Expression of translational initiation in Spot B

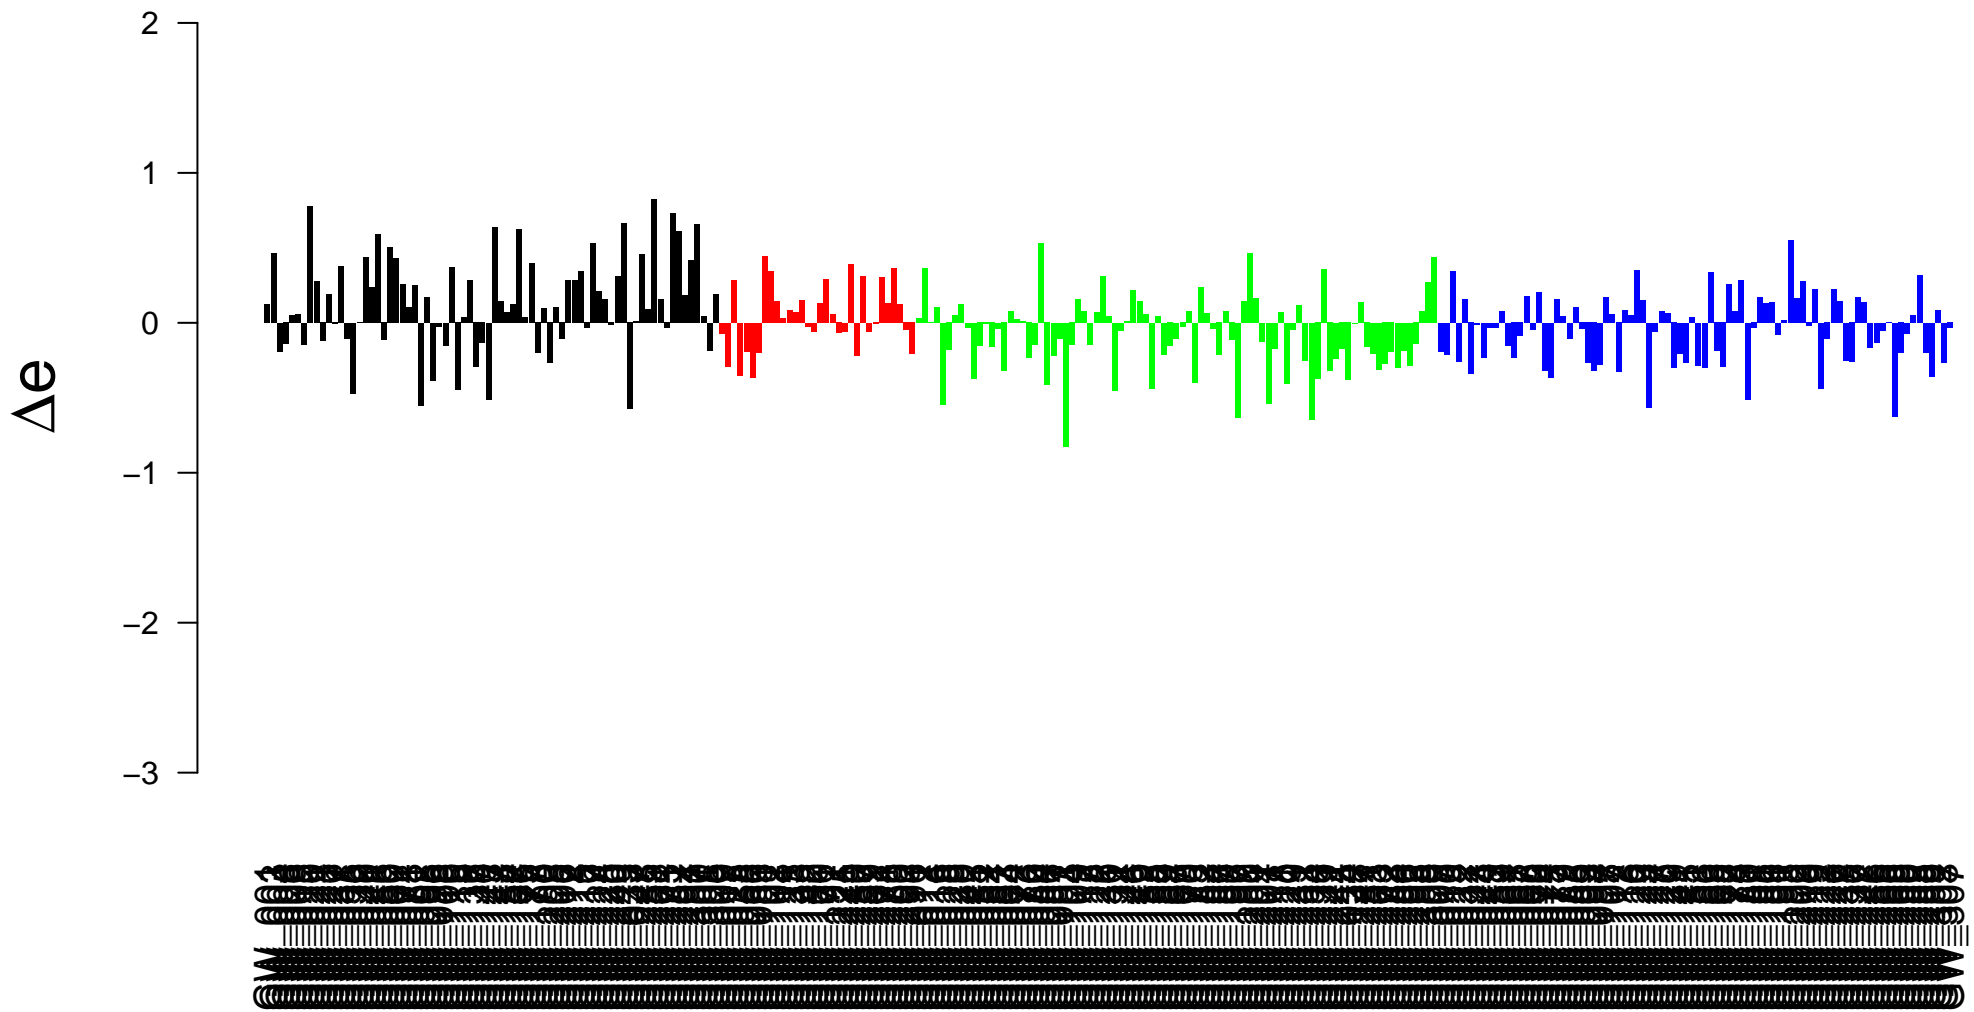

Expression of translational initiation in Spot C

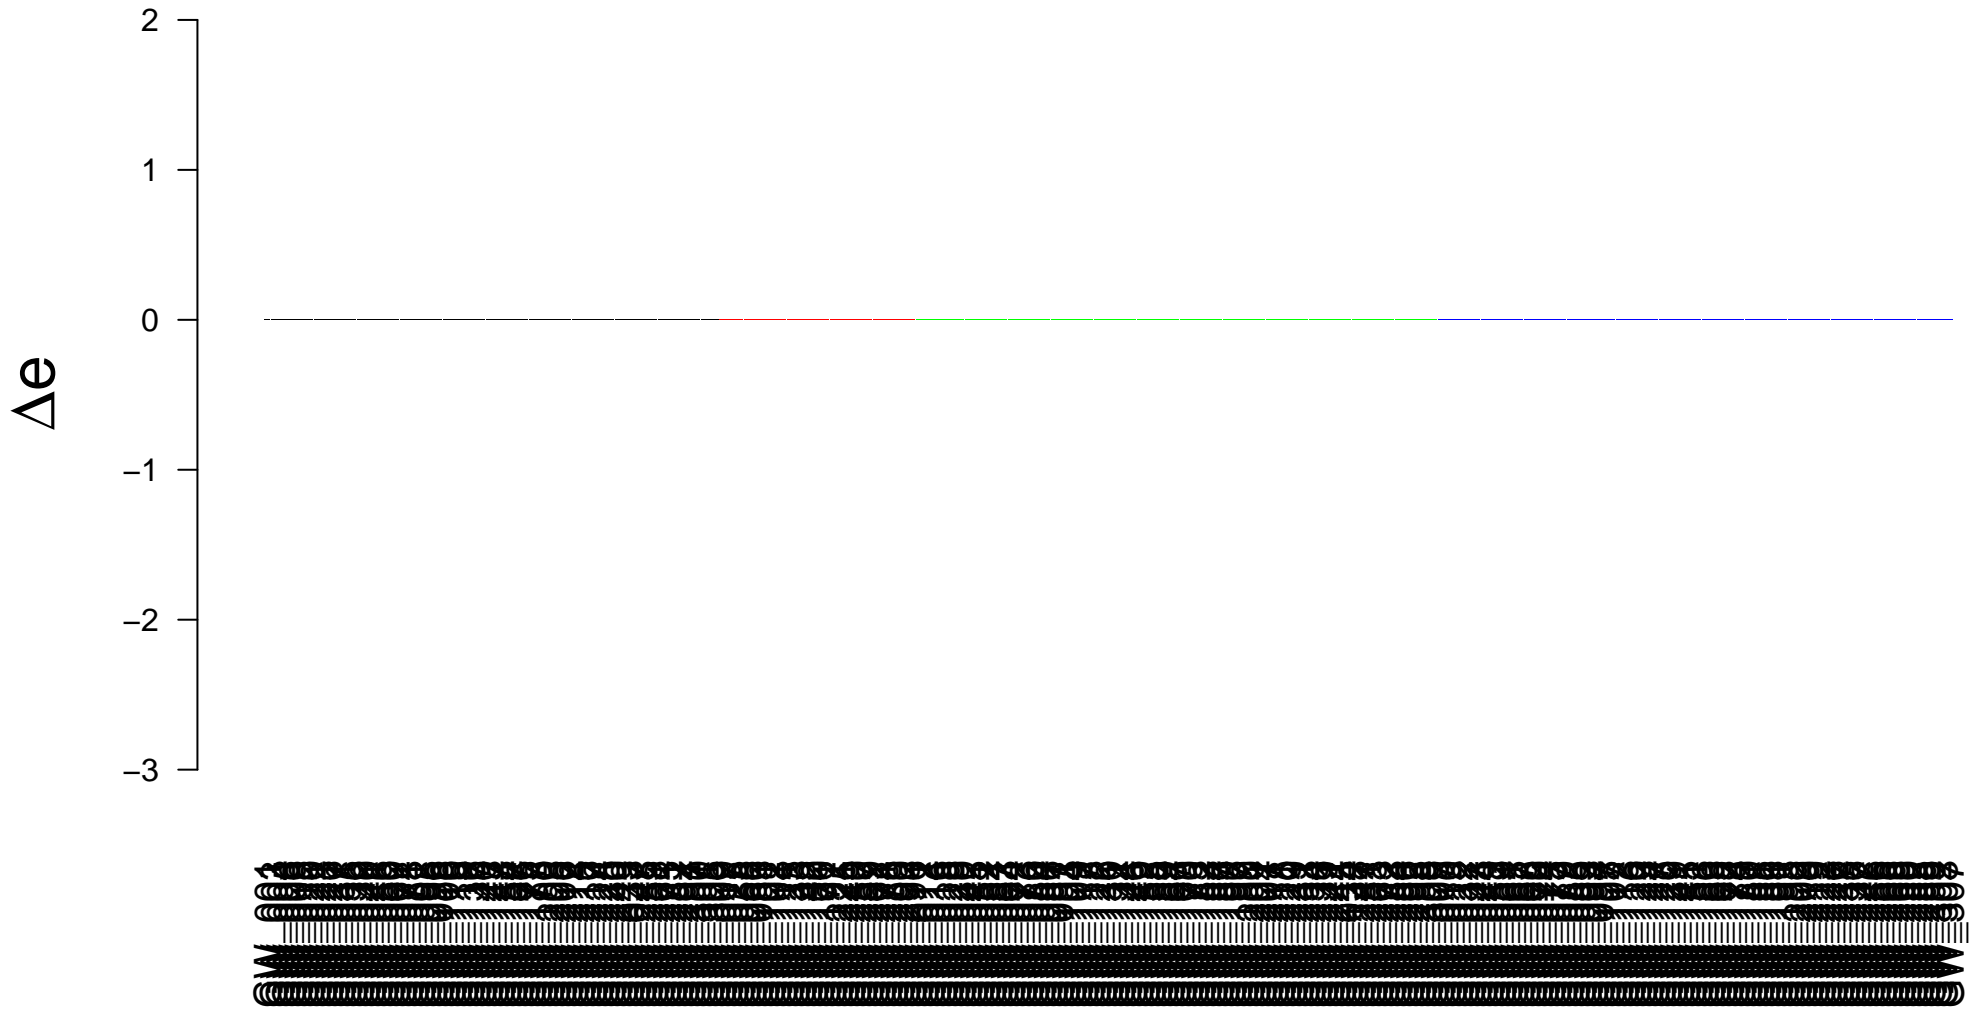

Expression of translational initiation in Spot D

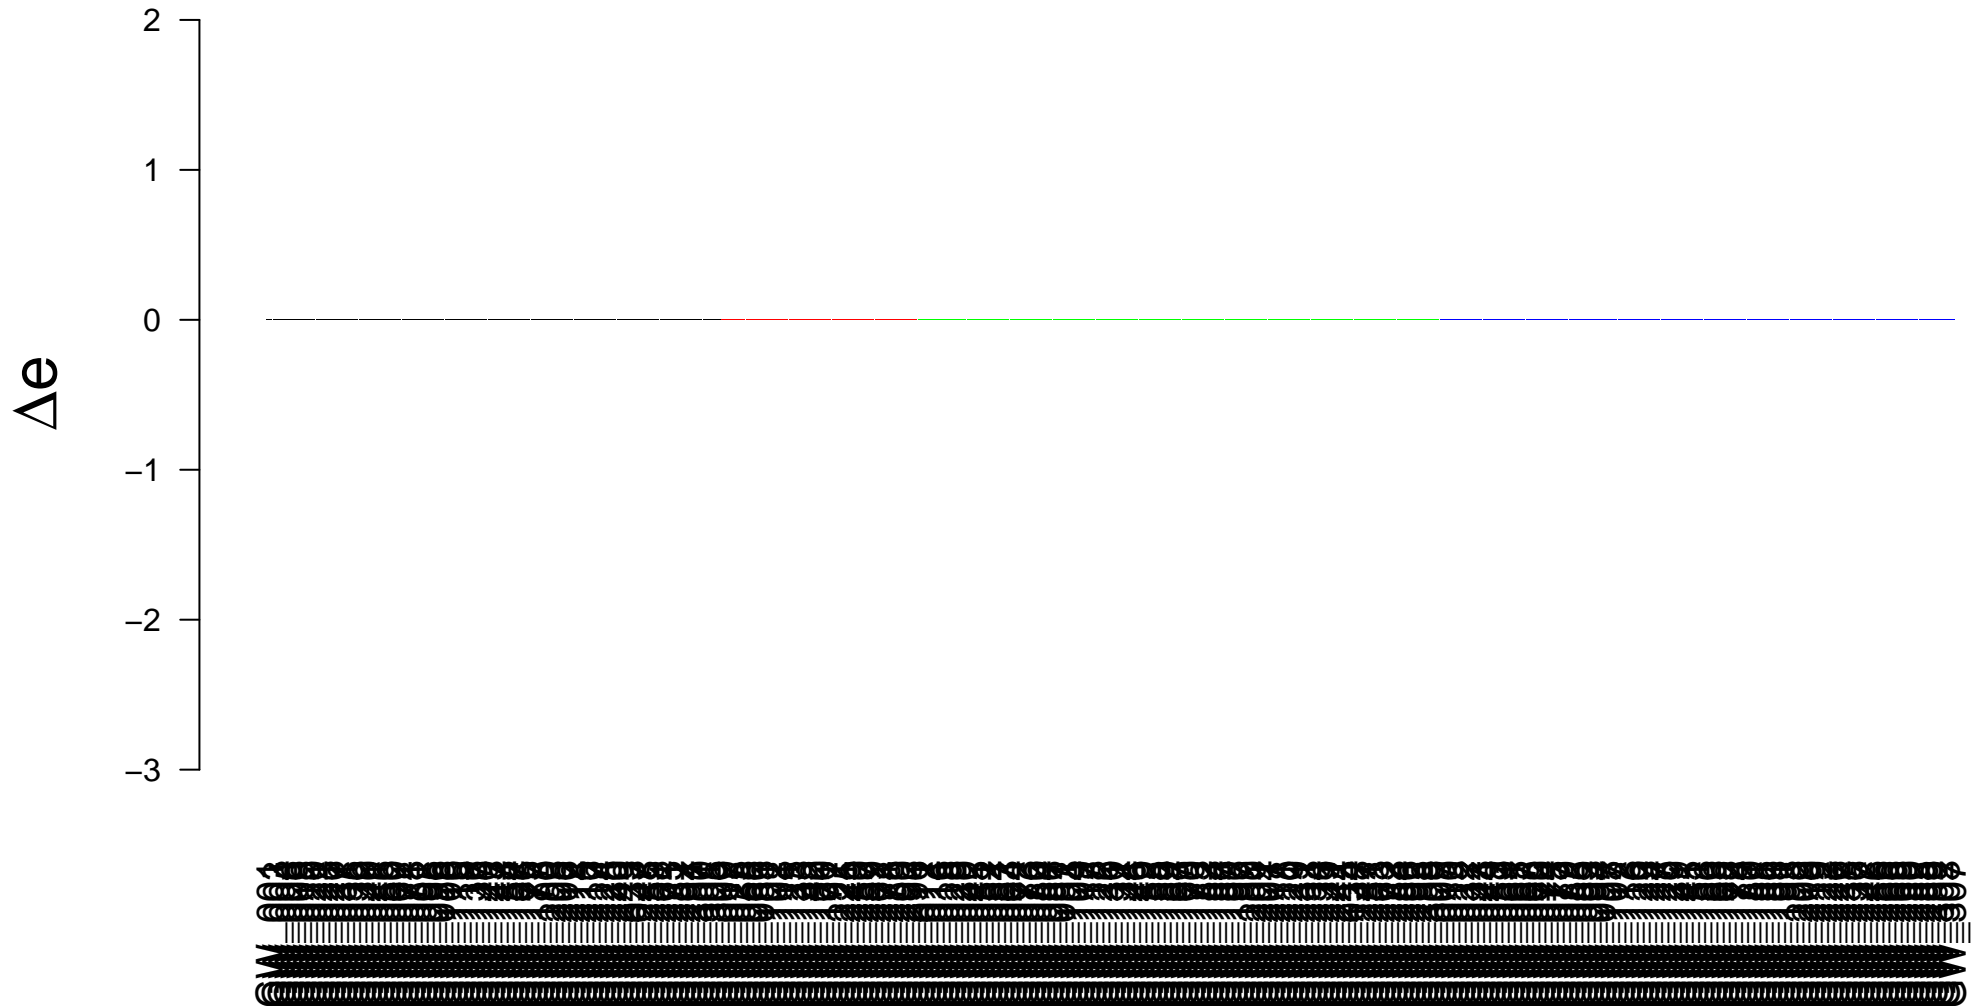

Expression of translational initiation in Spot E

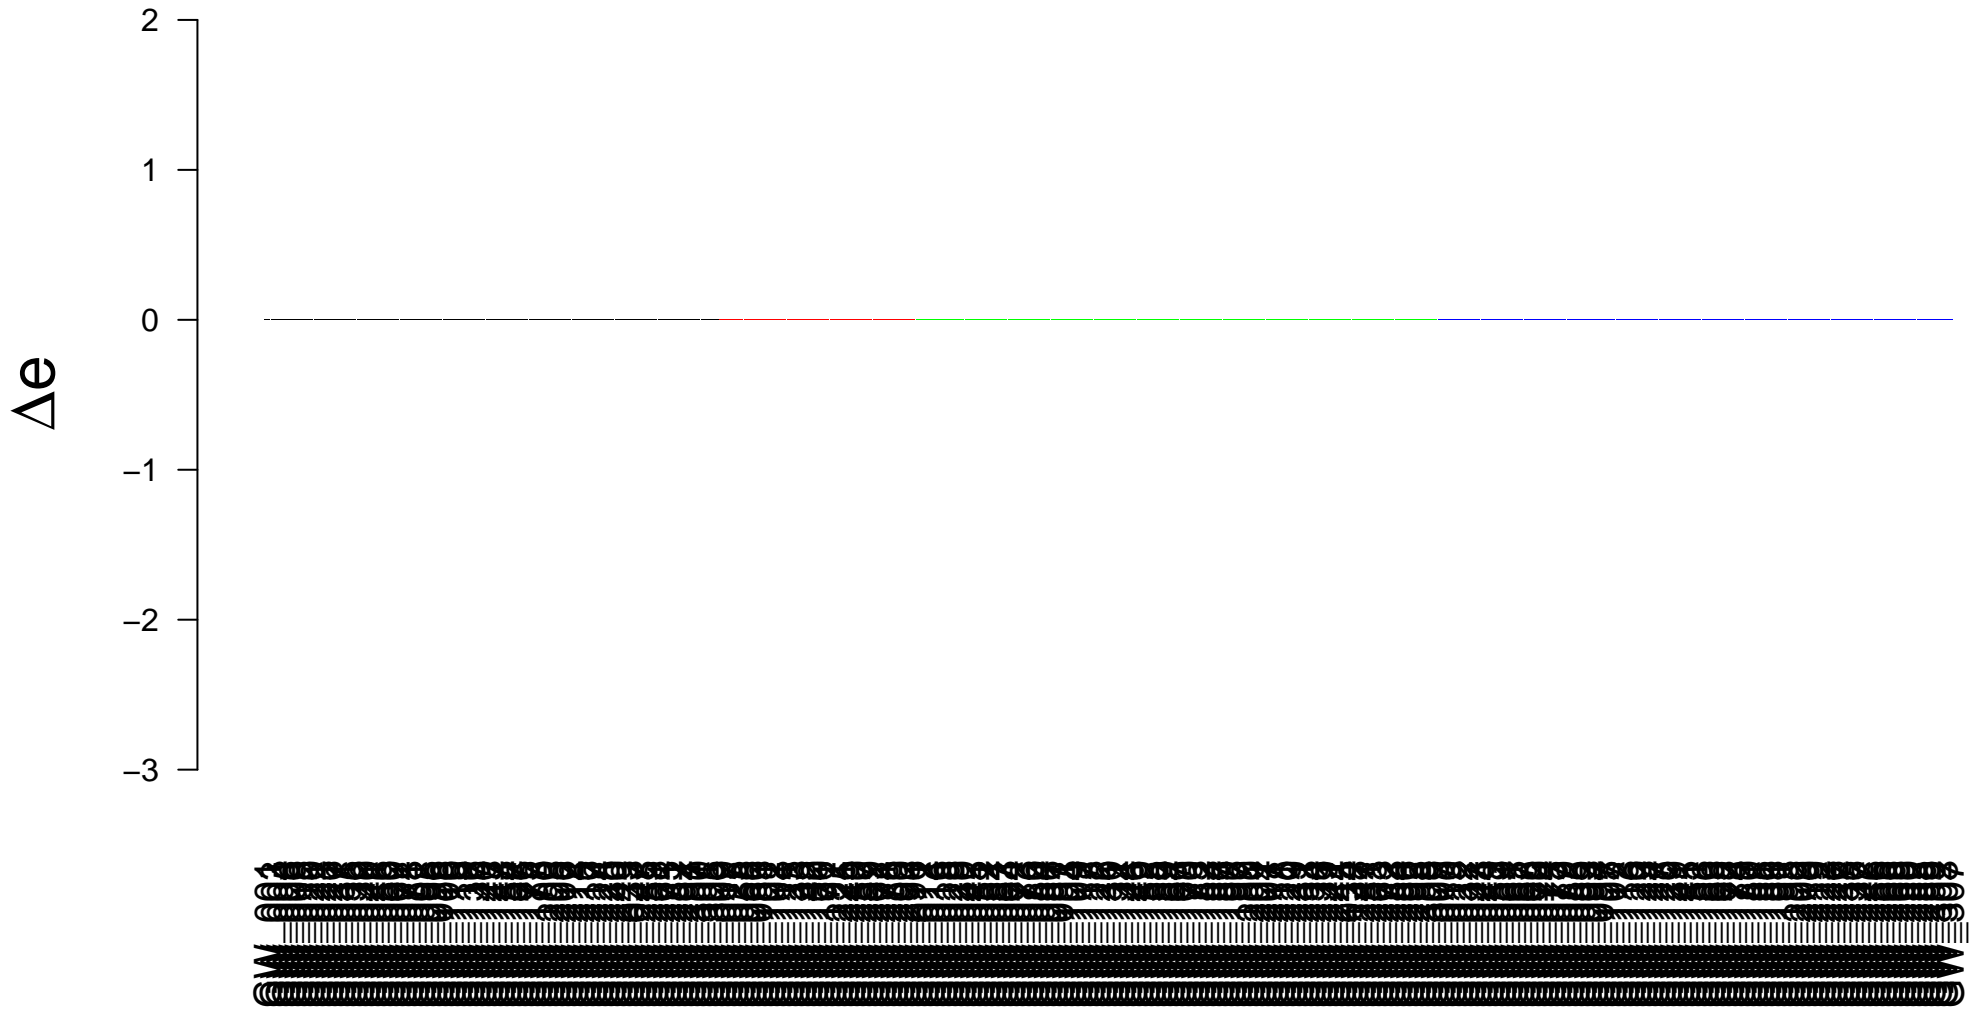

Expression of translational initiation in Spot F

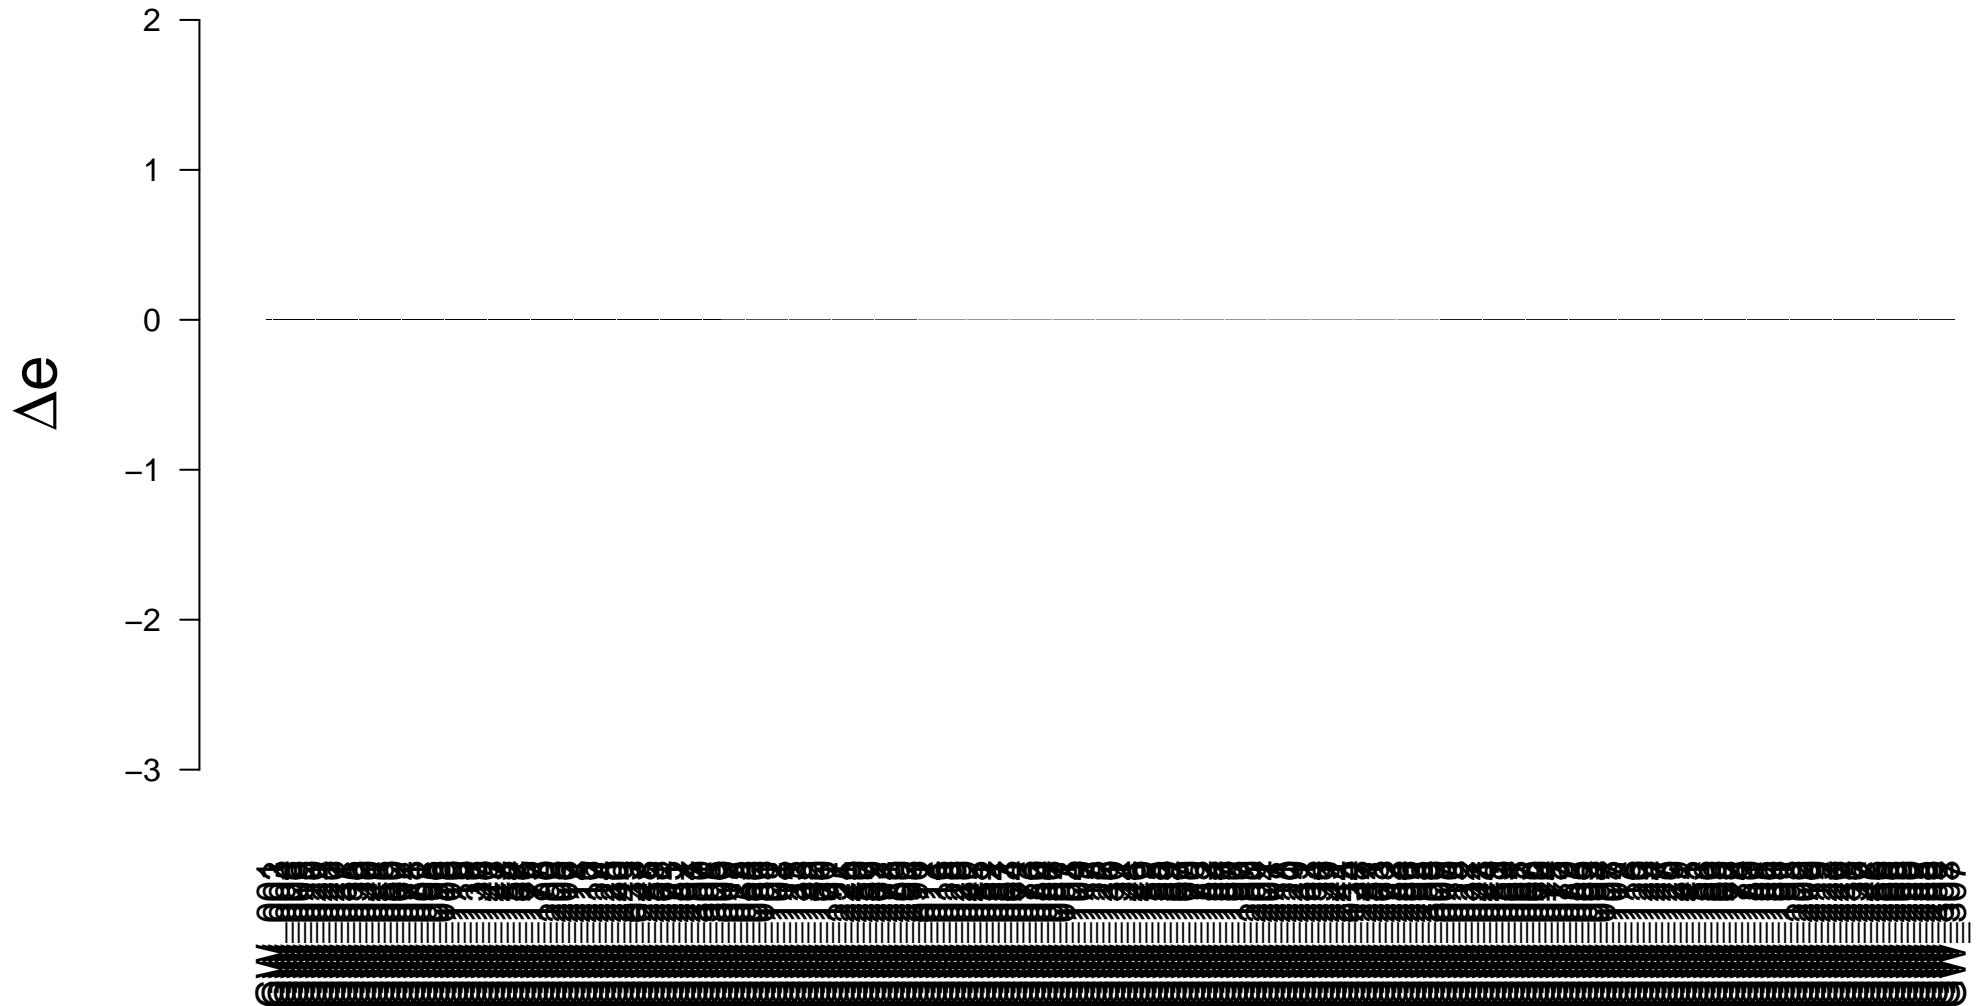

Expression of translational initiation in Spot G

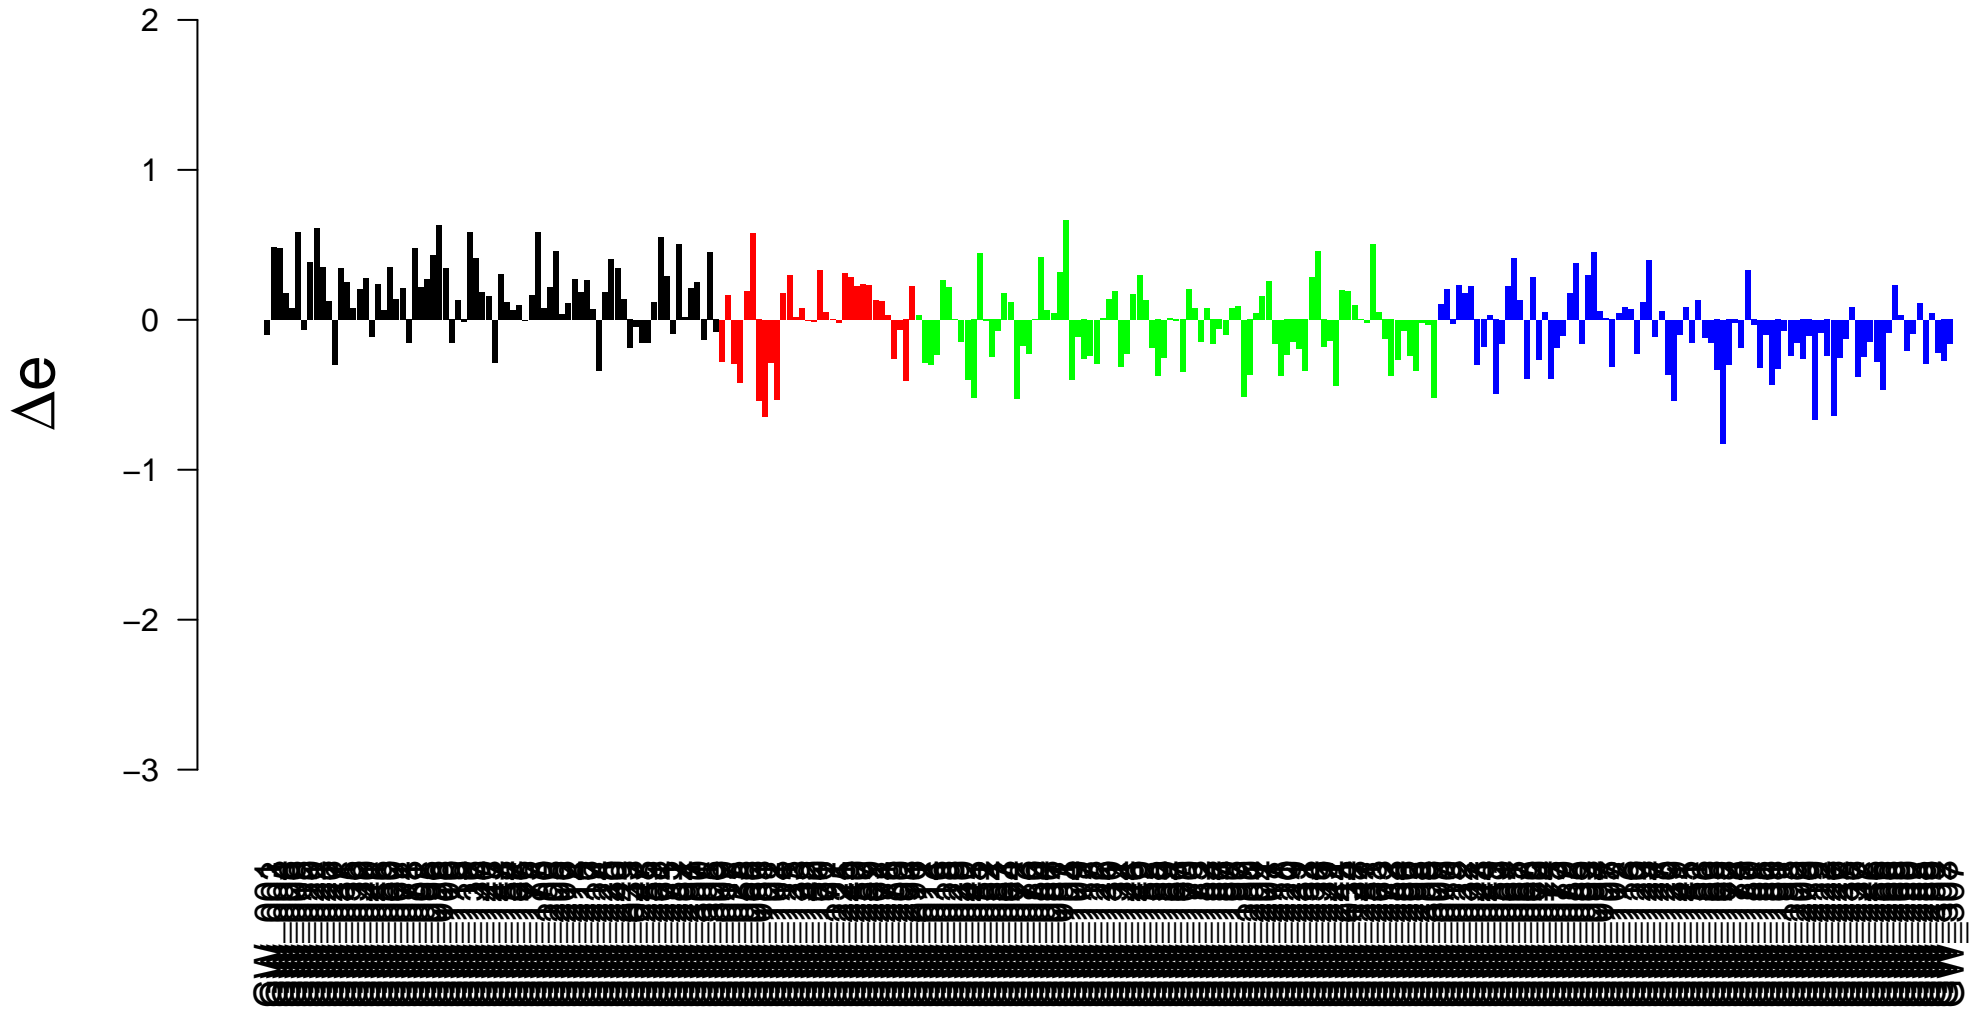

Expression of translational initiation in Spot H

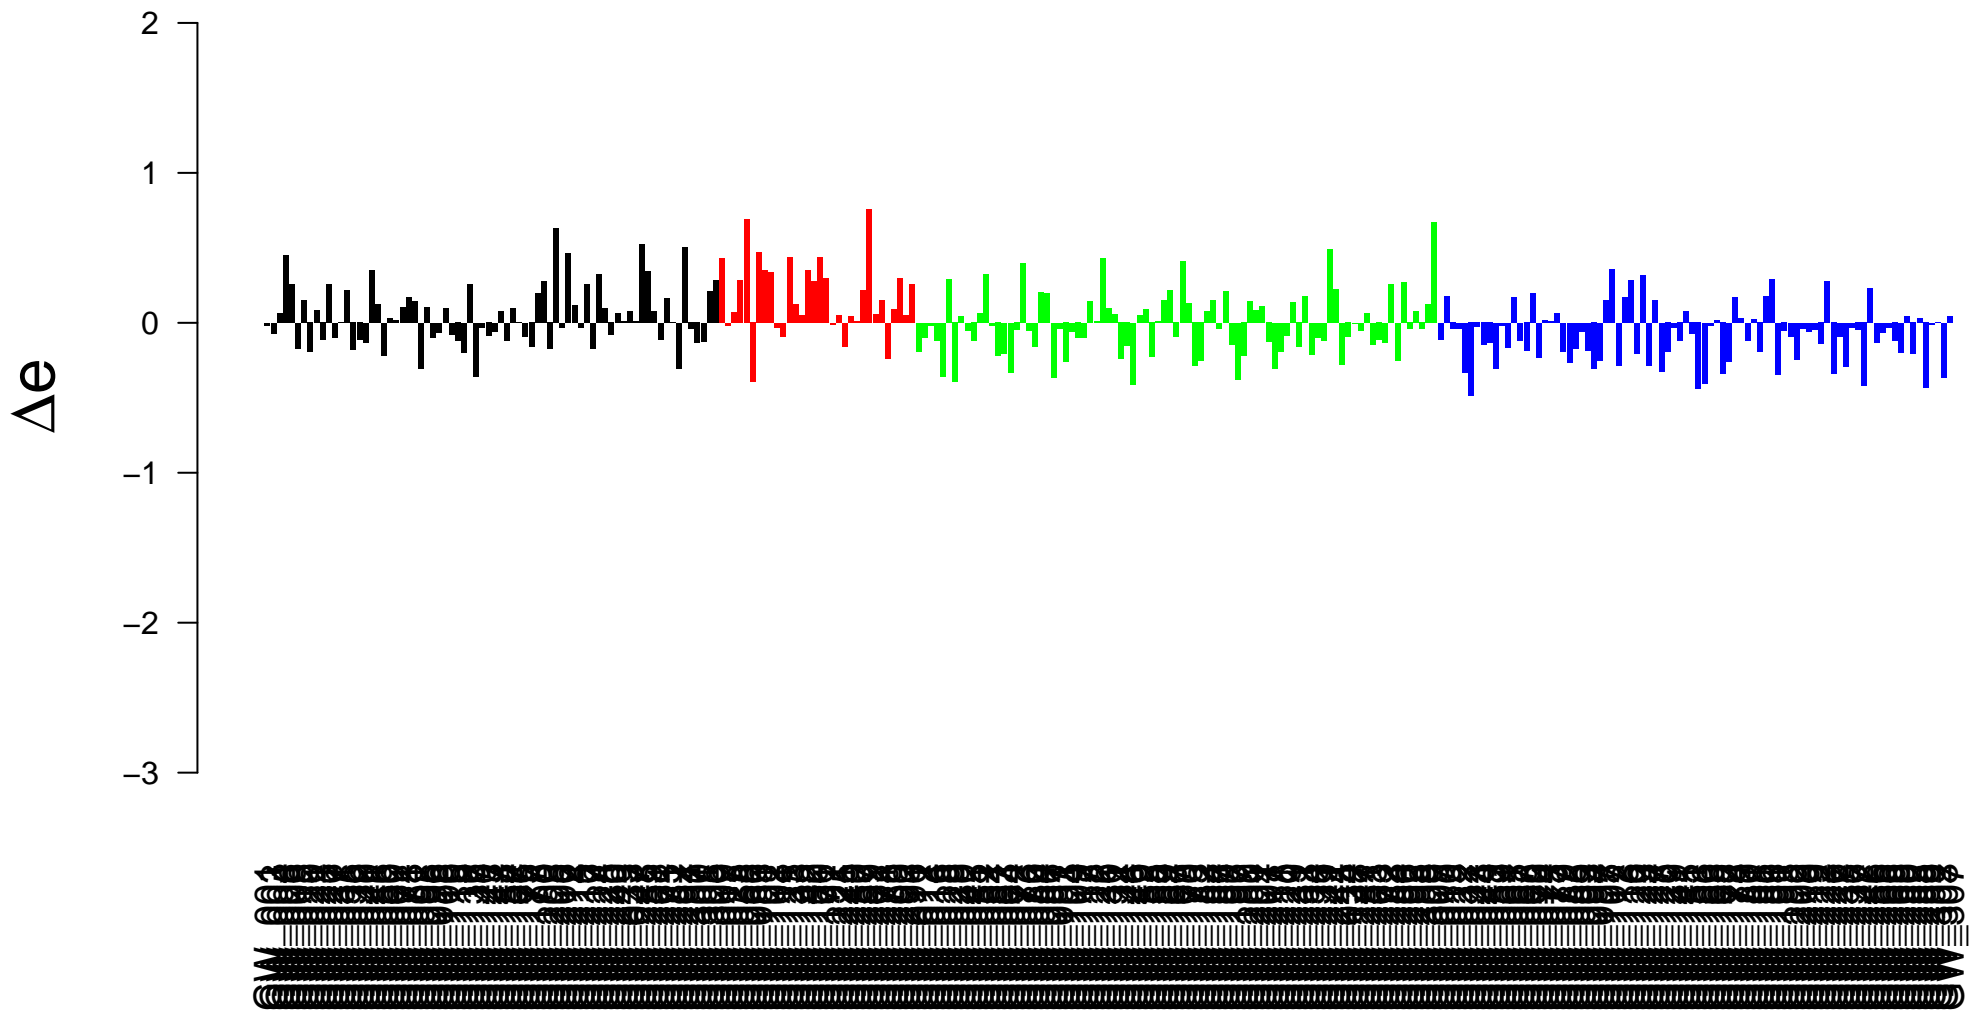

Expression of translational initiation in Spot I

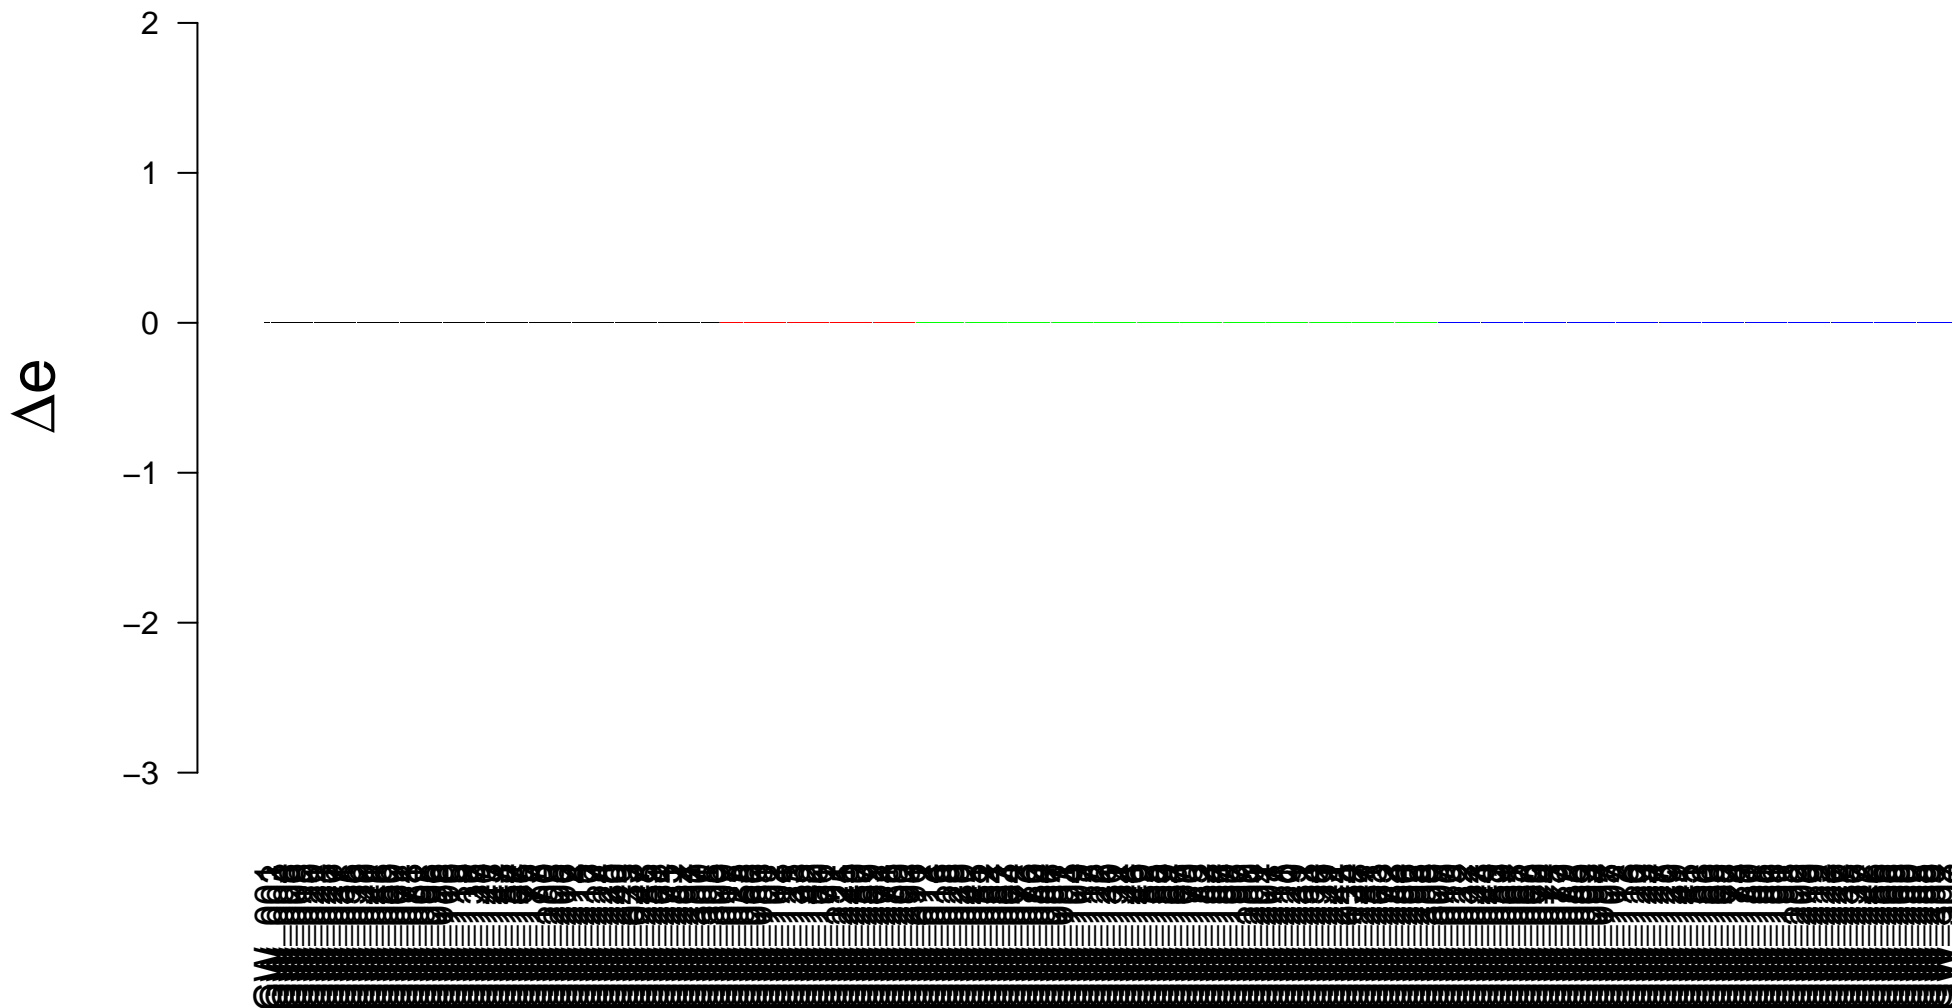

Expression of translational initiation in Spot J

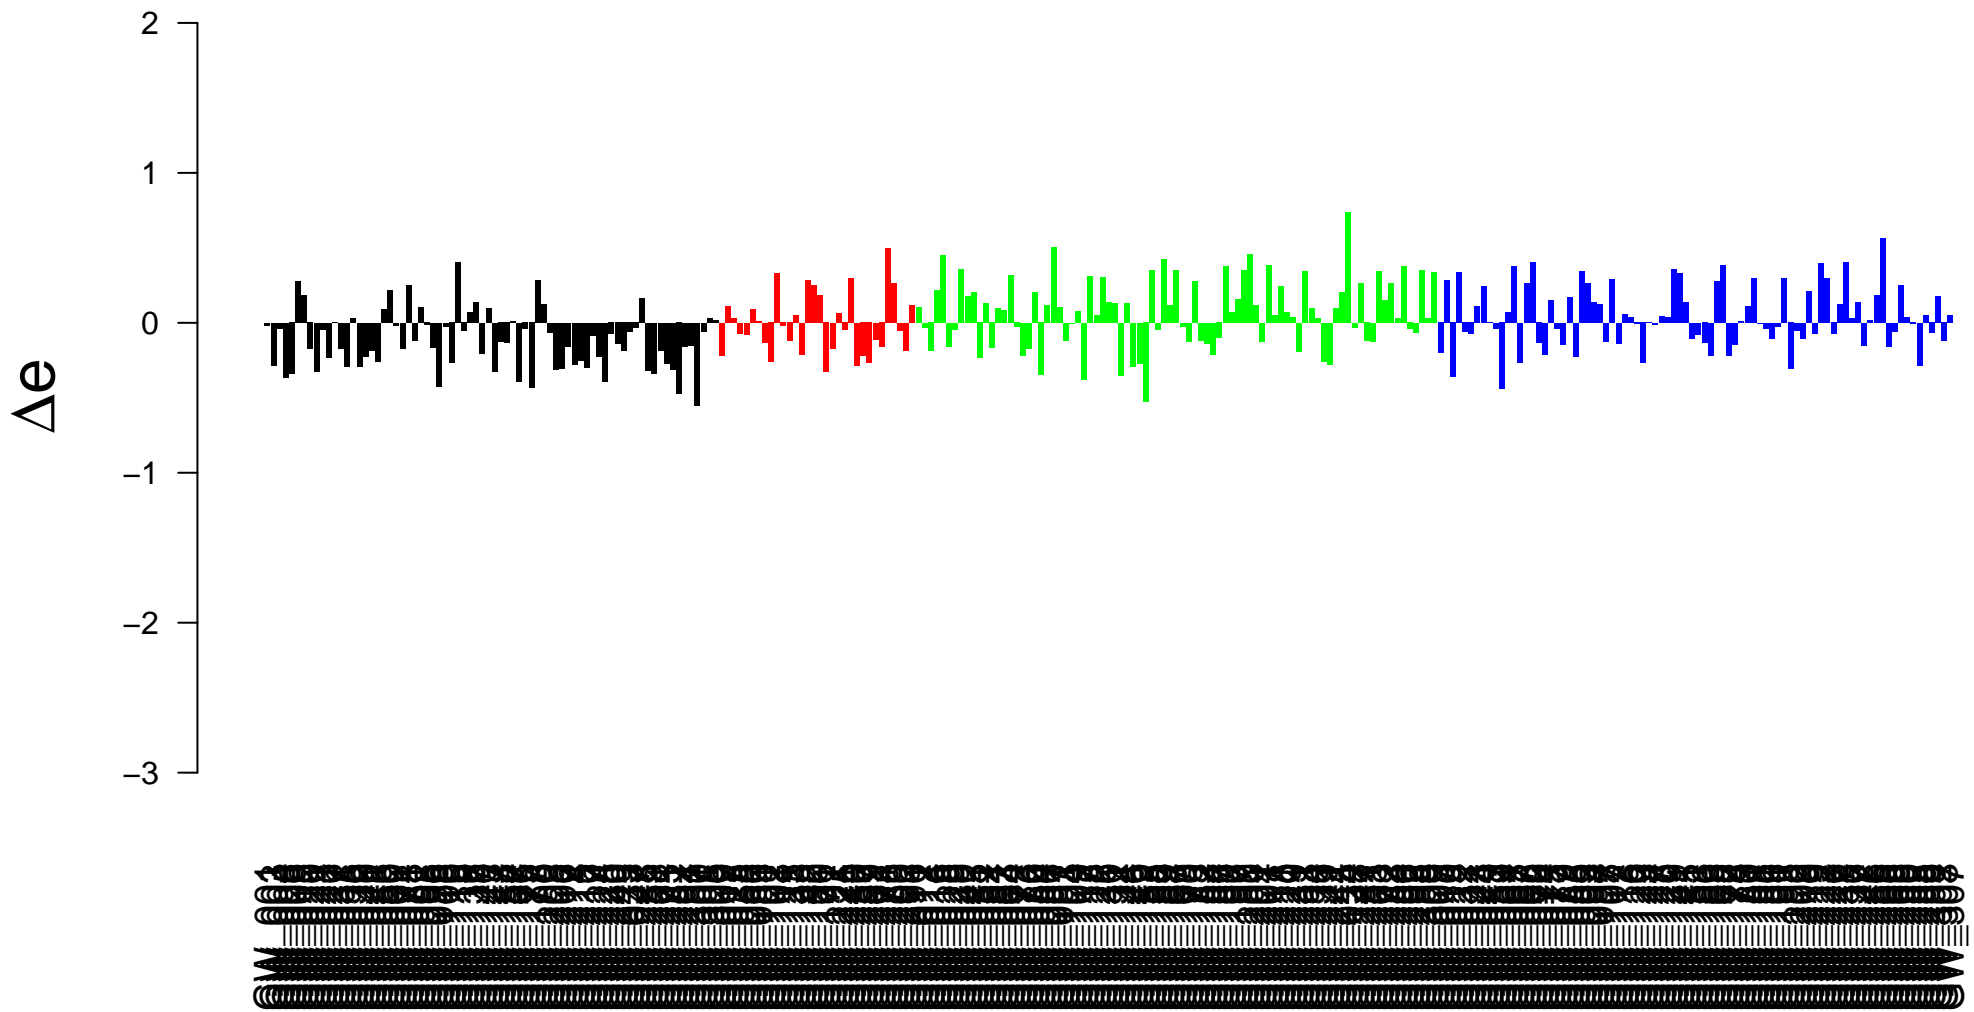

Expression of translational initiation in Spot K

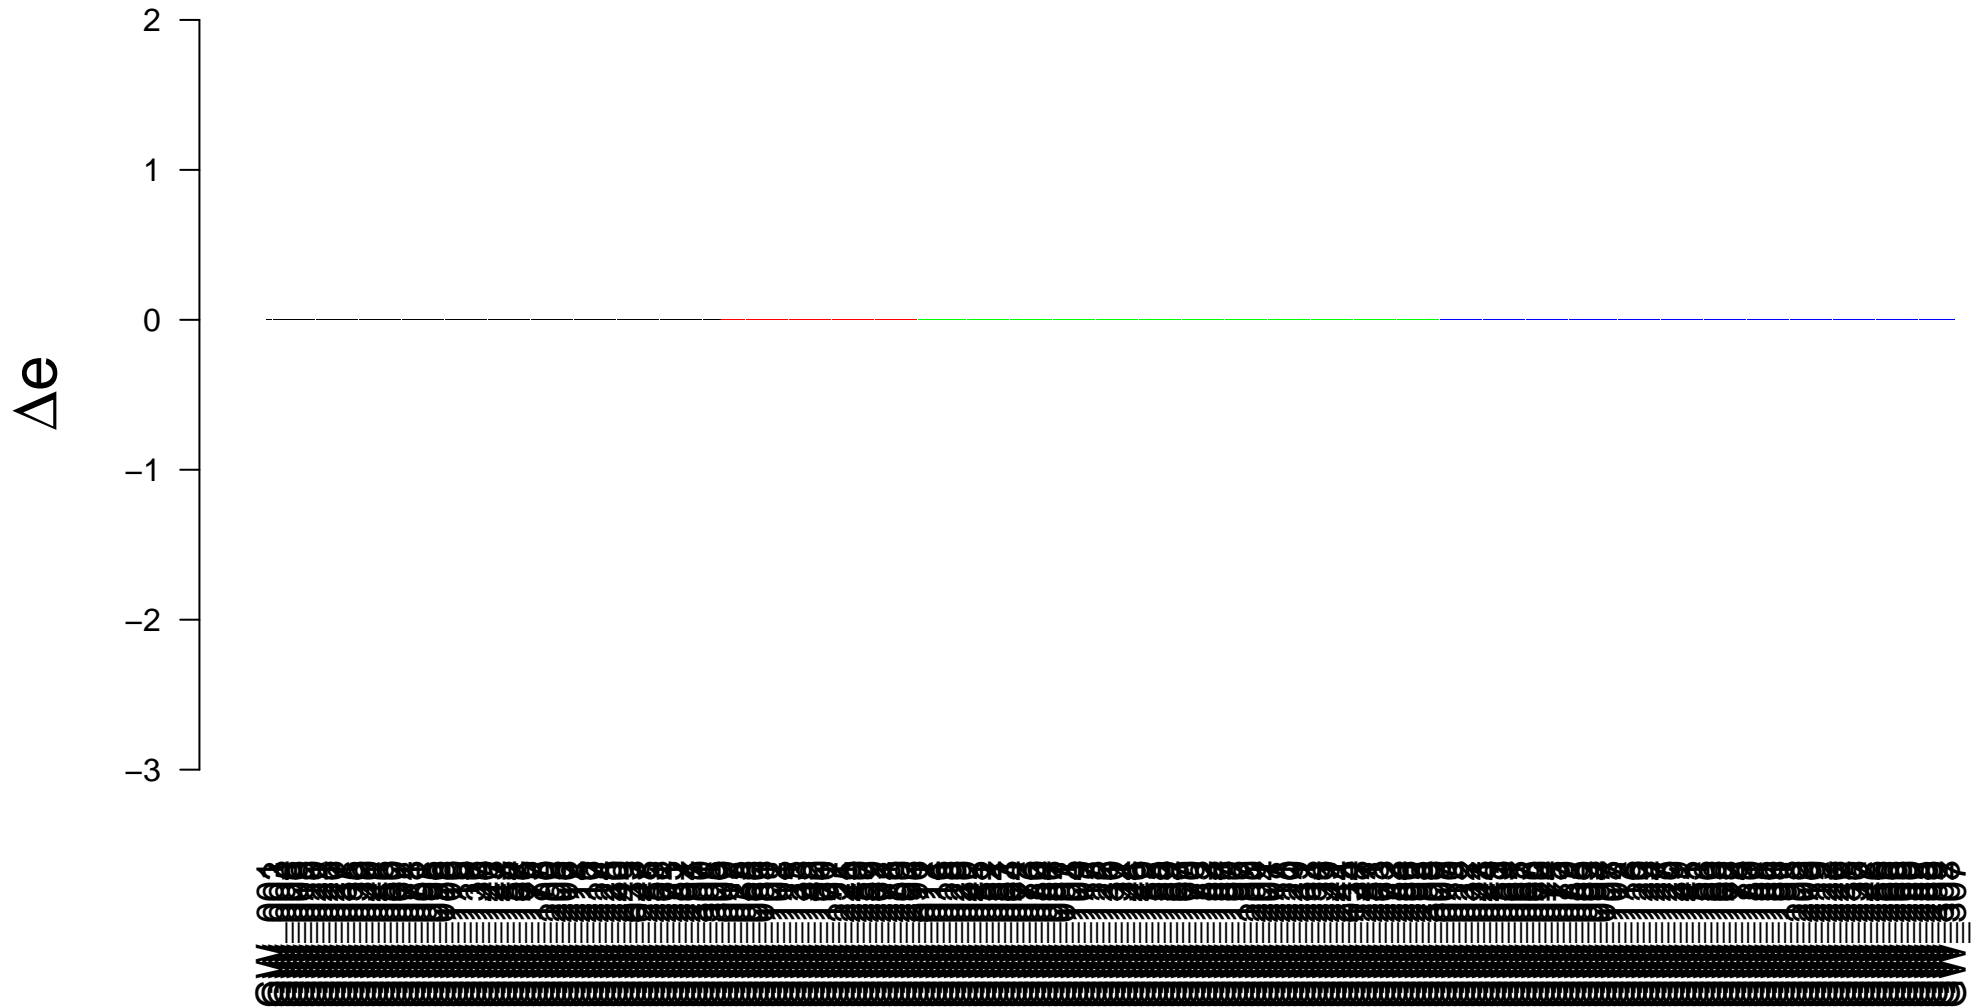

Expression of translational initiation in Spot L

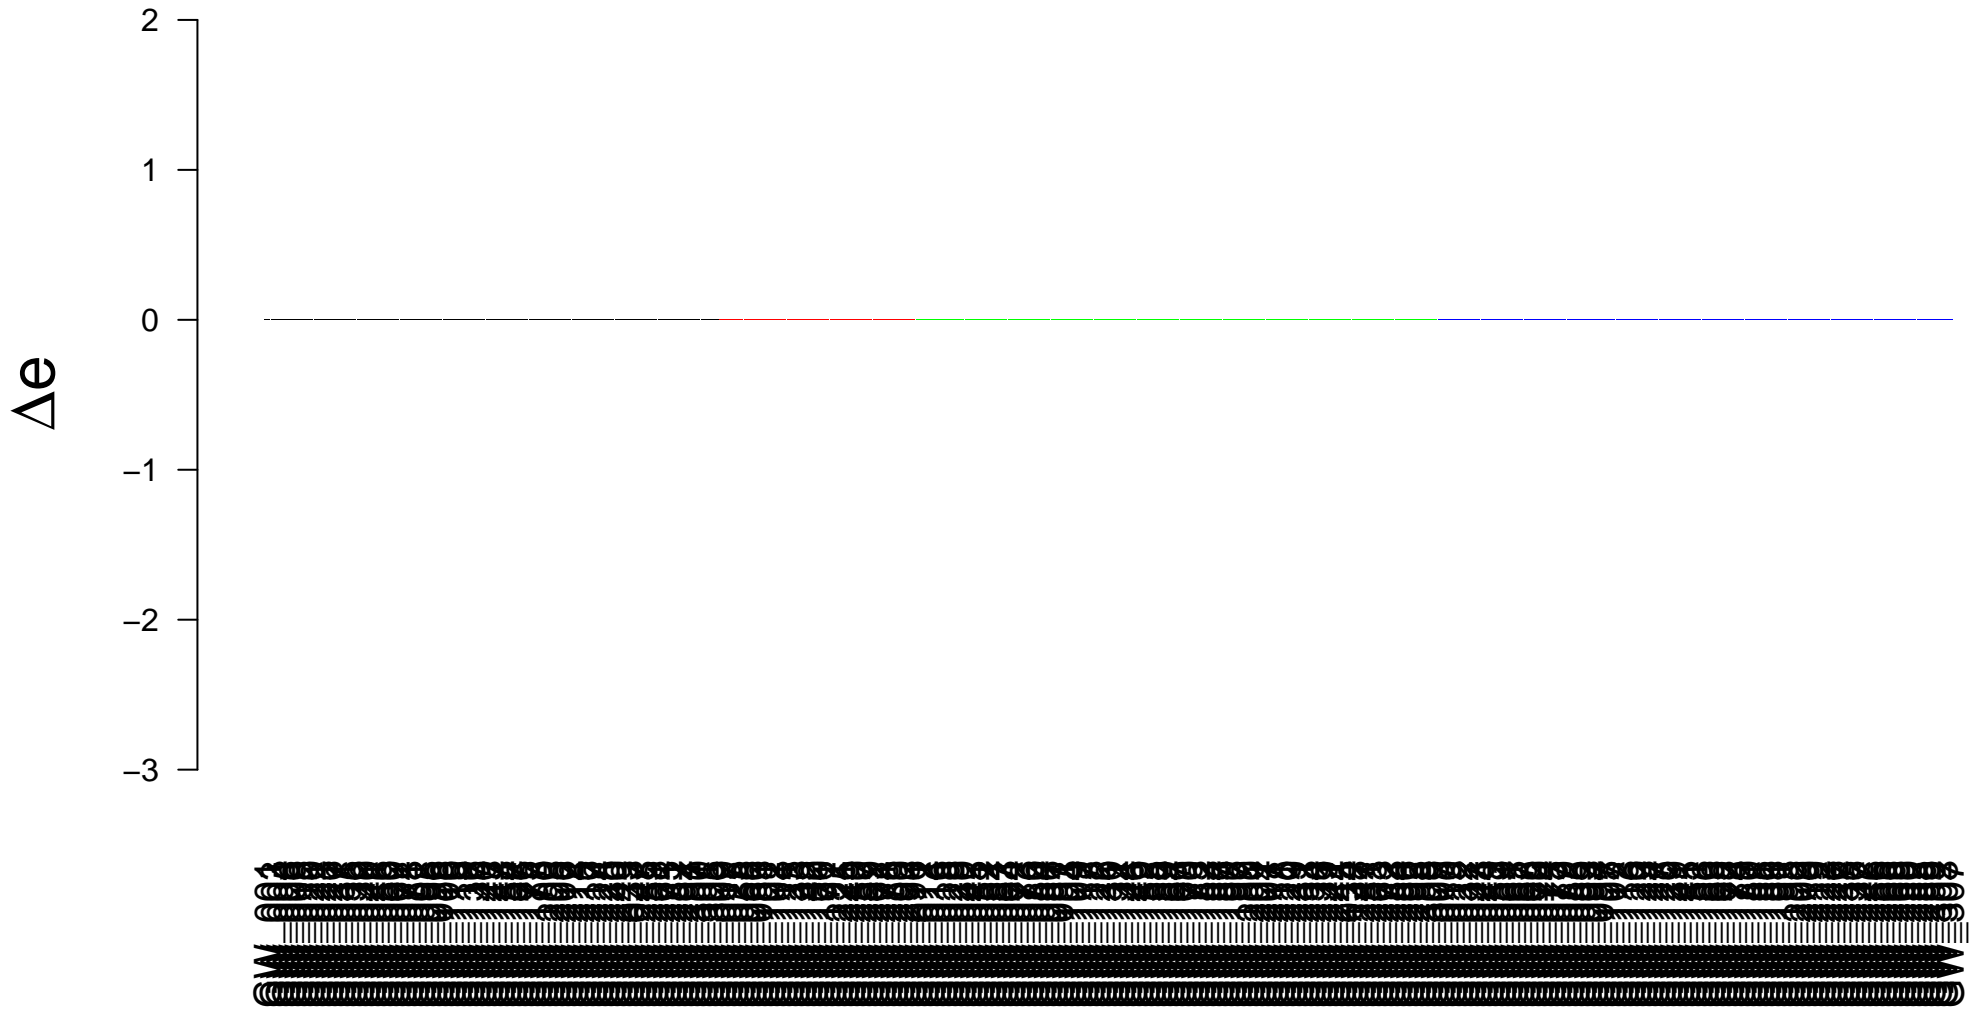

Expression of translational initiation in Spot M

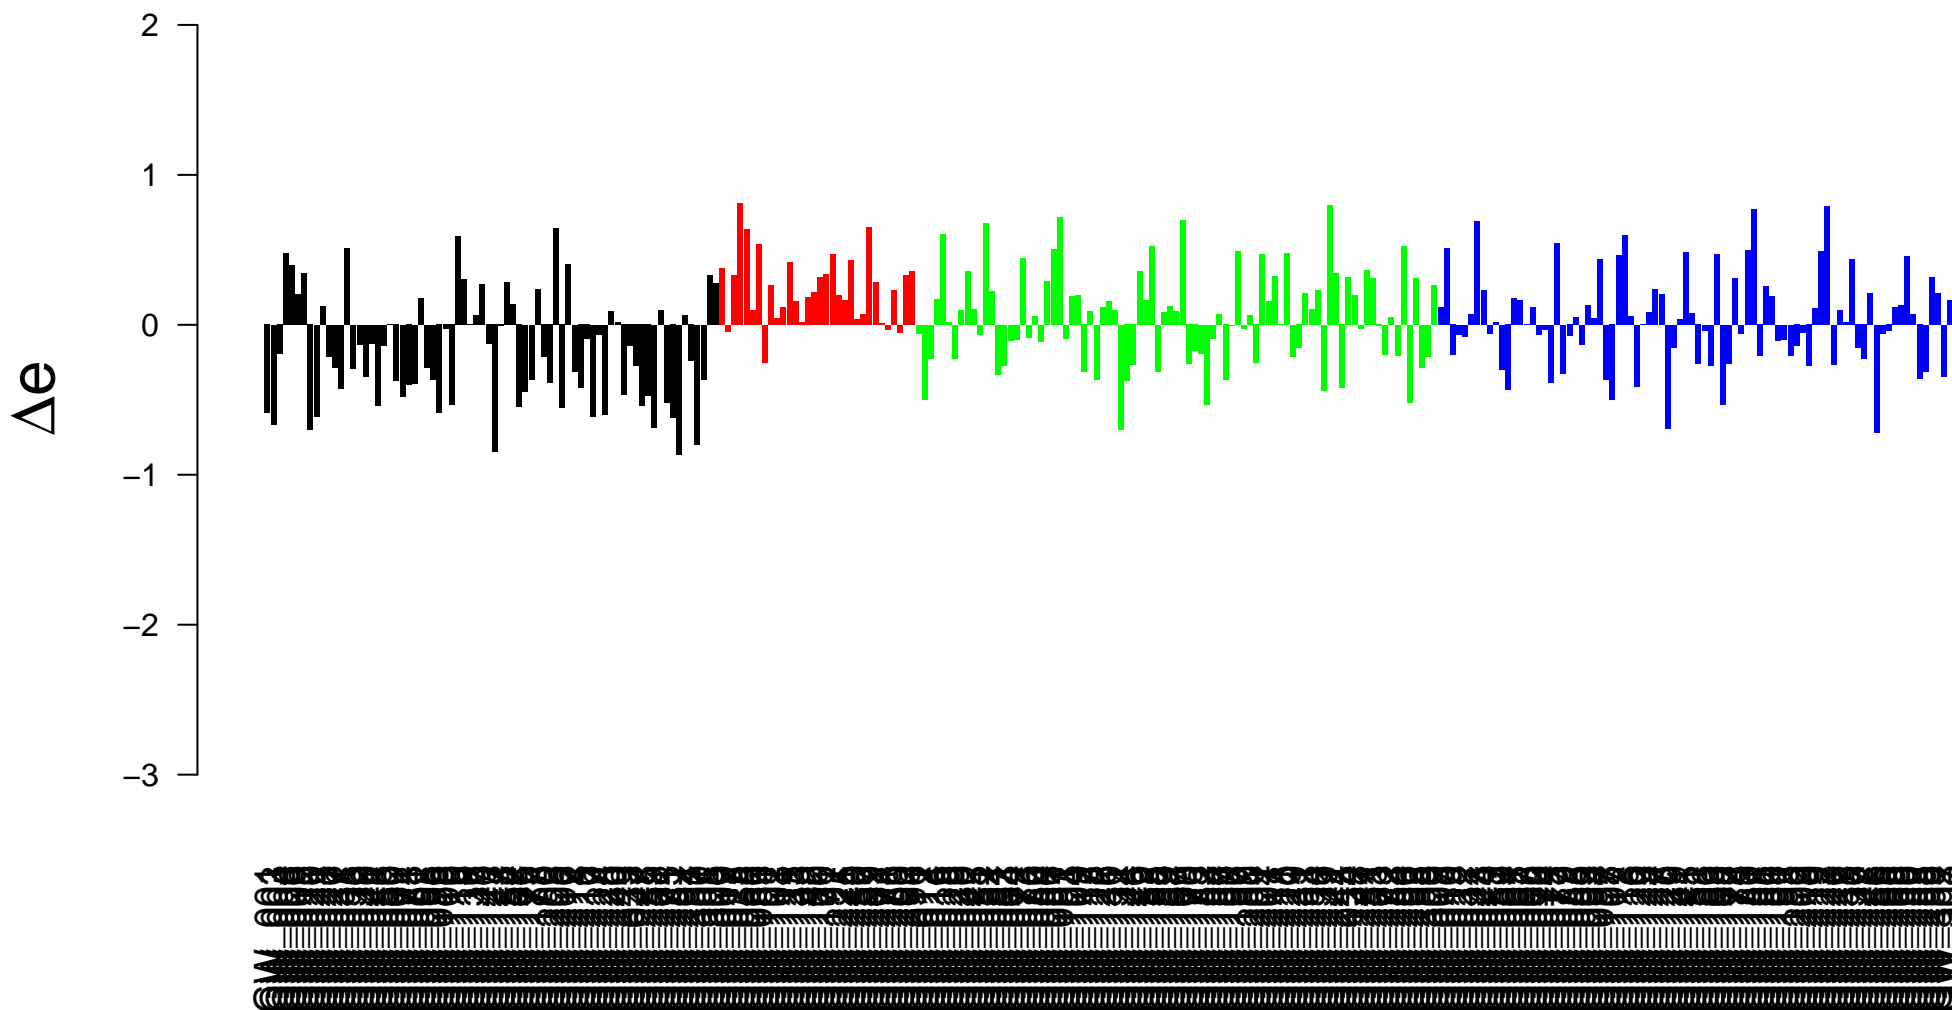

Expression of translational initiation in Spot N

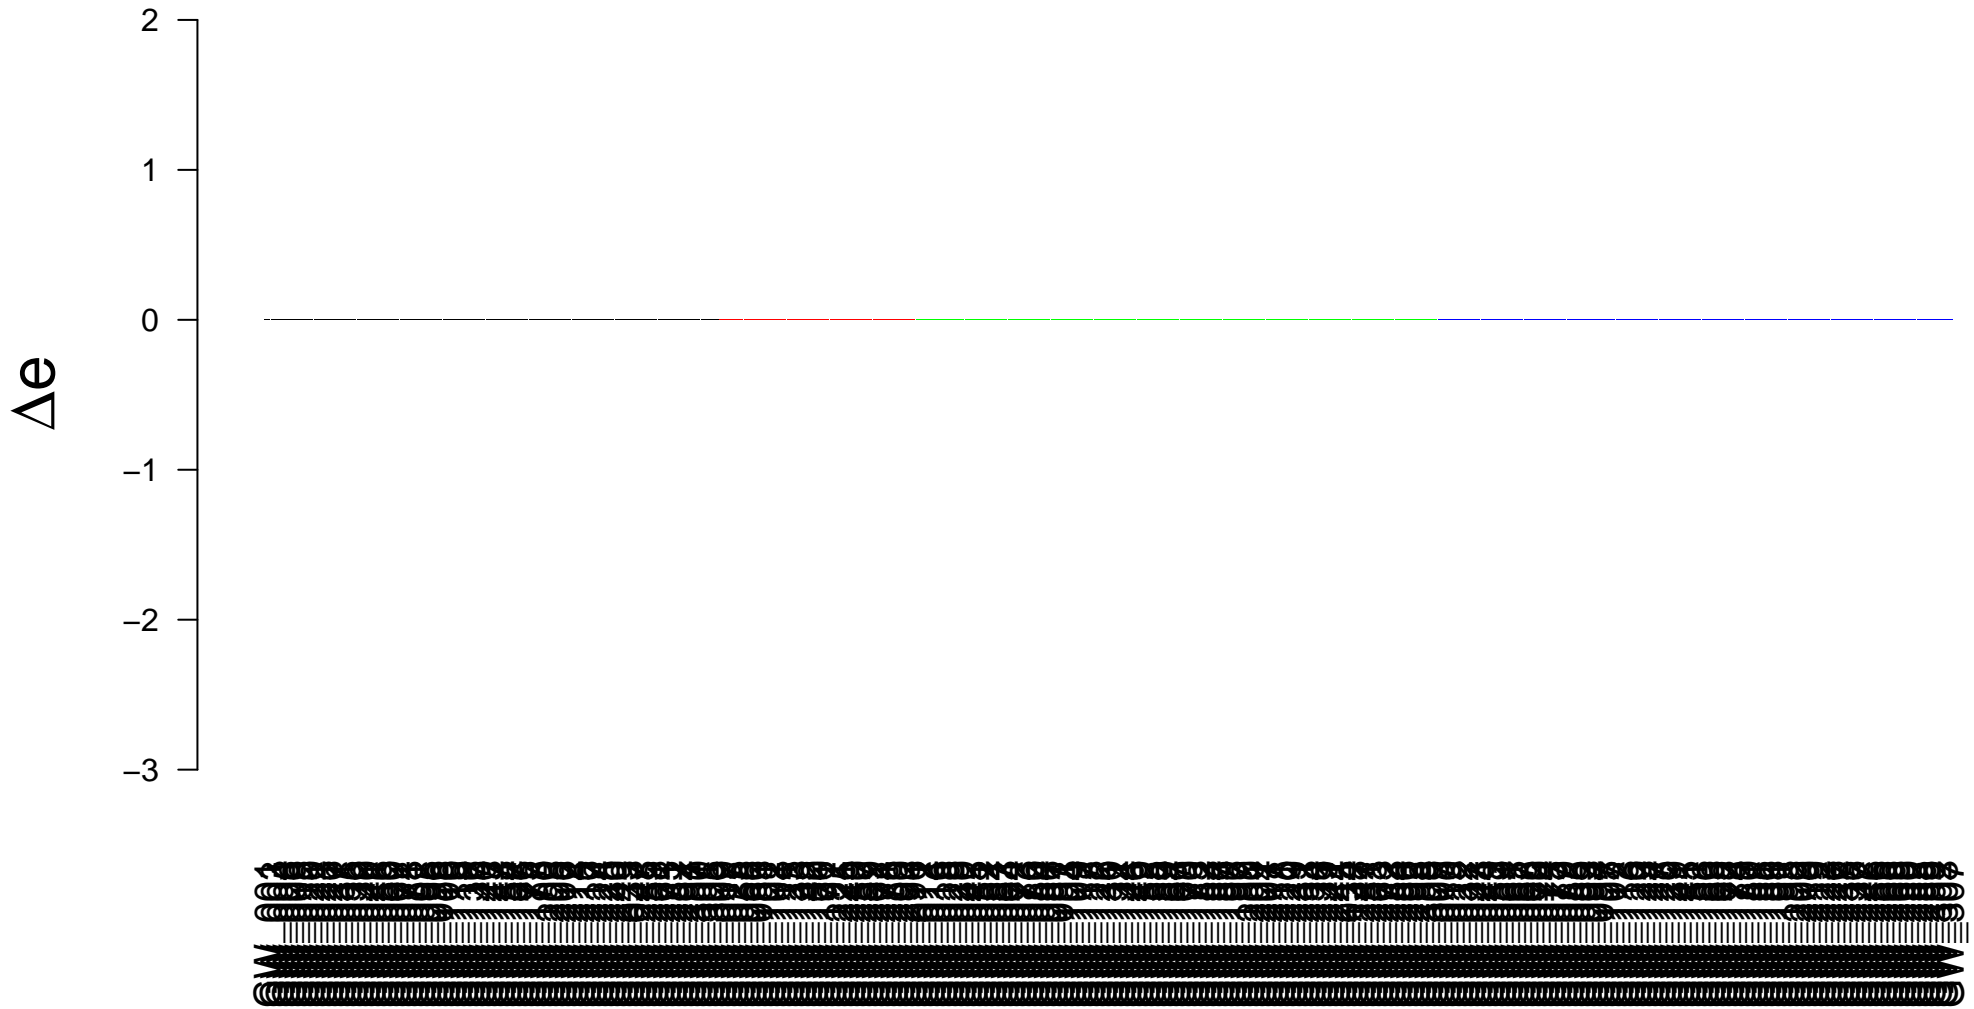

Expression of translational initiation in Spot O

Expression of translational initiation in Spot P

Expression of translational initiation in Spot Q

Expression of translational initiation in Spot R
