

translation elongation factor activity

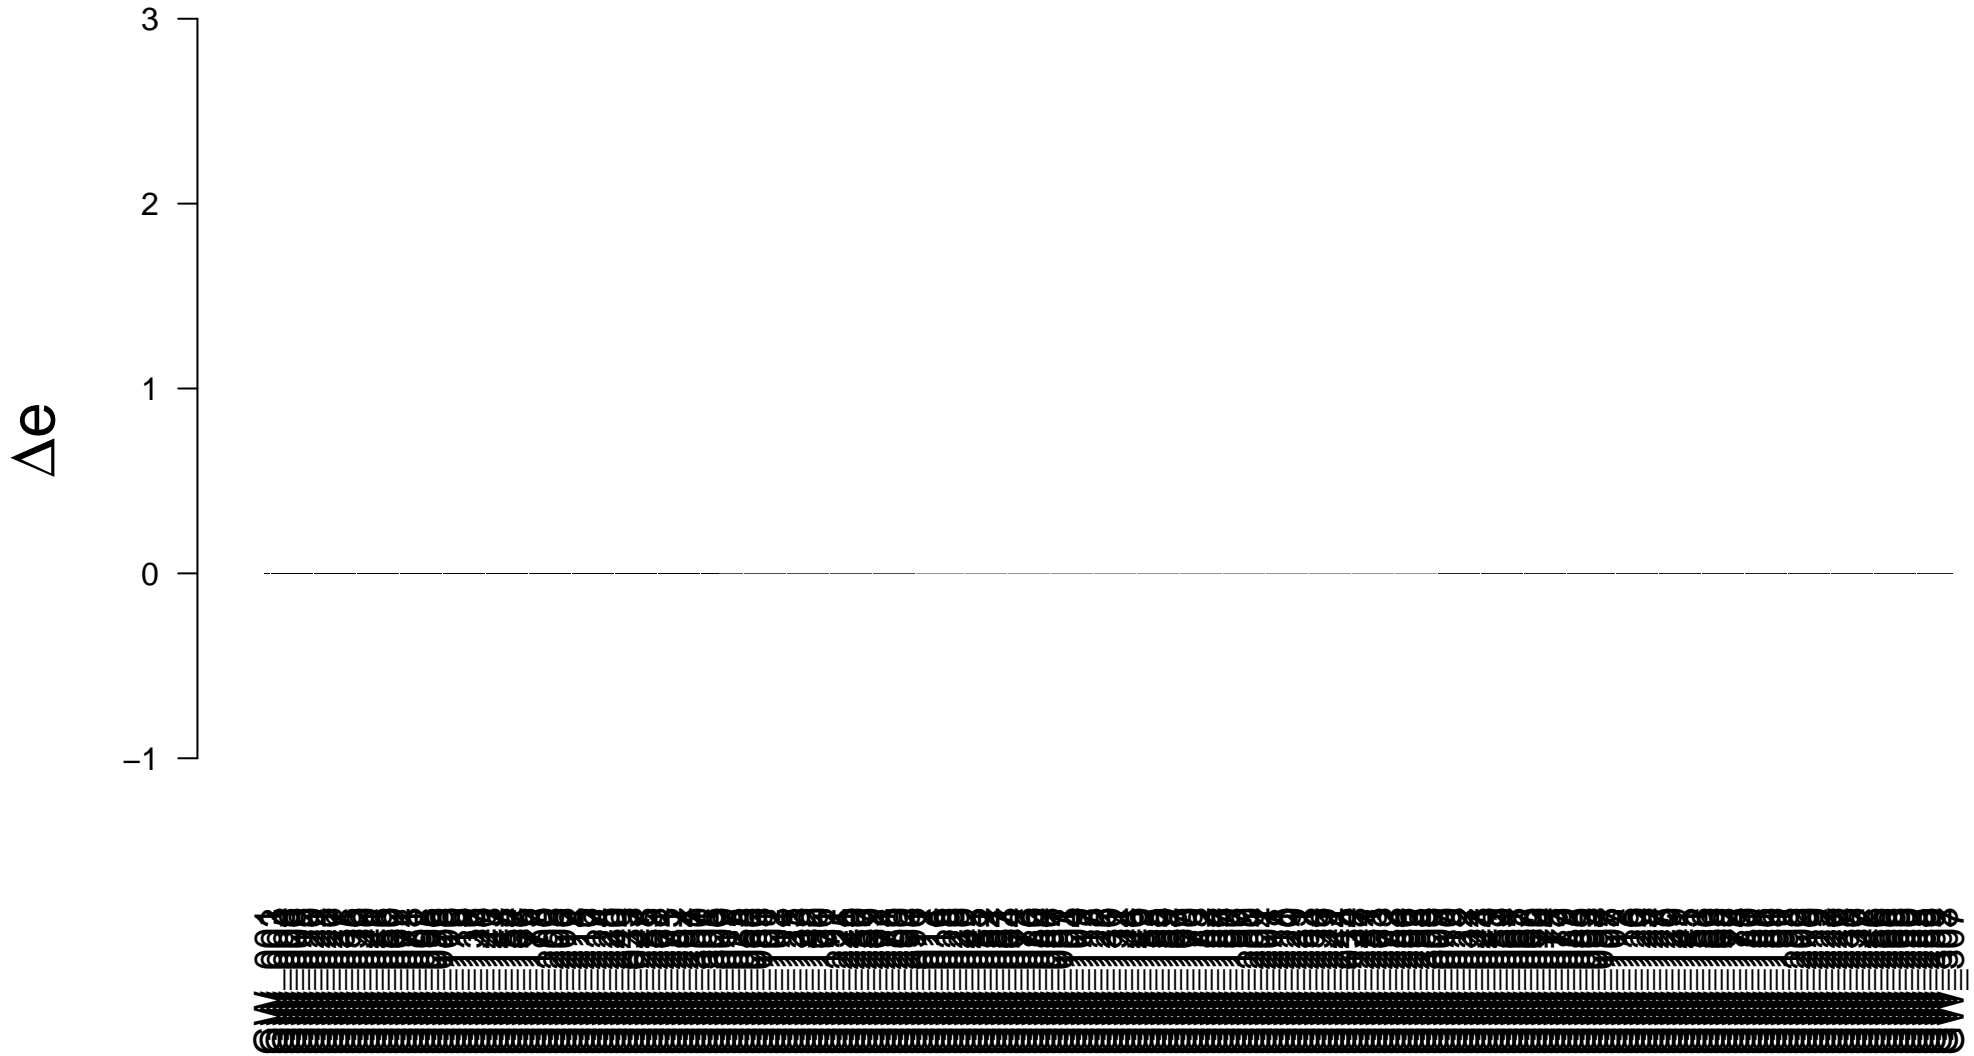

translation elongation factor activity

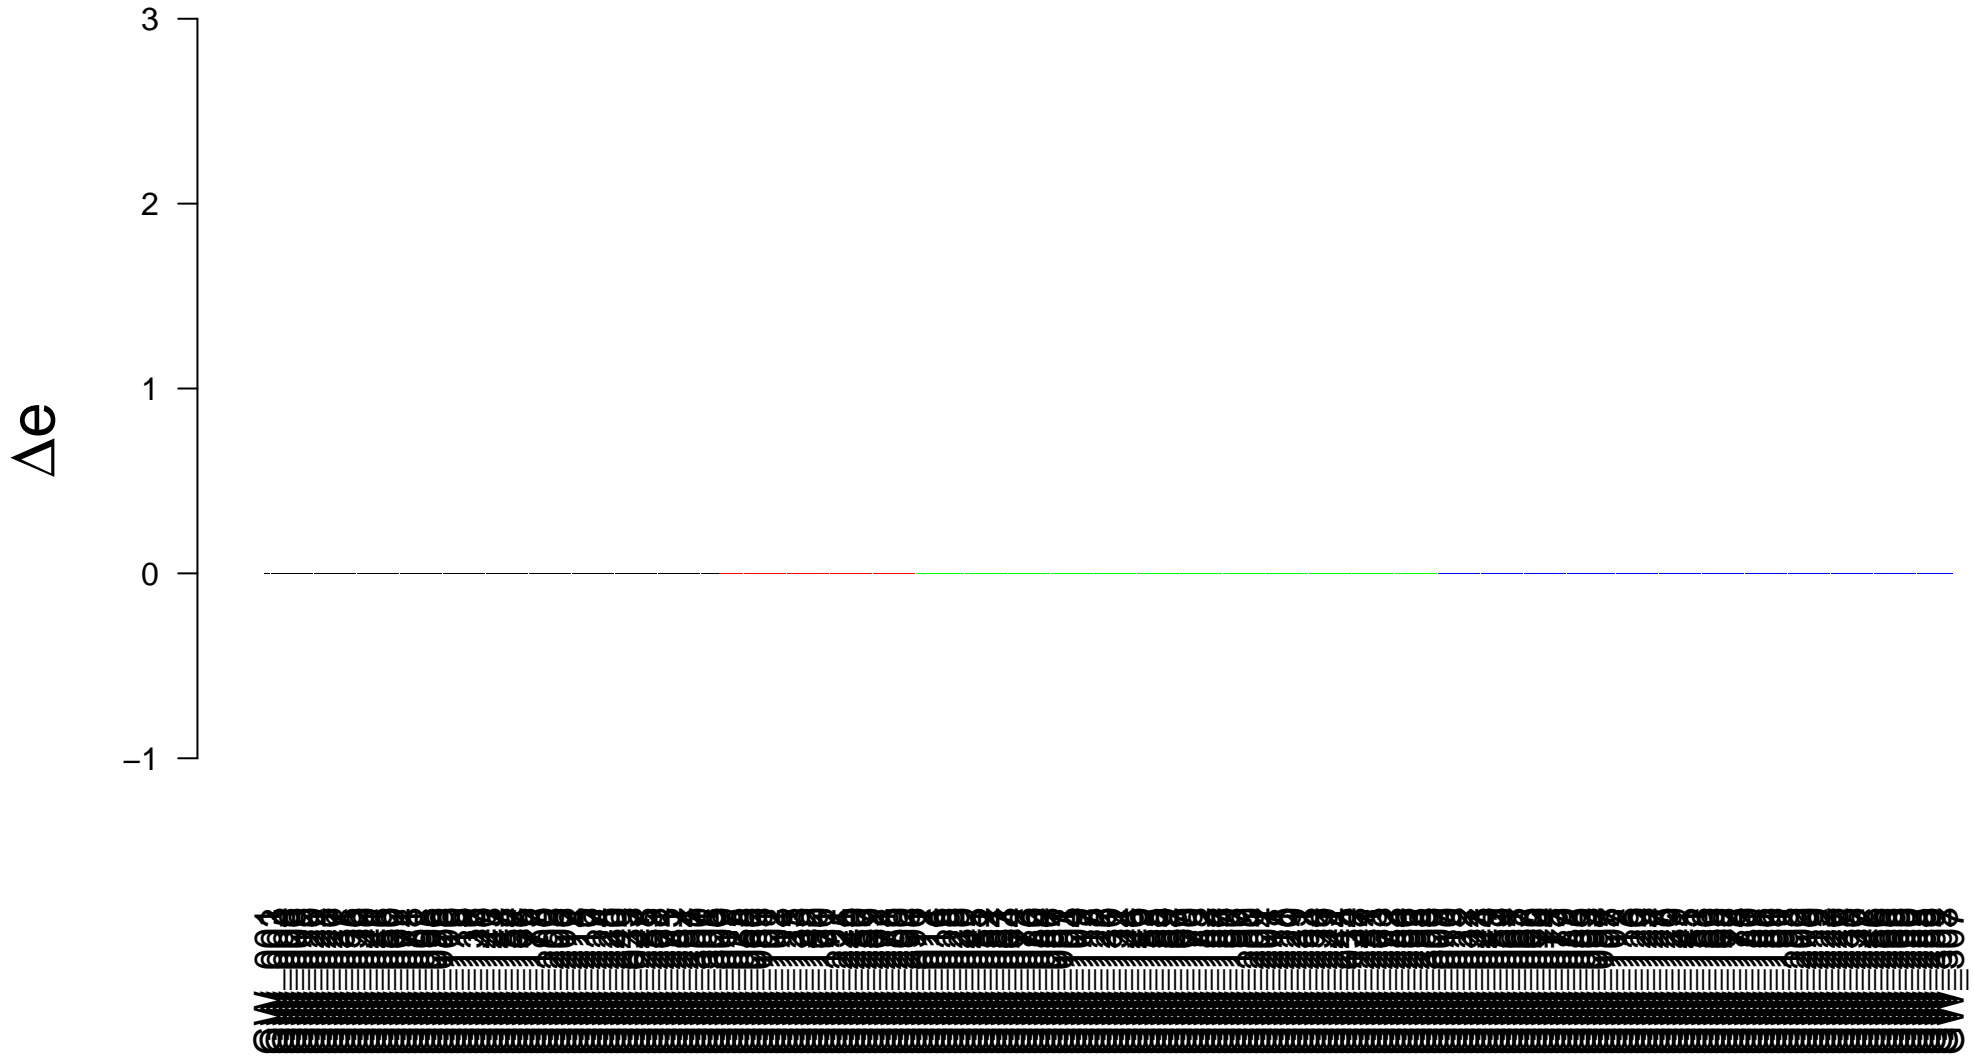

Enrichment in spots: translation elongation factor activity

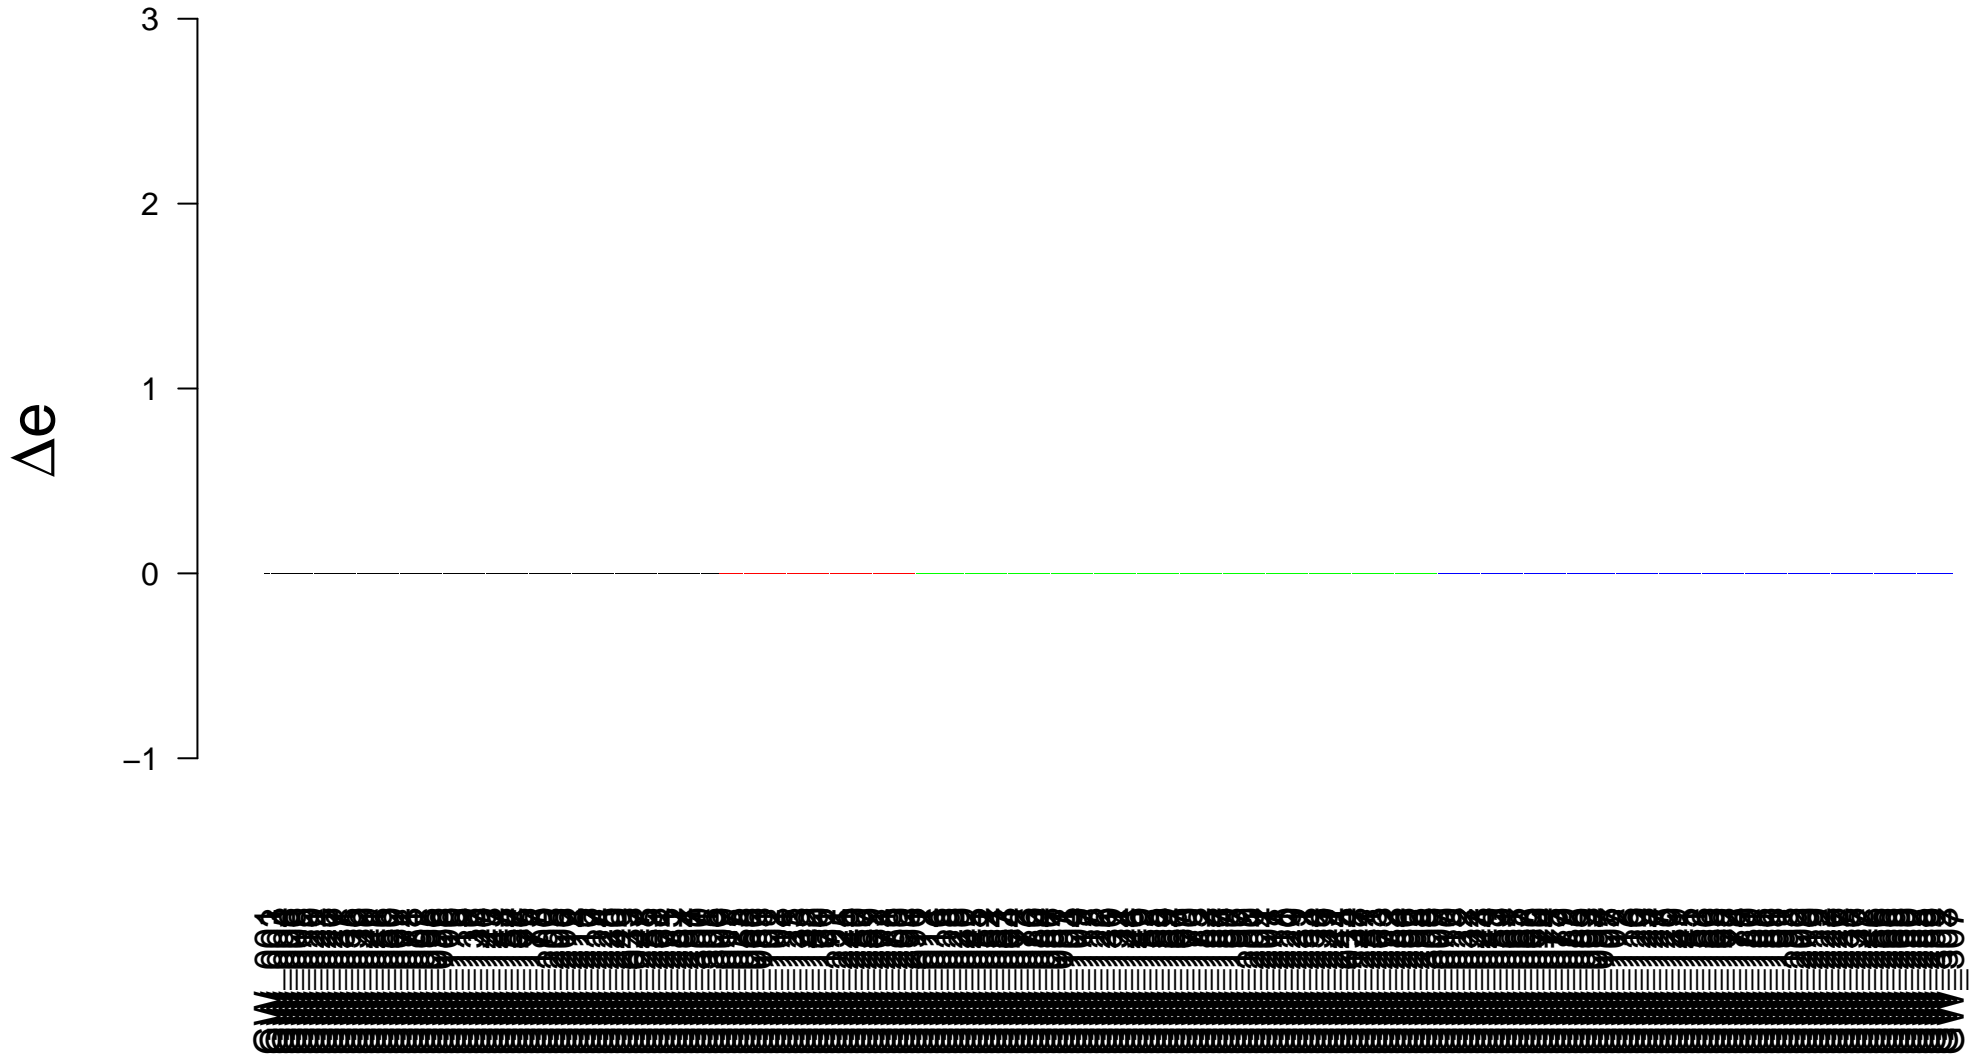

Expression of translation elongation factor activity in Spot A

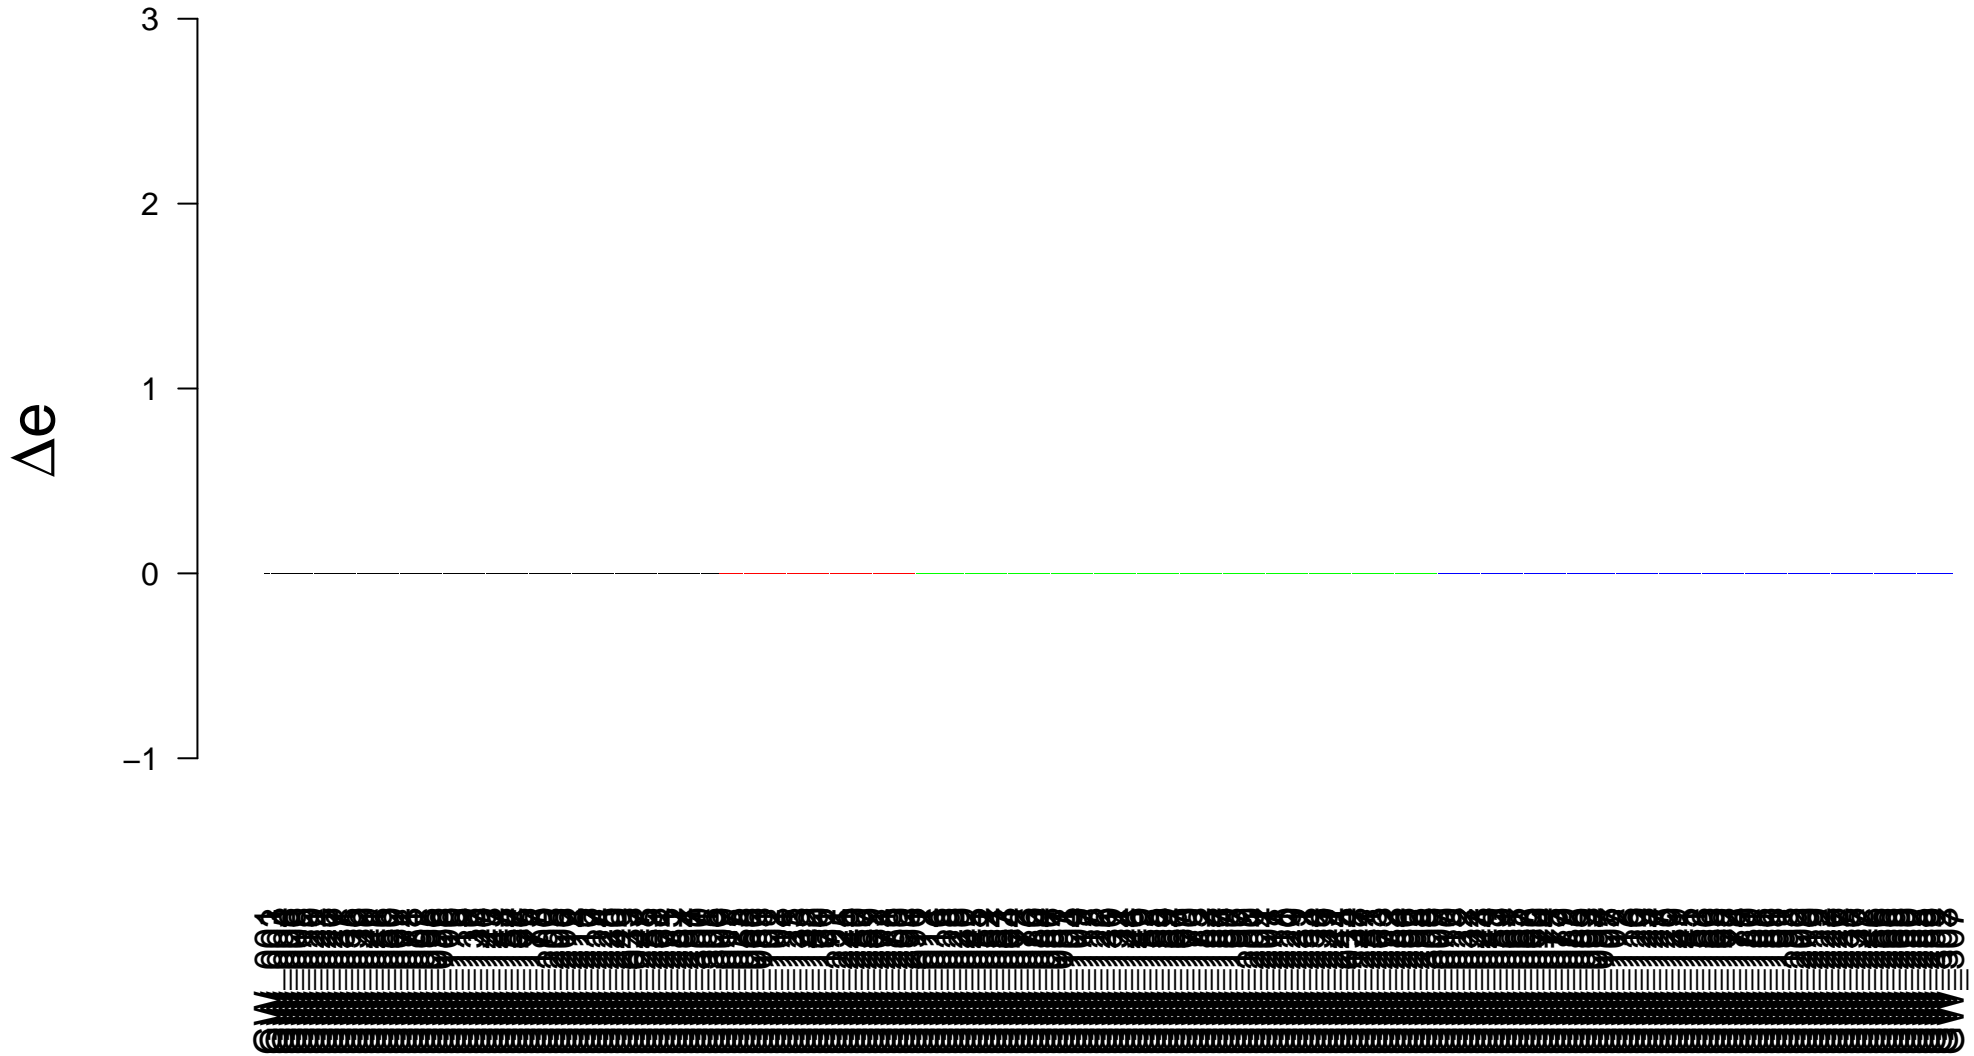

Expression of translation elongation factor activity in Spot B

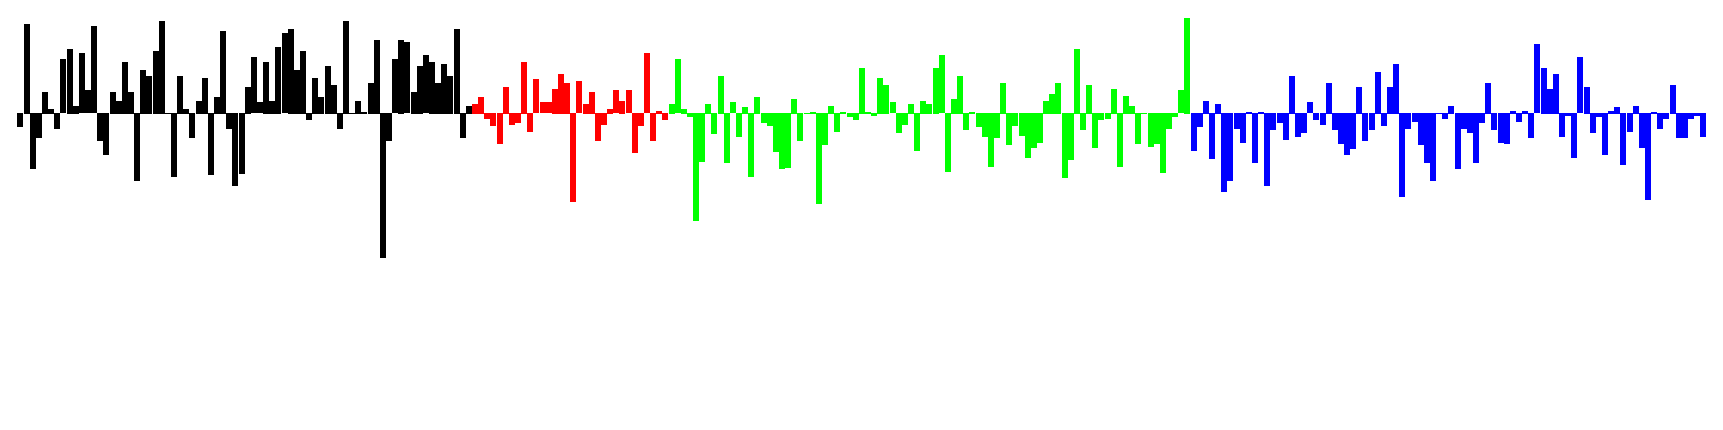

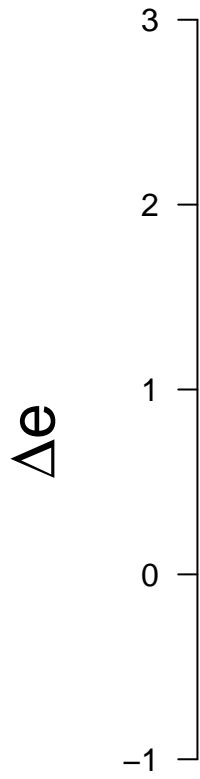

Expression of translation elongation factor activity in Spot C

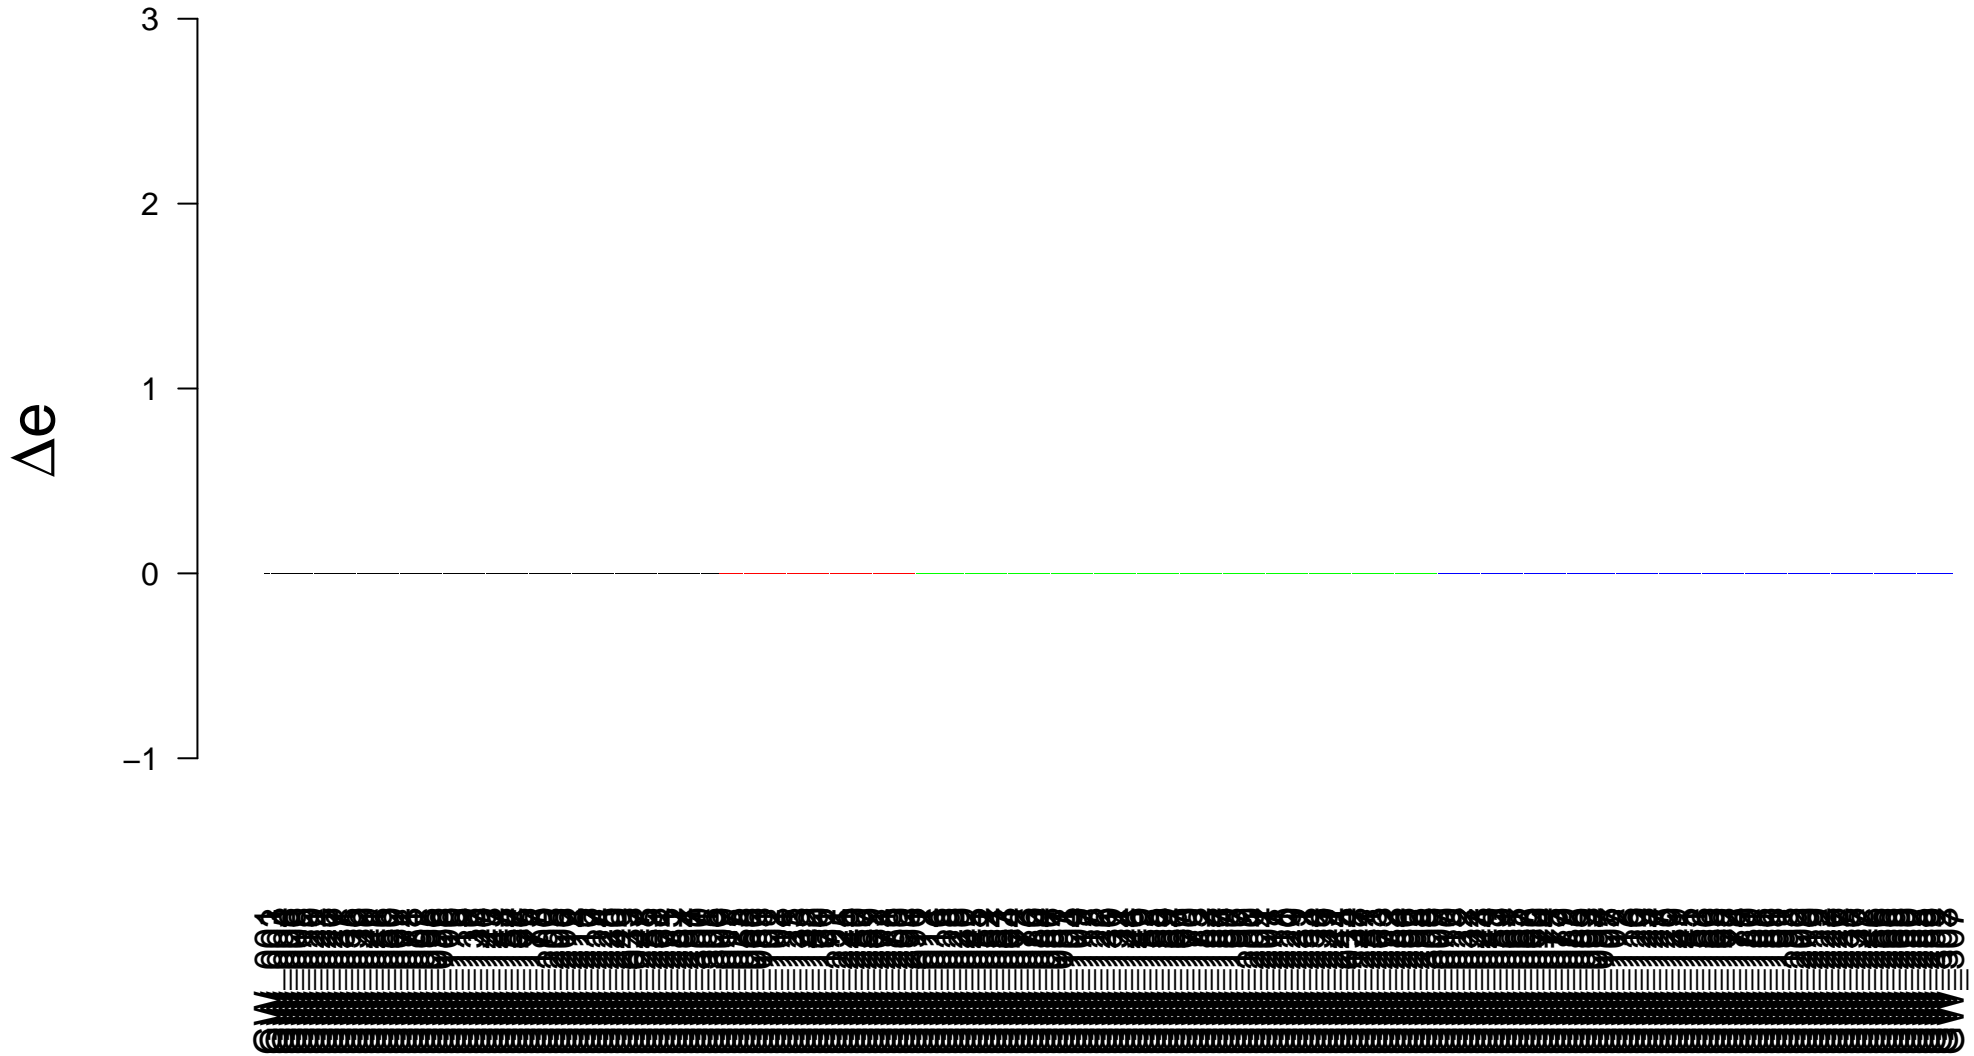

Expression of translation elongation factor activity in Spot D

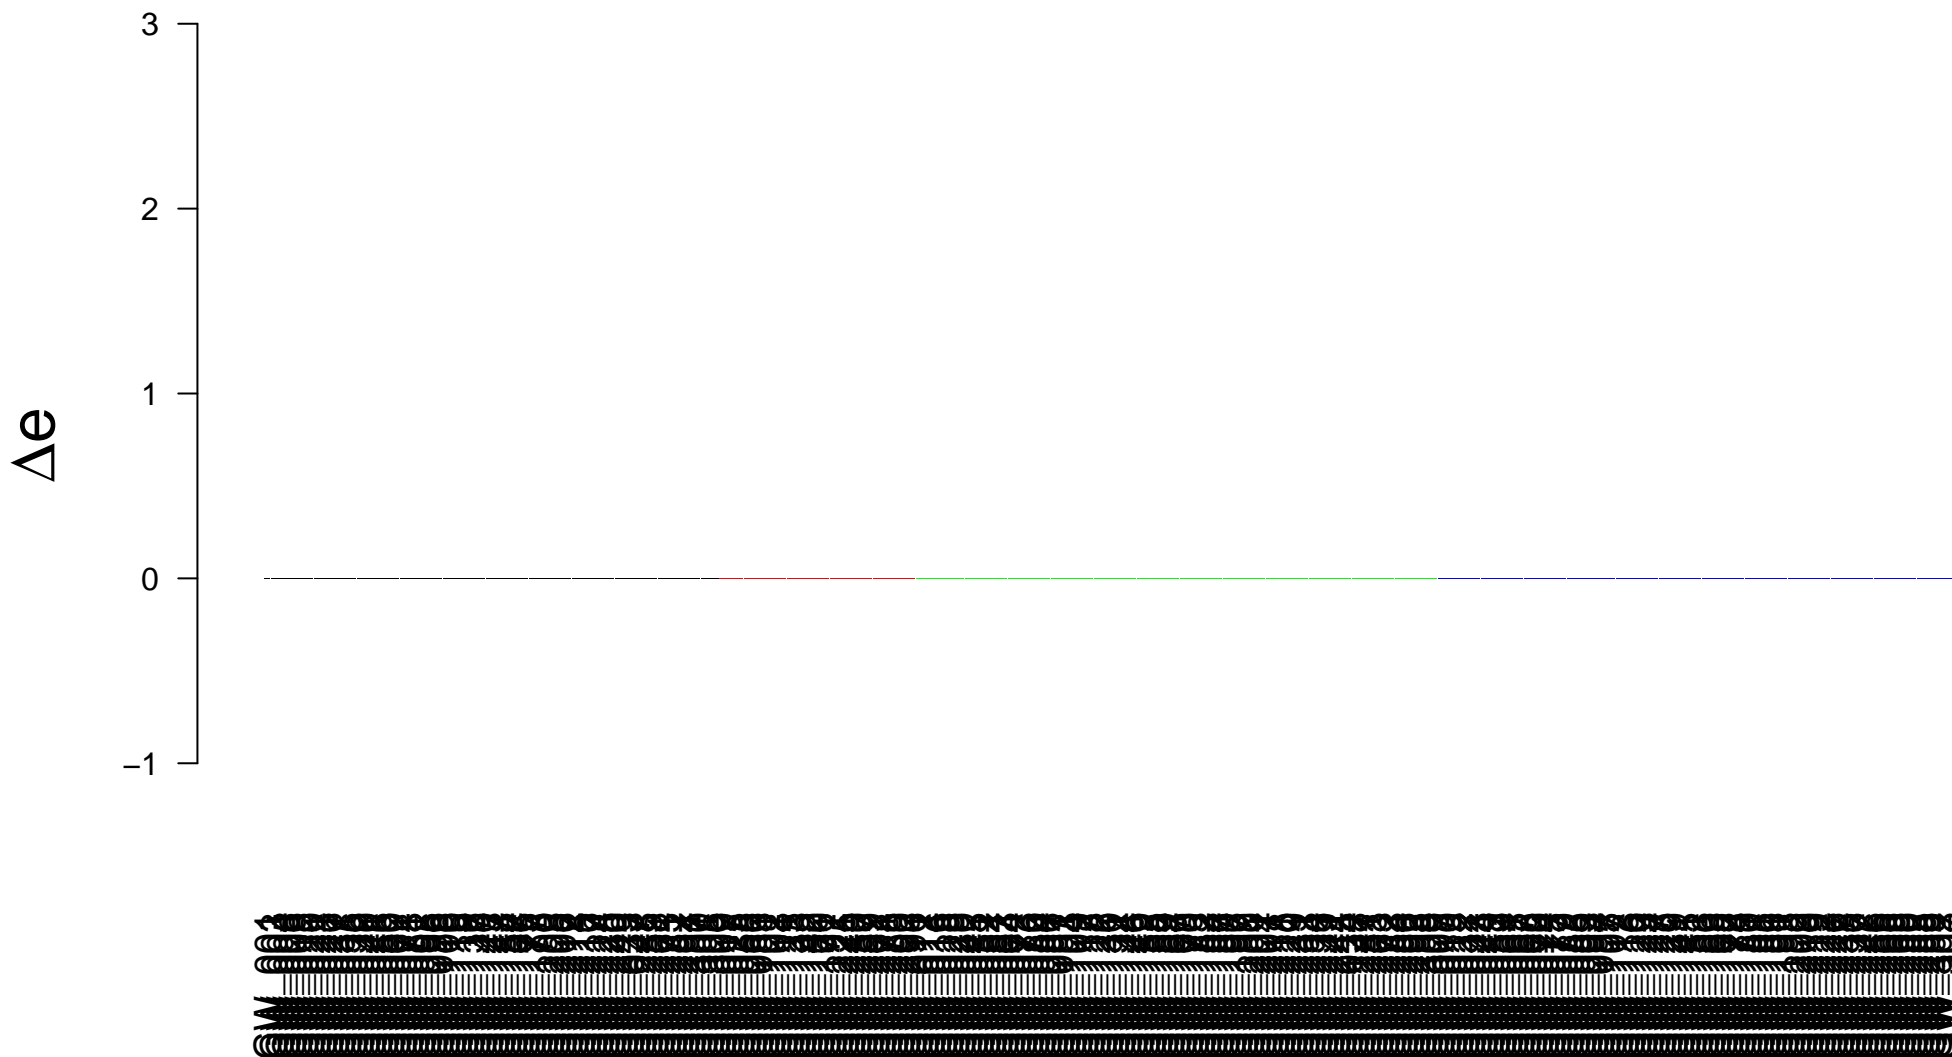

Expression of translation elongation factor activity in Spot E

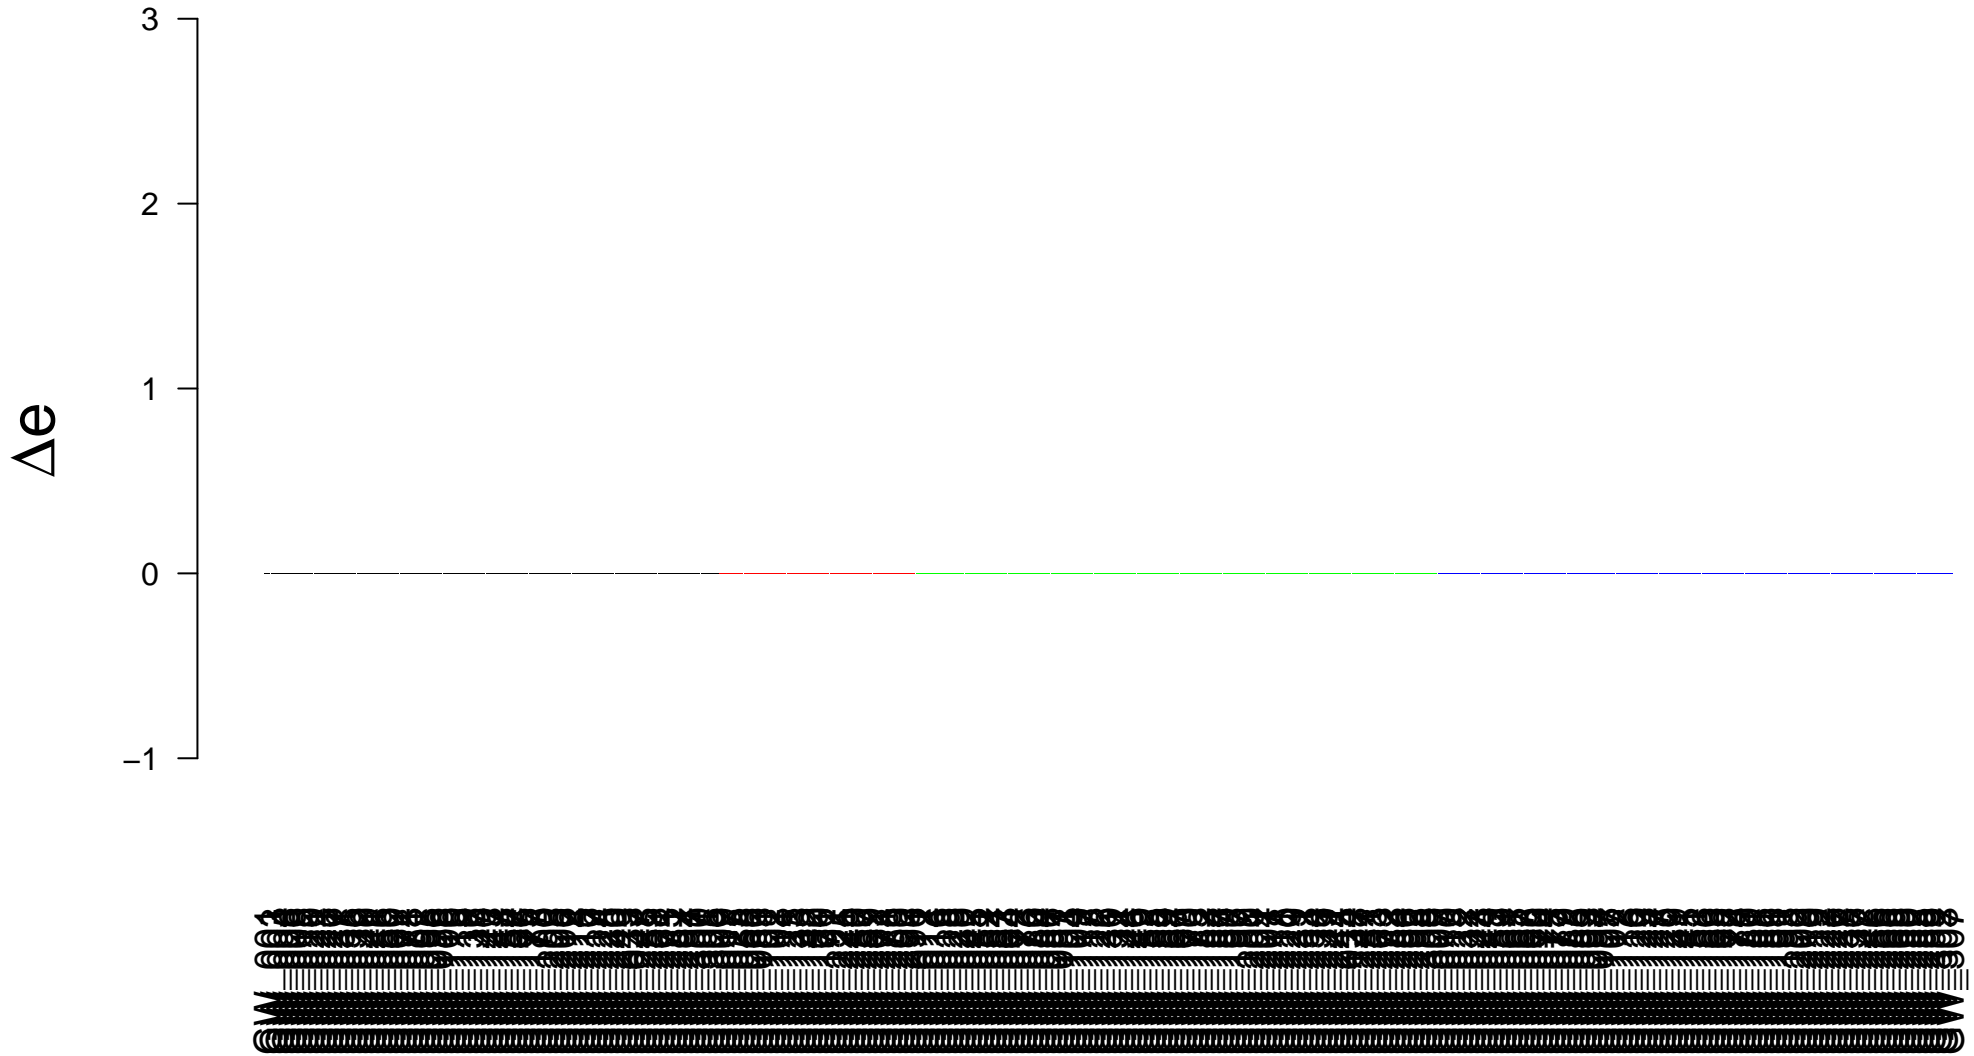

Expression of translation elongation factor activity in Spot F

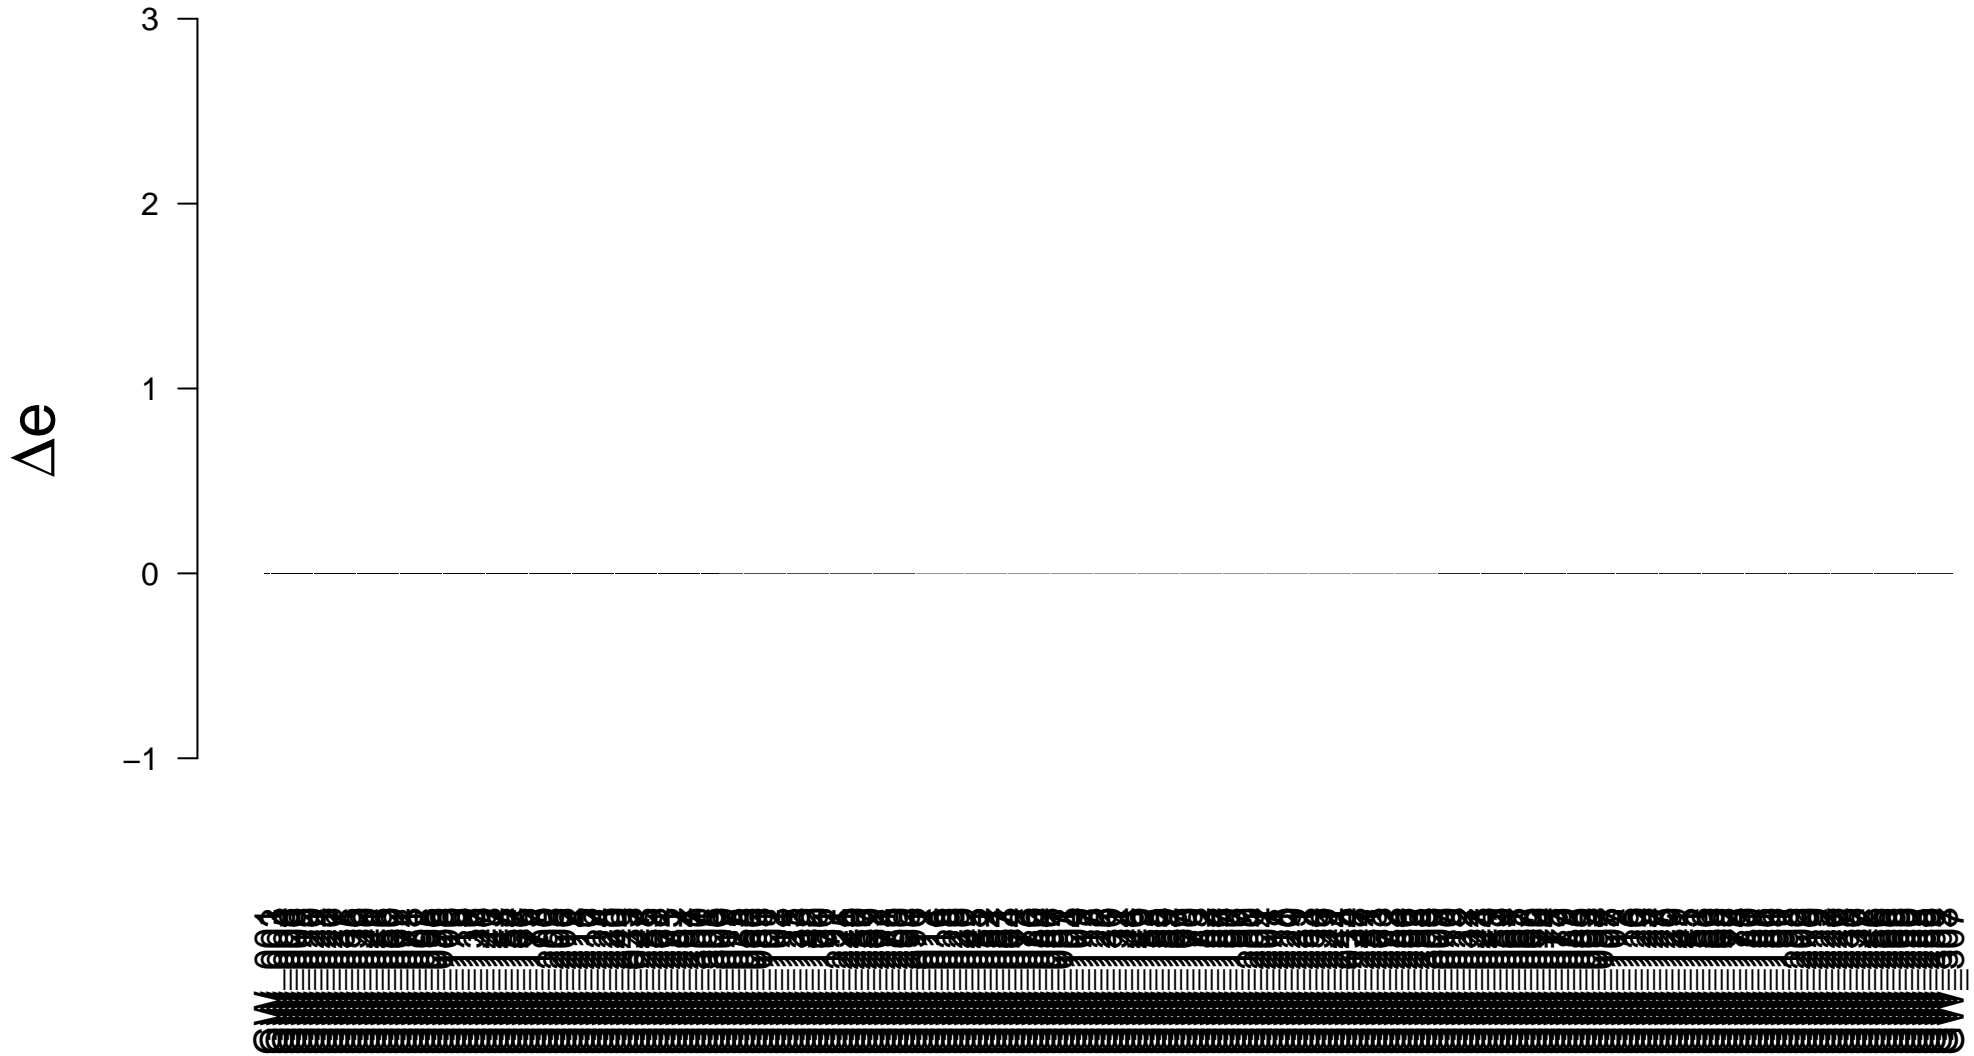

Expression of translation elongation factor activity in Spot G

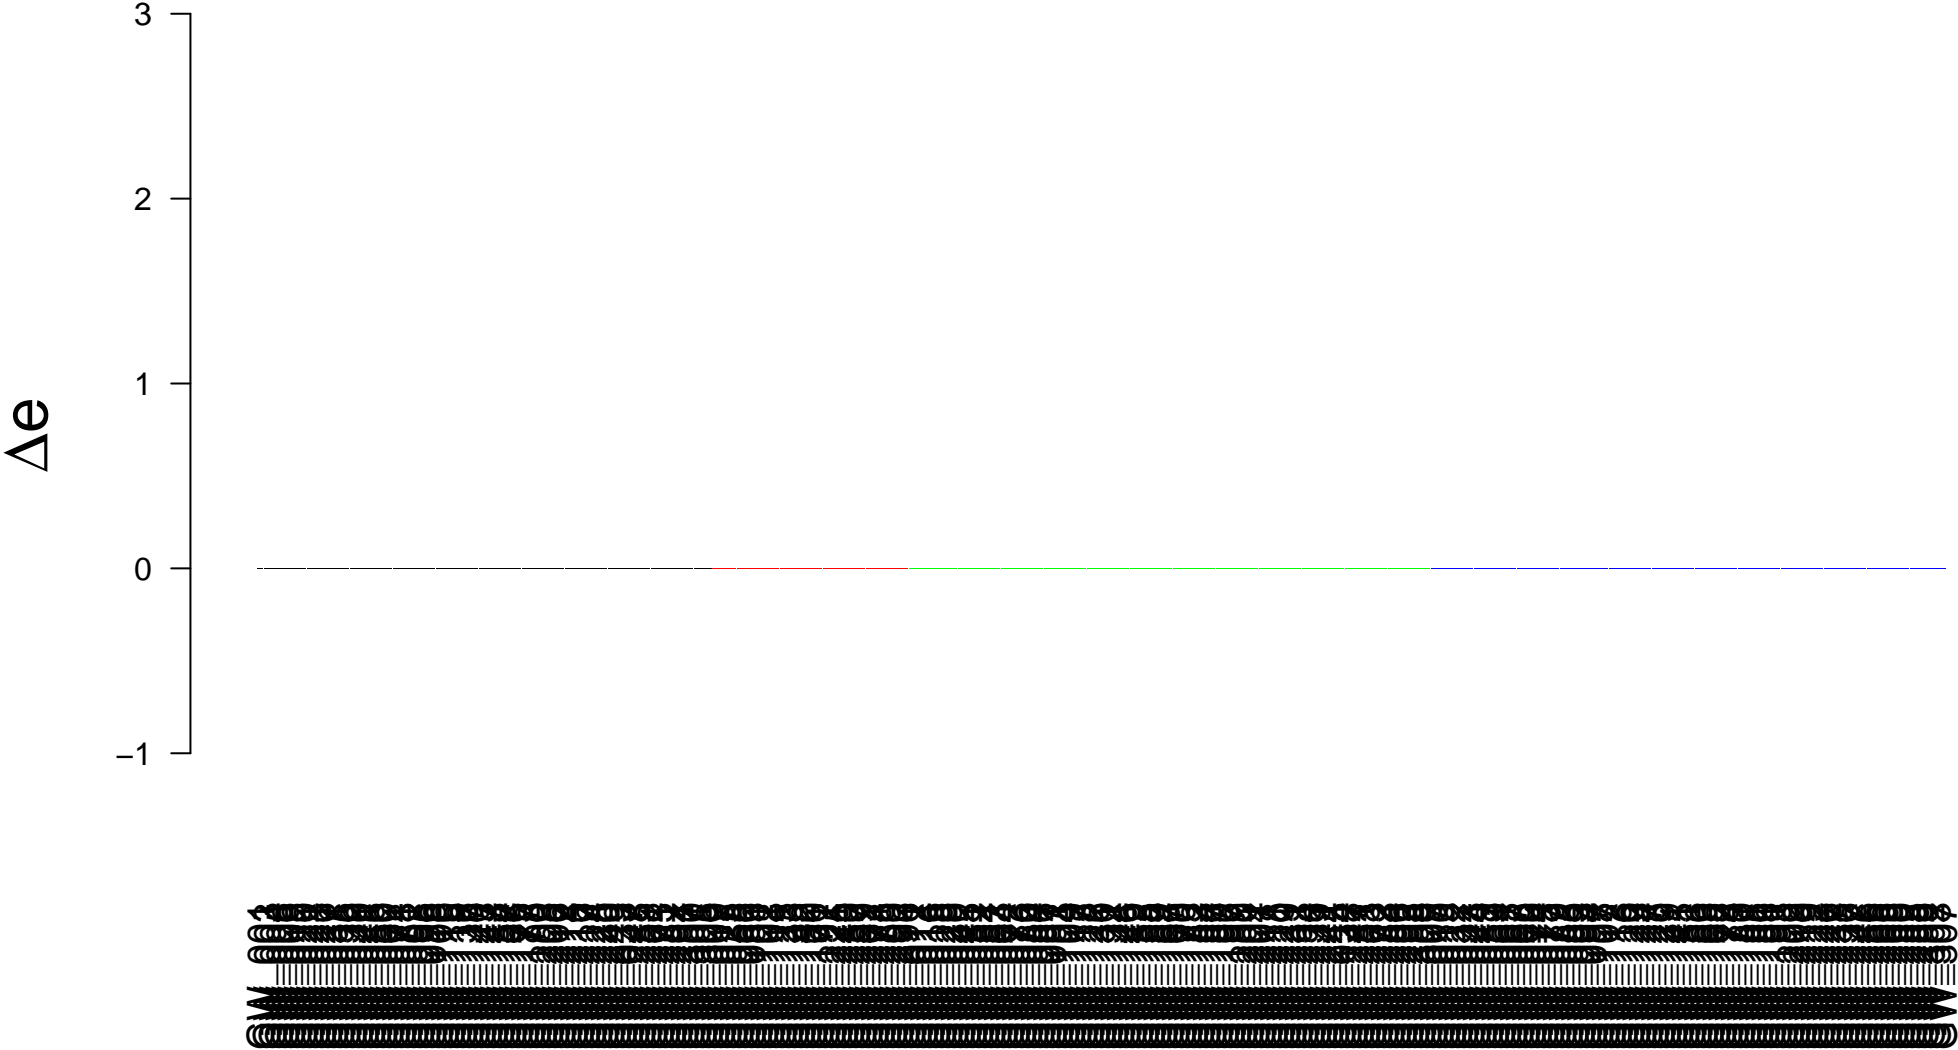

Expression of translation elongation factor activity in Spot H

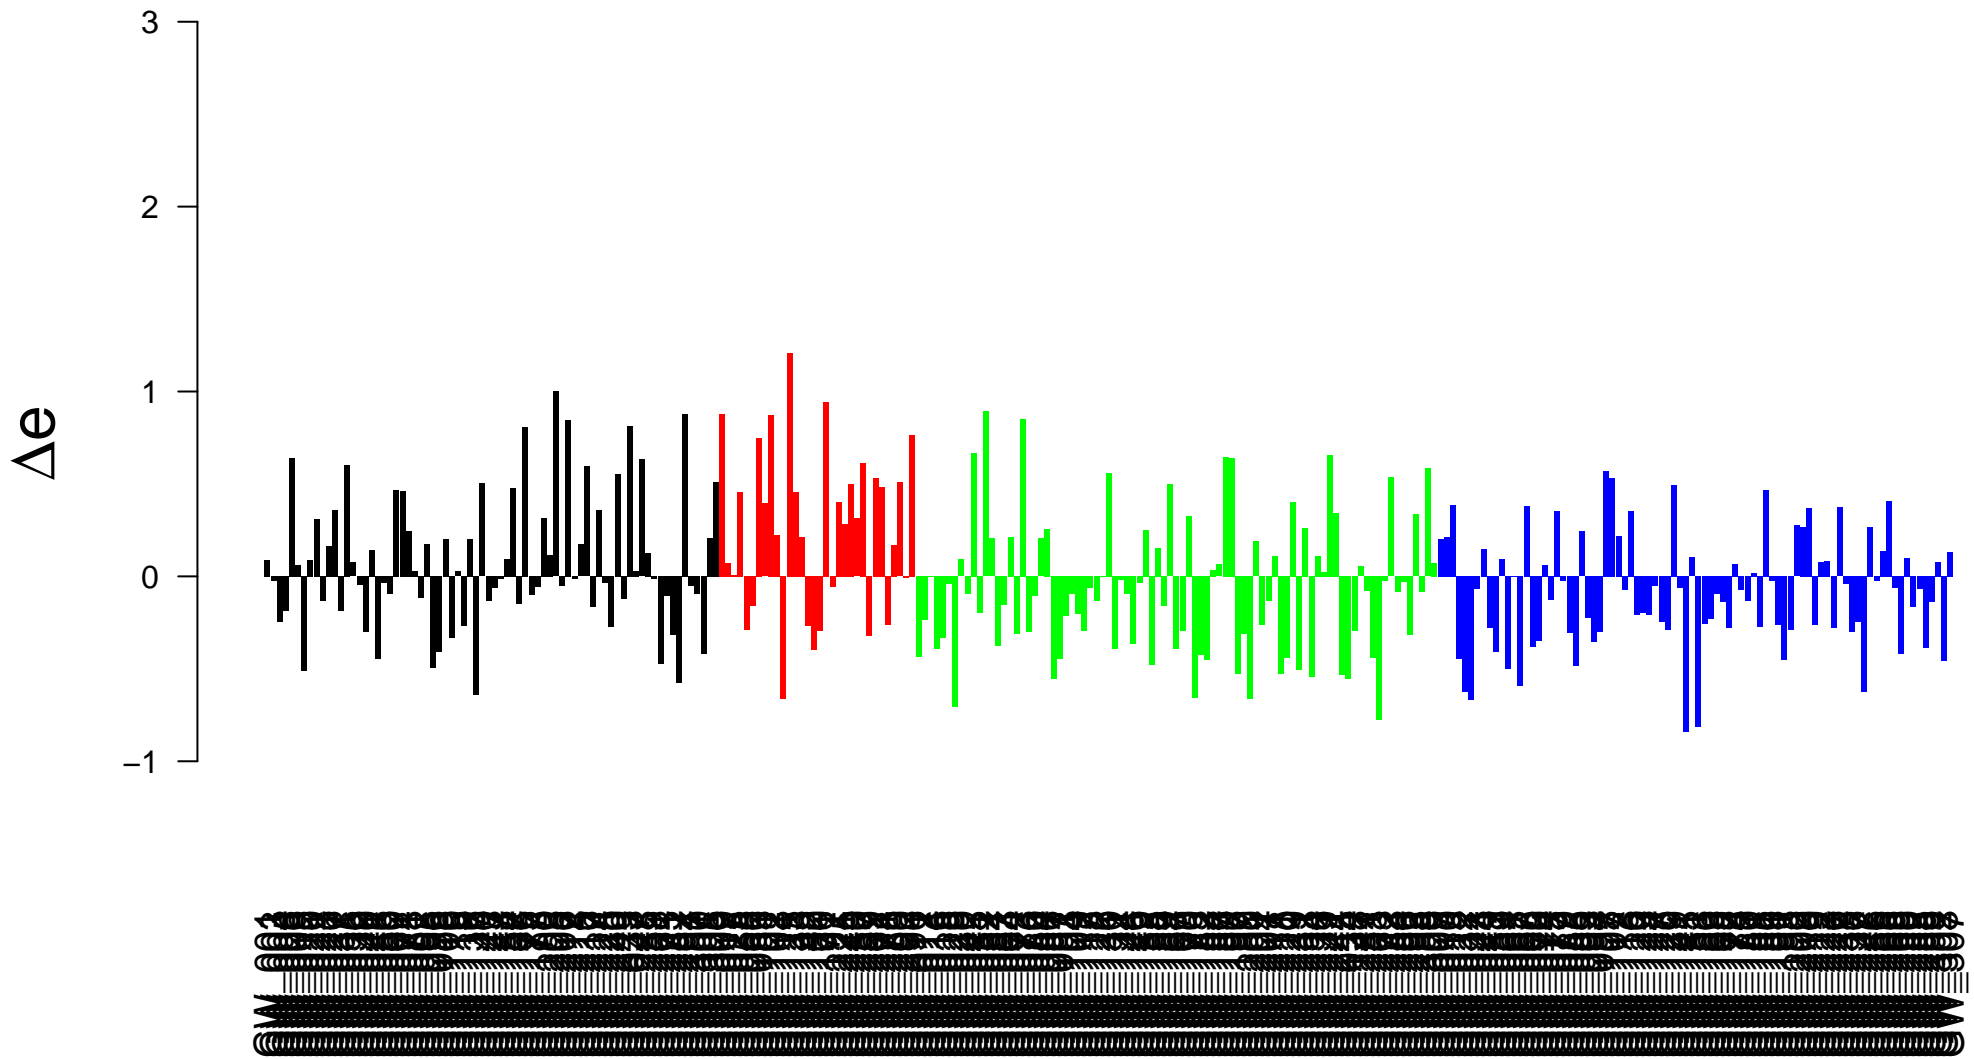

Expression of translation elongation factor activity in Spot I

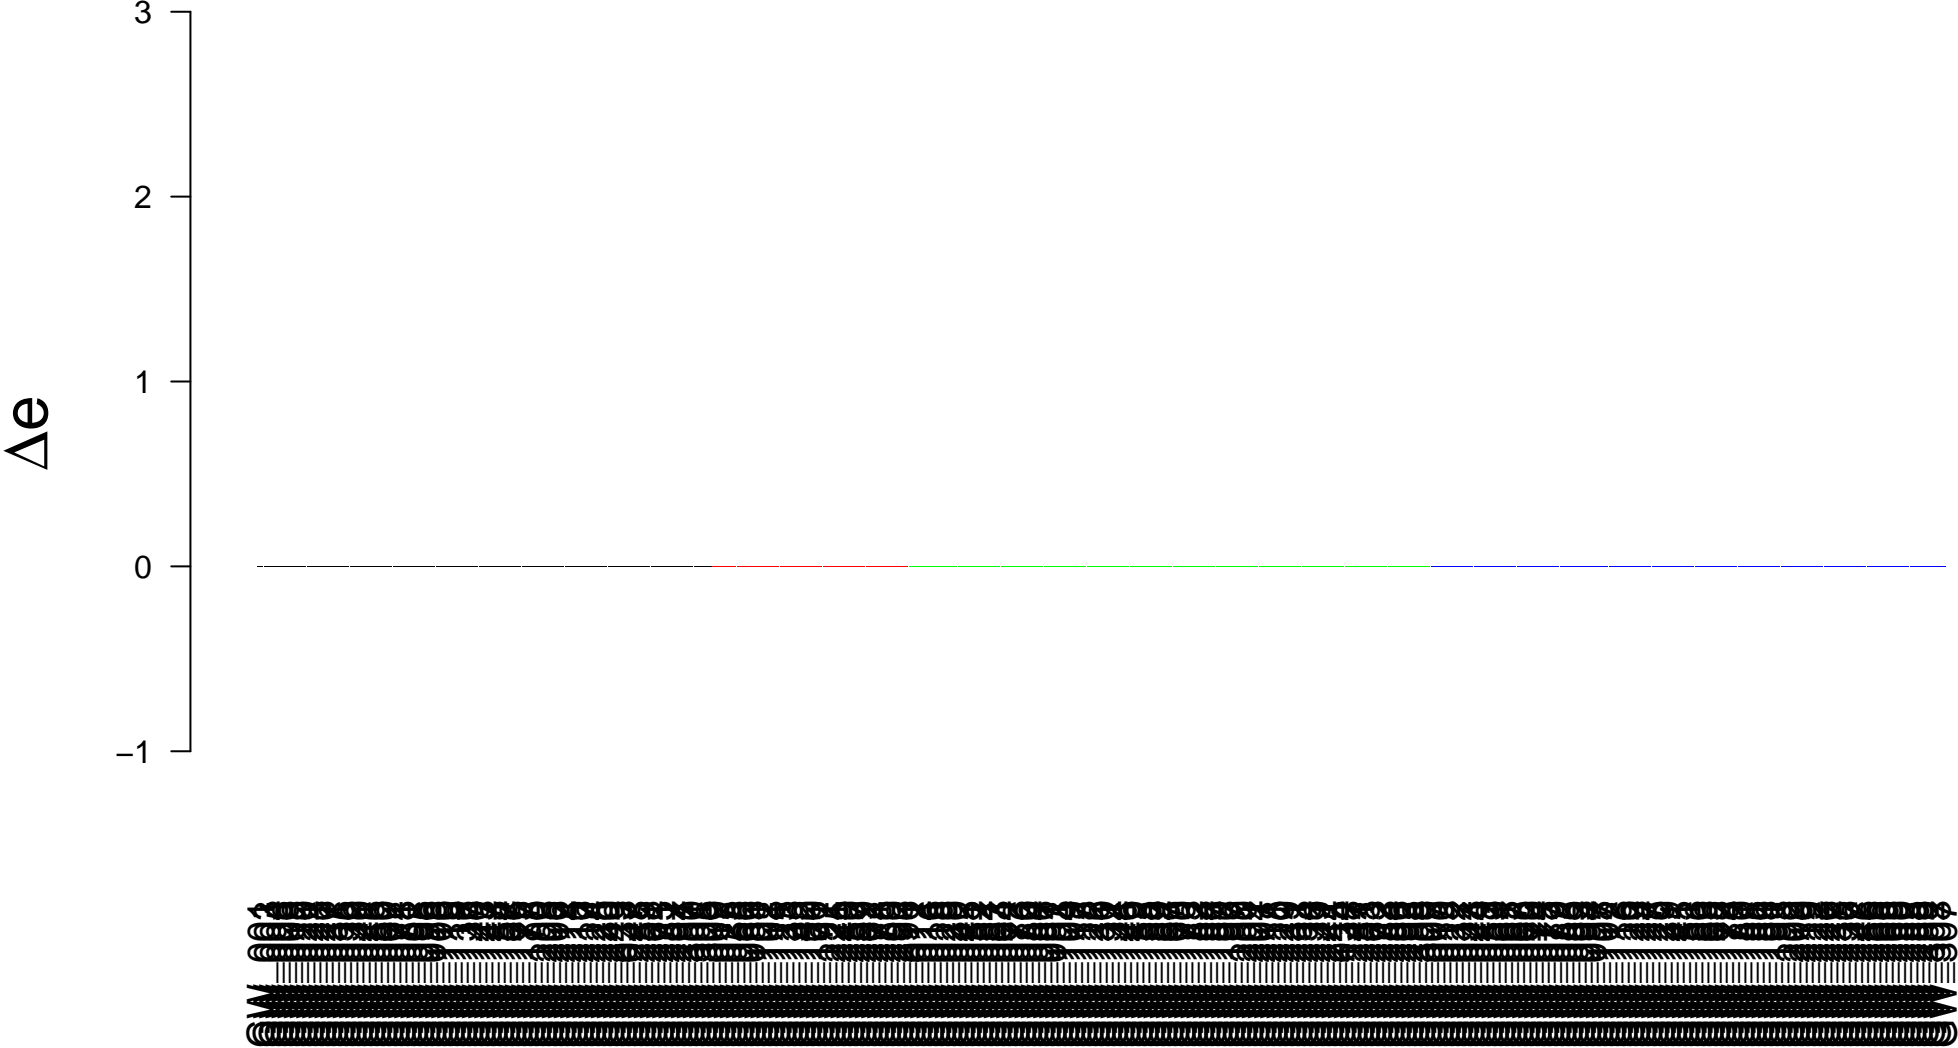

Expression of translation elongation factor activity in Spot J

Expression of translation elongation factor activity in Spot K

Expression of translation elongation factor activity in Spot L

Expression of translation elongation factor activity in Spot M
