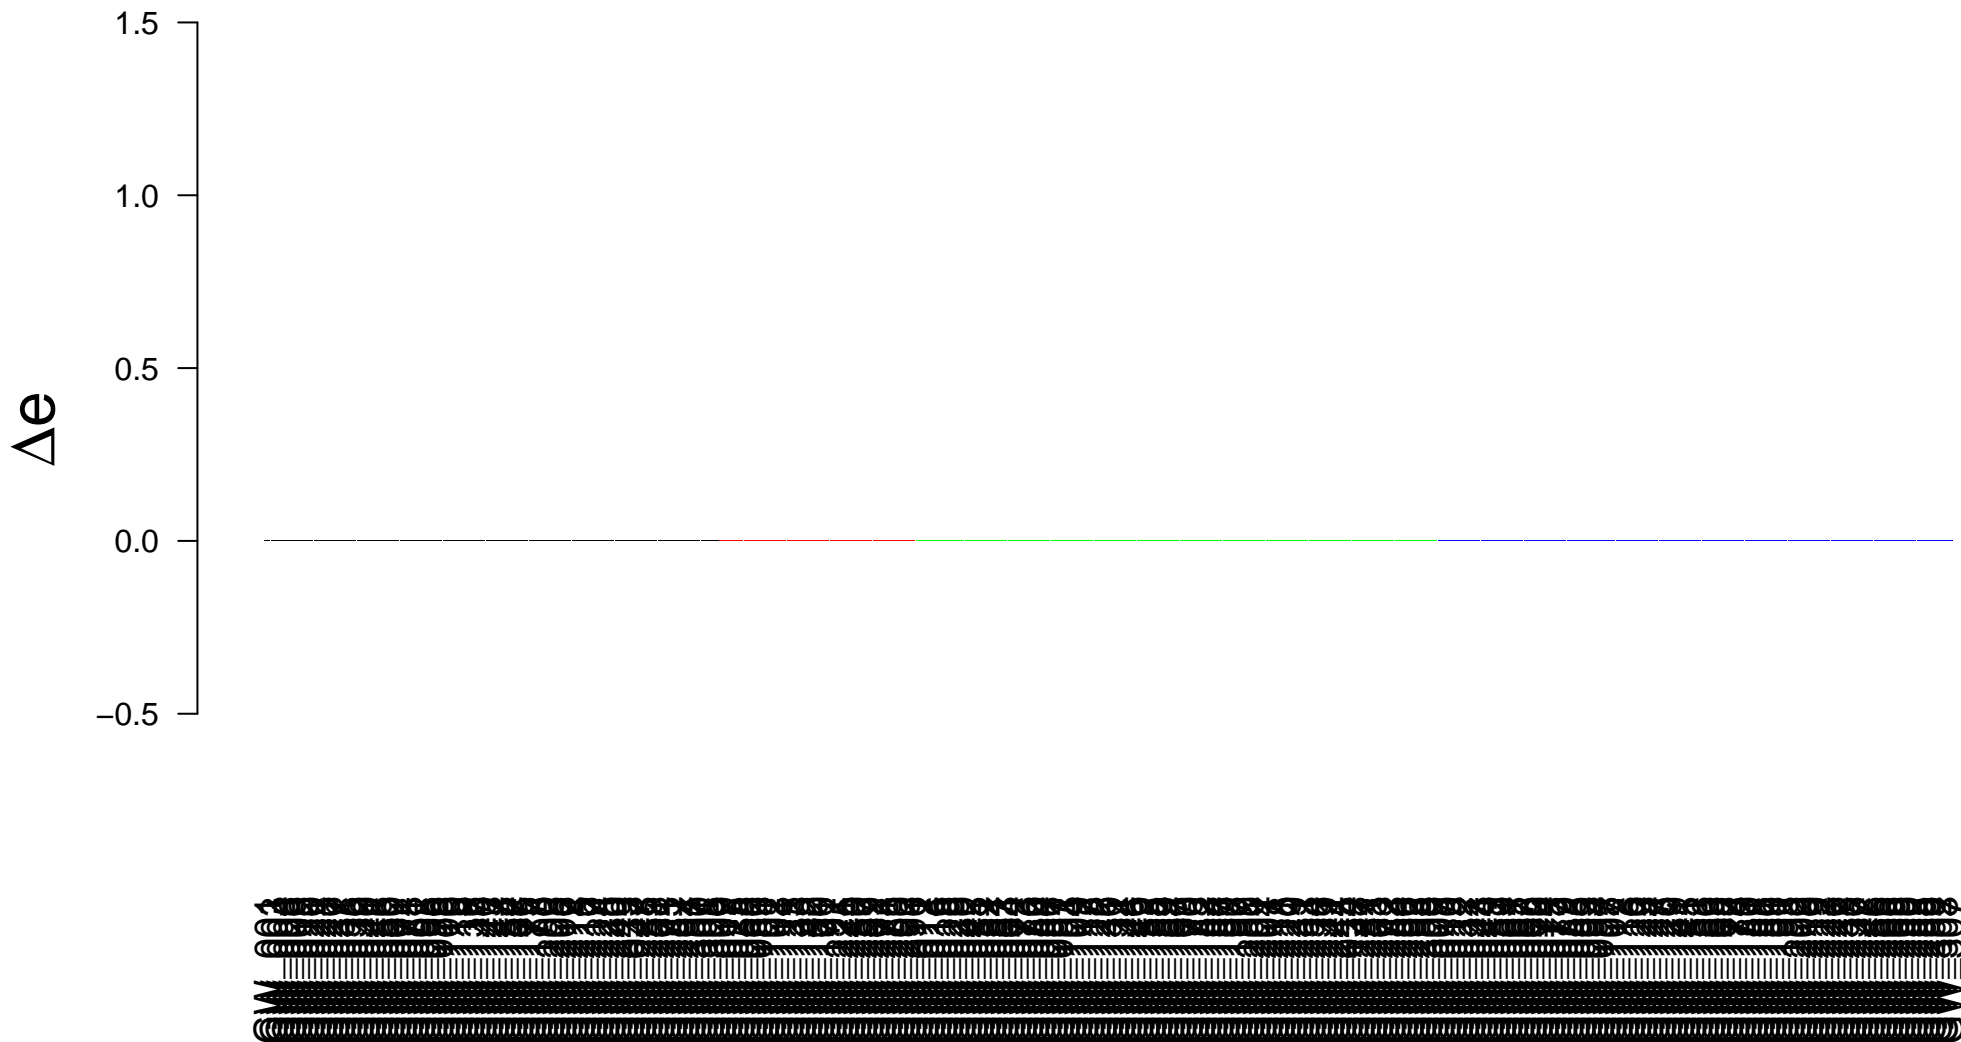

Expression of sodium-independent organic anion transport in Spot J

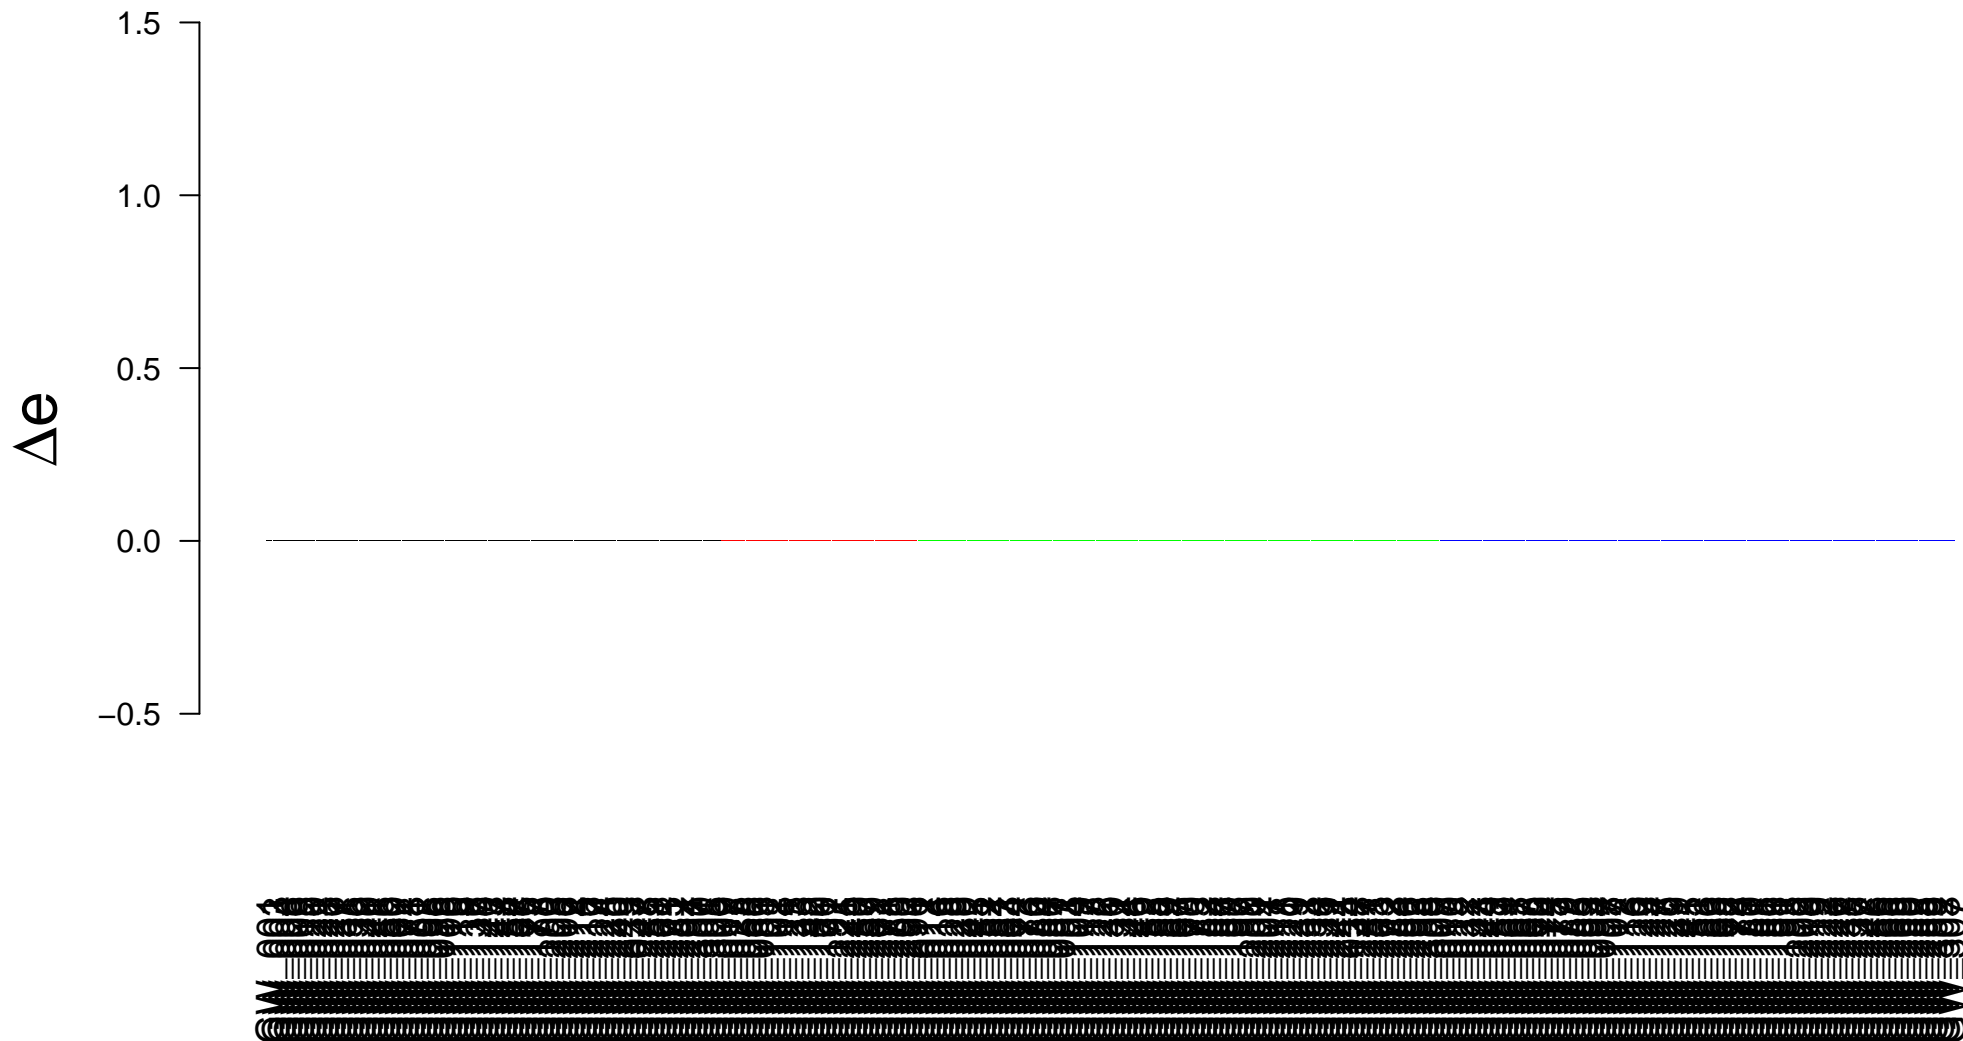

Expression of sodium-independent organic anion transport in Spot K

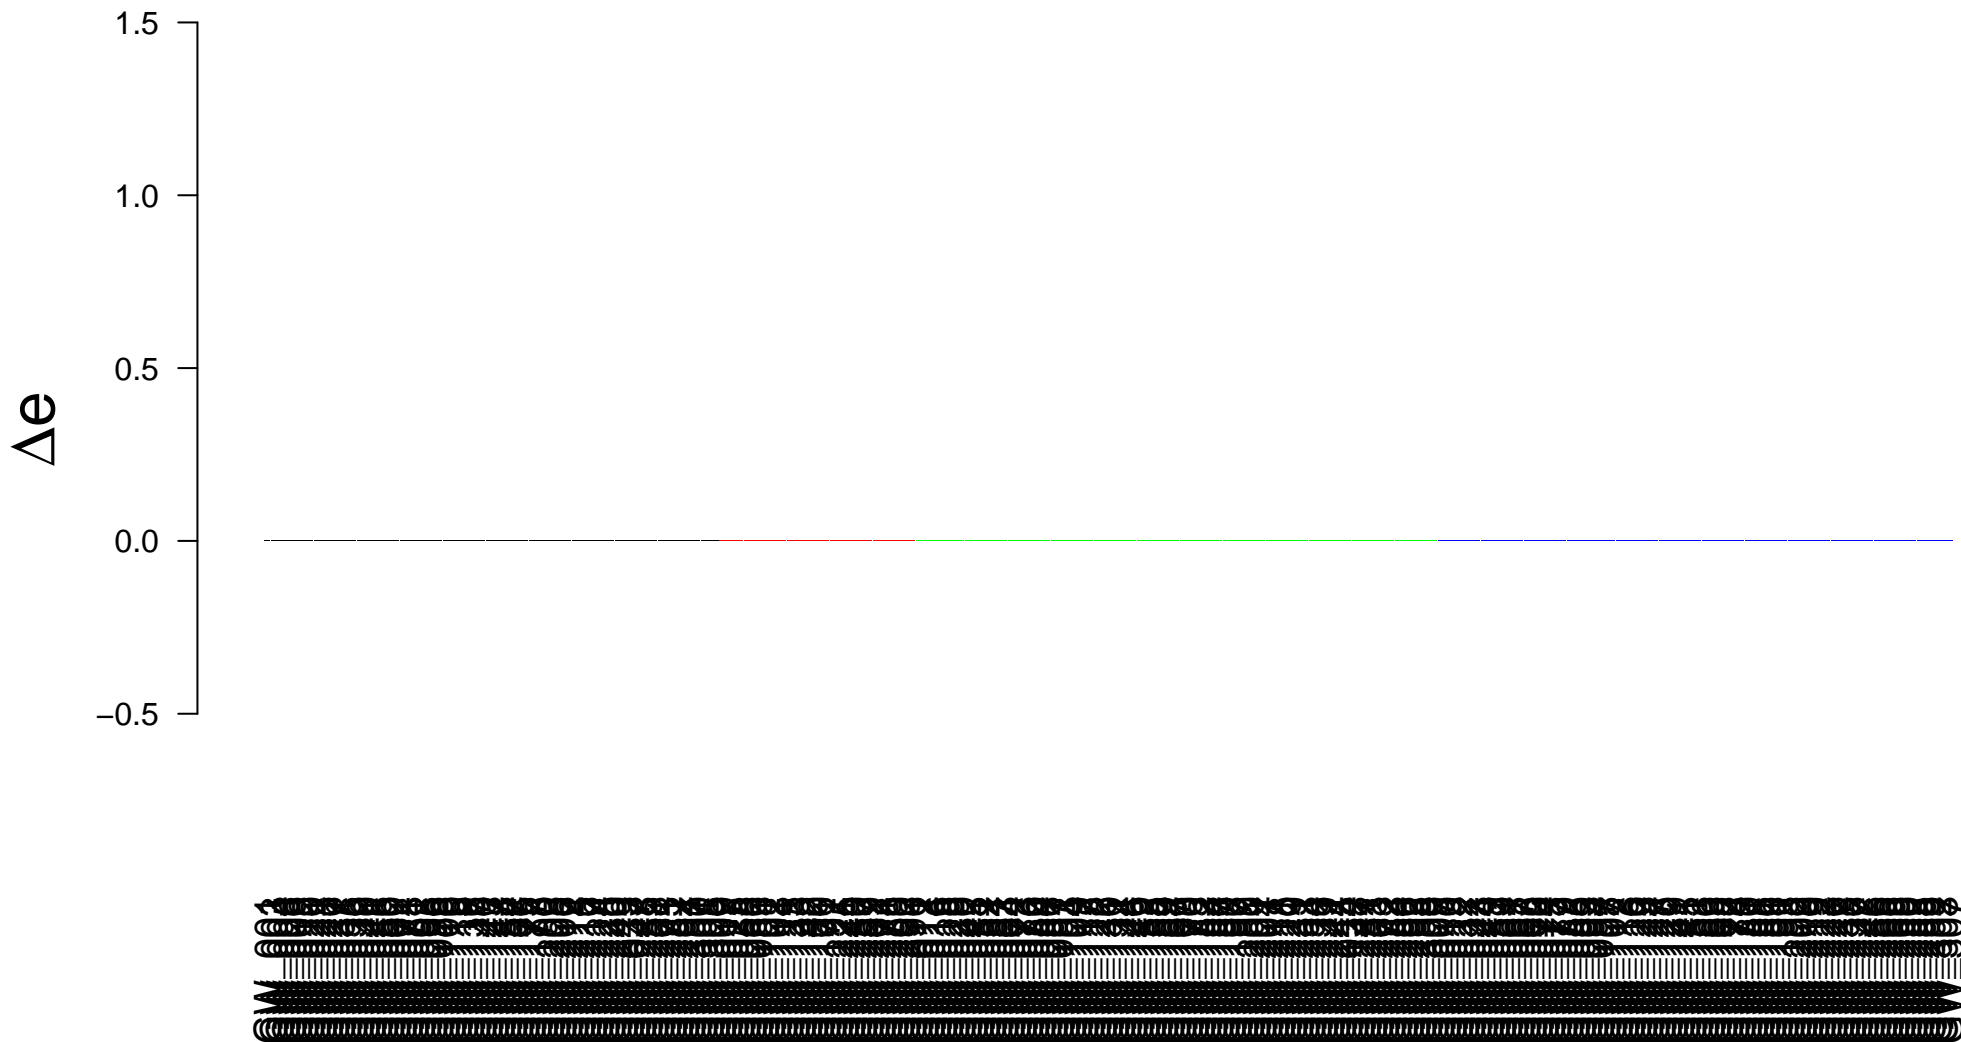

Expression of sodium-independent organic anion transport in Spot L

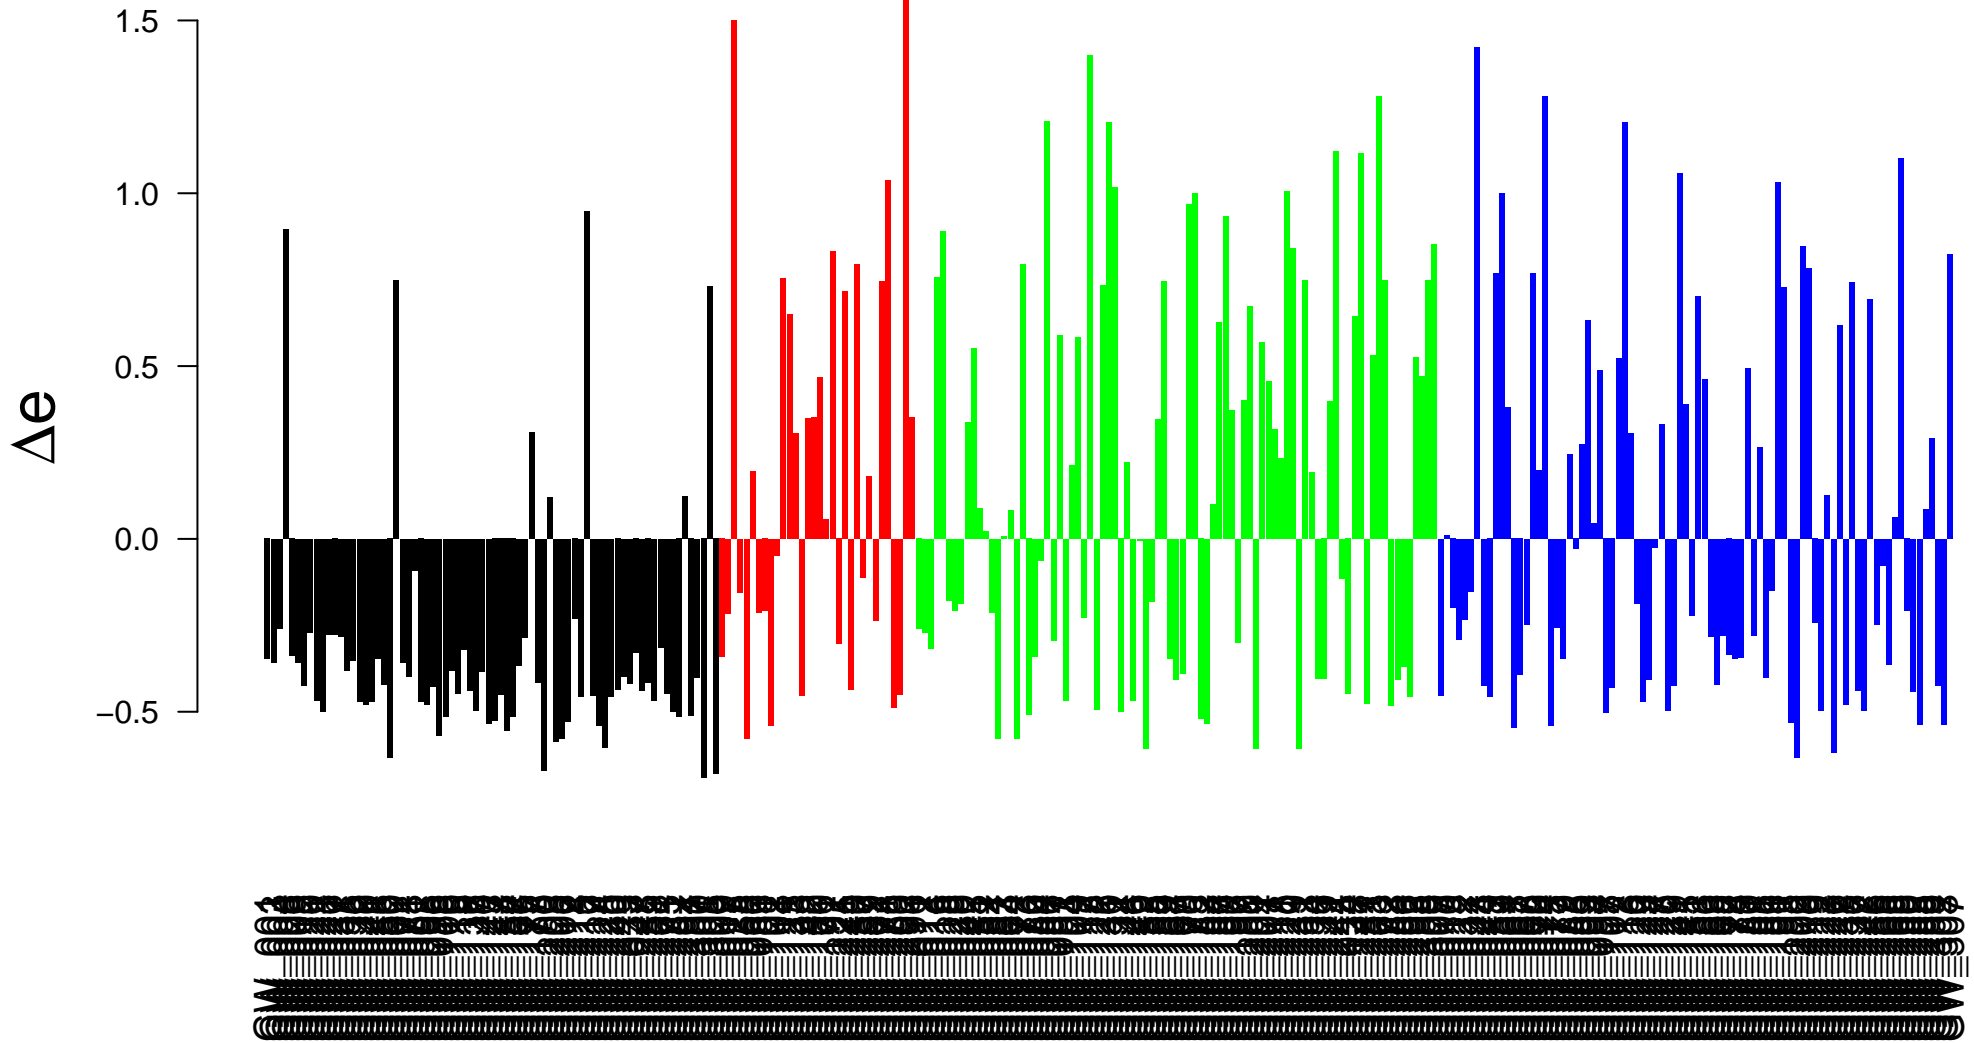

Expression of sodium-independent organic anion transport in Spot M

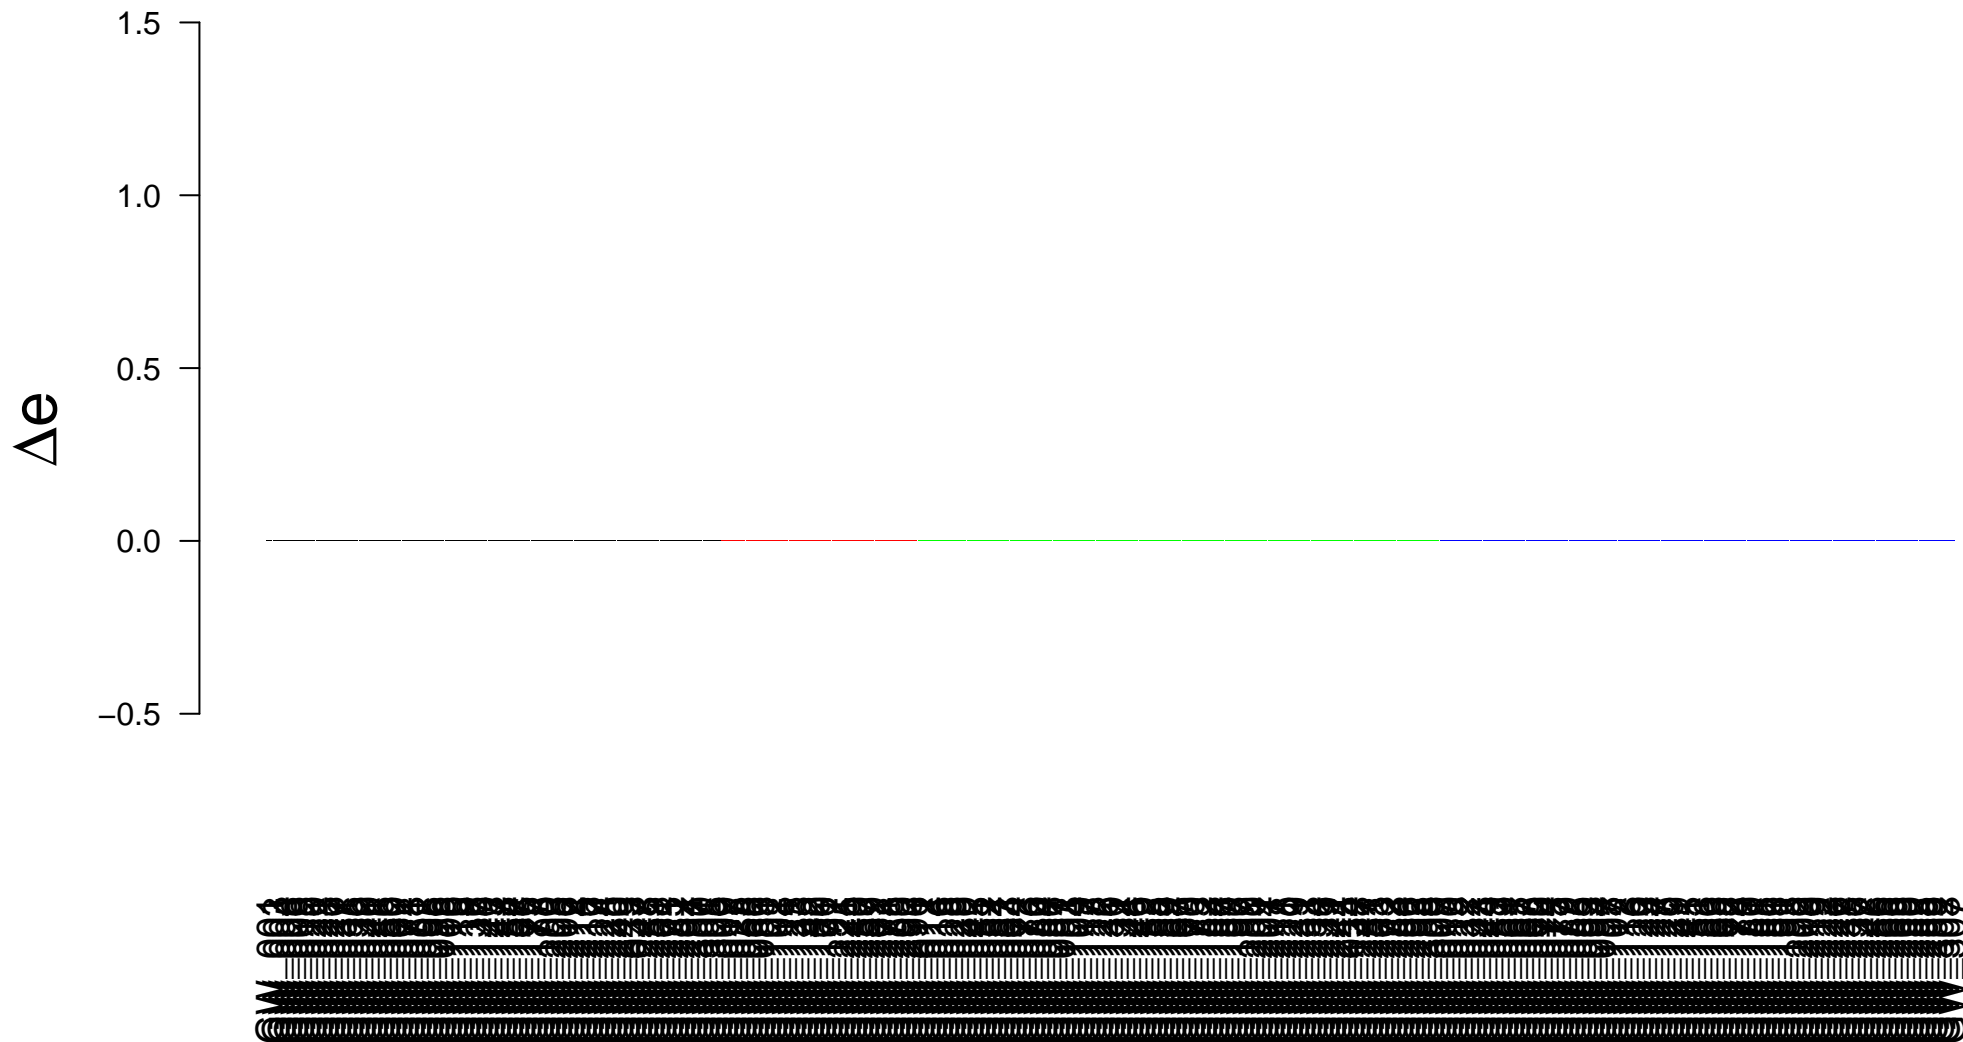

Expression of sodium-independent organic anion transport in Spot N

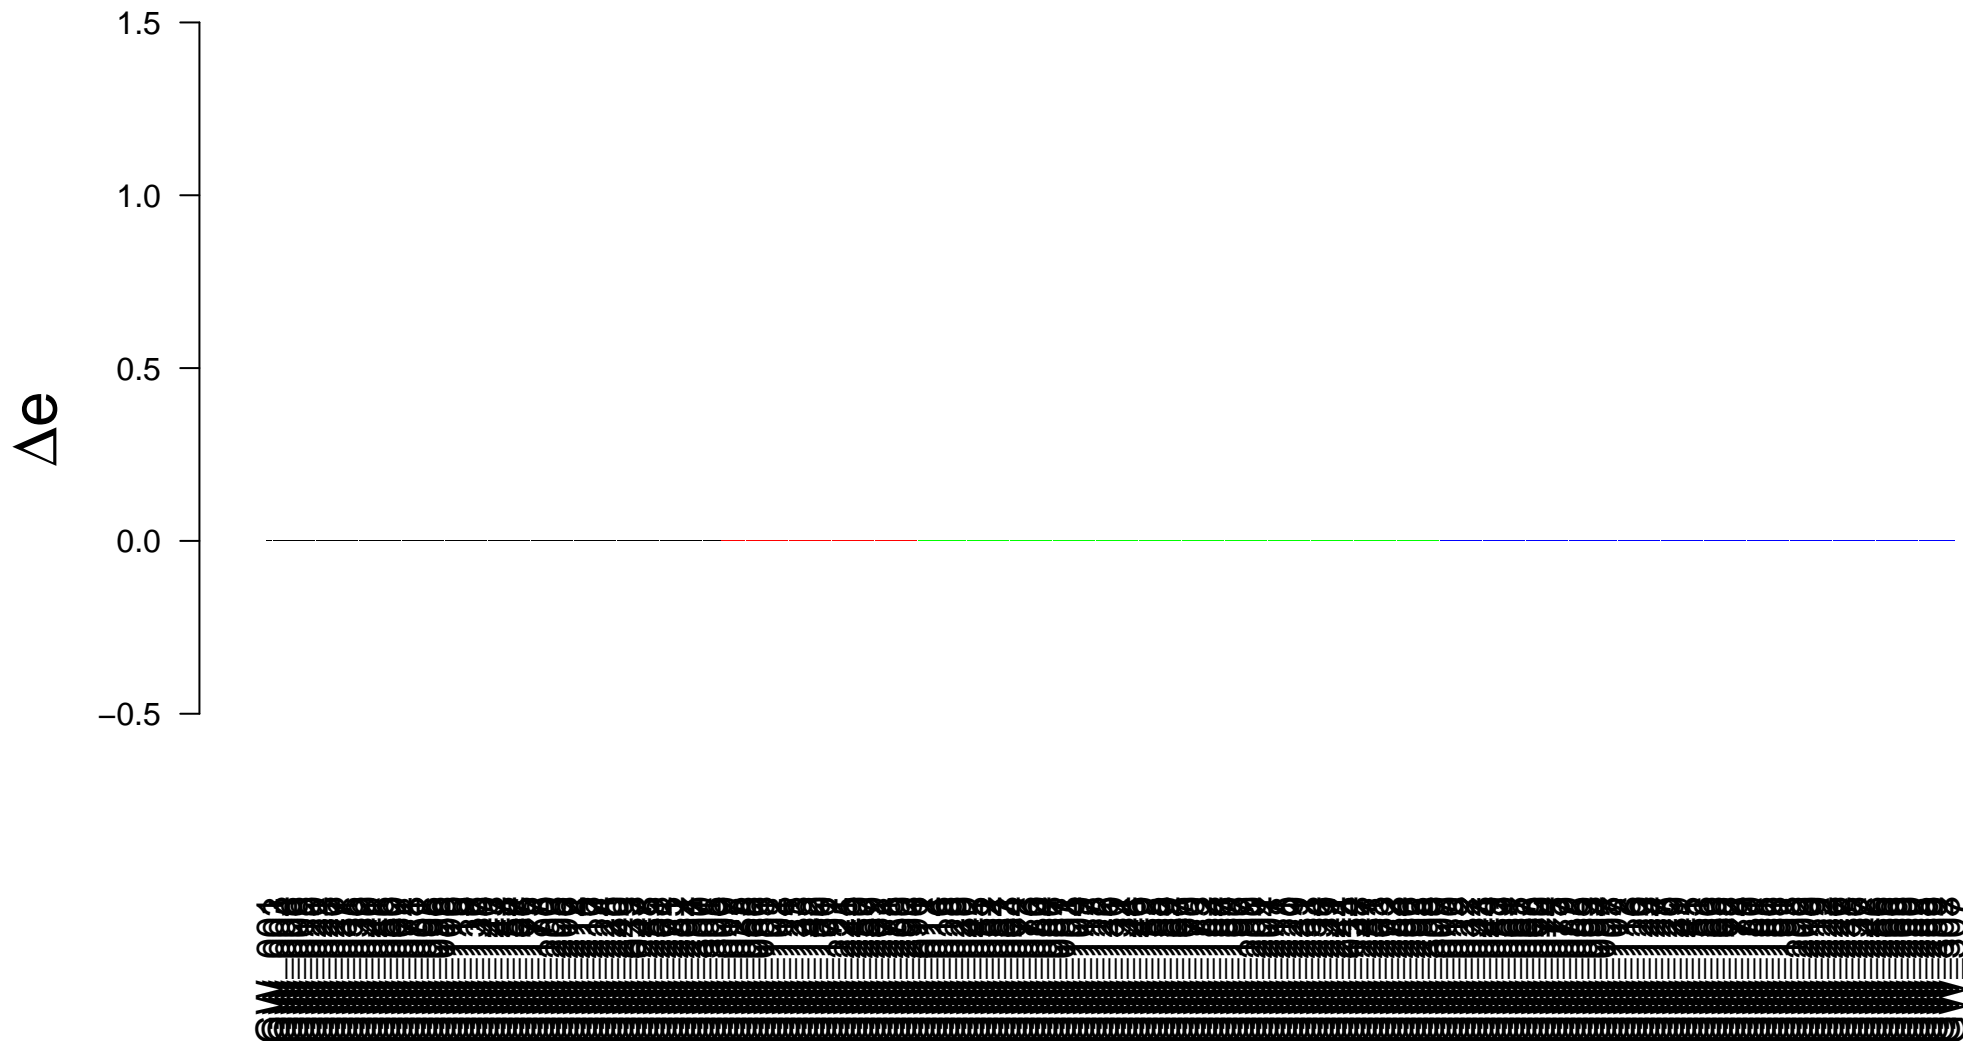

Expression of sodium-independent organic anion transport in Spot O

Expression of sodium-independent organic anion transport in Spot P

Expression of sodium-independent organic anion transport in Spot Q

Expression of sodium-independent organic anion transport in Spot R
