transmembrane signaling receptor activity

Enrichment in spots: transmembrane signaling receptor activity

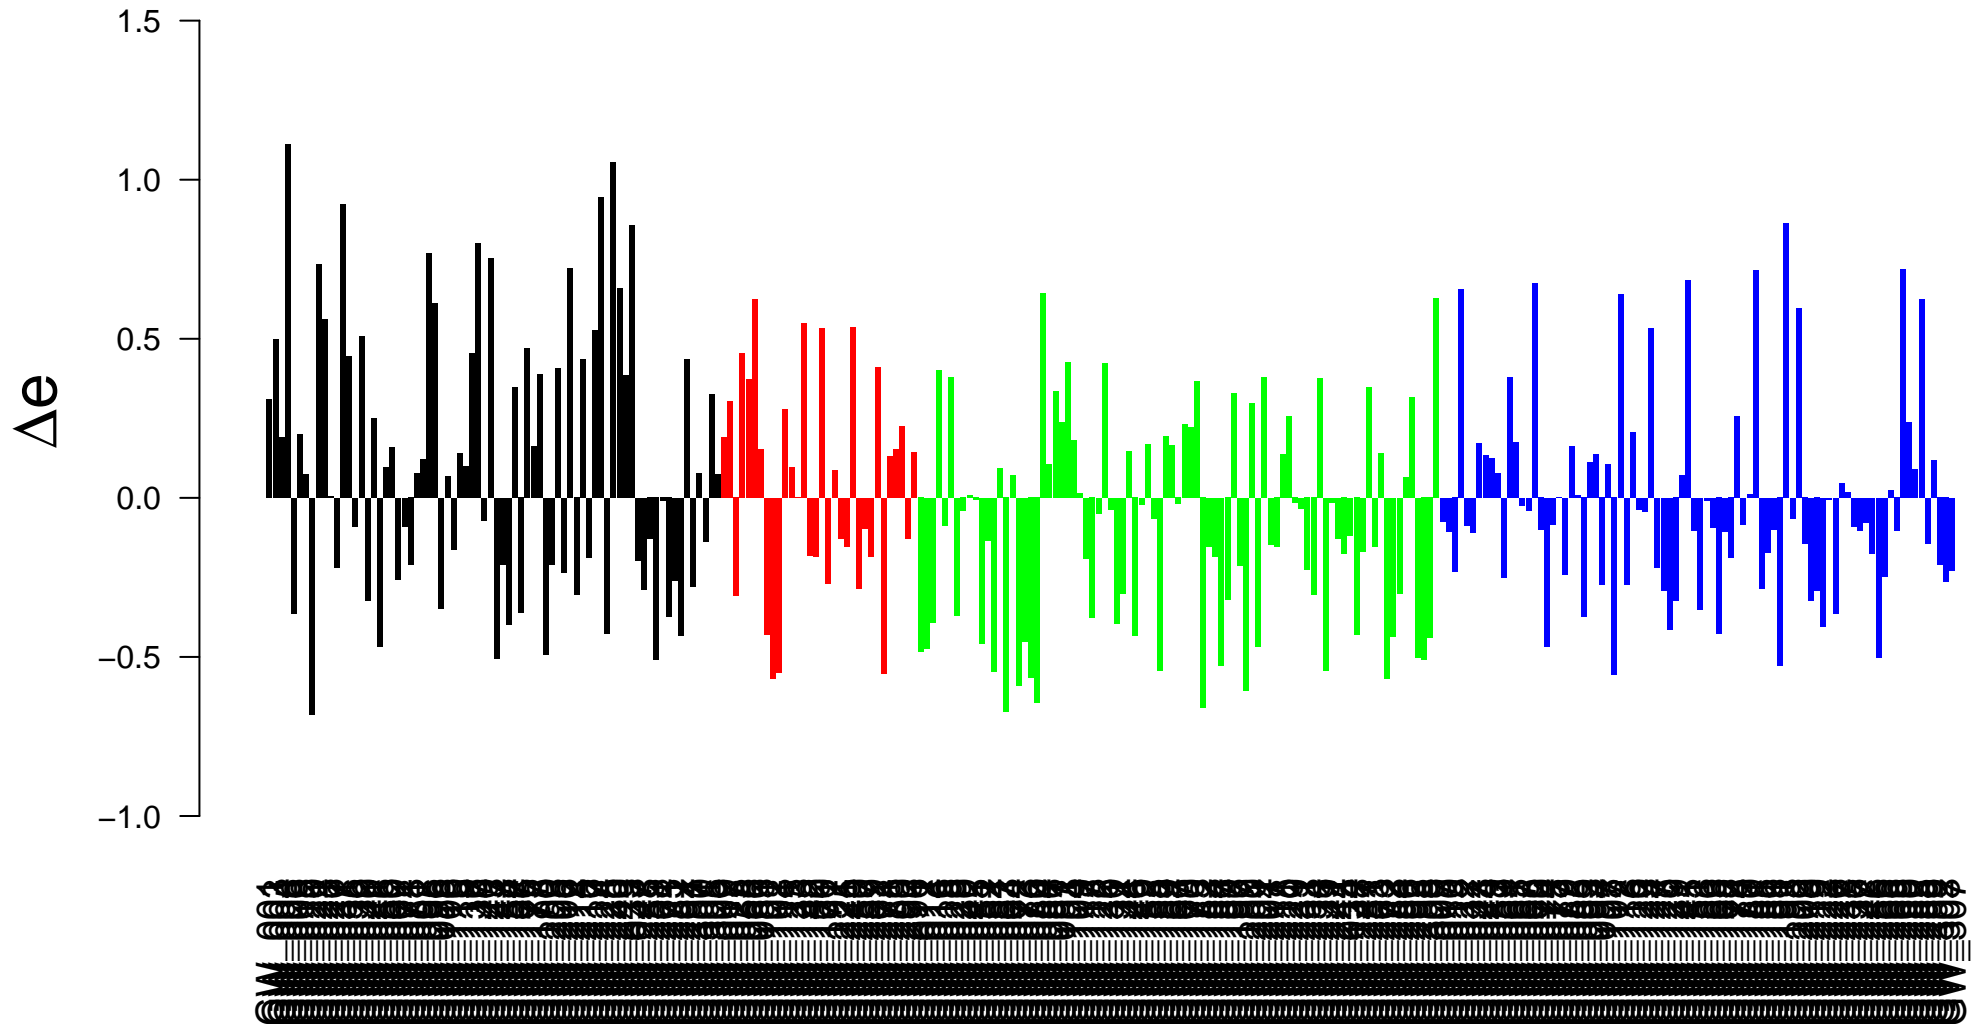

Expression of transmembrane signaling receptor activity in Spot A

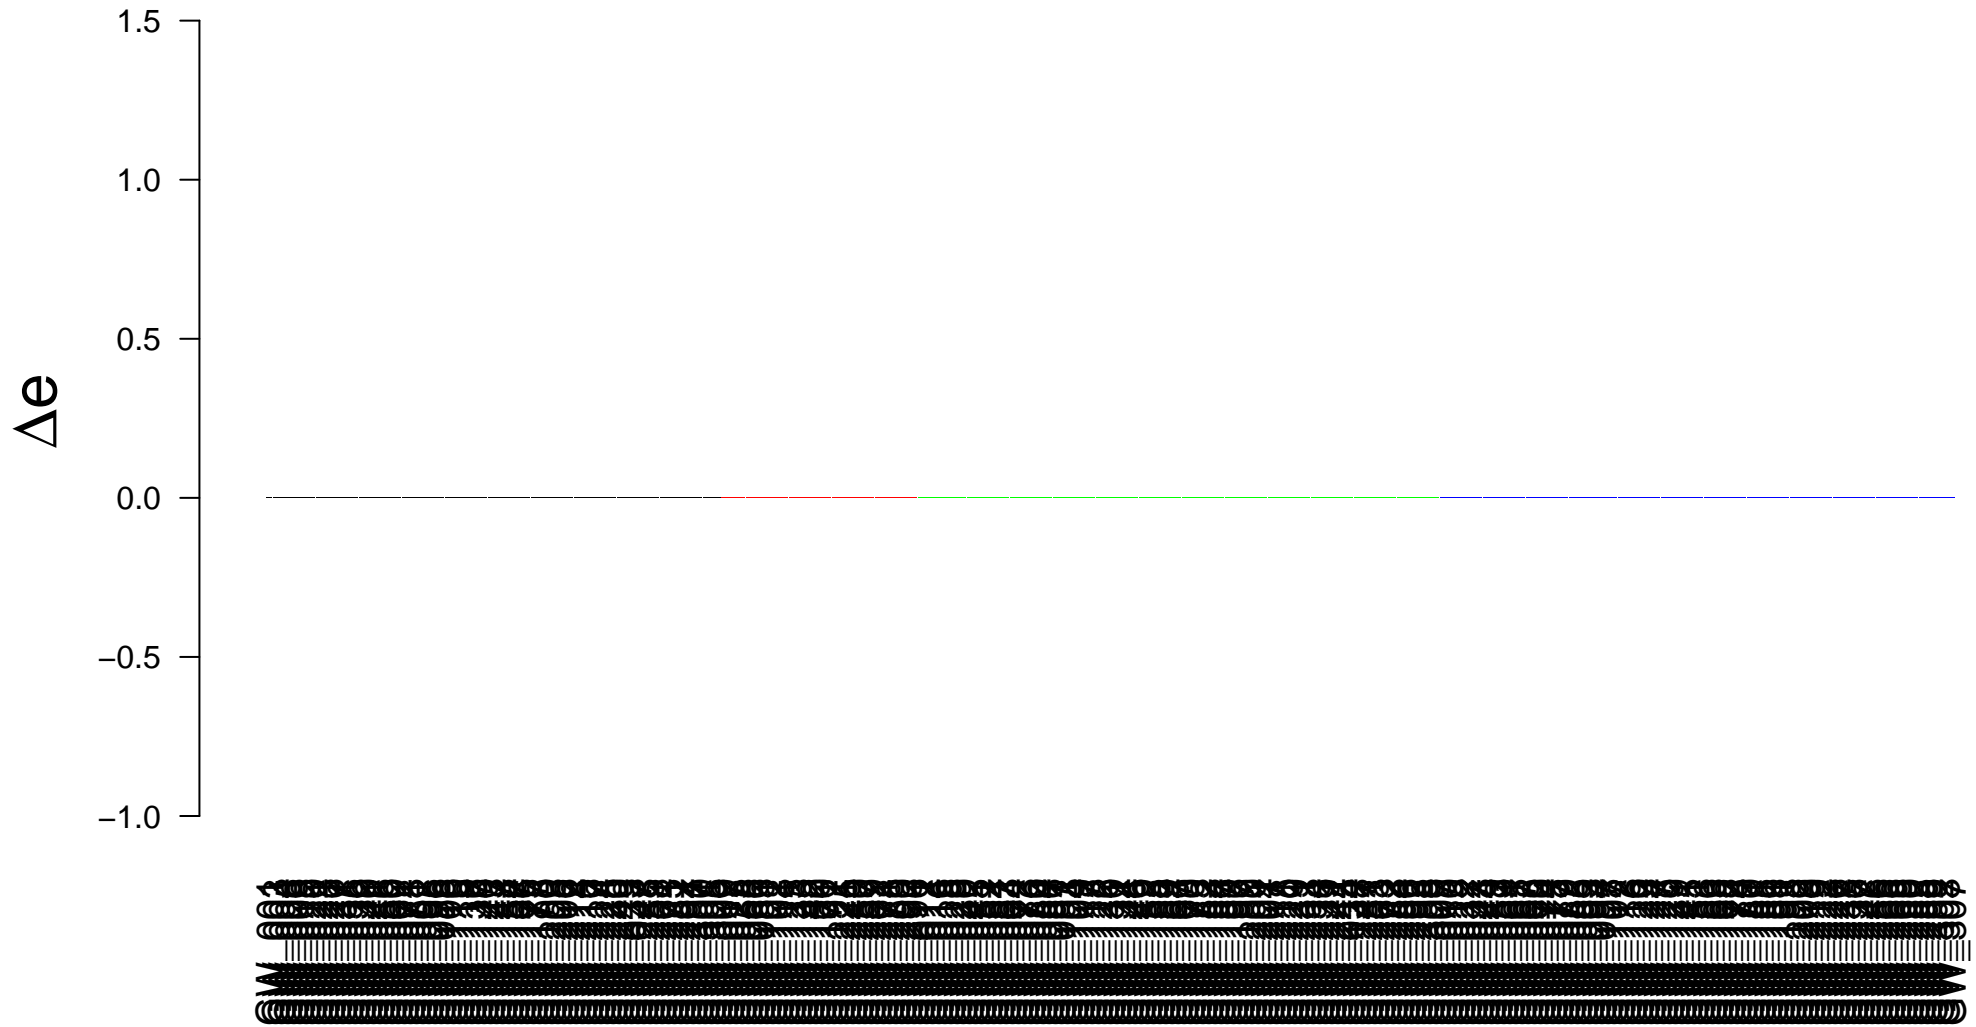

Expression of transmembrane signaling receptor activity in Spot B

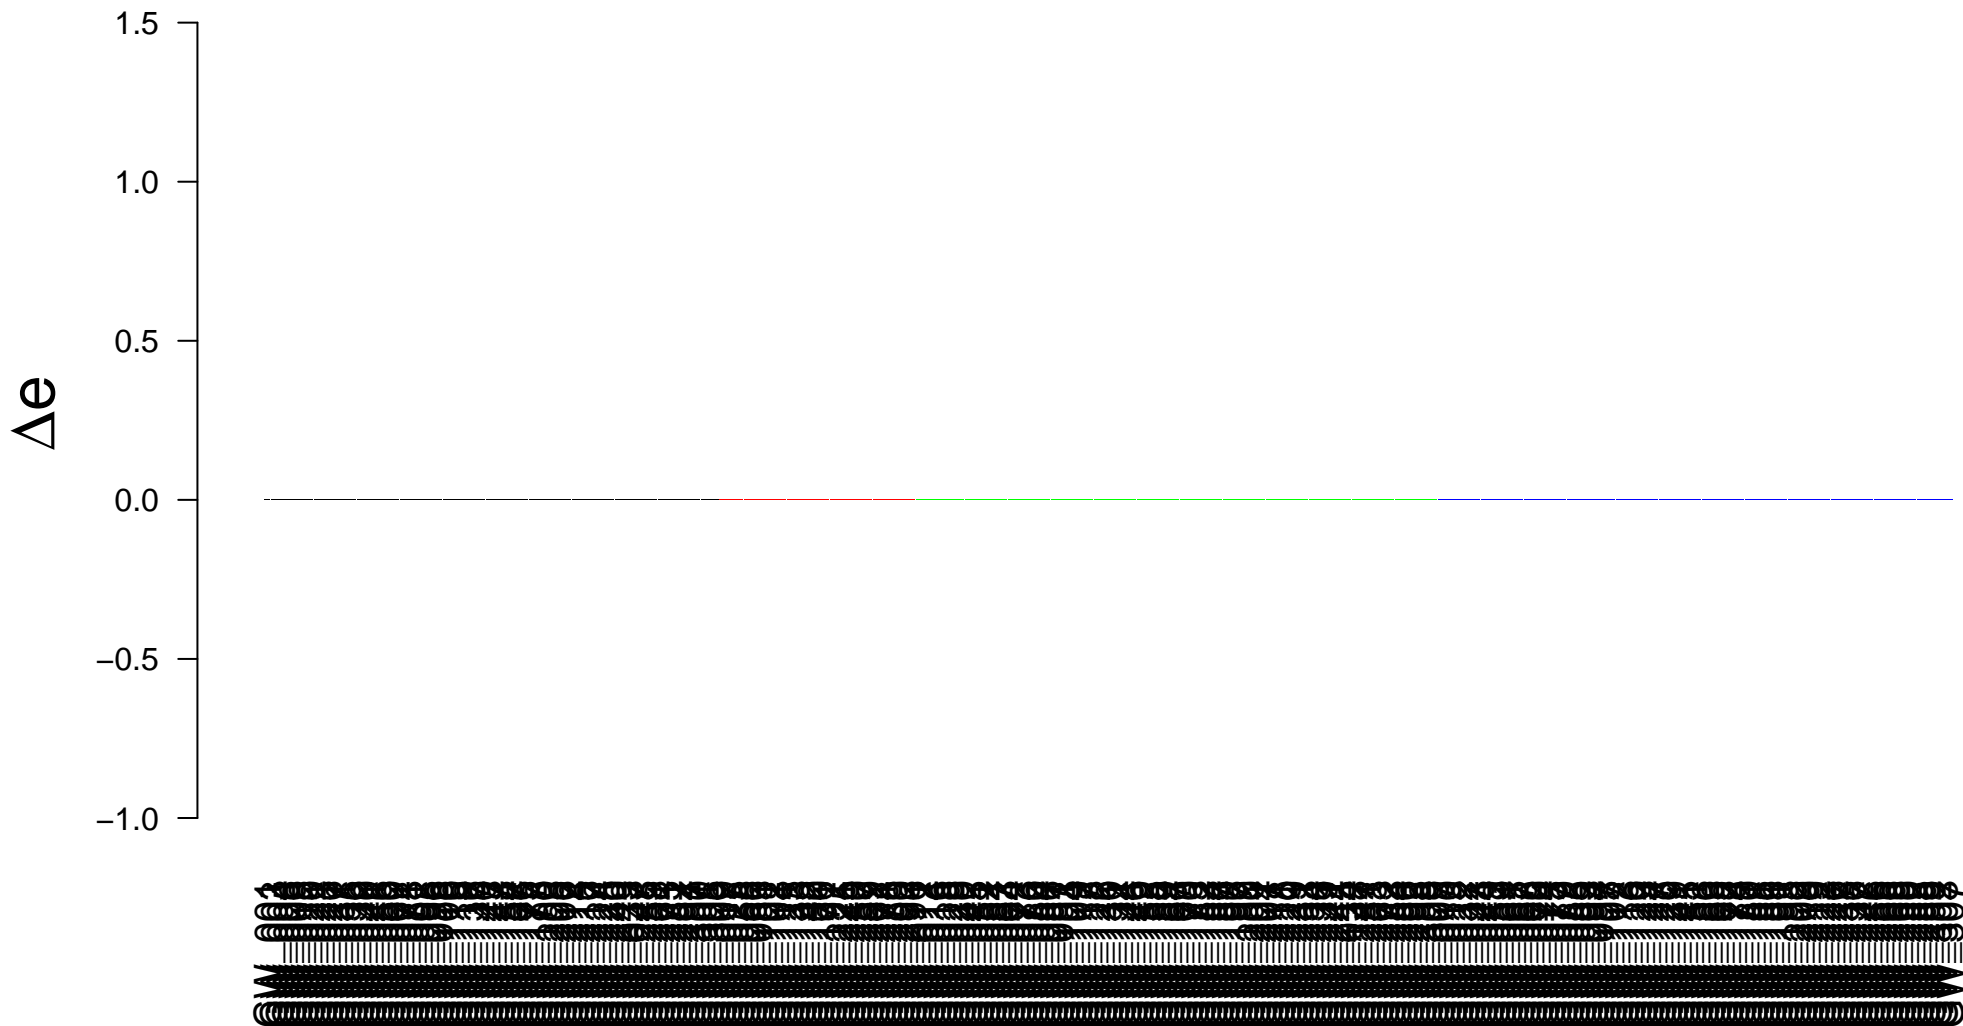

Expression of transmembrane signaling receptor activity in Spot C

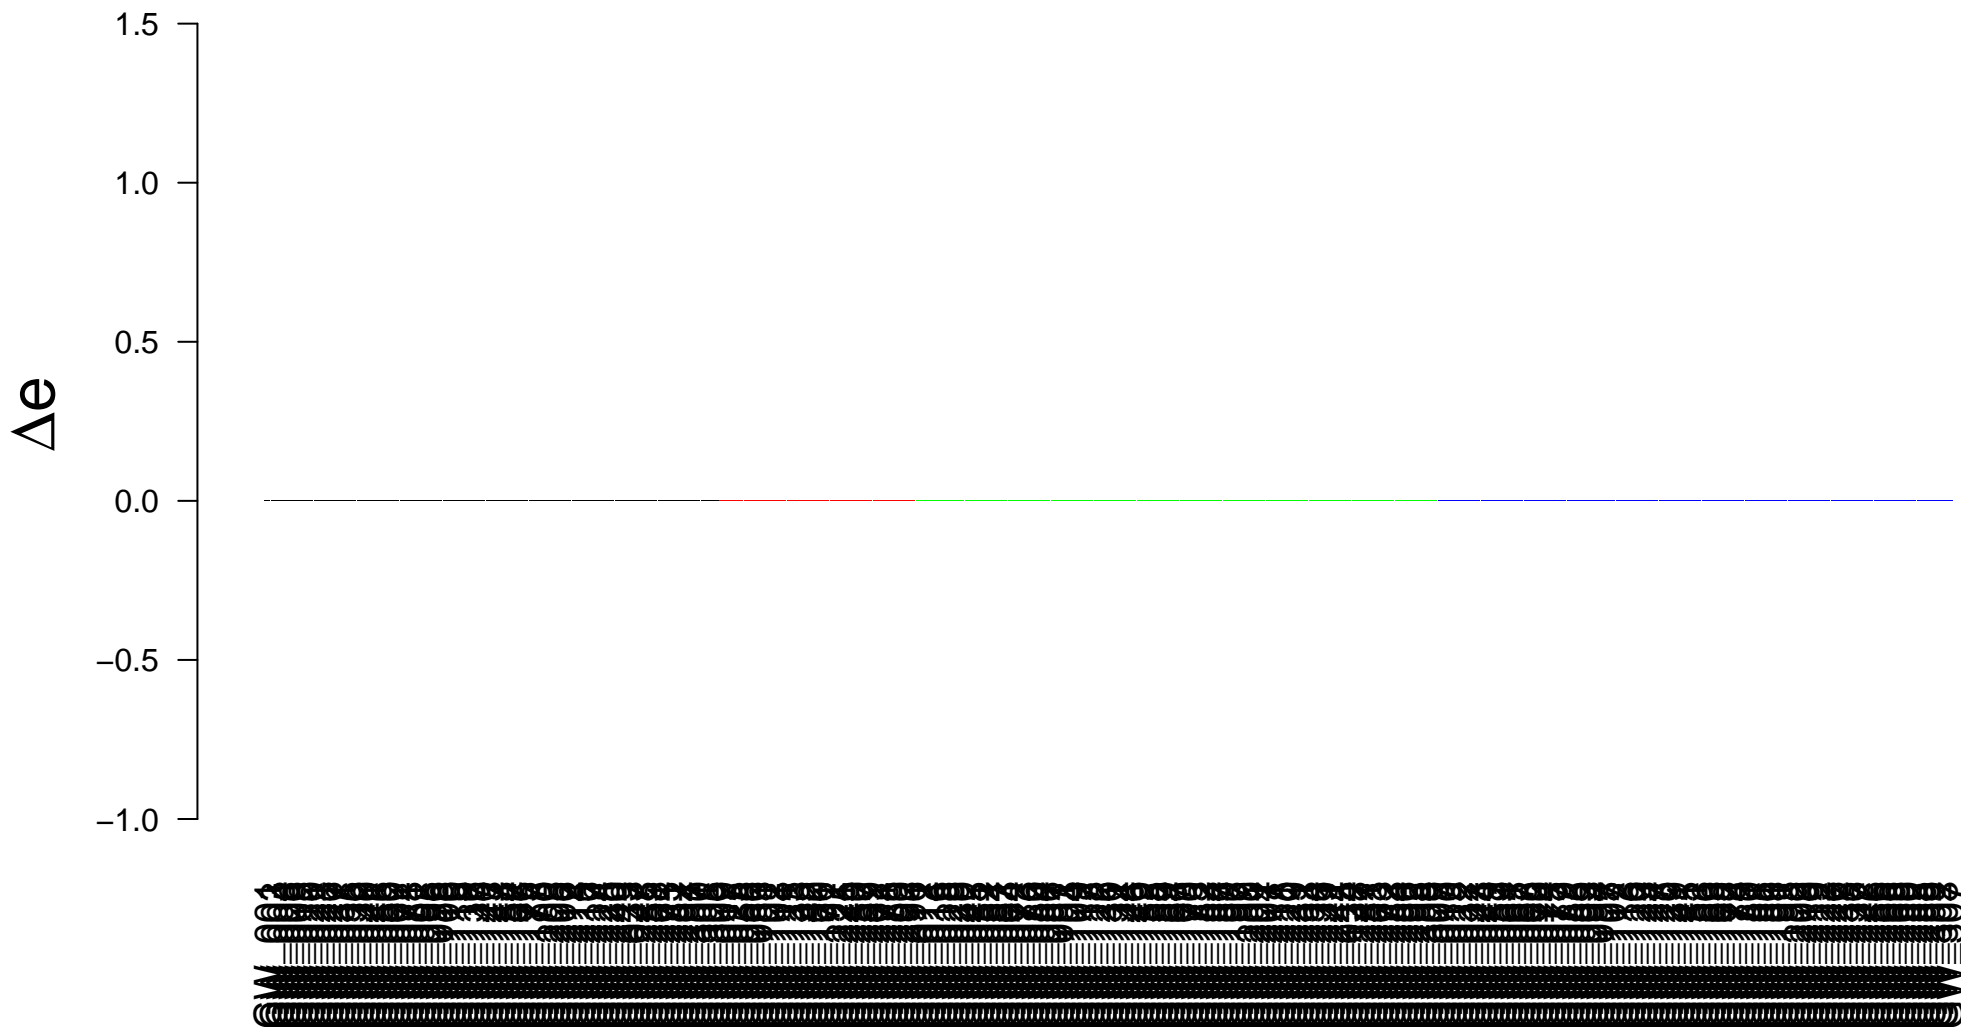

Expression of transmembrane signaling receptor activity in Spot D

Expression of transmembrane signaling receptor activity in Spot E

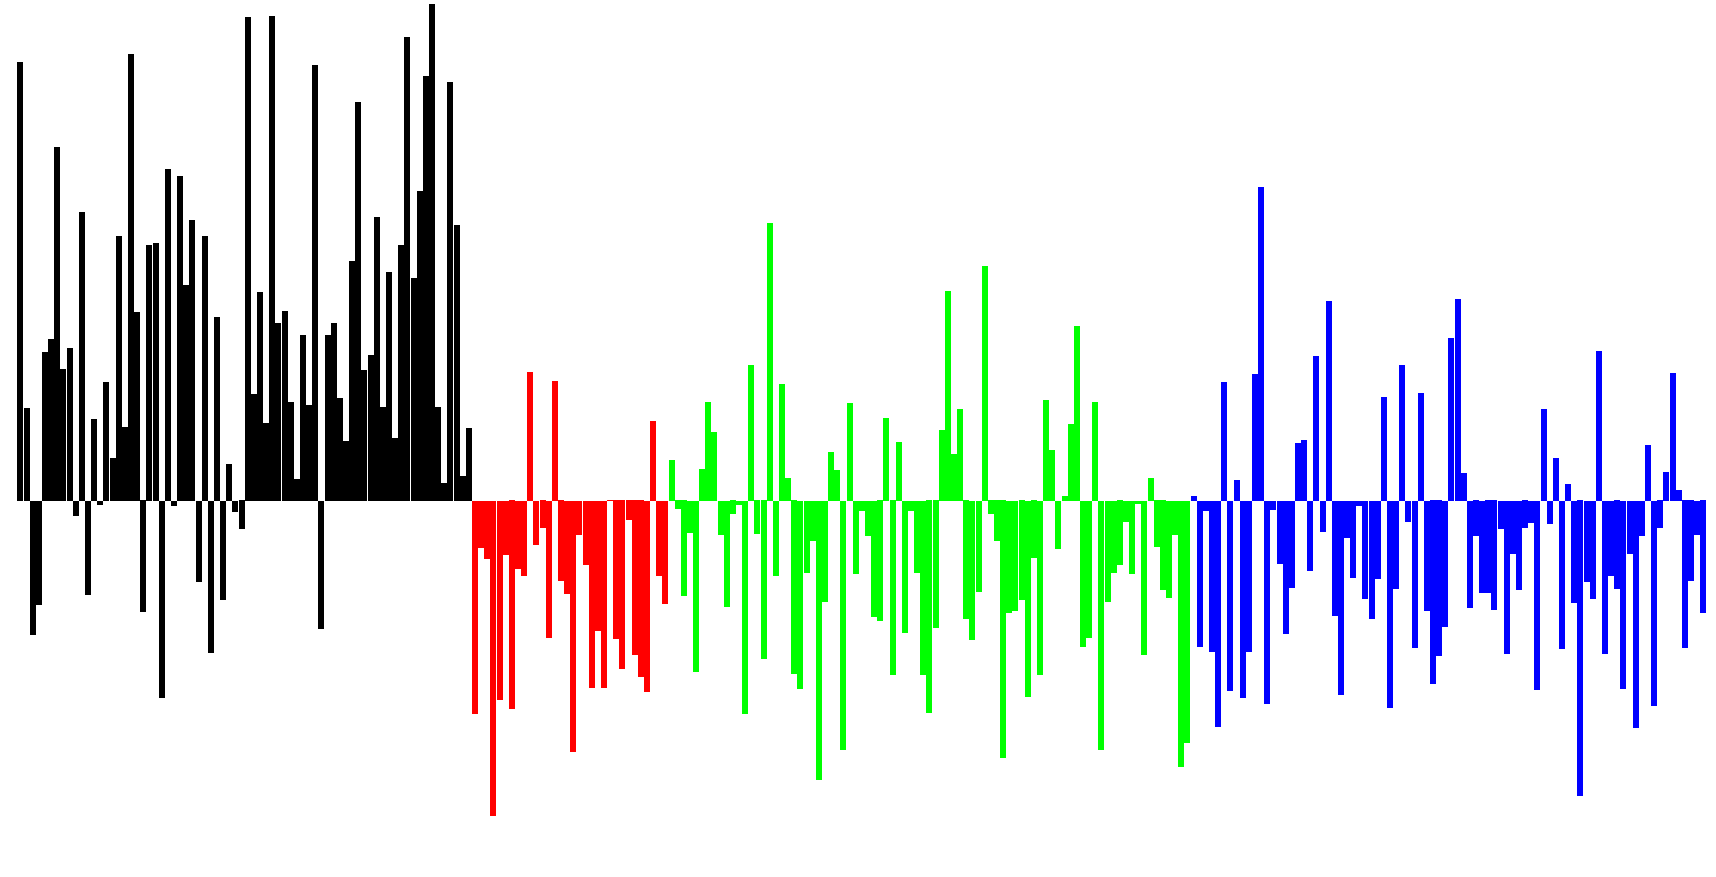

Expression of transmembrane signaling receptor activity in Spot F

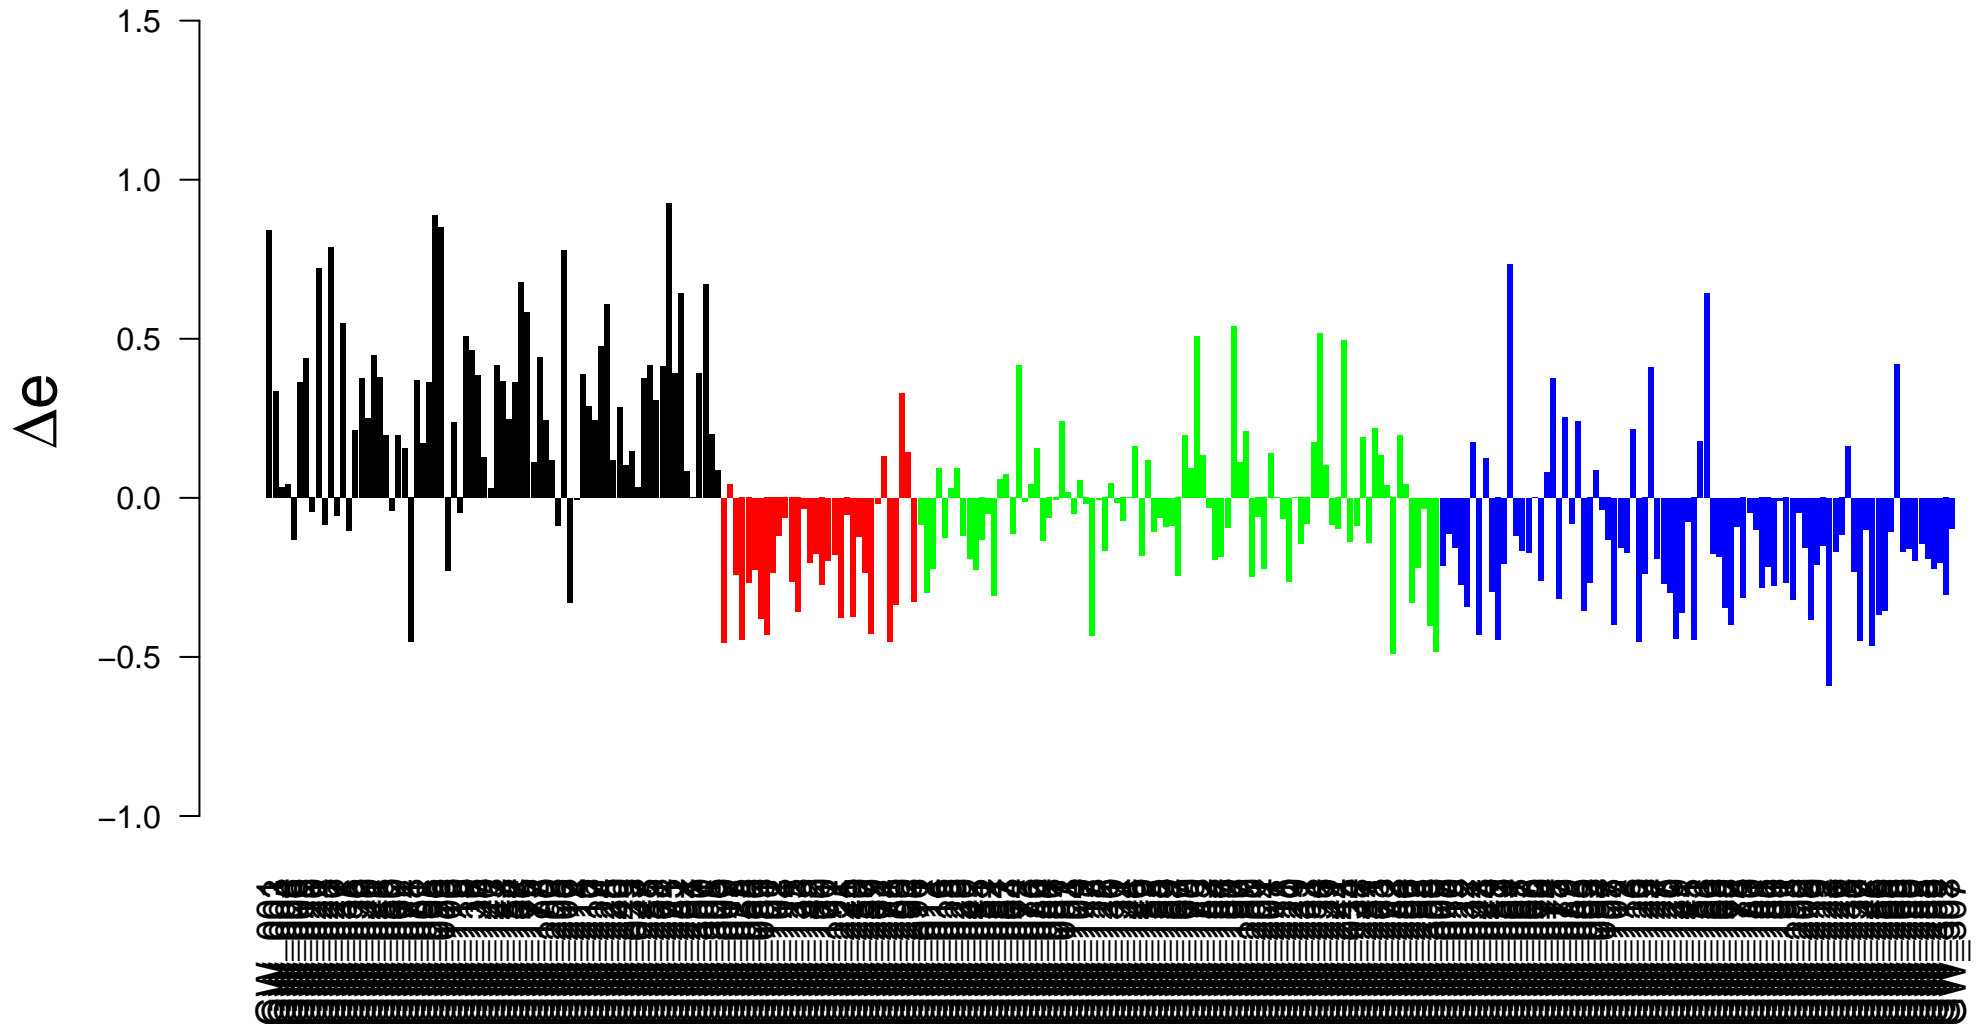

Expression of transmembrane signaling receptor activity in Spot G

Δe

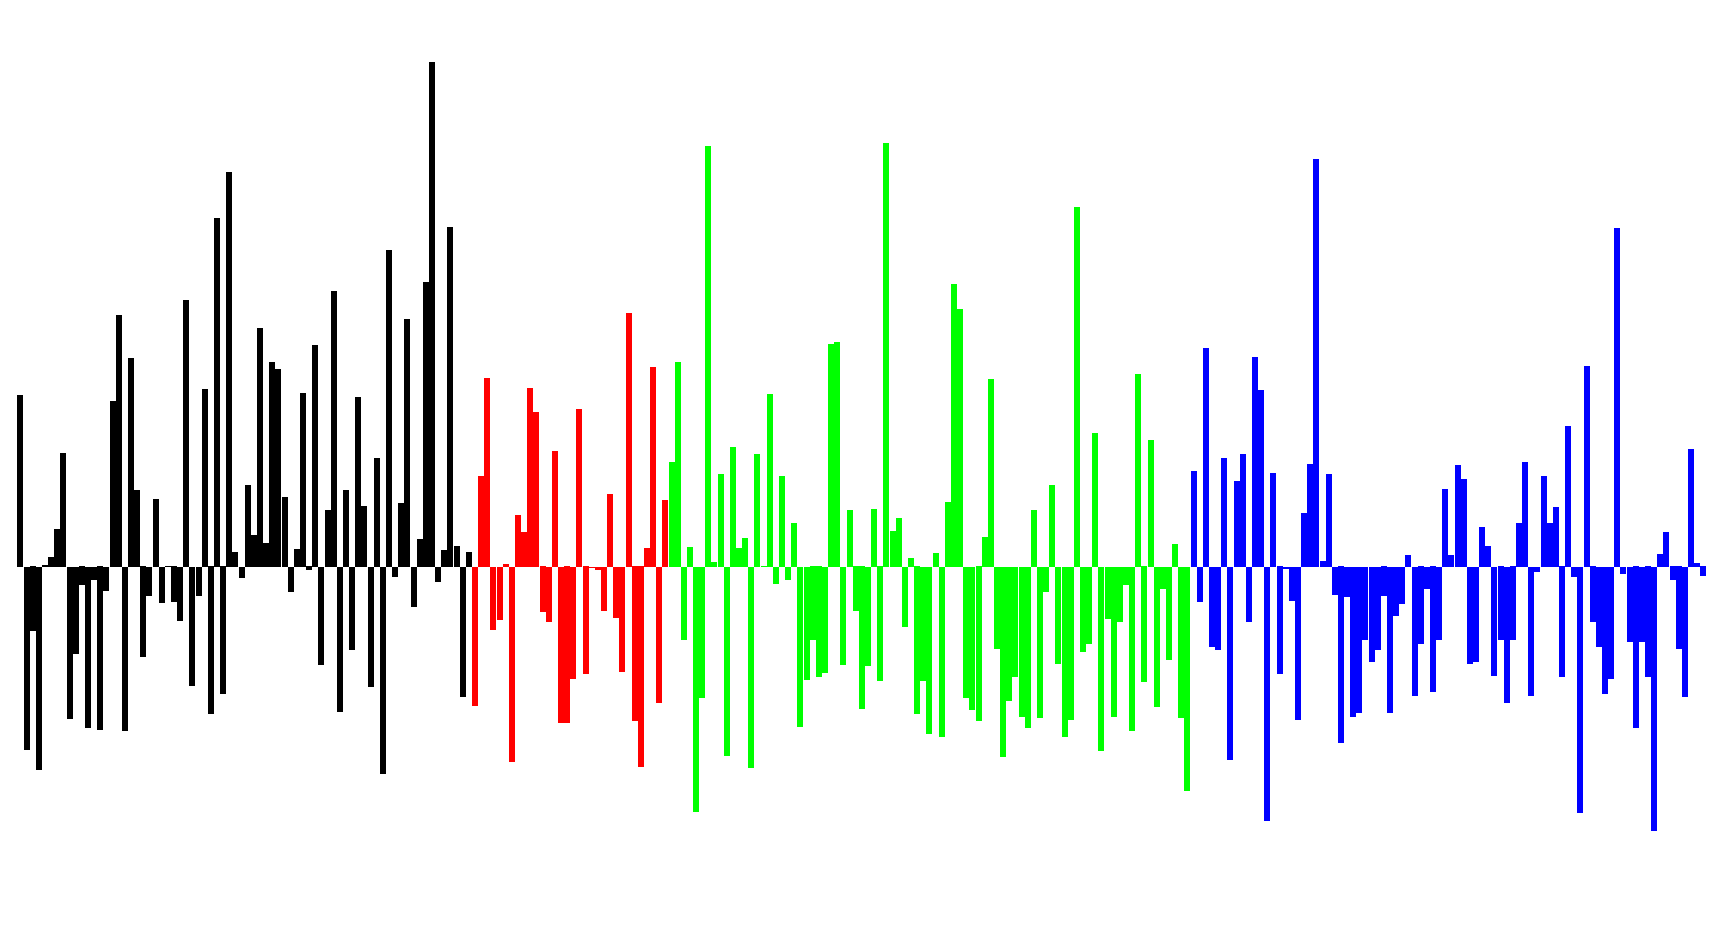

Expression of transmembrane signaling receptor activity in Spot H

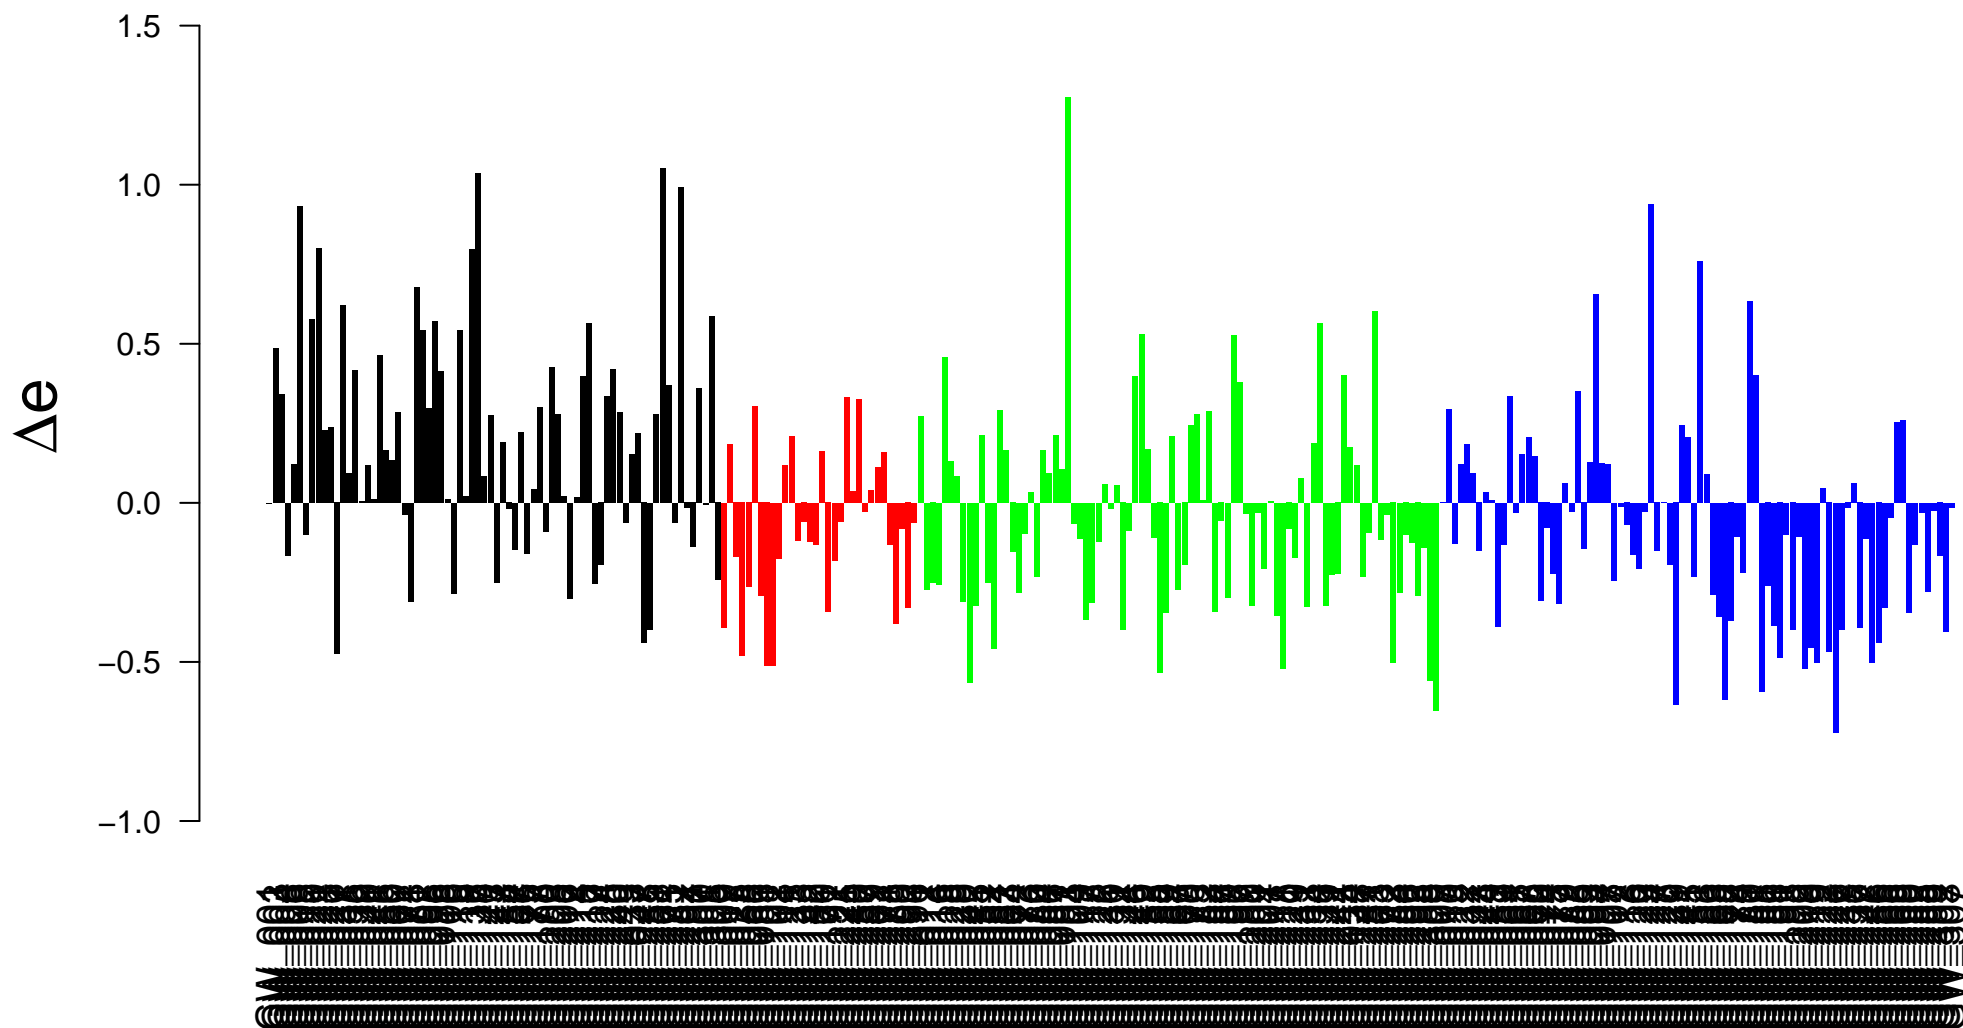

Expression of transmembrane signaling receptor activity in Spot I

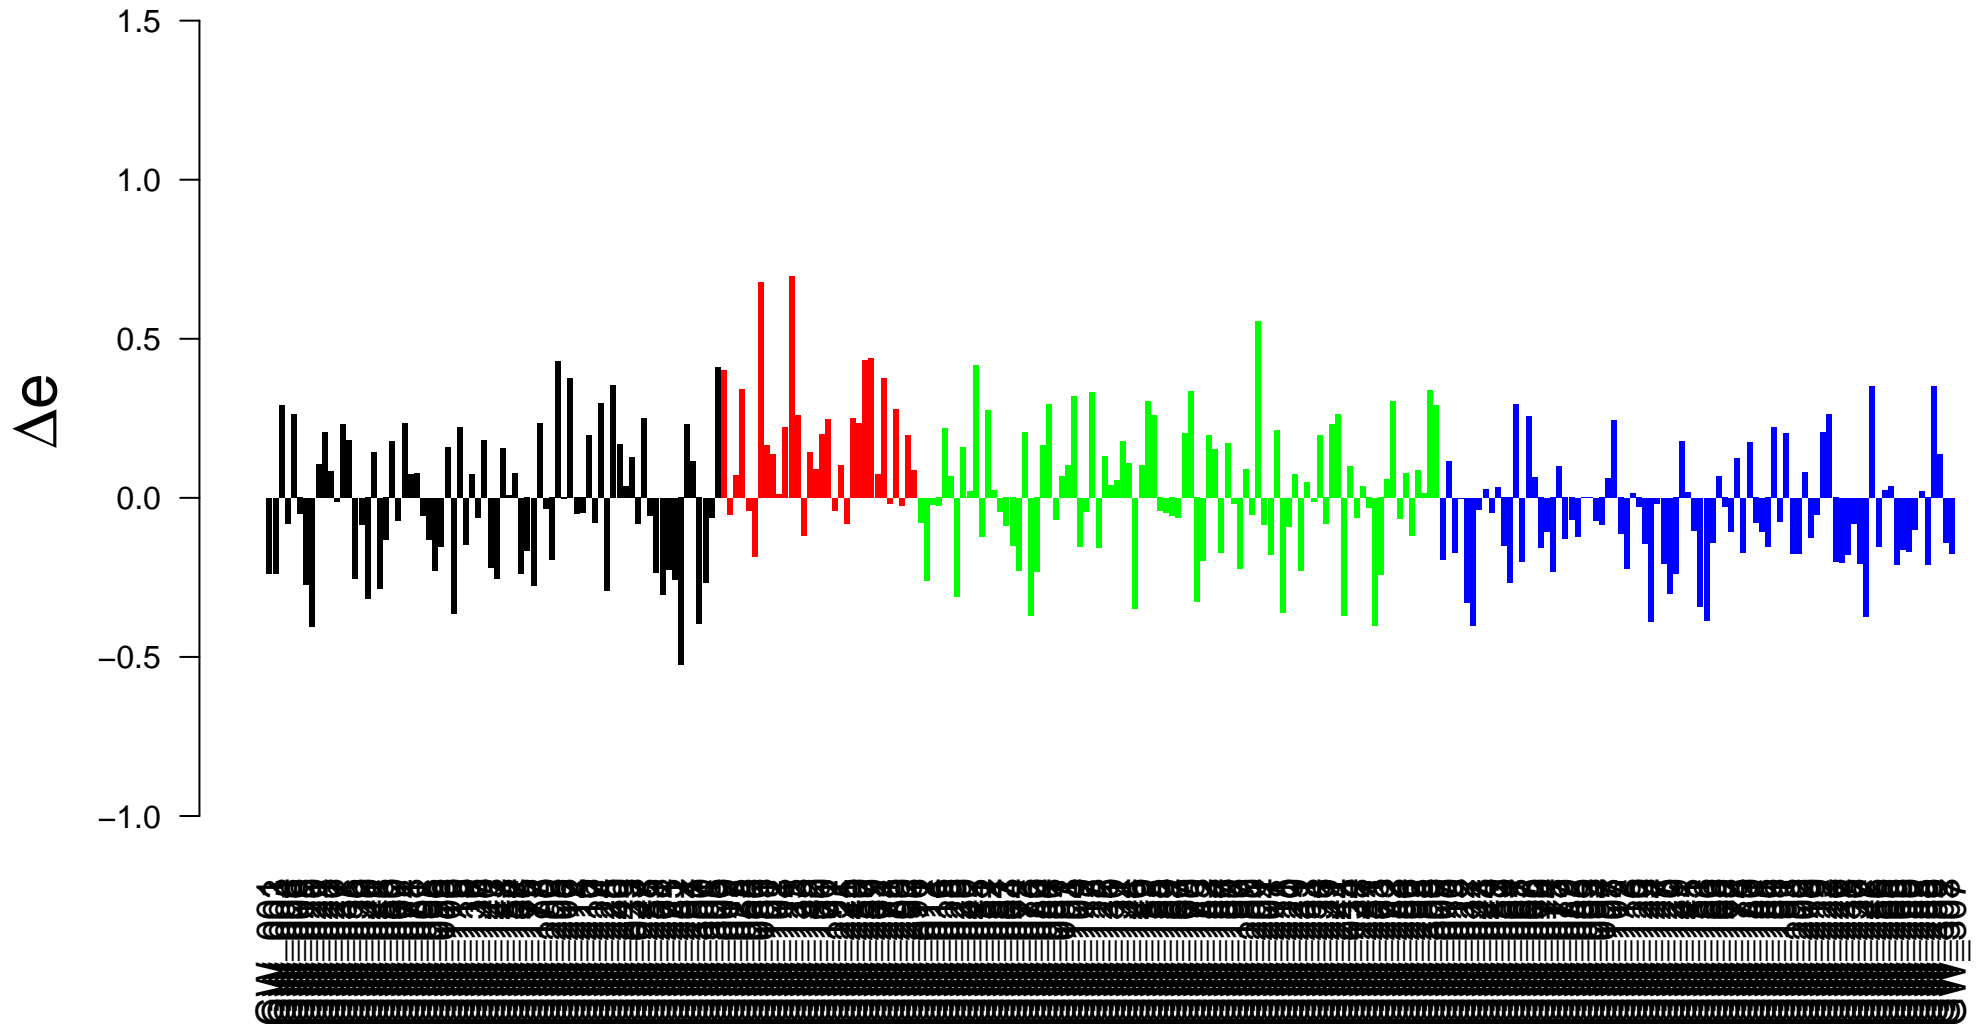

Δe

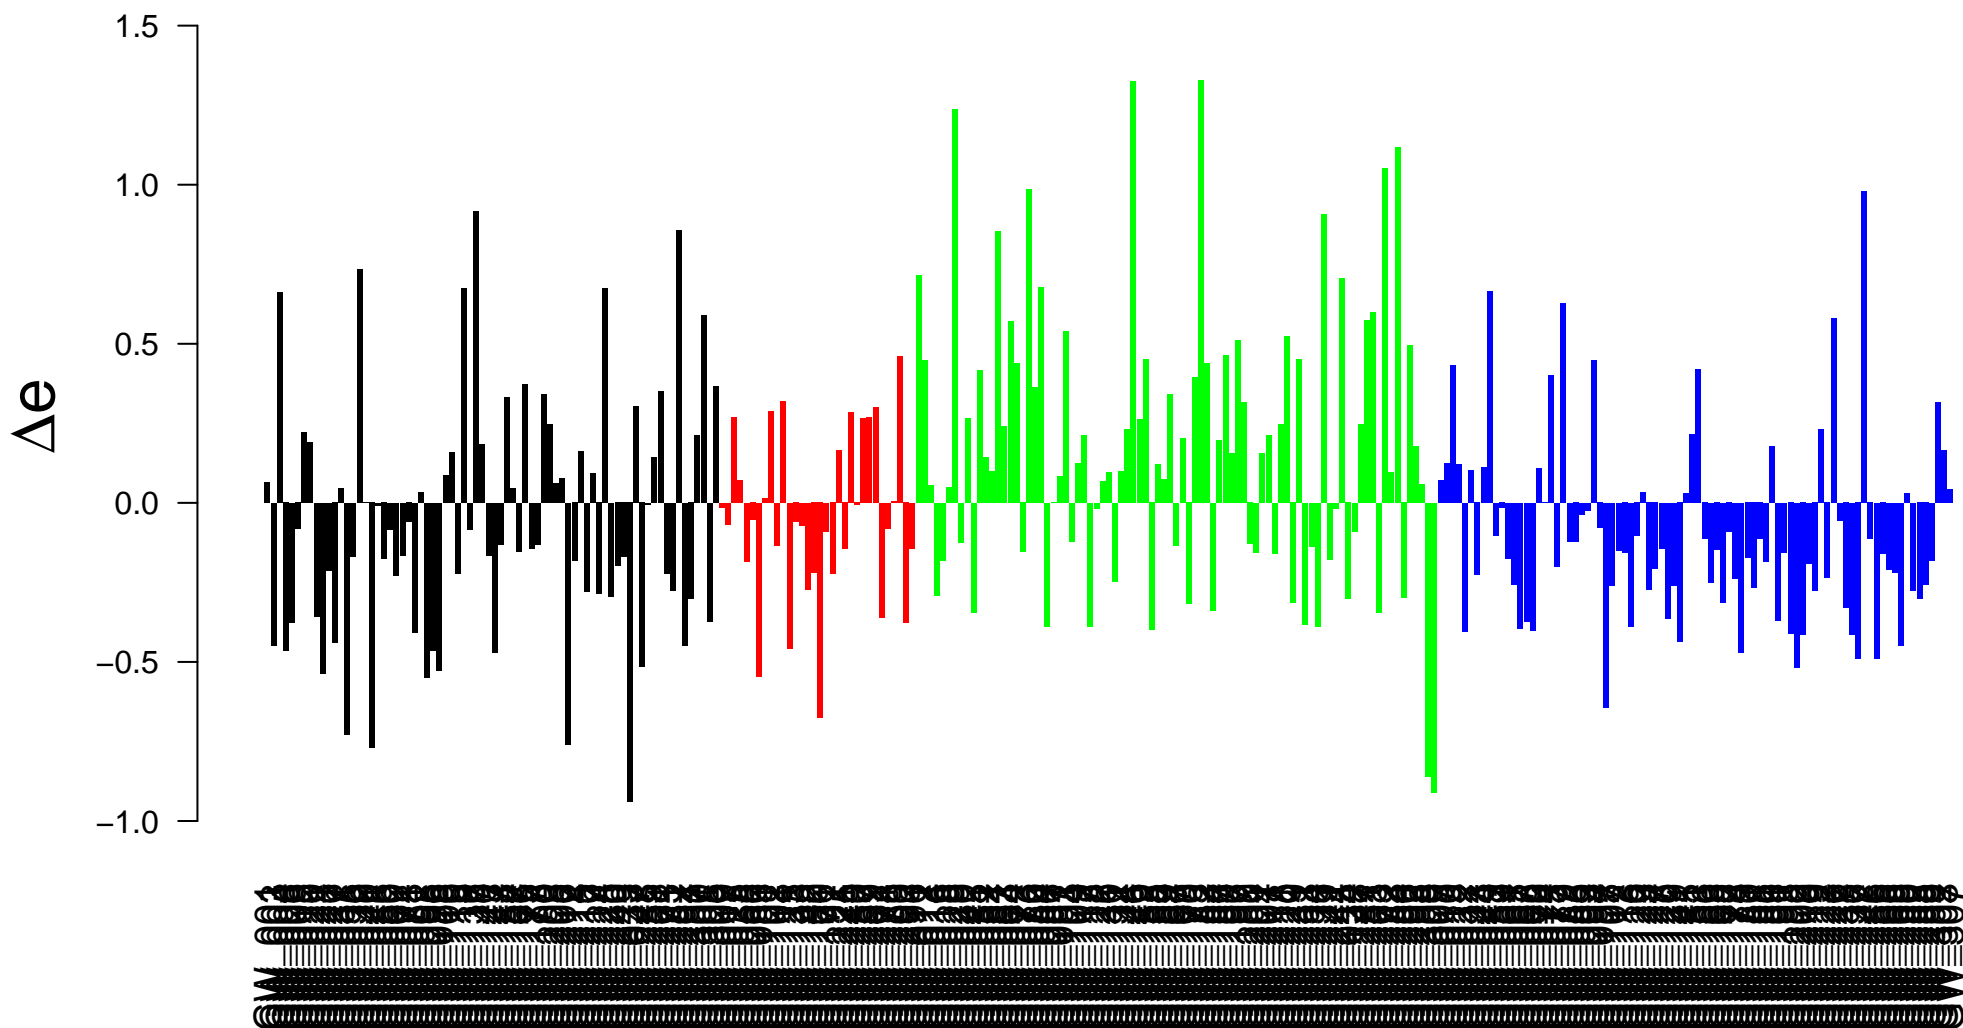

Expression of transmembrane signaling receptor activity in Spot J

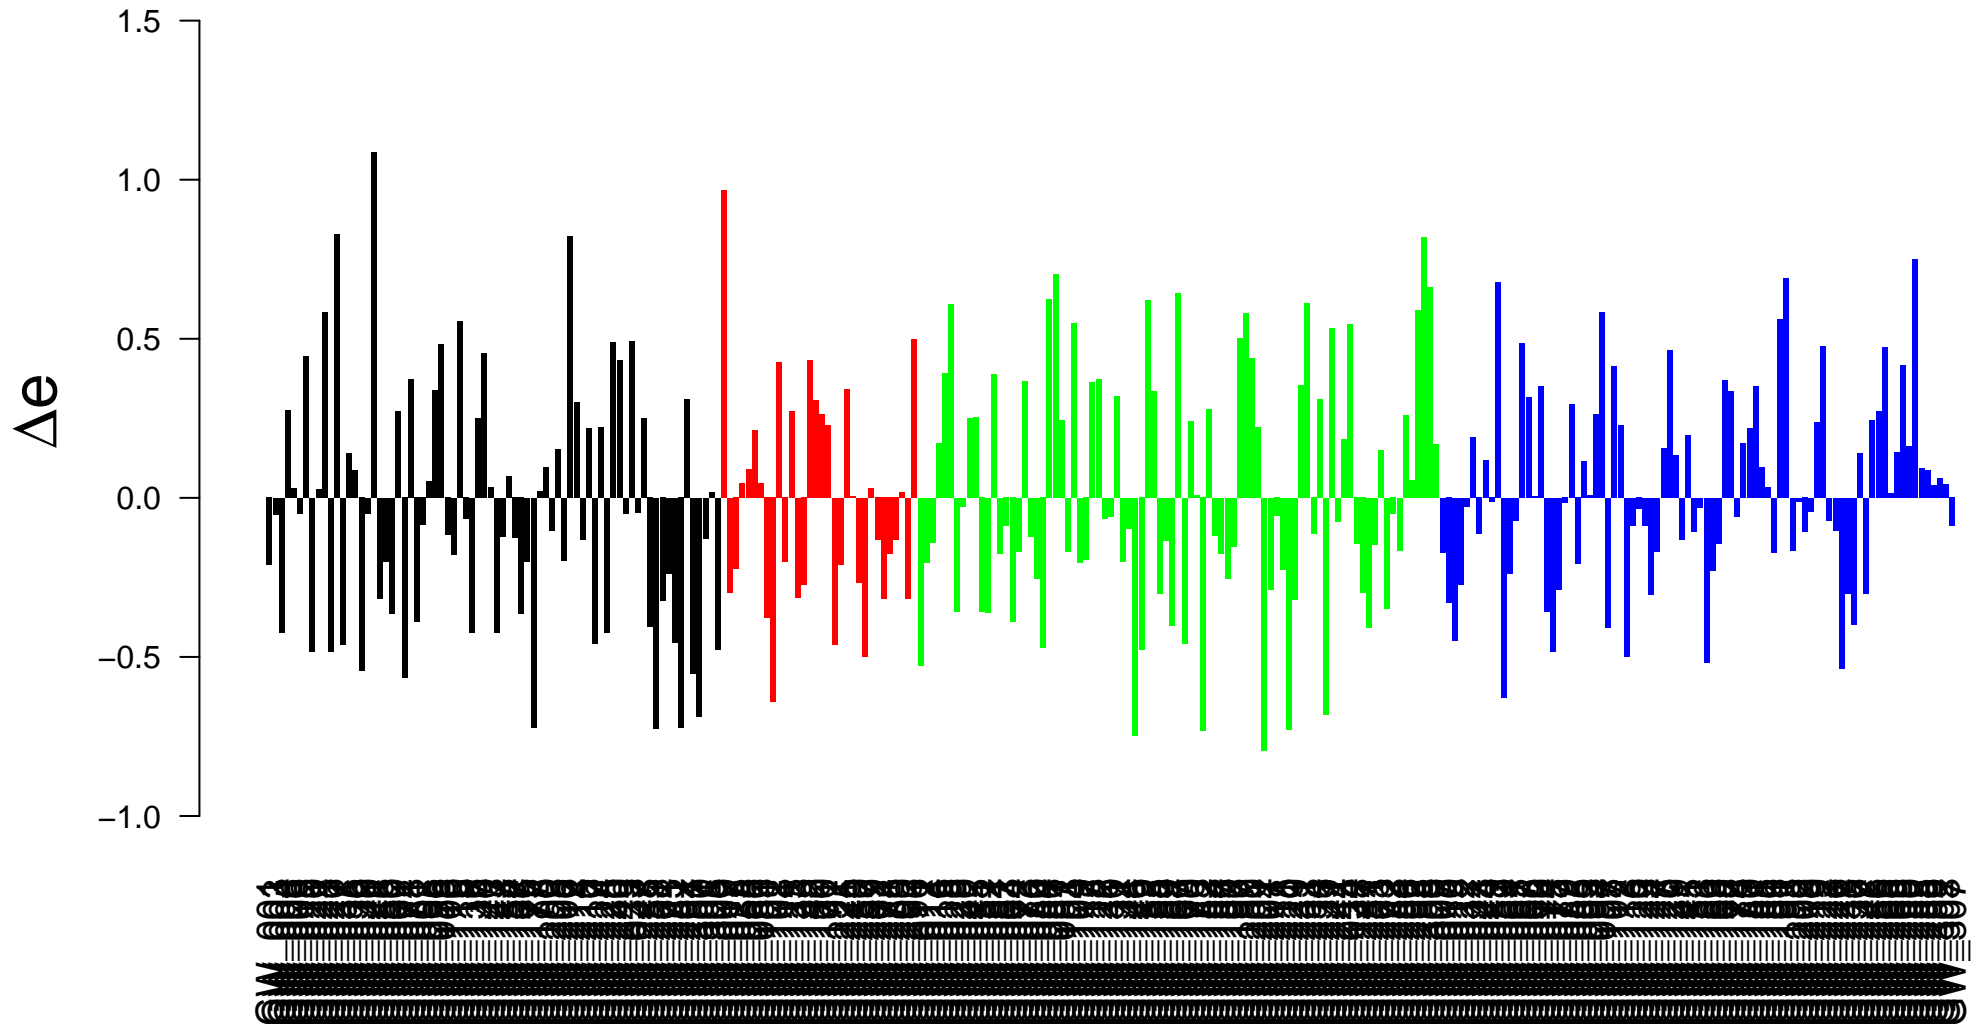

Expression of transmembrane signaling receptor activity in Spot K

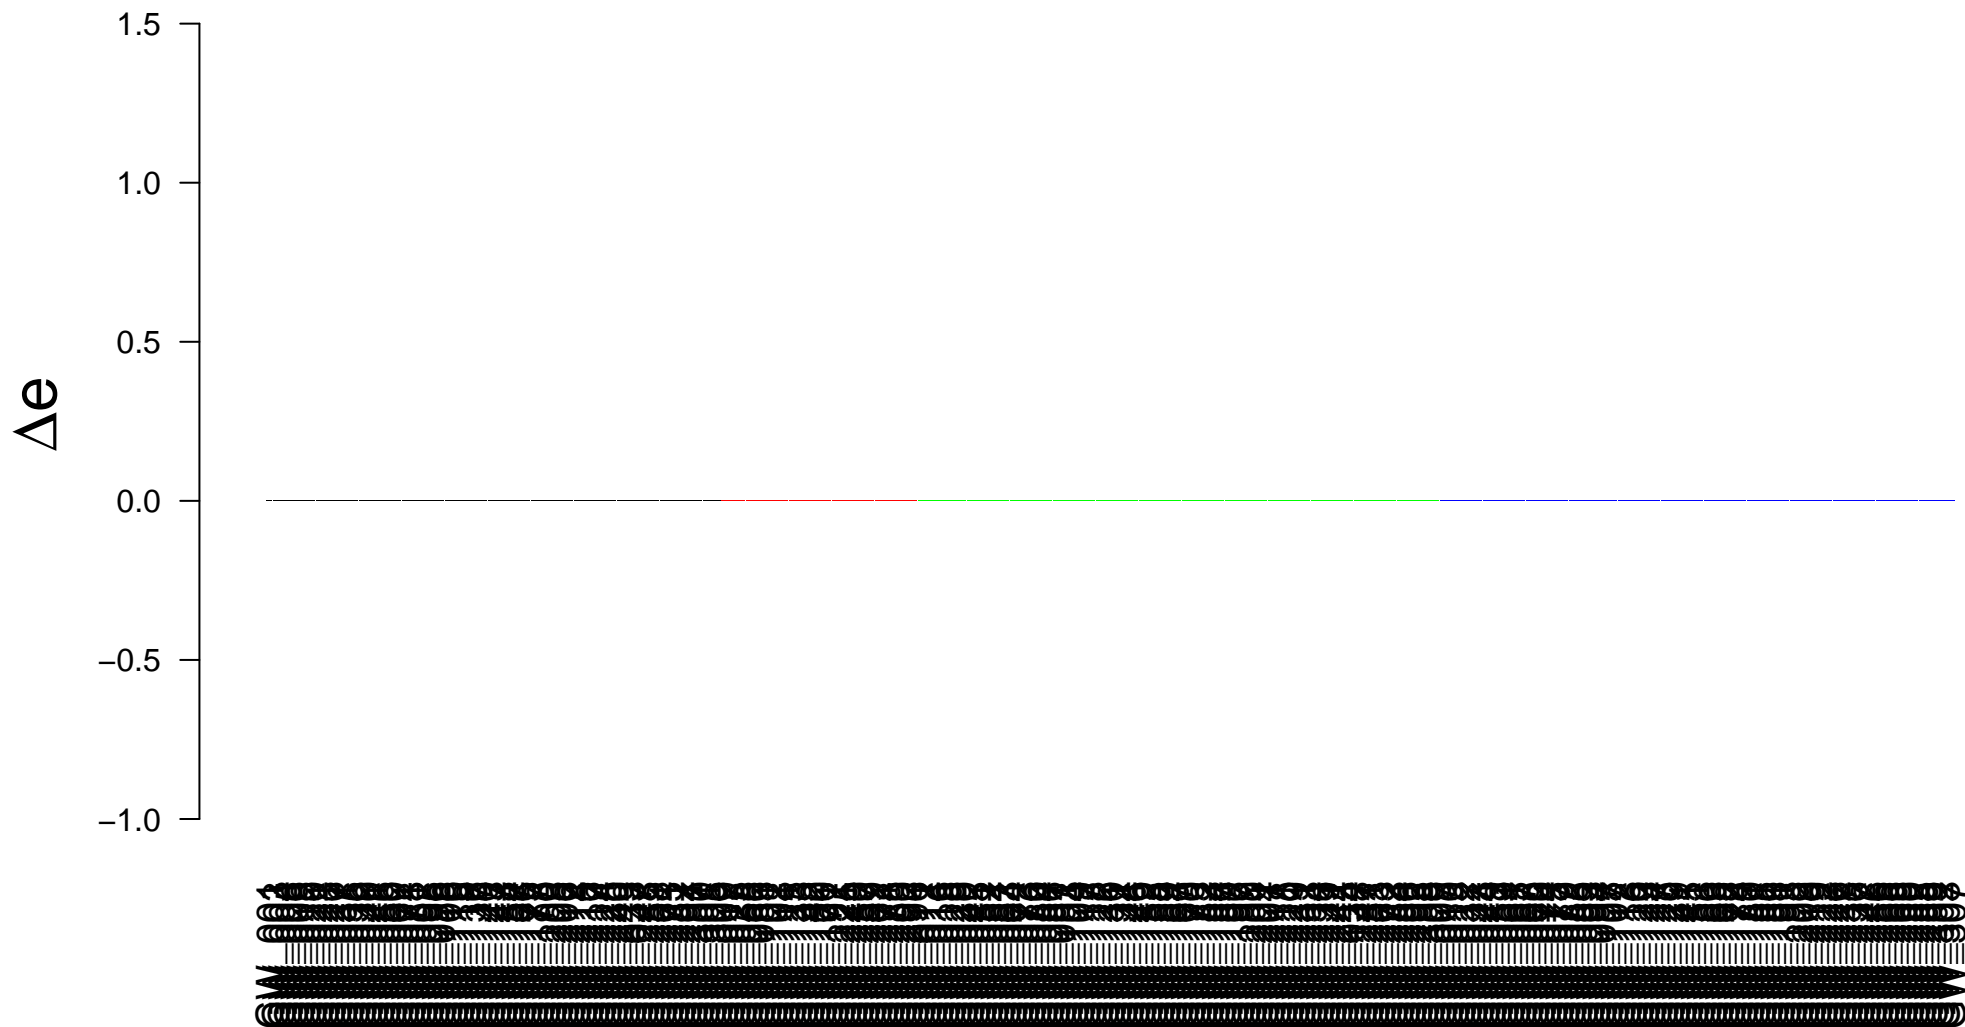

Expression of transmembrane signaling receptor activity in Spot L

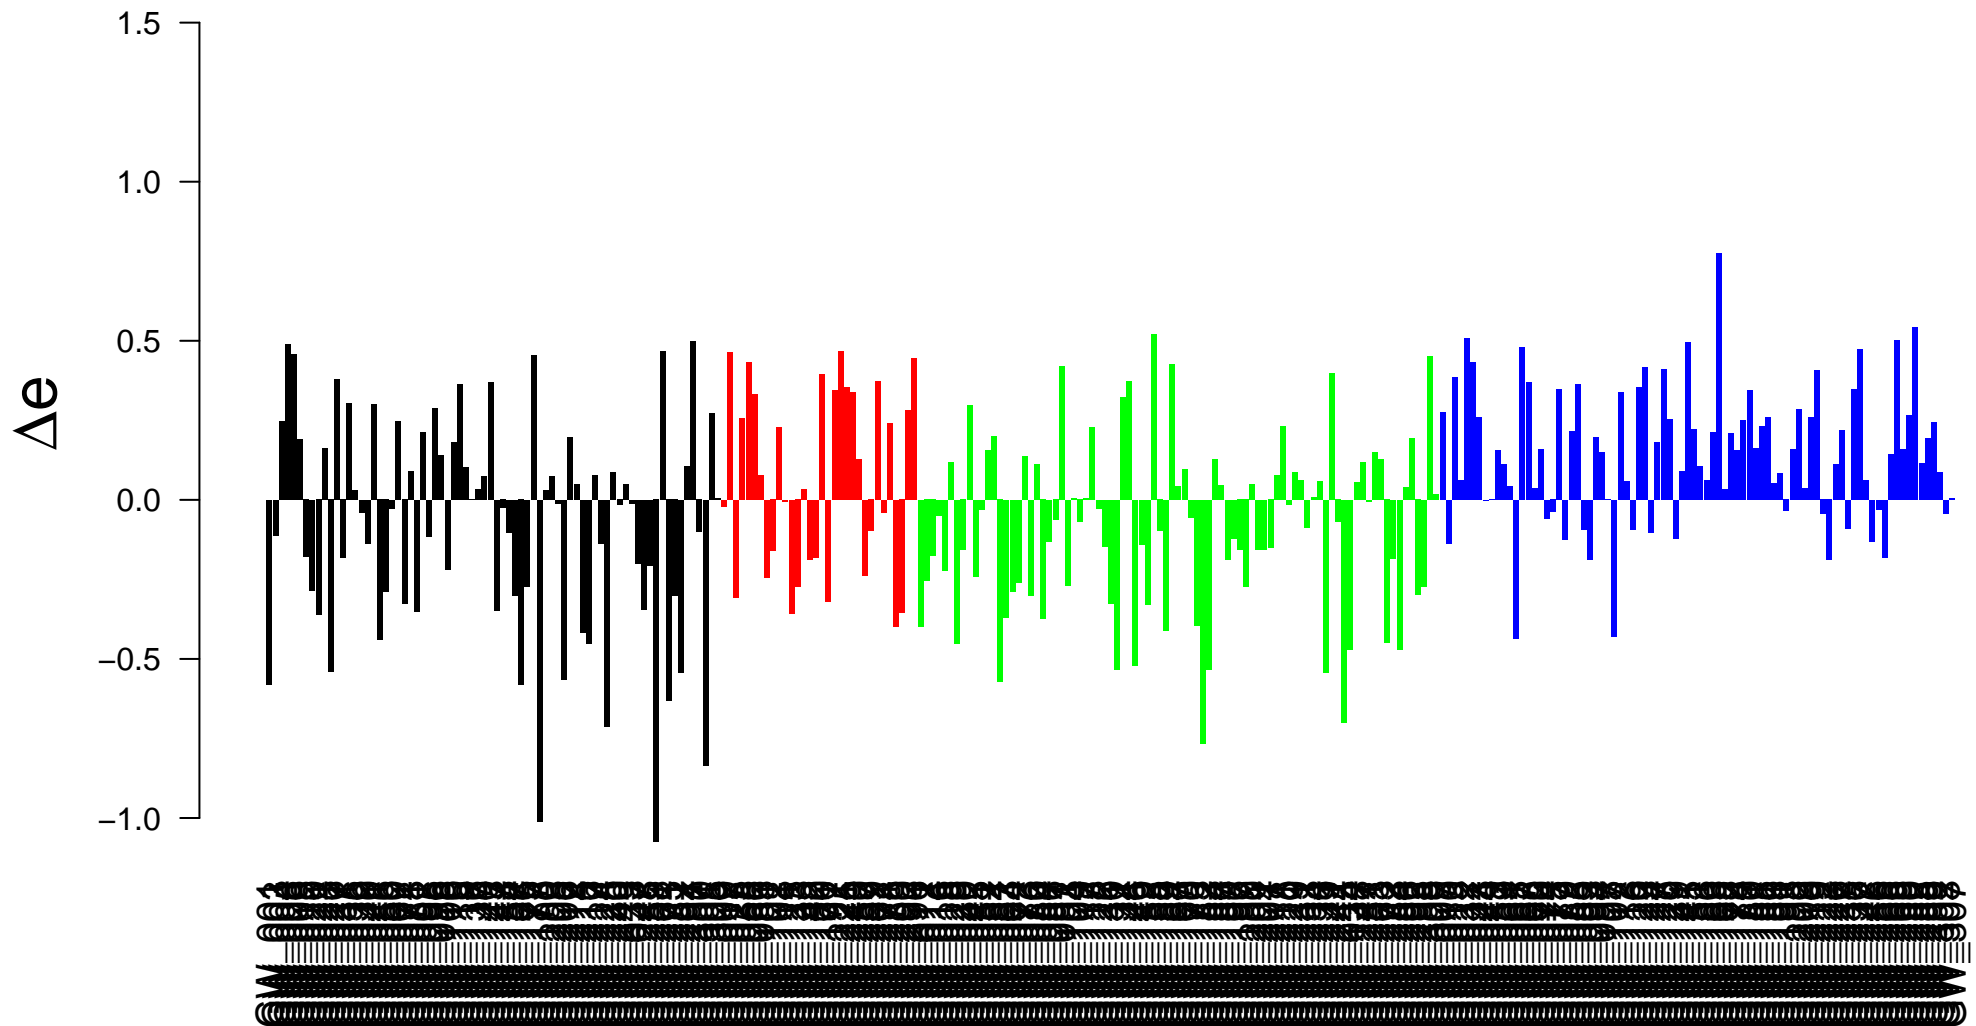

Expression of transmembrane signaling receptor activity in Spot M

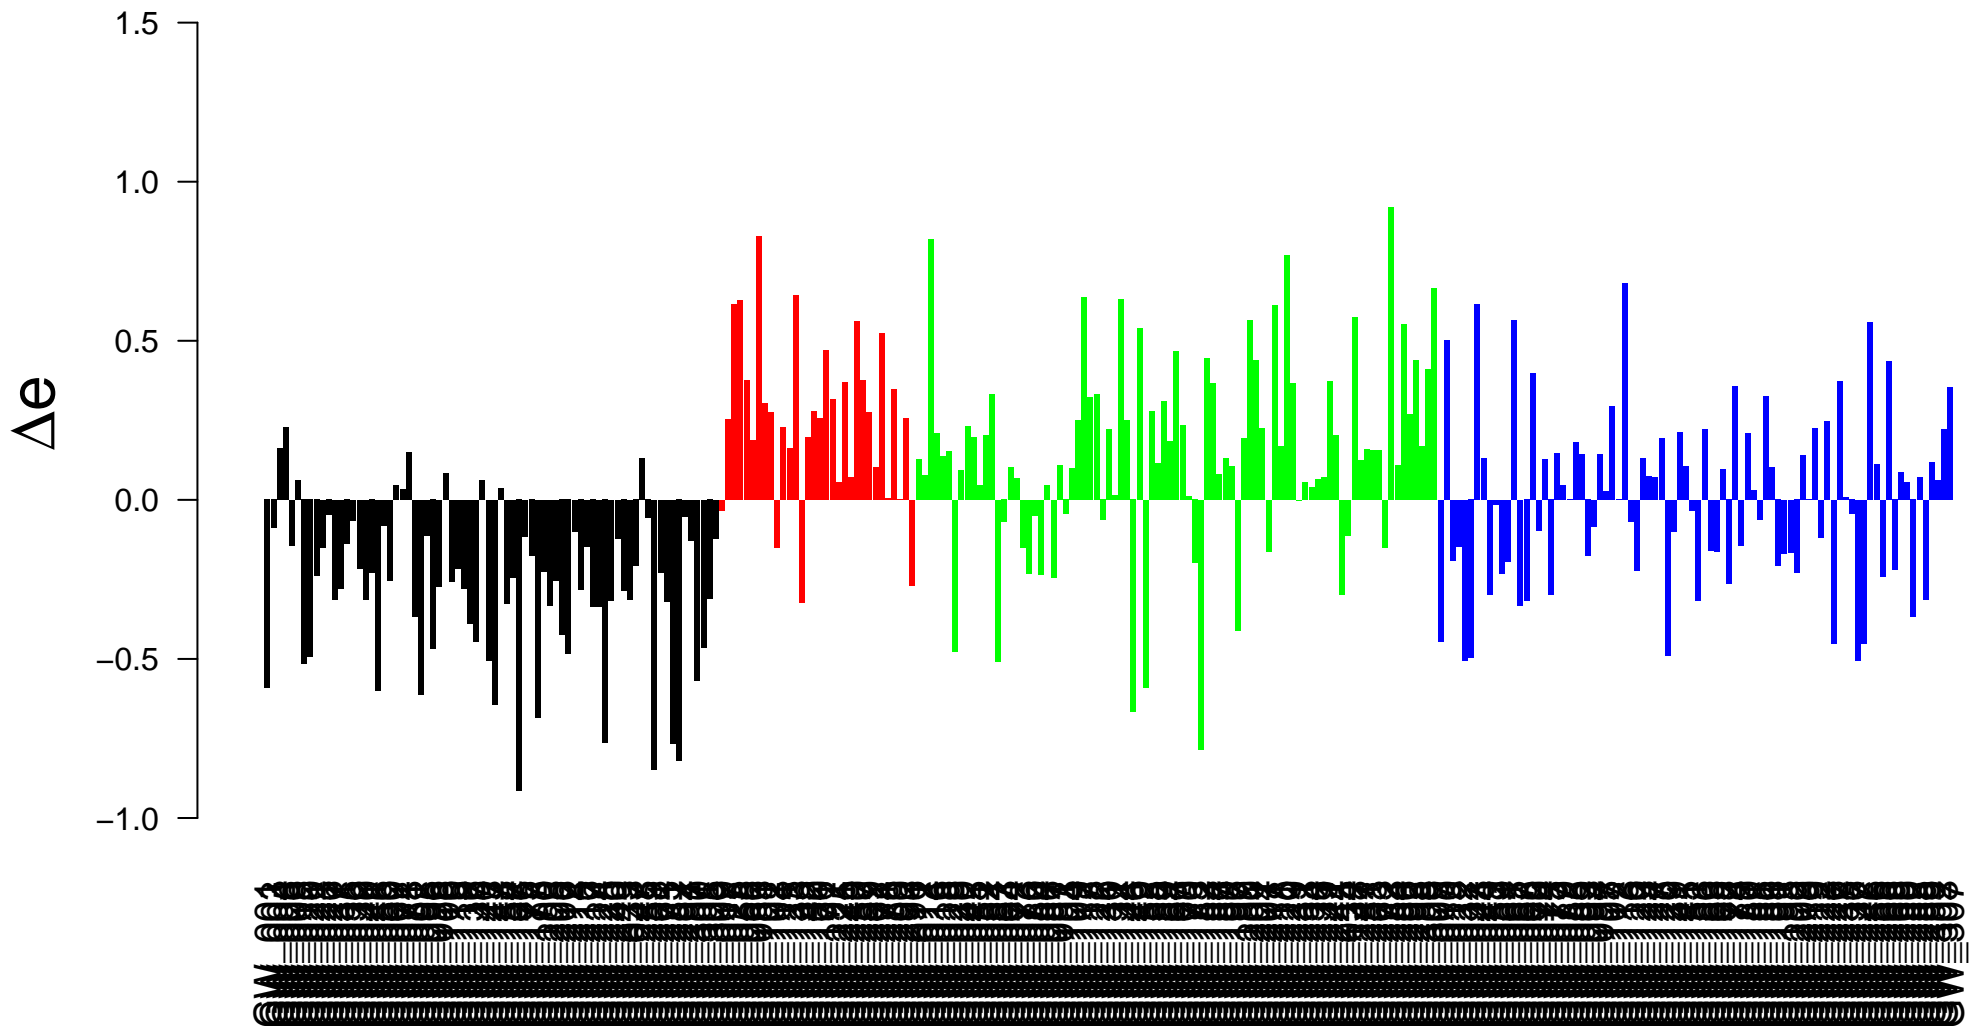

Expression of transmembrane signaling receptor activity in Spot N

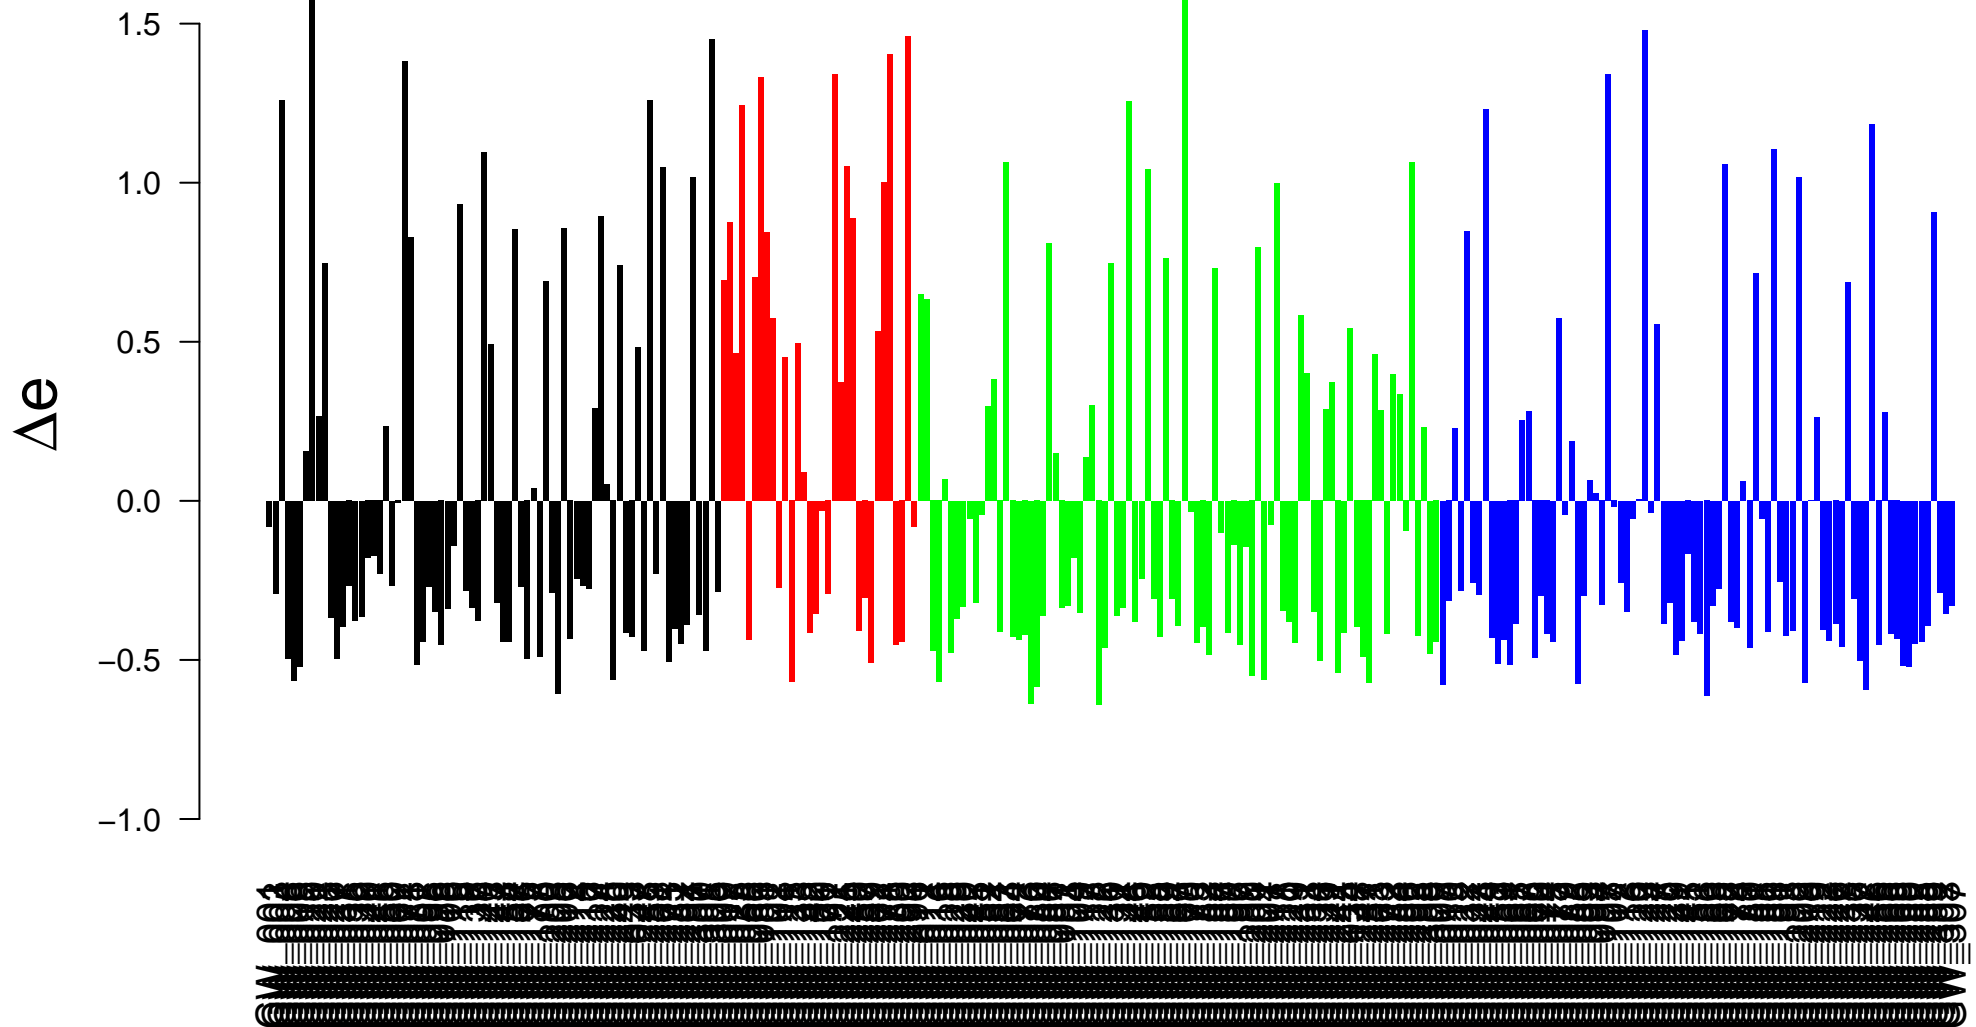

Expression of transmembrane signaling receptor activity in Spot O

Expression of transmembrane signaling receptor activity in Spot P

Expression of transmembrane signaling receptor activity in Spot Q

Expression of transmembrane signaling receptor activity in Spot R
