

transcription elongation from RNA polymerase III promoter

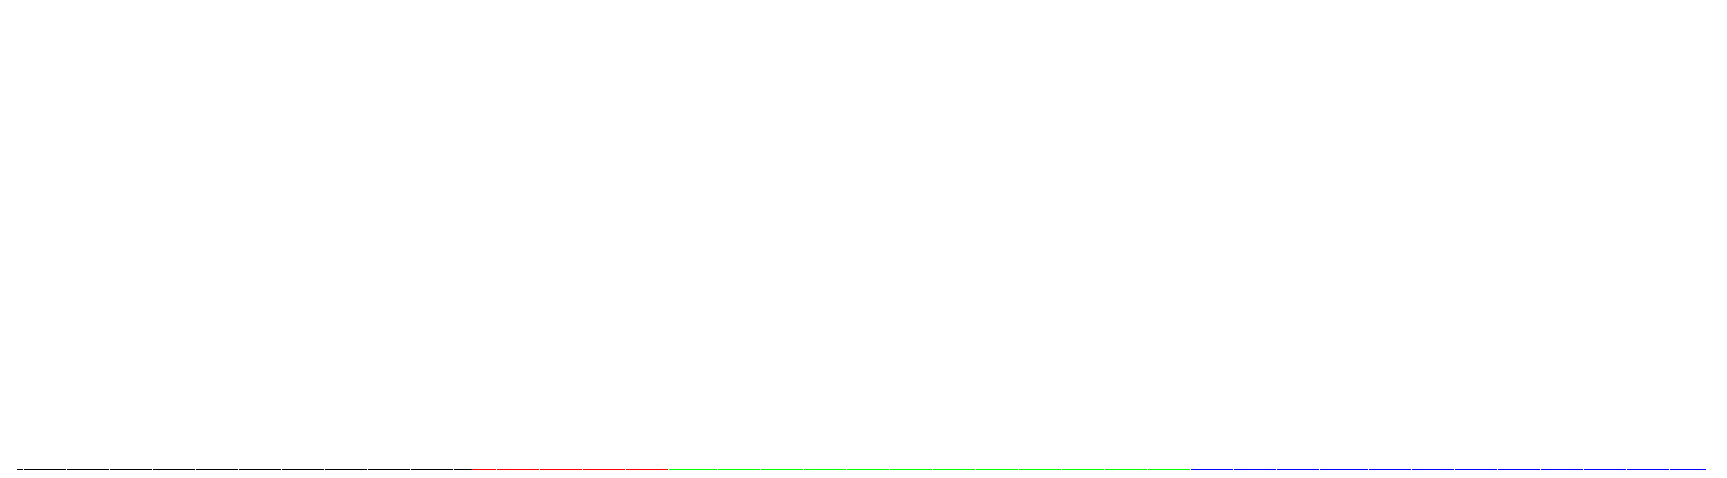

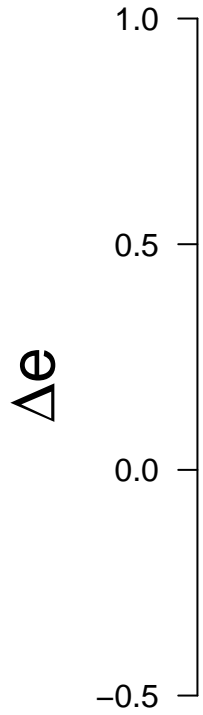

transcription elongation from RNA polymerase III promoter

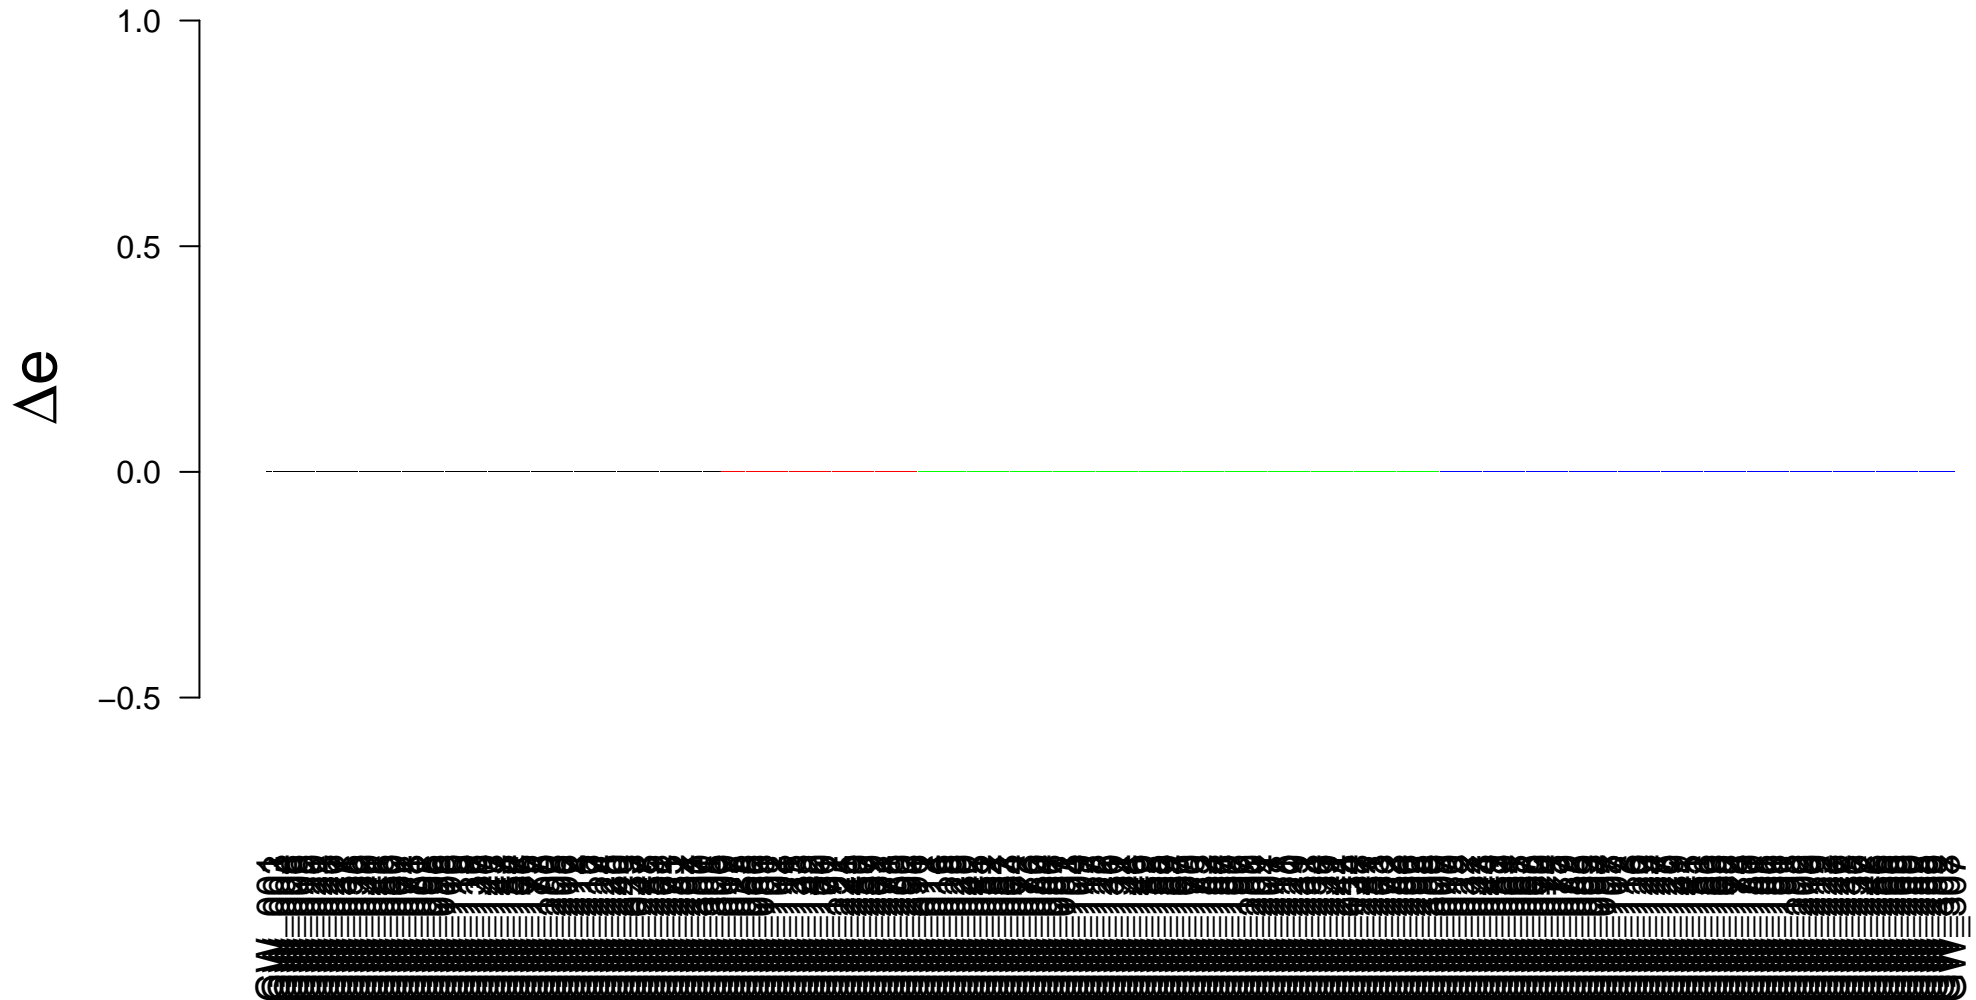

Enrichment in spots: transcription elongation from RNA polymerase III promoter

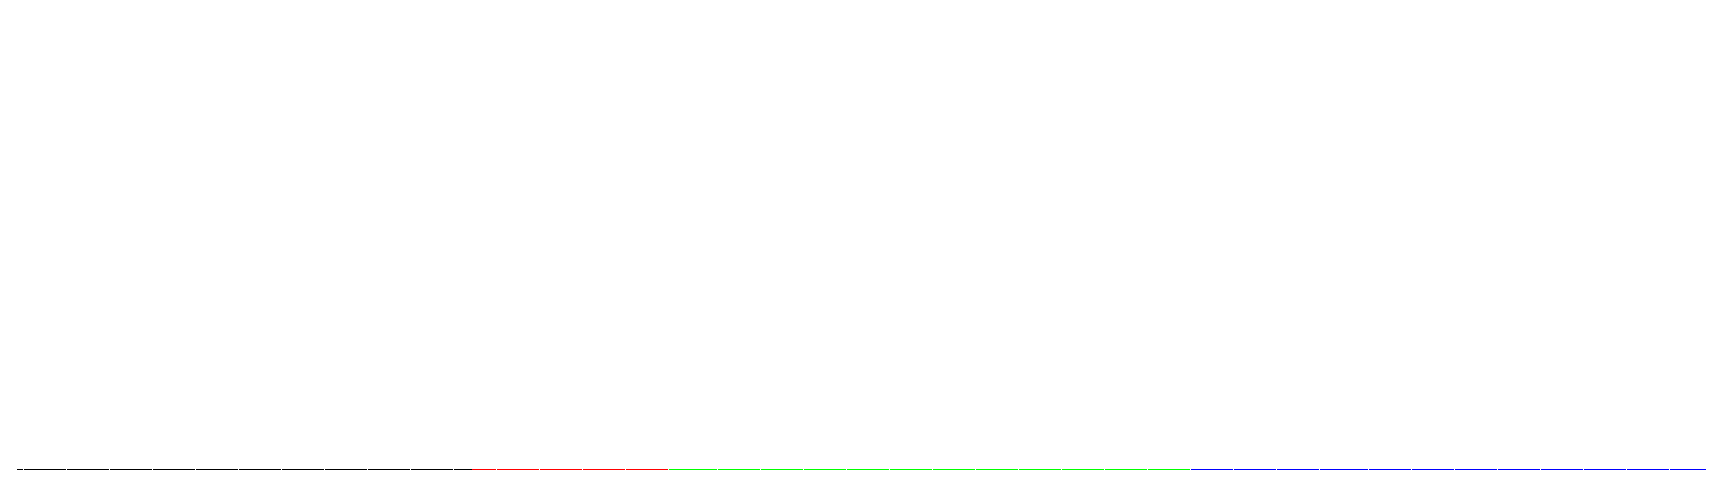

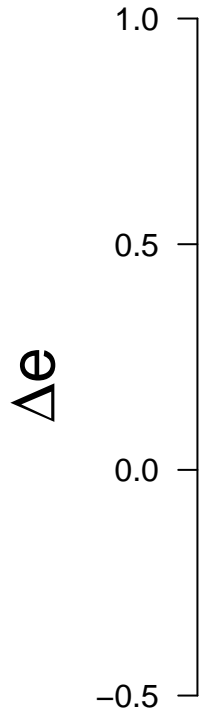

Expression of transcription elongation from RNA polymerase III promoter in Spot A

Expression of transcription elongation from RNA polymerase III promoter in Spot B

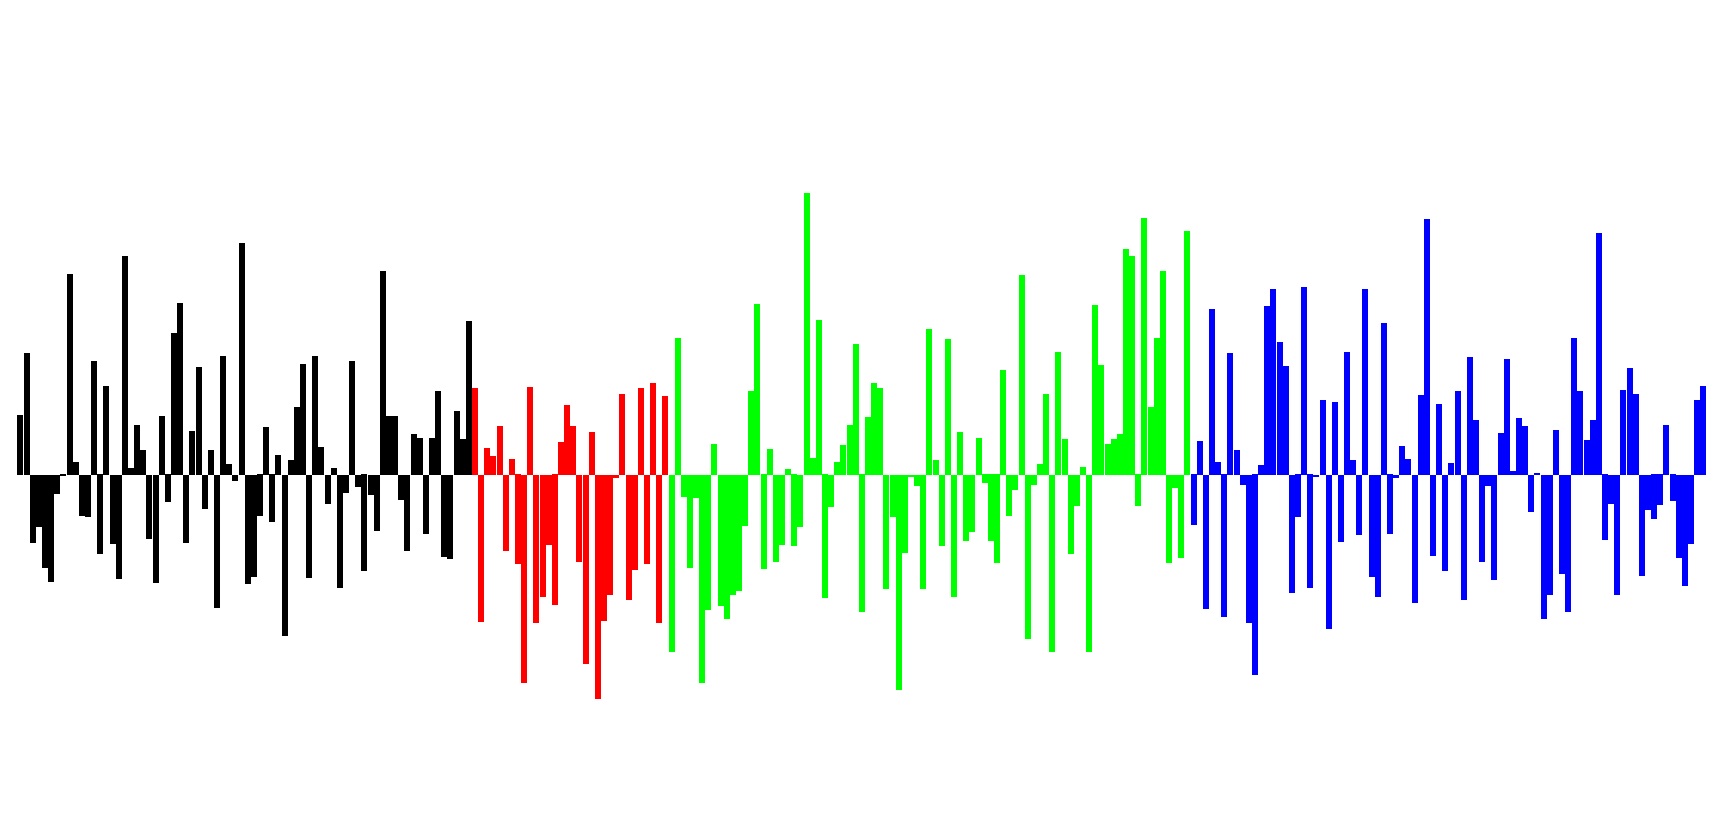

Expression of transcription elongation from RNA polymerase III promoter in Spot C

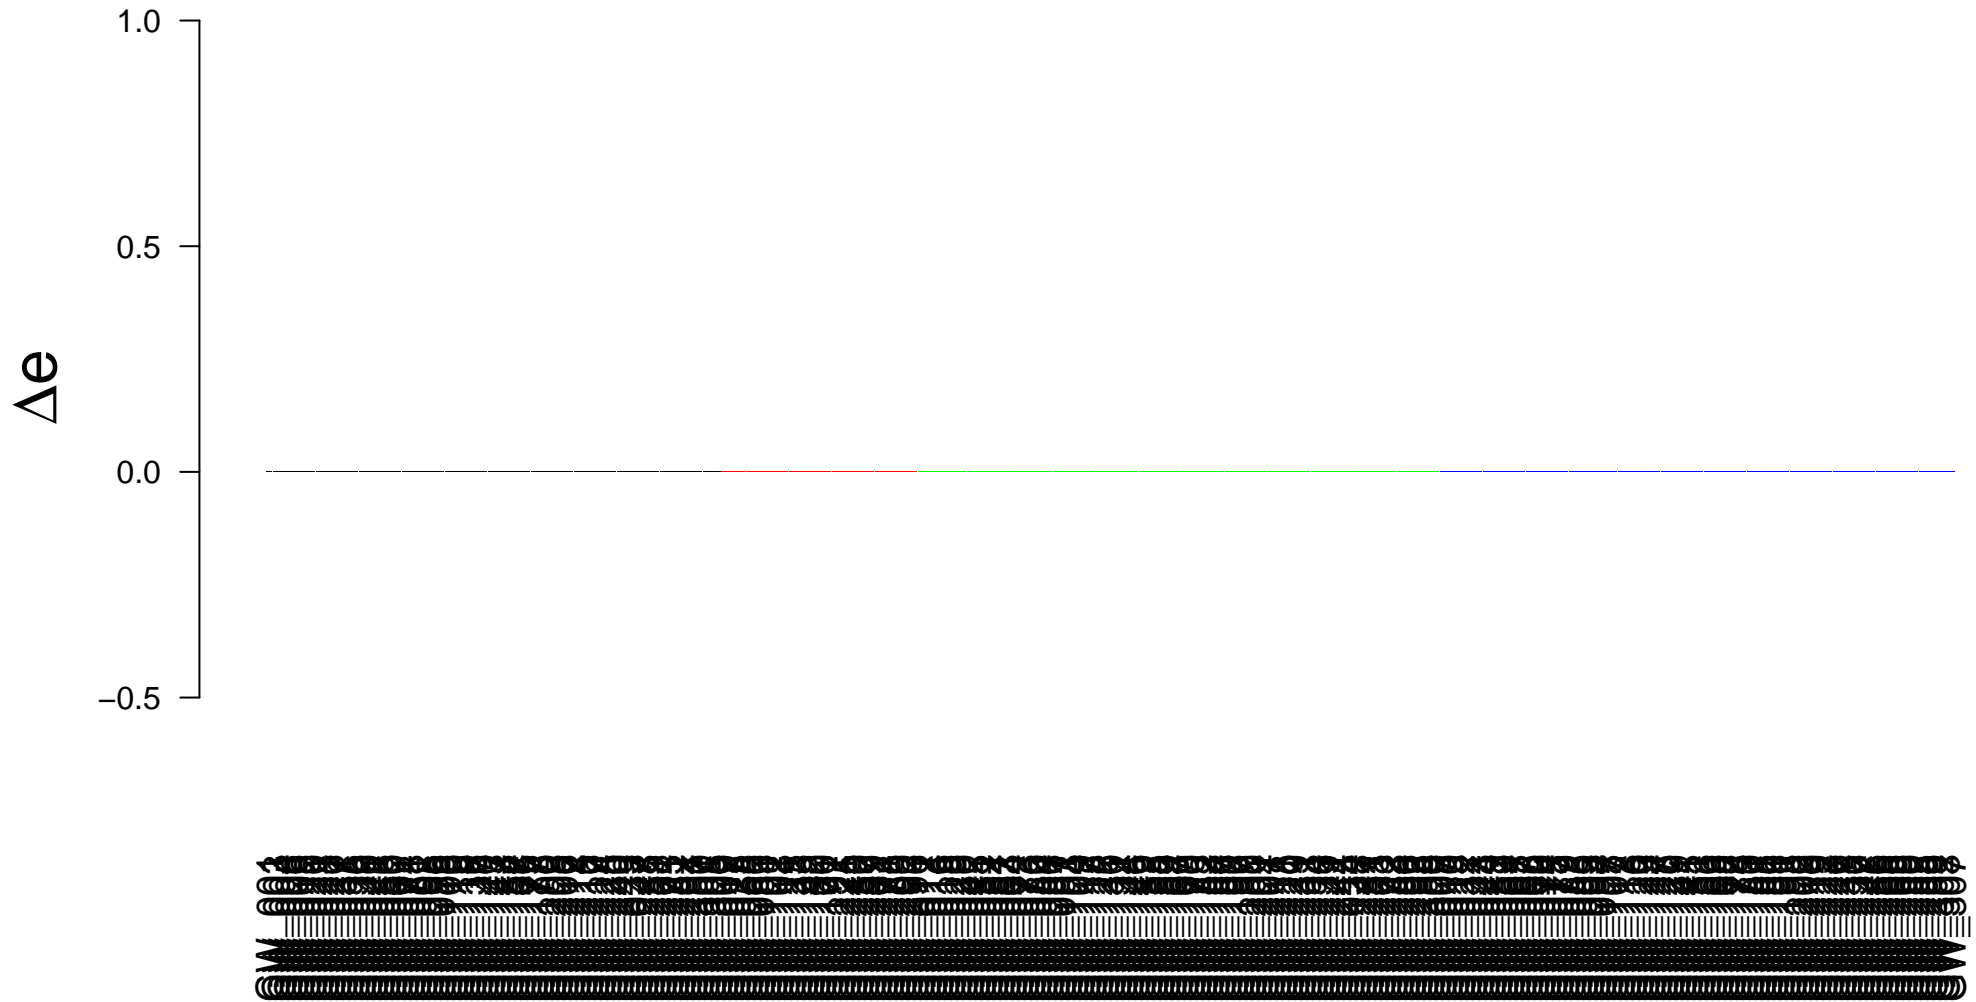

Expression of transcription elongation from RNA polymerase III promoter in Spot D

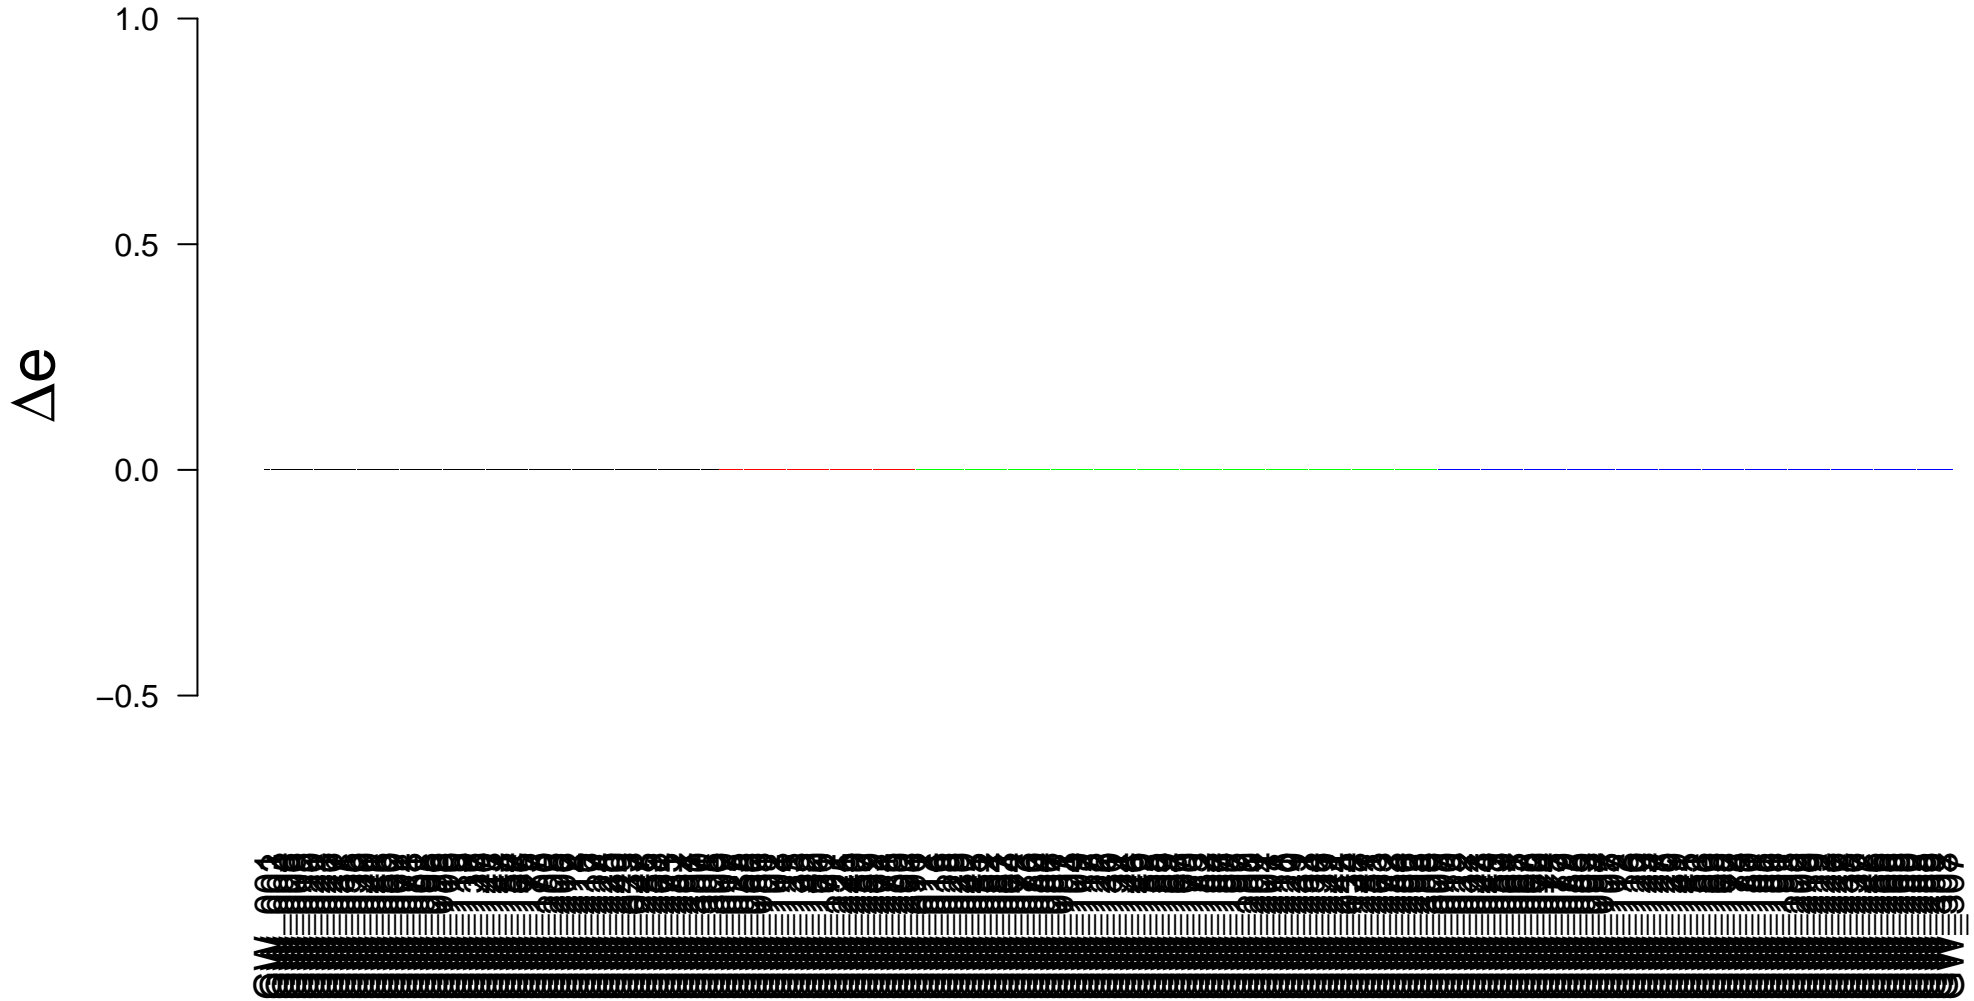

Δe

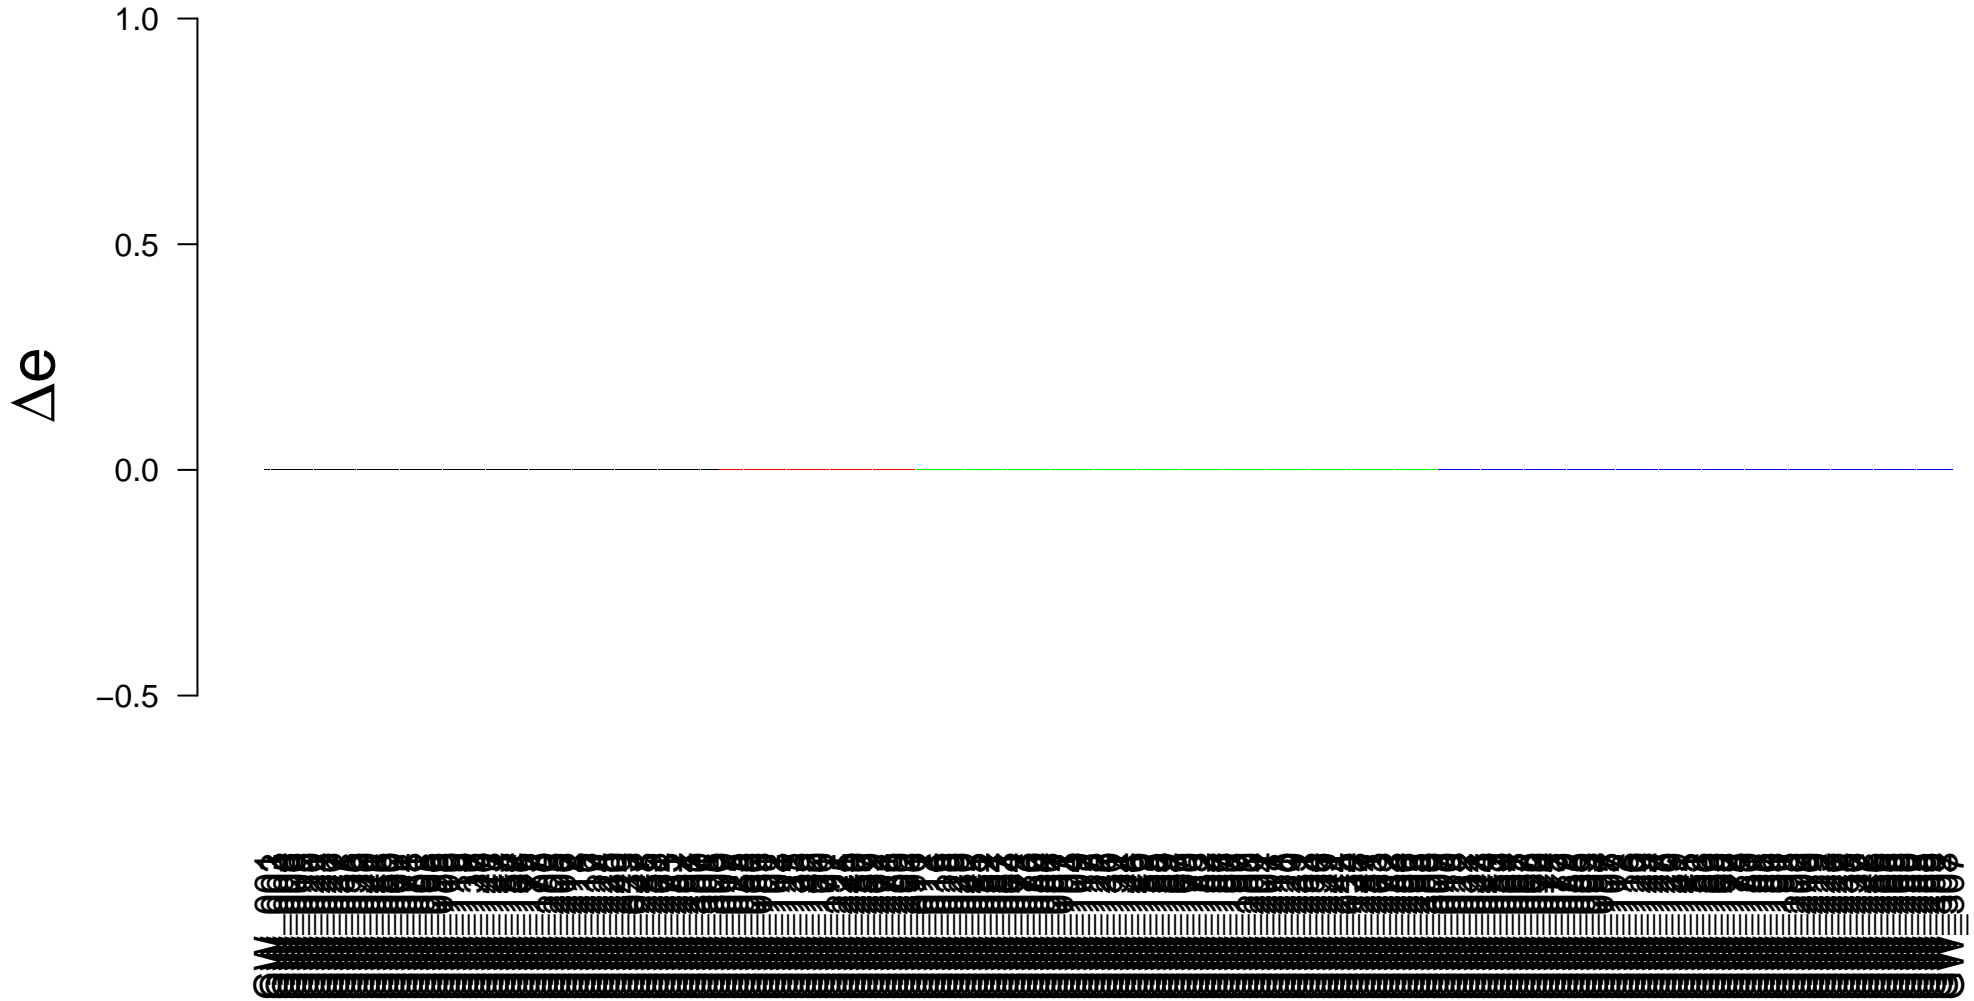

Expression of transcription elongation from RNA polymerase III promoter in Spot E

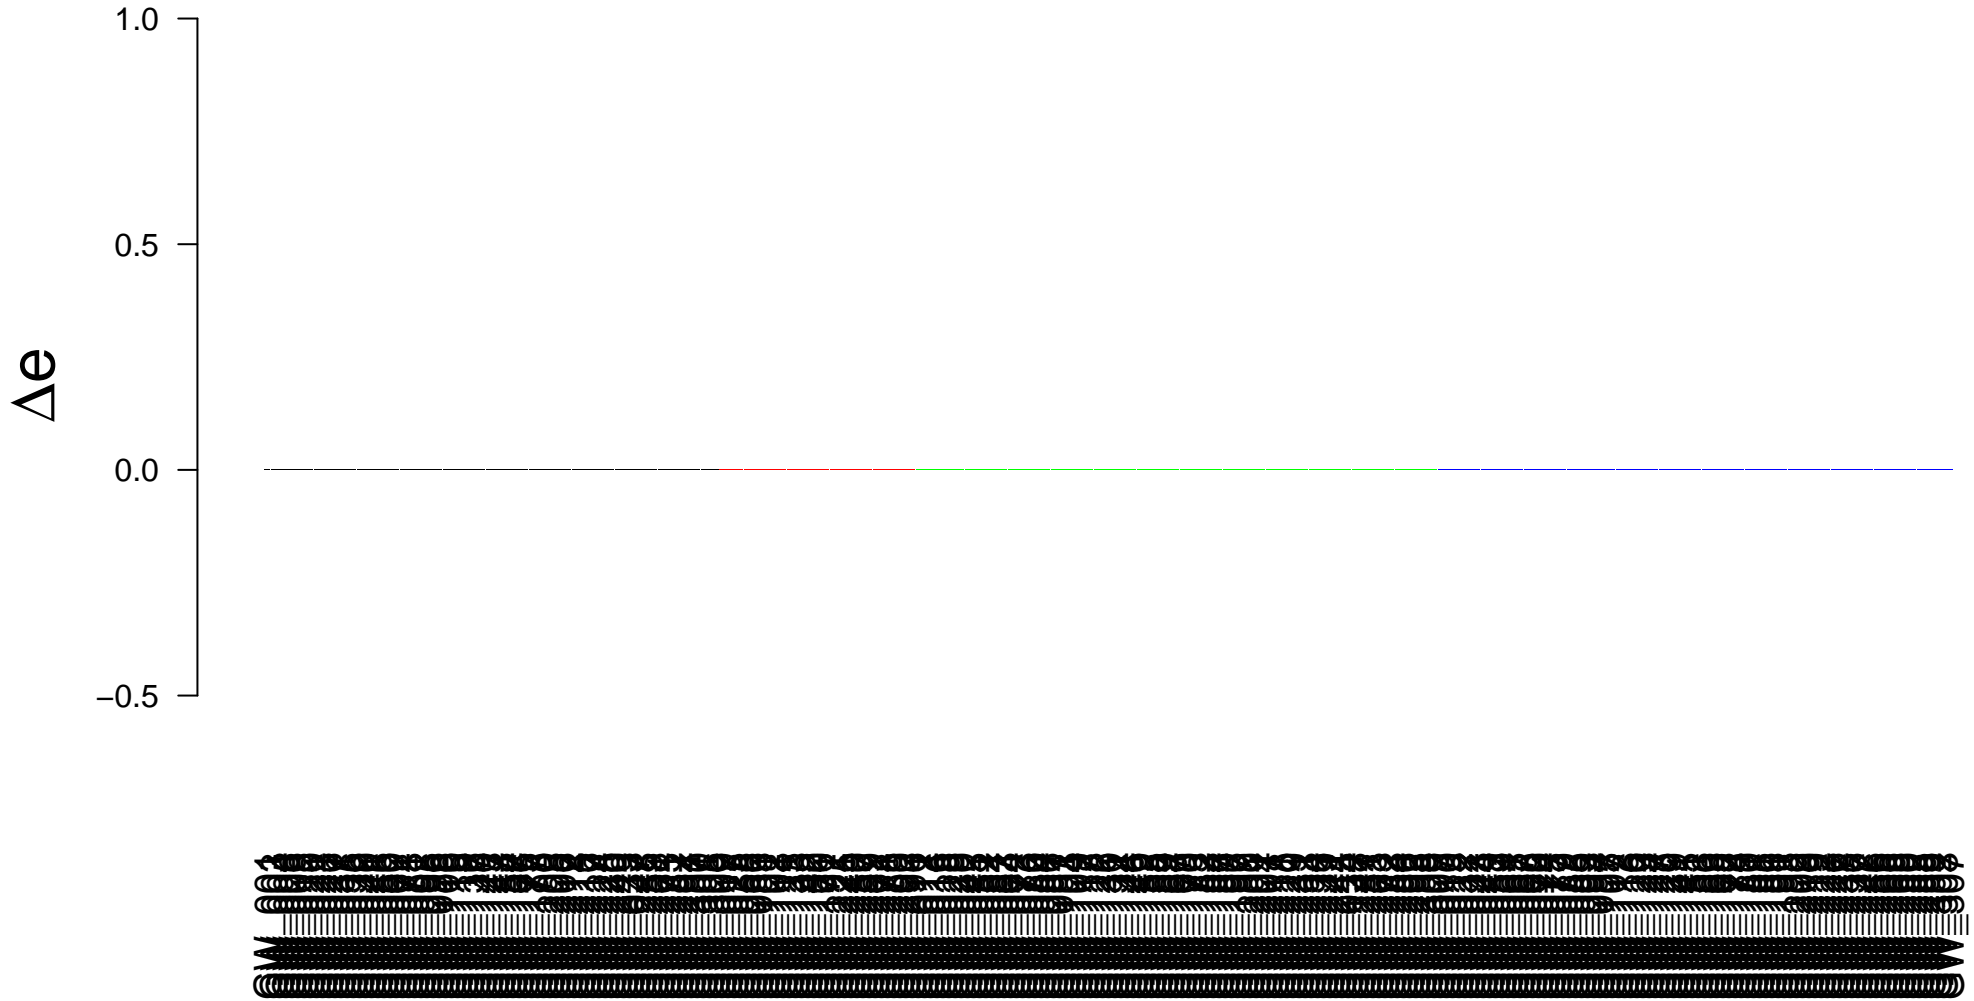

Expression of transcription elongation from RNA polymerase III promoter in Spot F

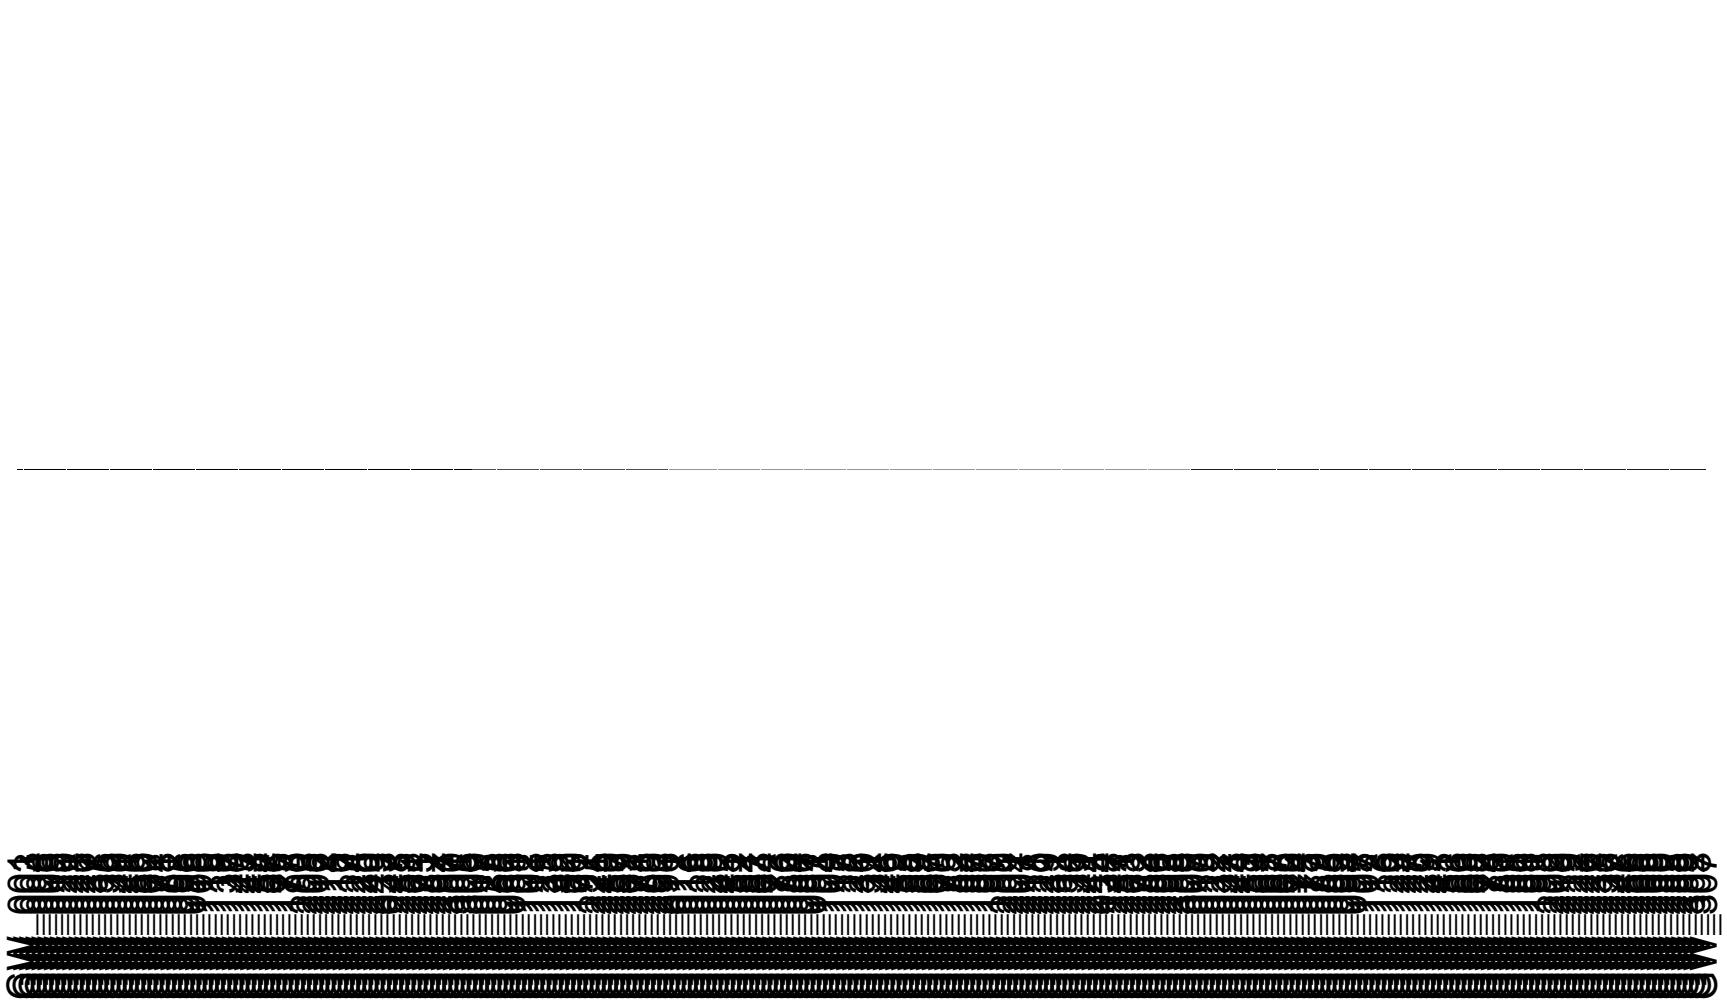

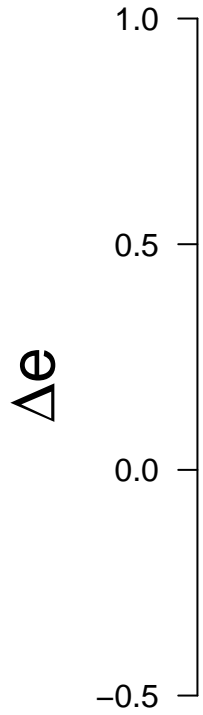

Expression of transcription elongation from RNA polymerase III promoter in Spot G

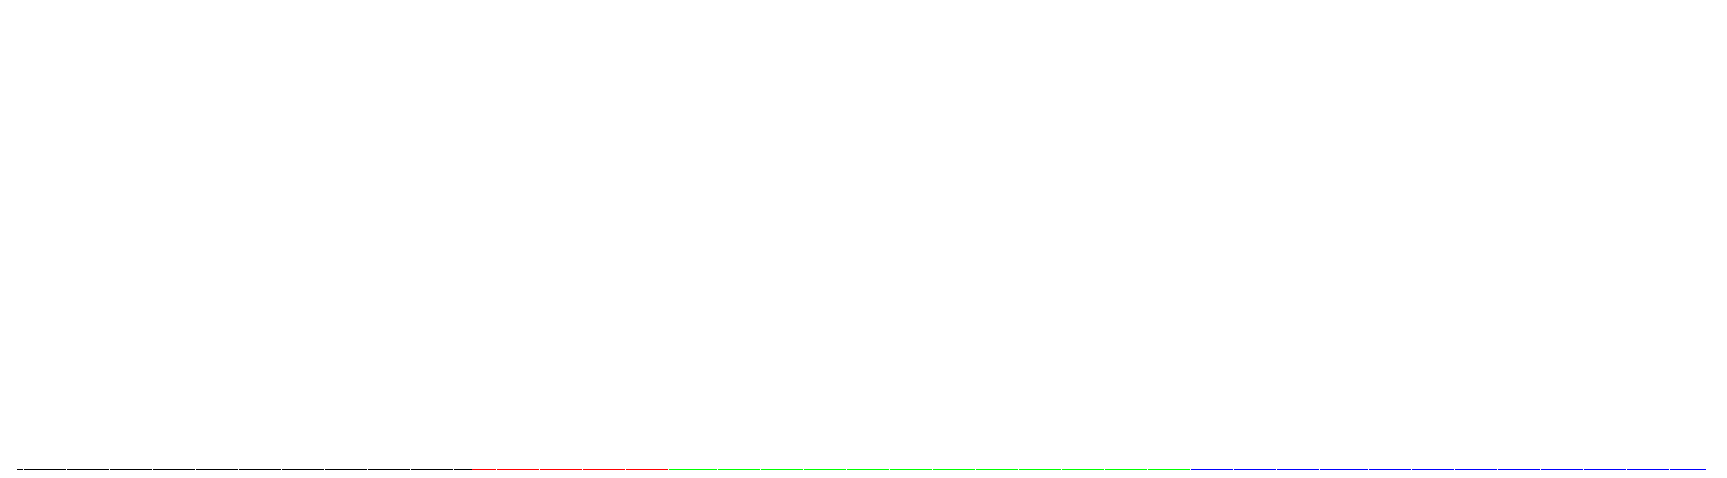

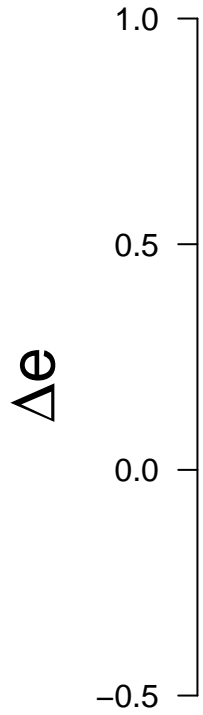

Expression of transcription elongation from RNA polymerase III promoter in Spot H

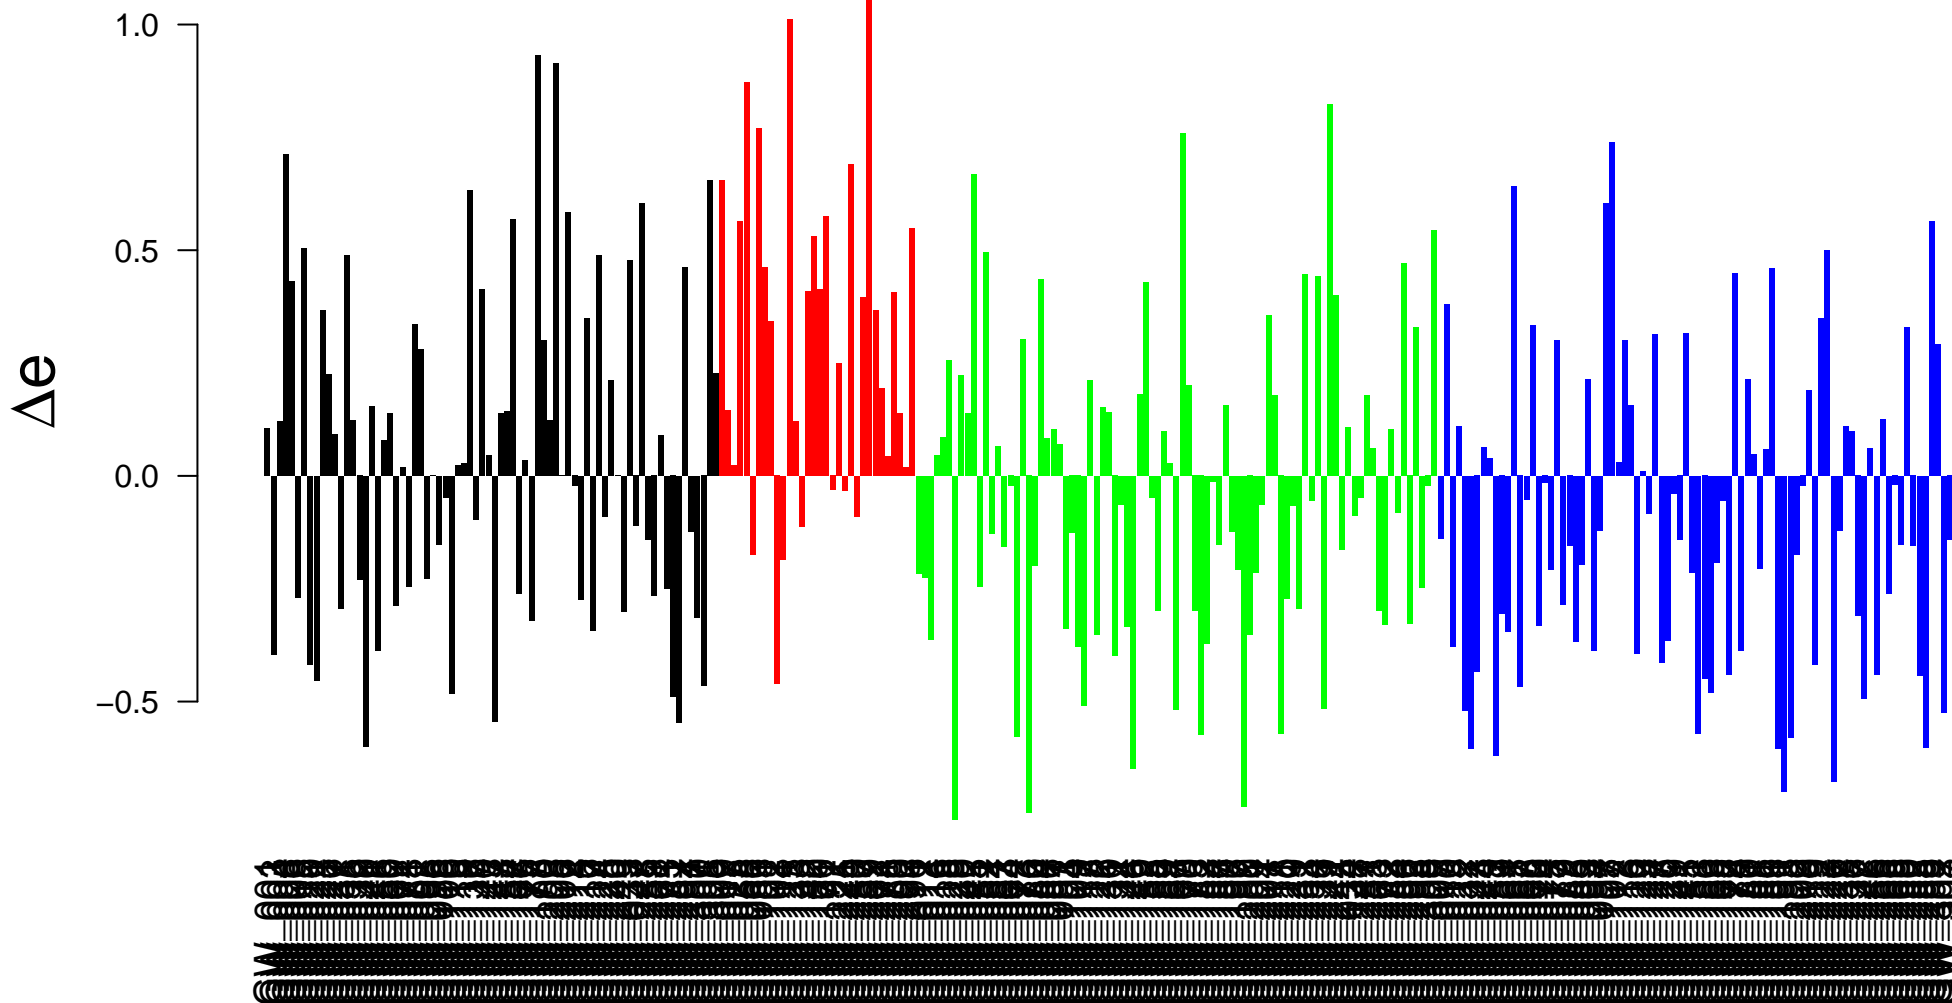

Expression of transcription elongation from RNA polymerase III promoter in Spot I

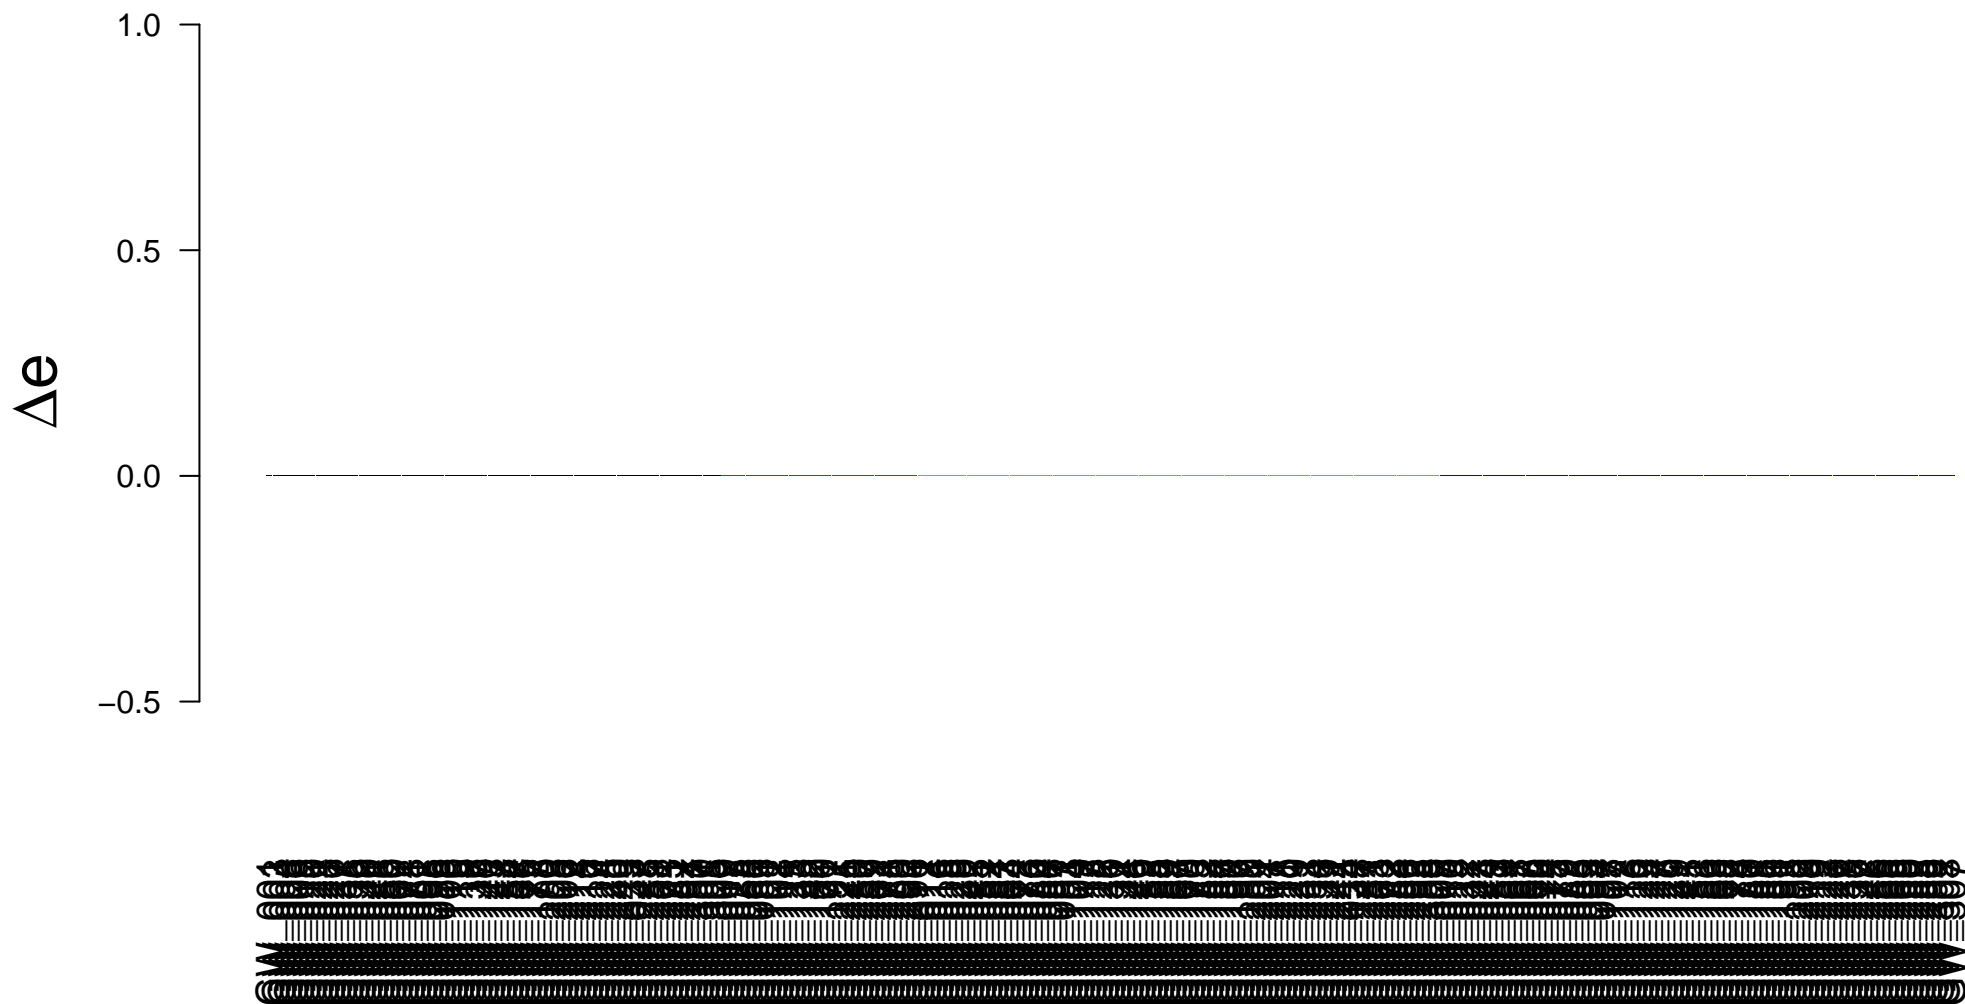

Expression of transcription elongation from RNA polymerase III promoter in Spot J

Expression of transcription elongation from RNA polymerase III promoter in Spot K

Expression of transcription elongation from RNA polymerase III promoter in Spot L

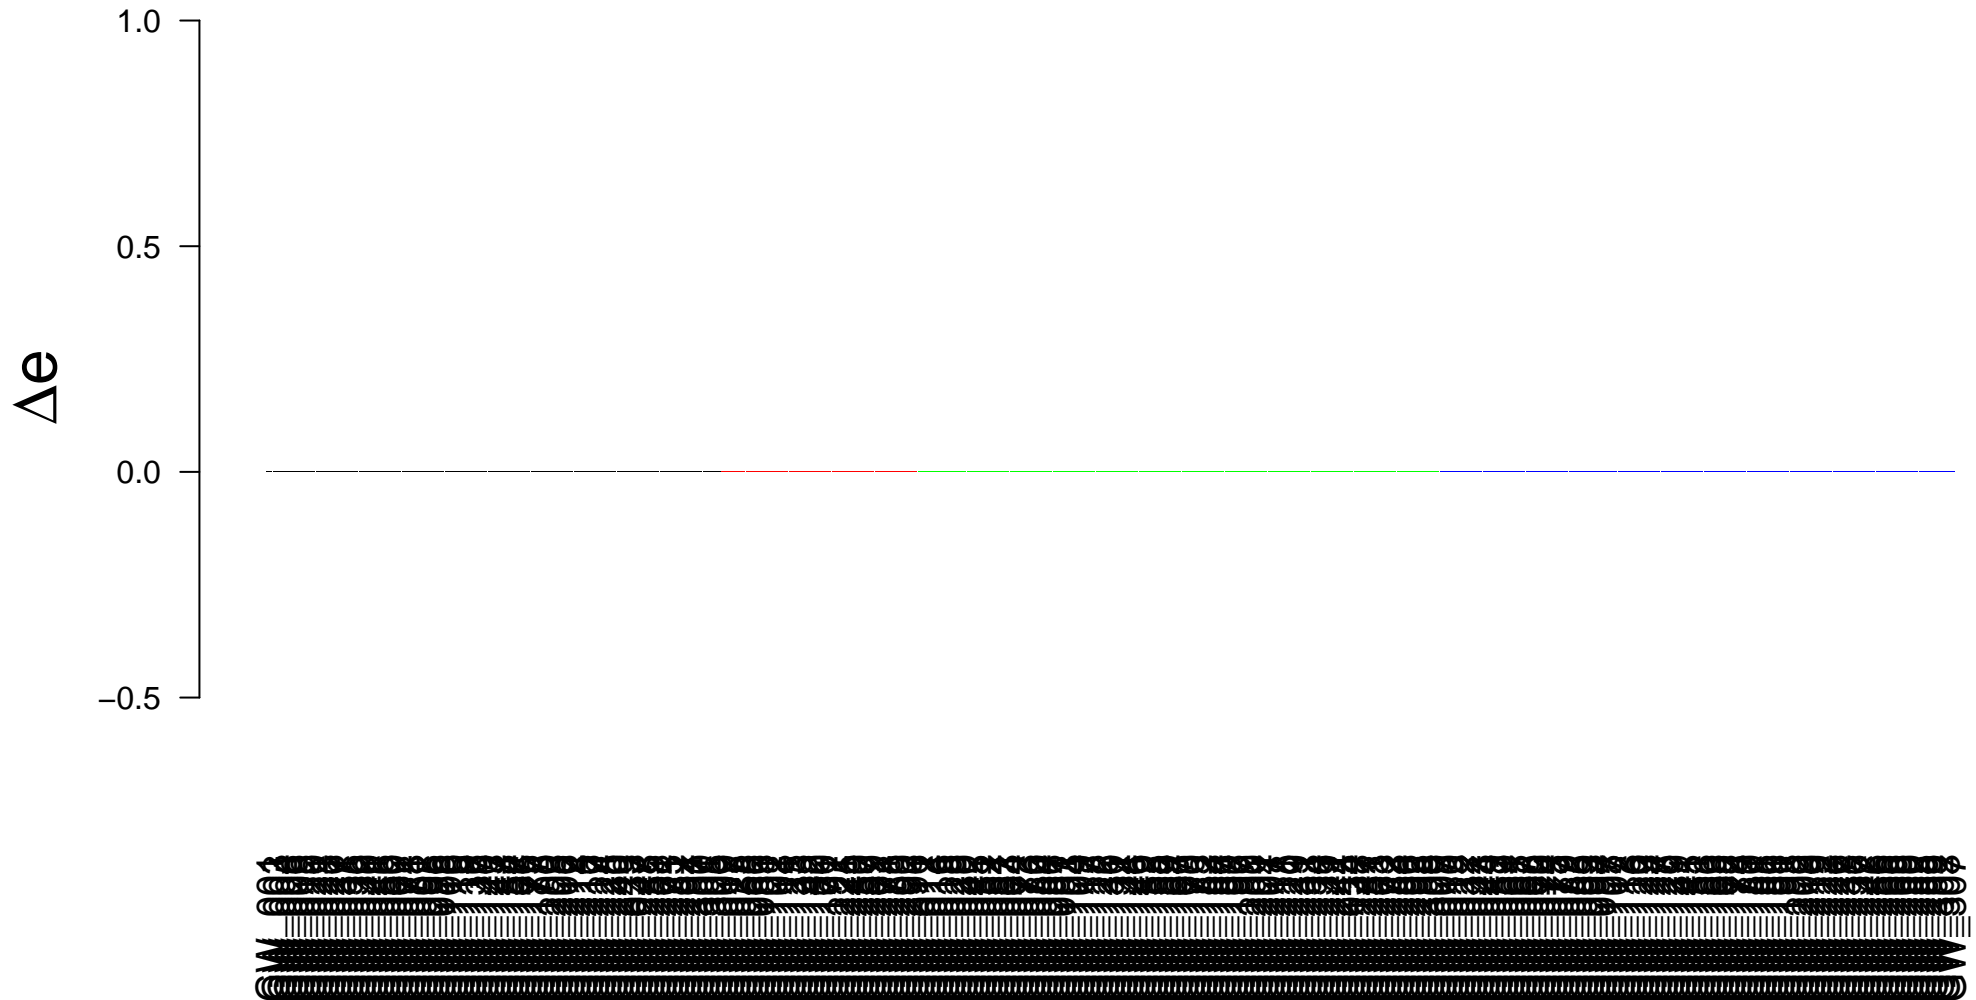

Expression of transcription elongation from RNA polymerase III promoter in Spot M

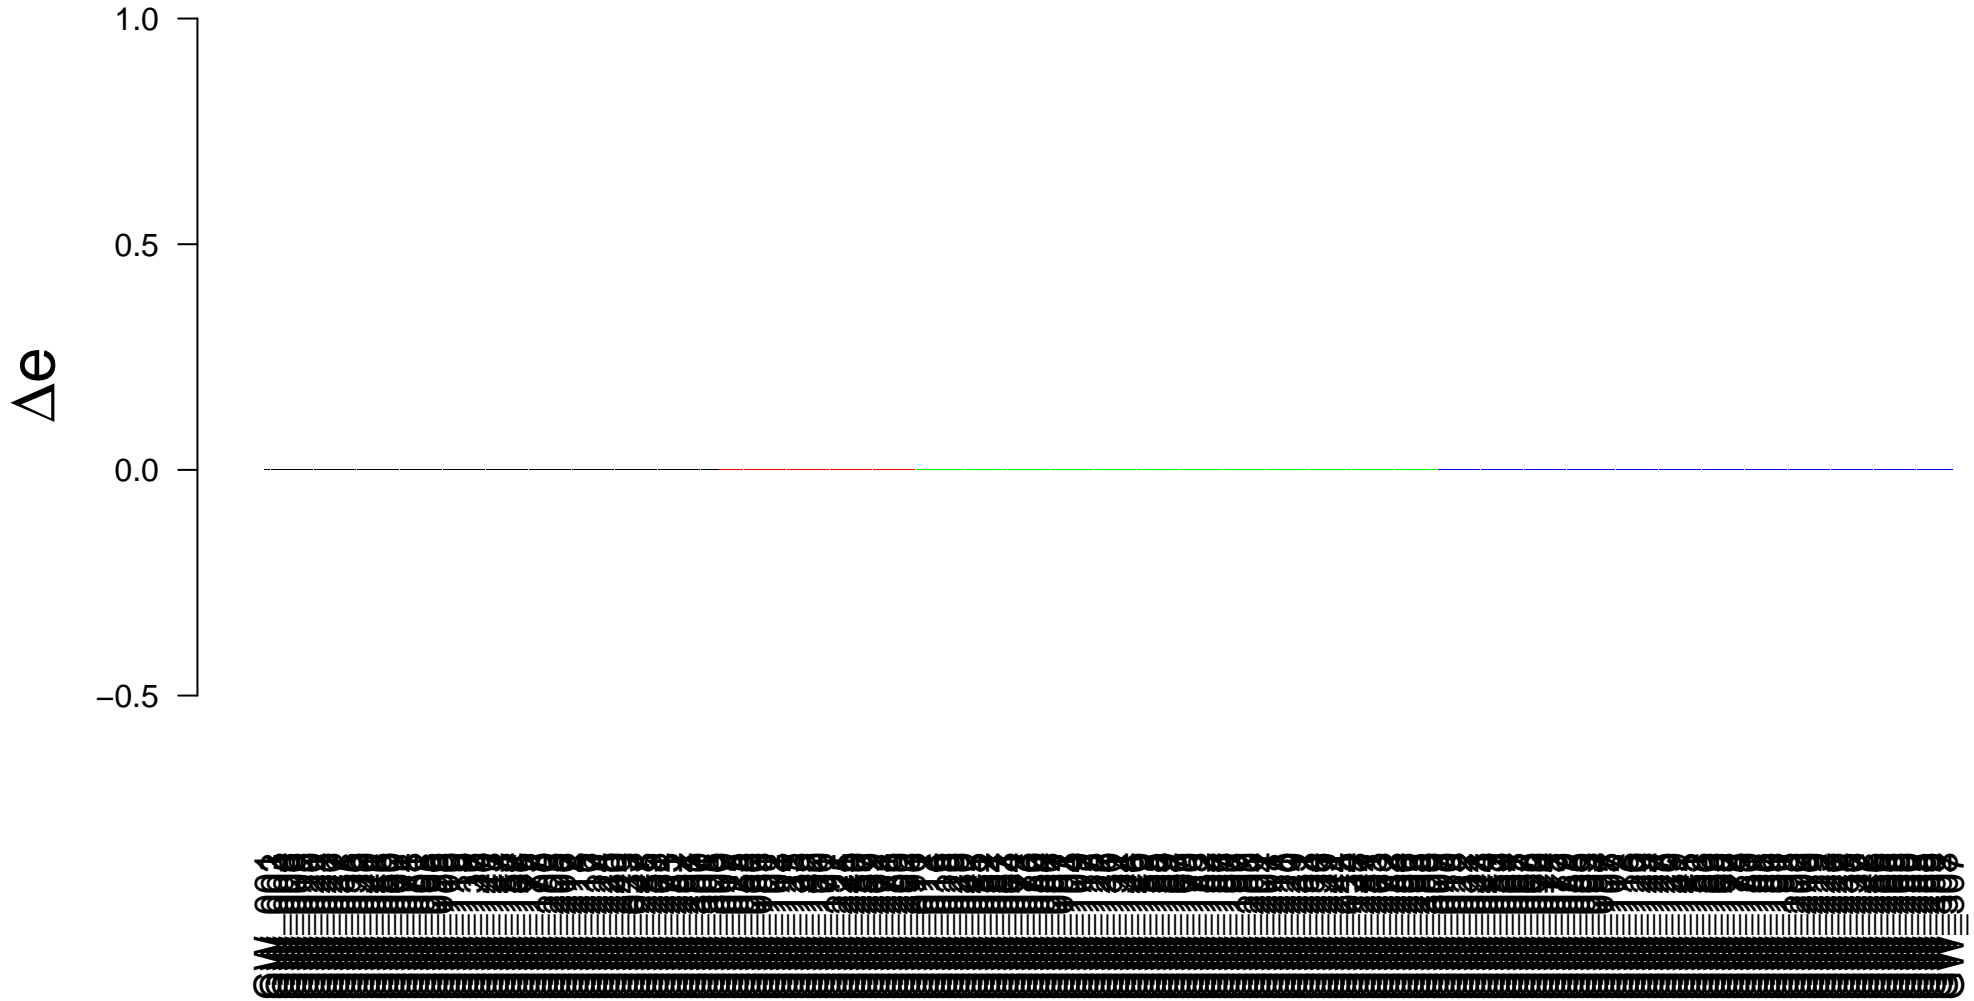

Δe

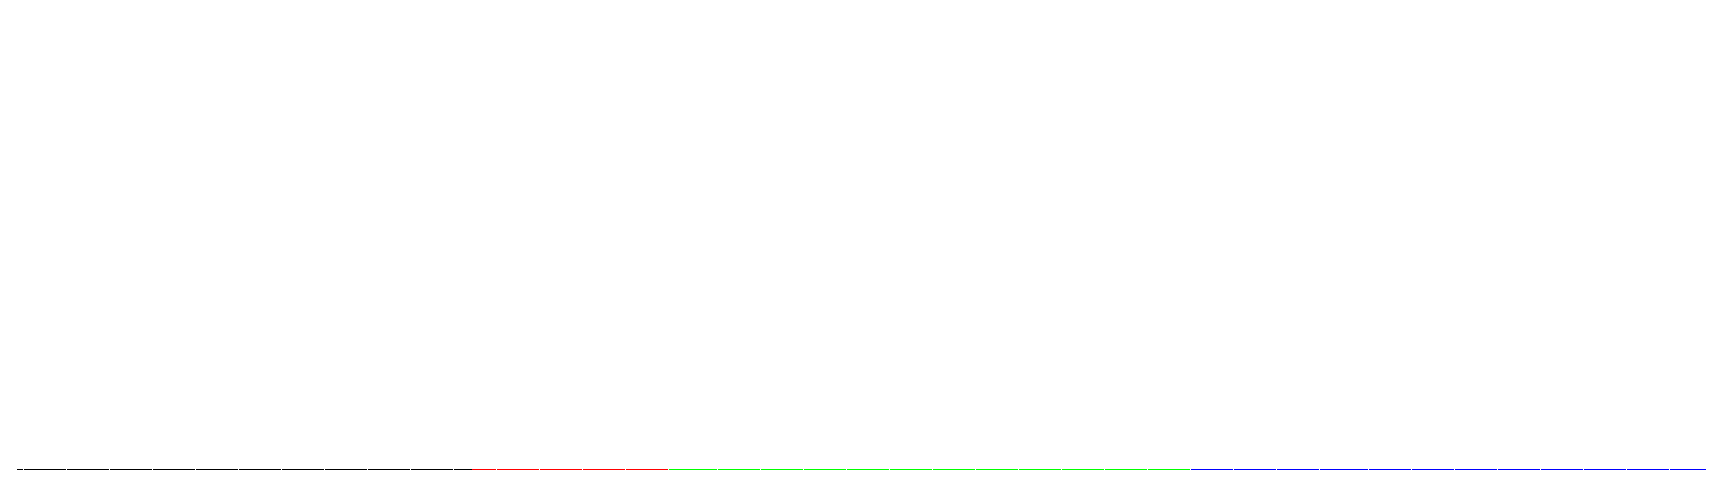

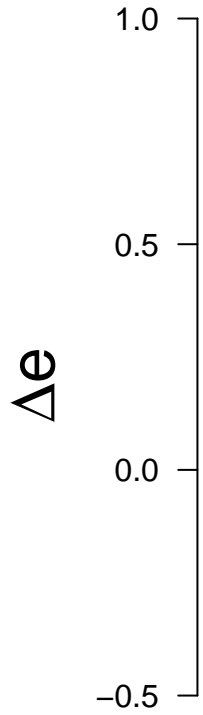

Expression of transcription elongation from RNA polymerase III promoter in Spot N

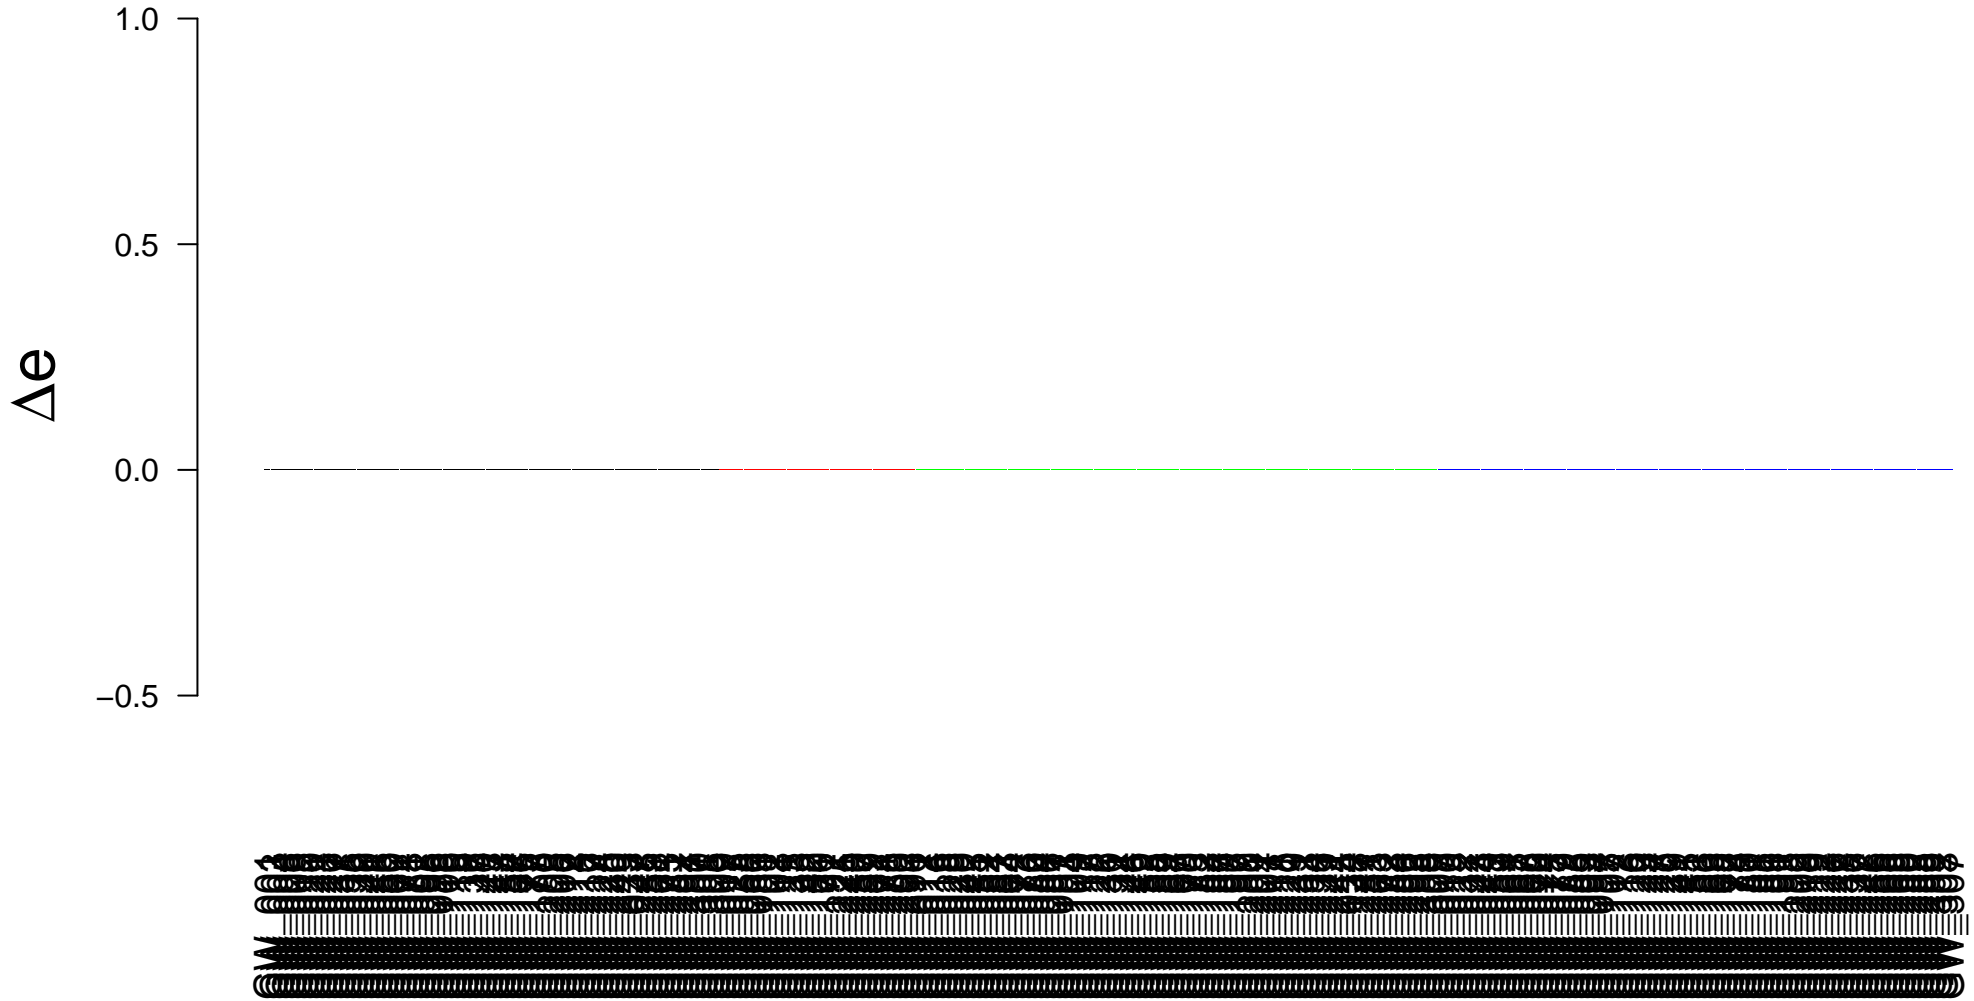

Expression of transcription elongation from RNA polymerase III promoter in Spot O

Expression of transcription elongation from RNA polymerase III promoter in Spot P

Expression of transcription elongation from RNA polymerase III promoter in Spot Q

Expression of transcription elongation from RNA polymerase III promoter in Spot R
