

type I interferon signaling pathway

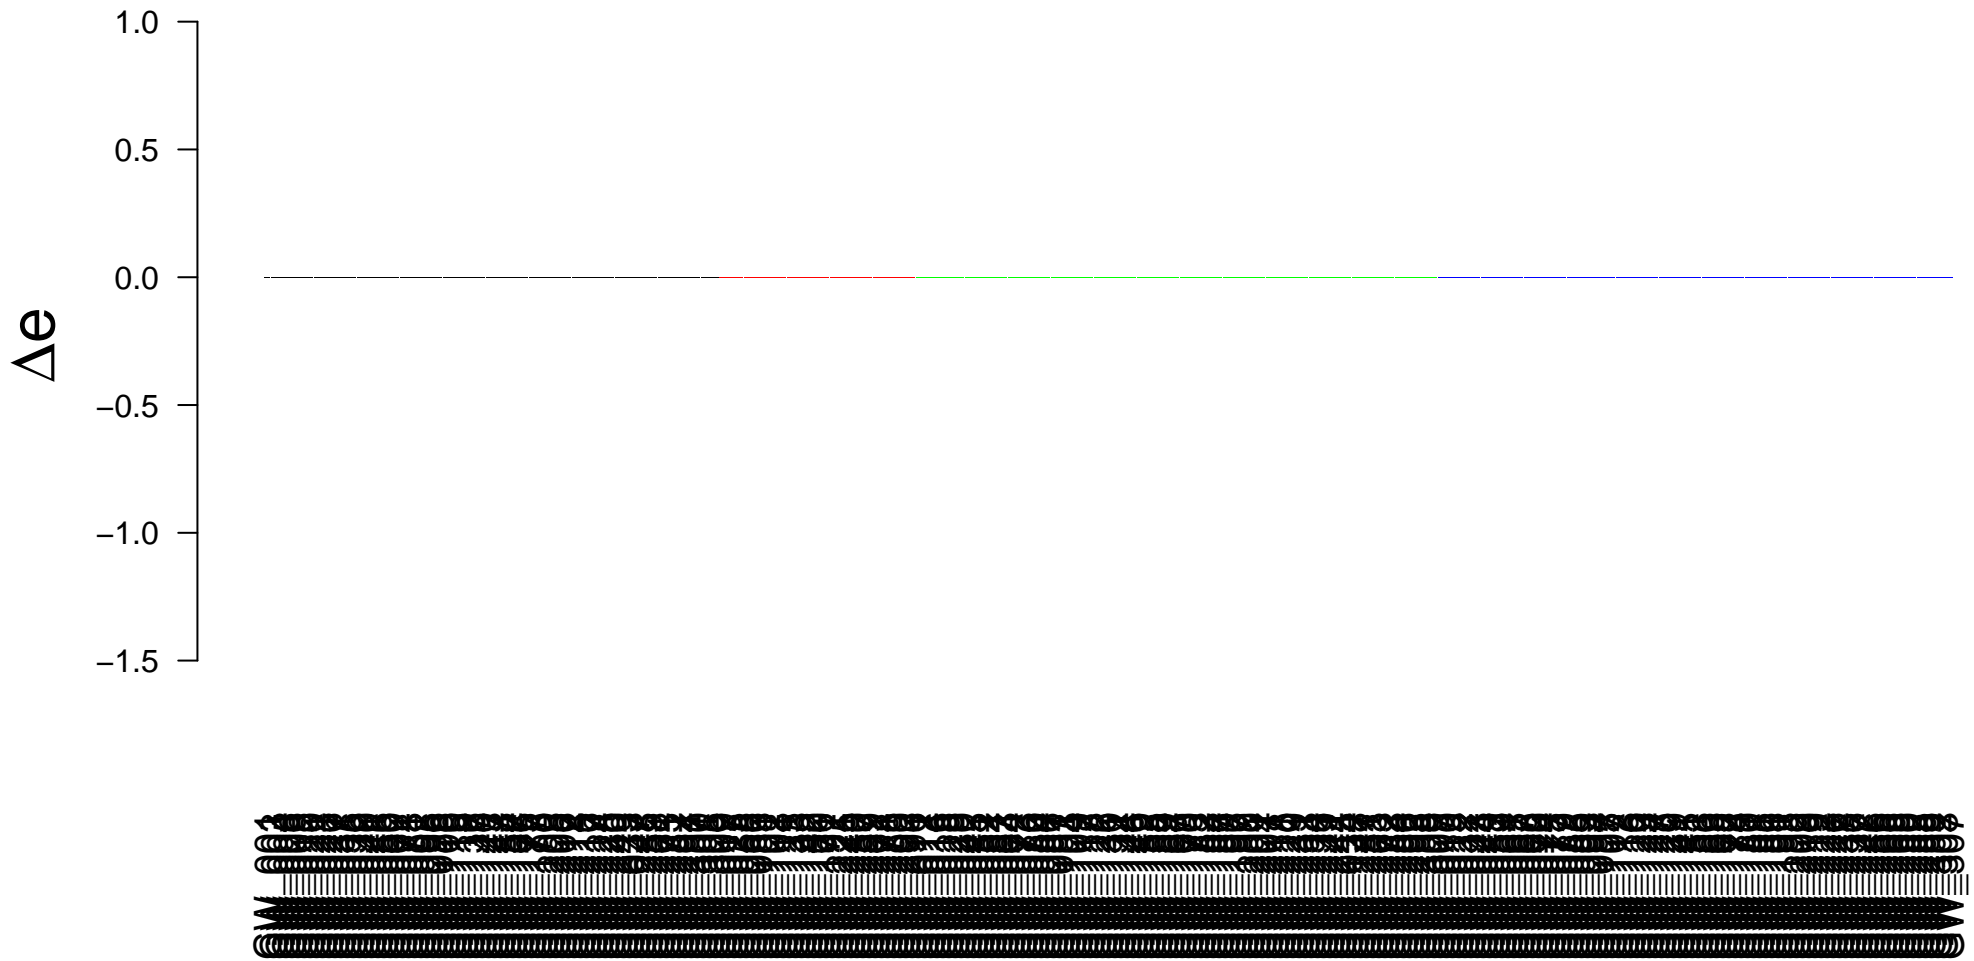

type I interferon signaling pathway

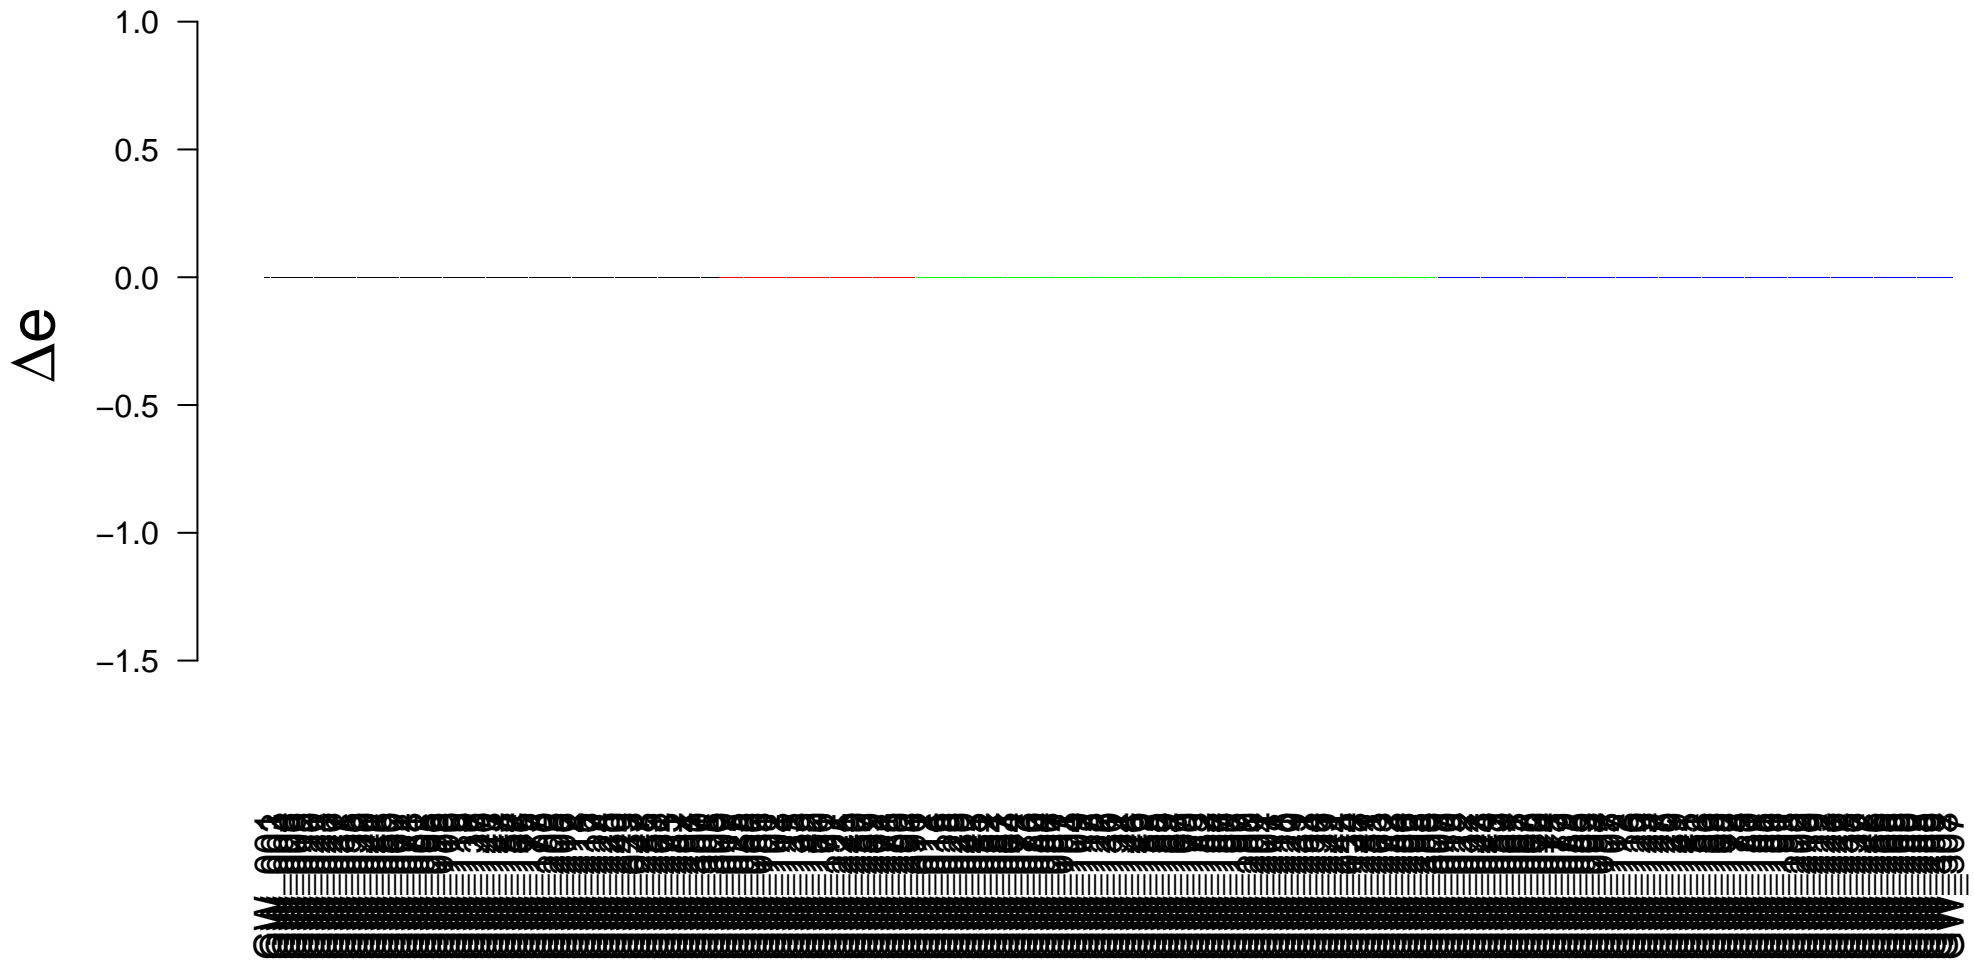

Enrichment in spots: type I interferon signaling pathway

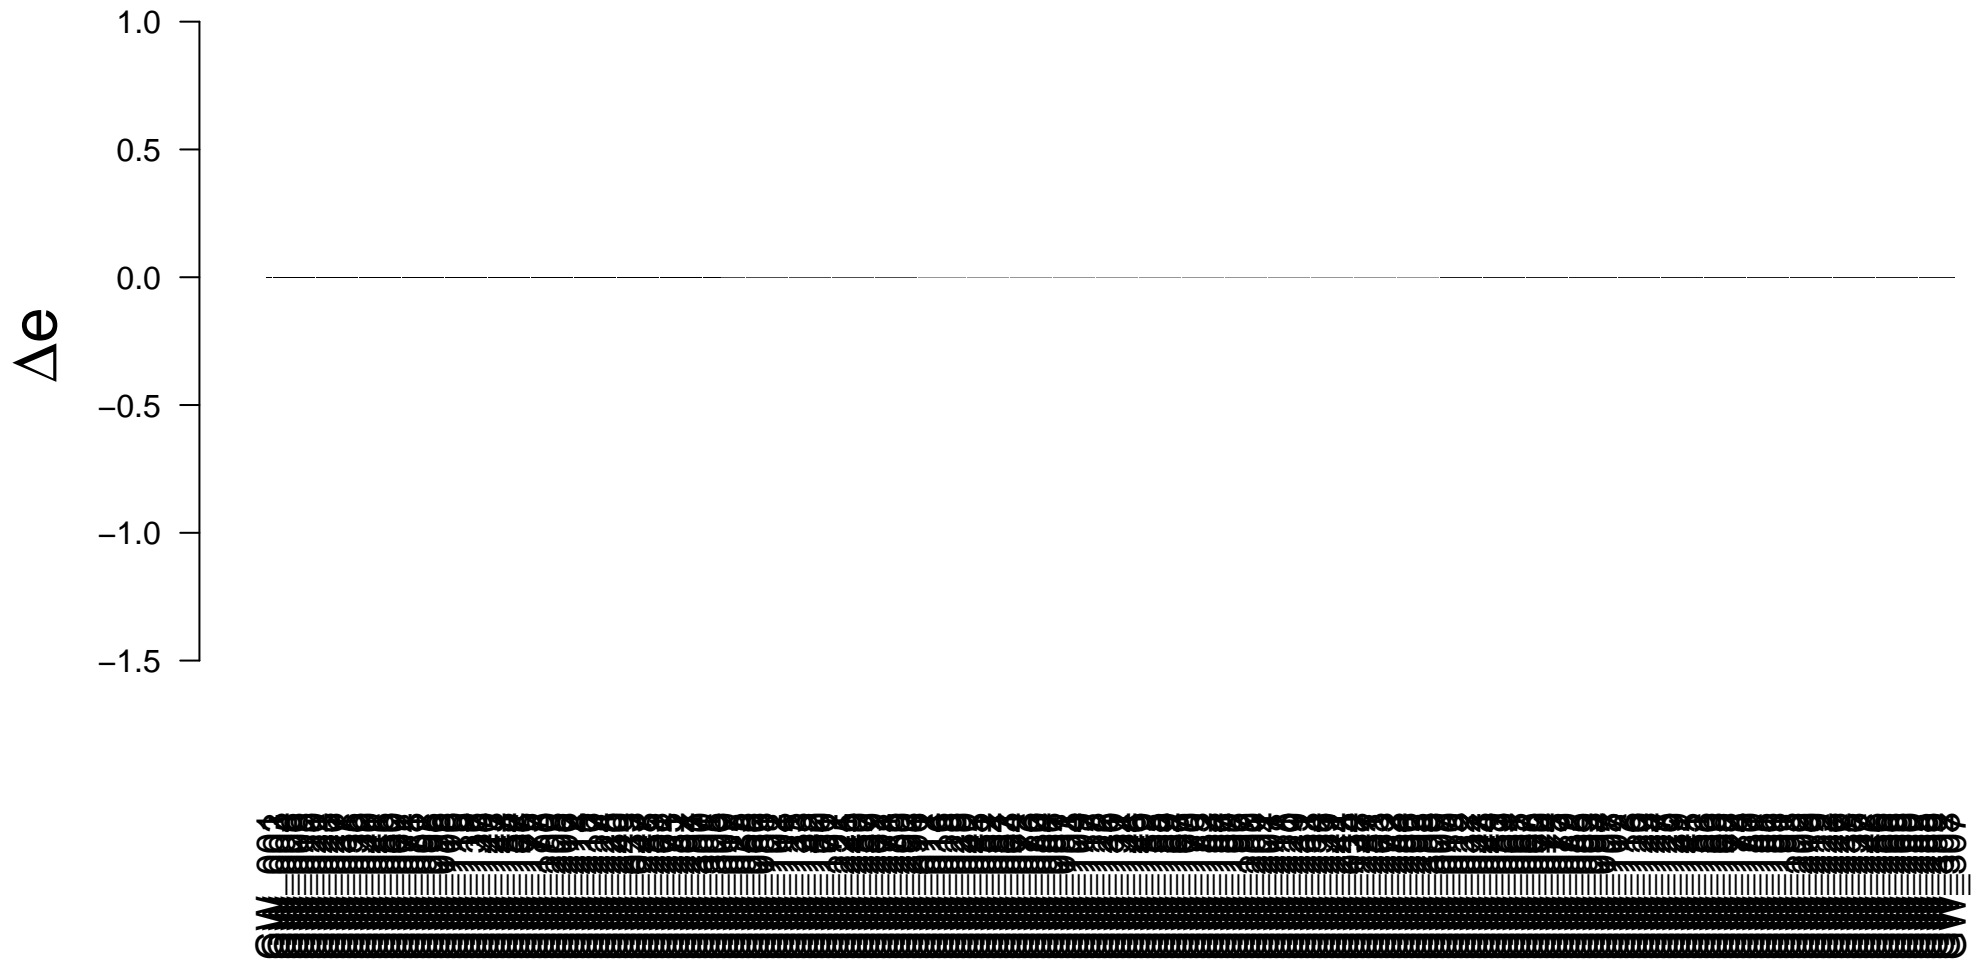

Expression of type I interferon signaling pathway in Spot A

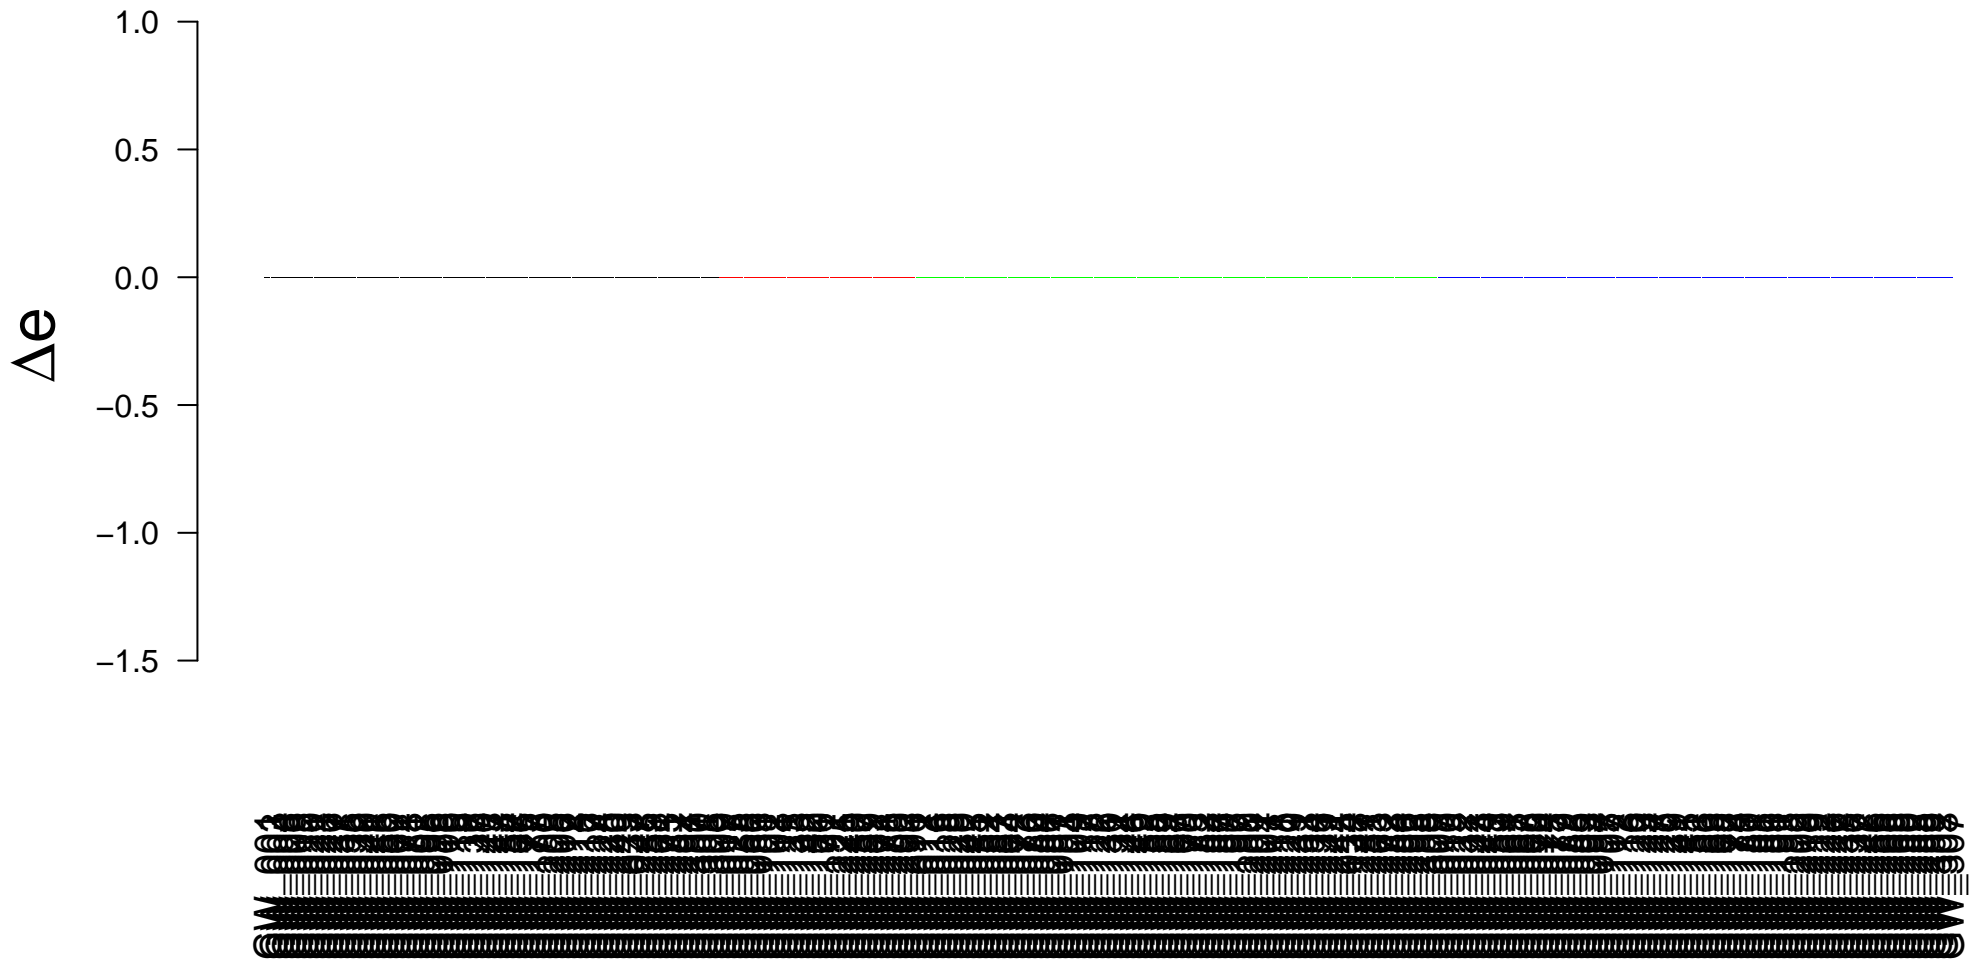

Expression of type I interferon signaling pathway in Spot B

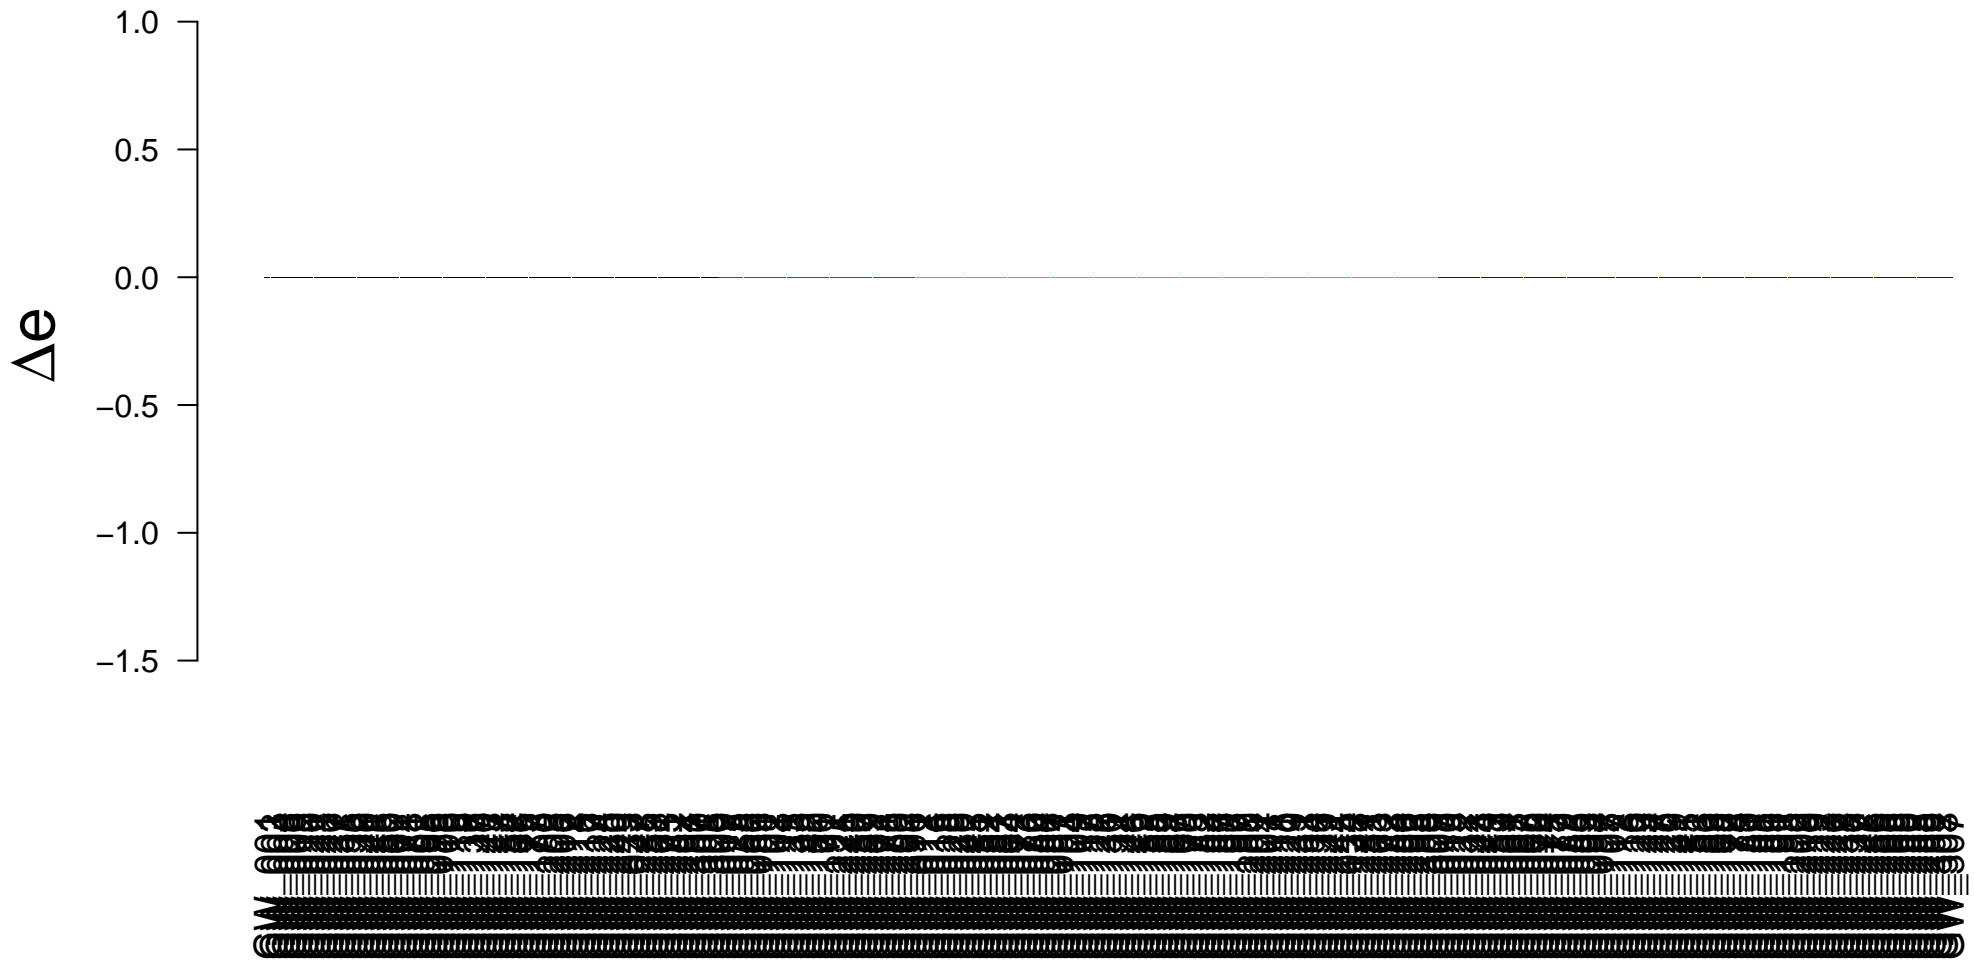

Expression of type I interferon signaling pathway in Spot C

Expression of type I interferon signaling pathway in Spot D

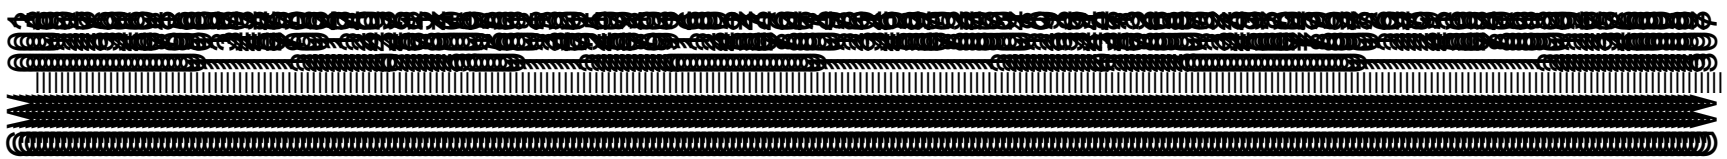

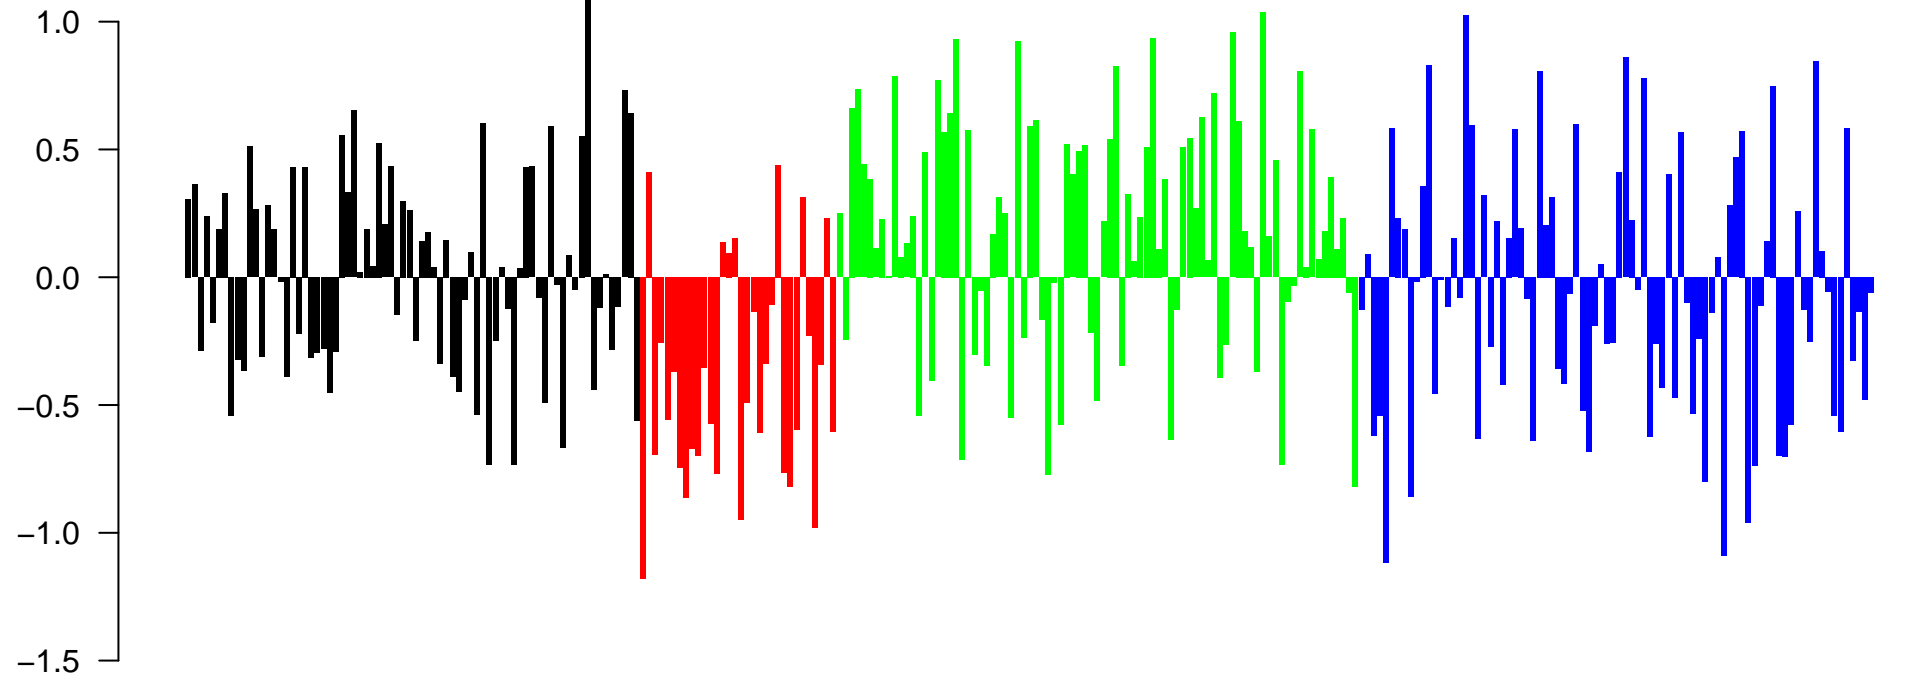

Expression of type I interferon signaling pathway in Spot E

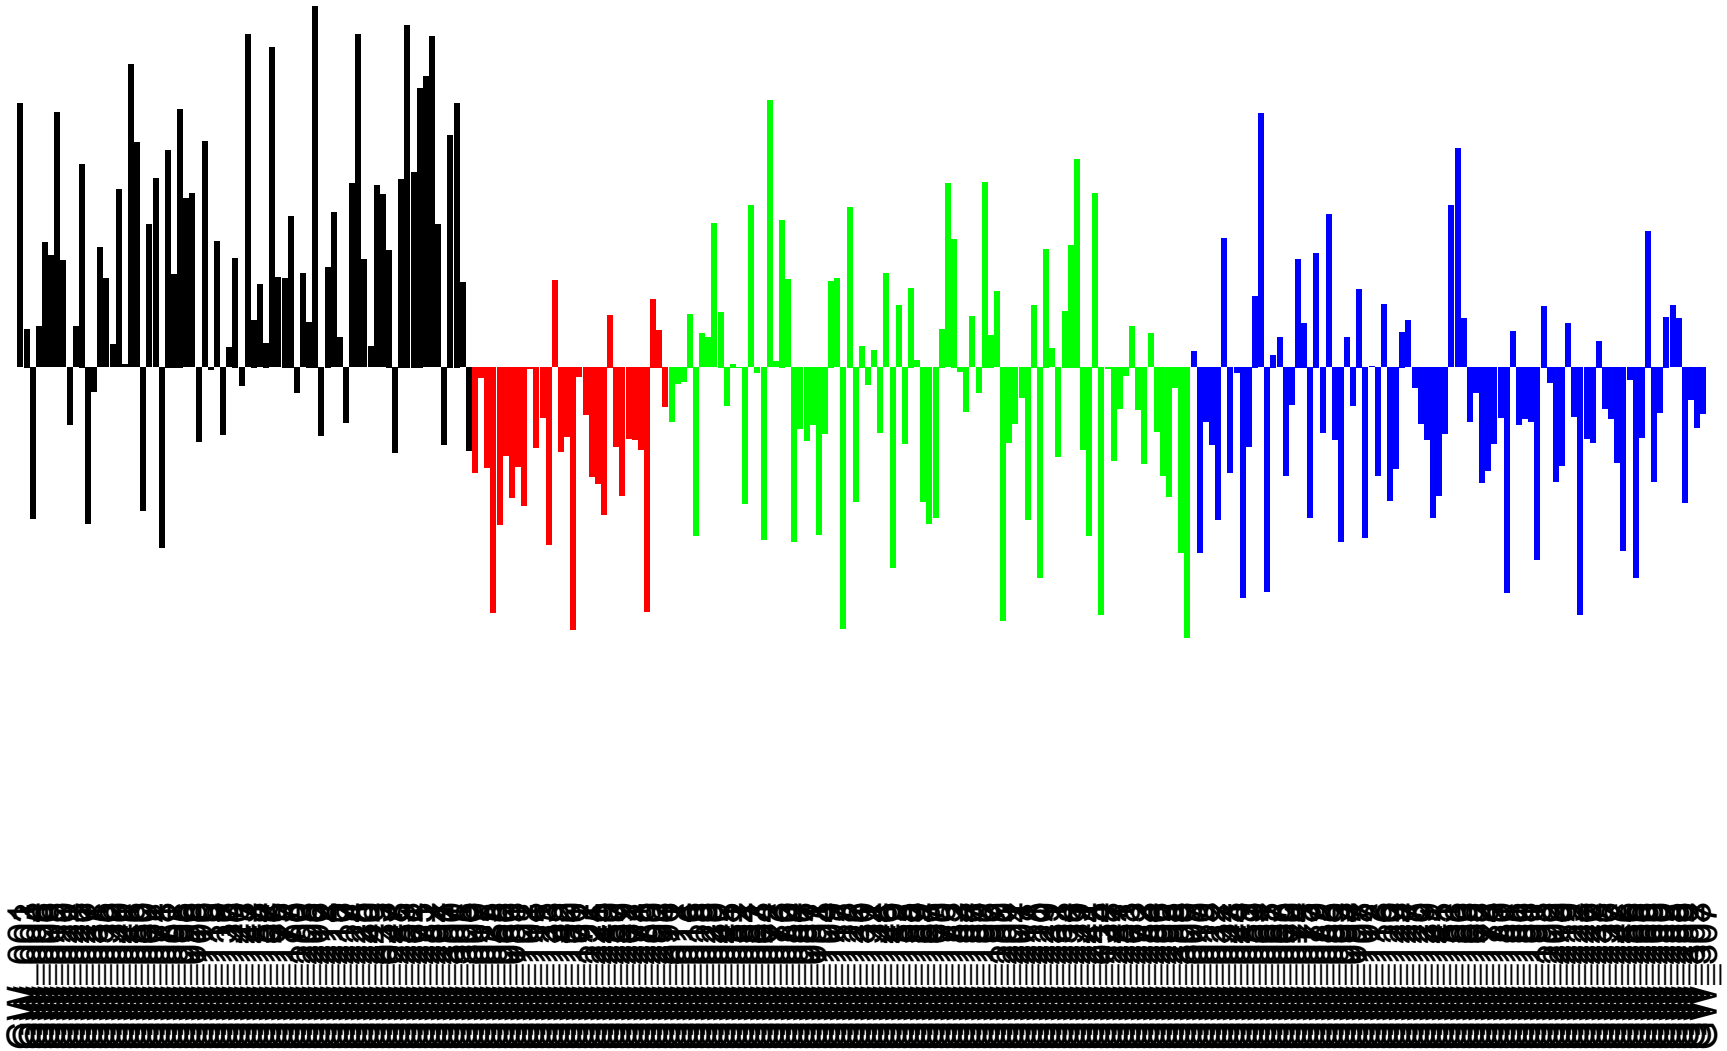

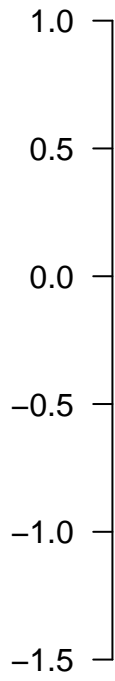

Expression of type I interferon signaling pathway in Spot F

Δe

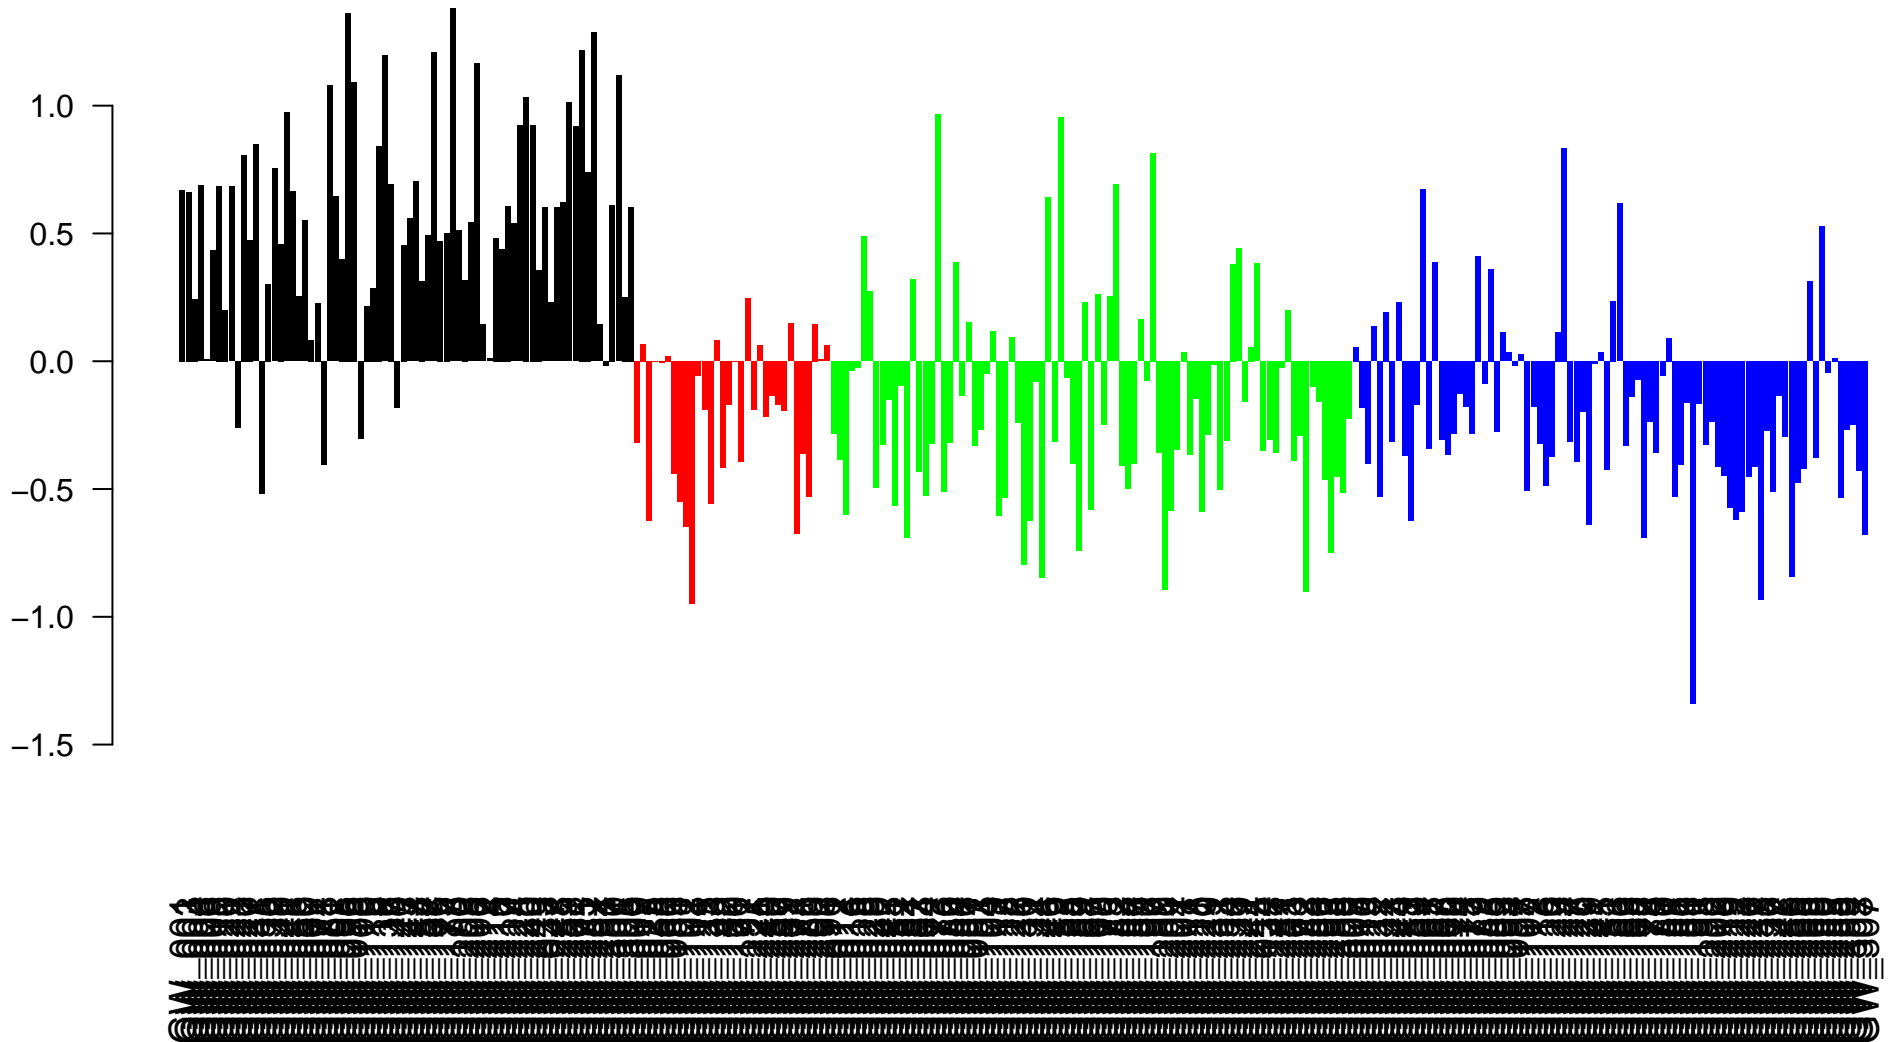

Expression of type I interferon signaling pathway in Spot G

Δe

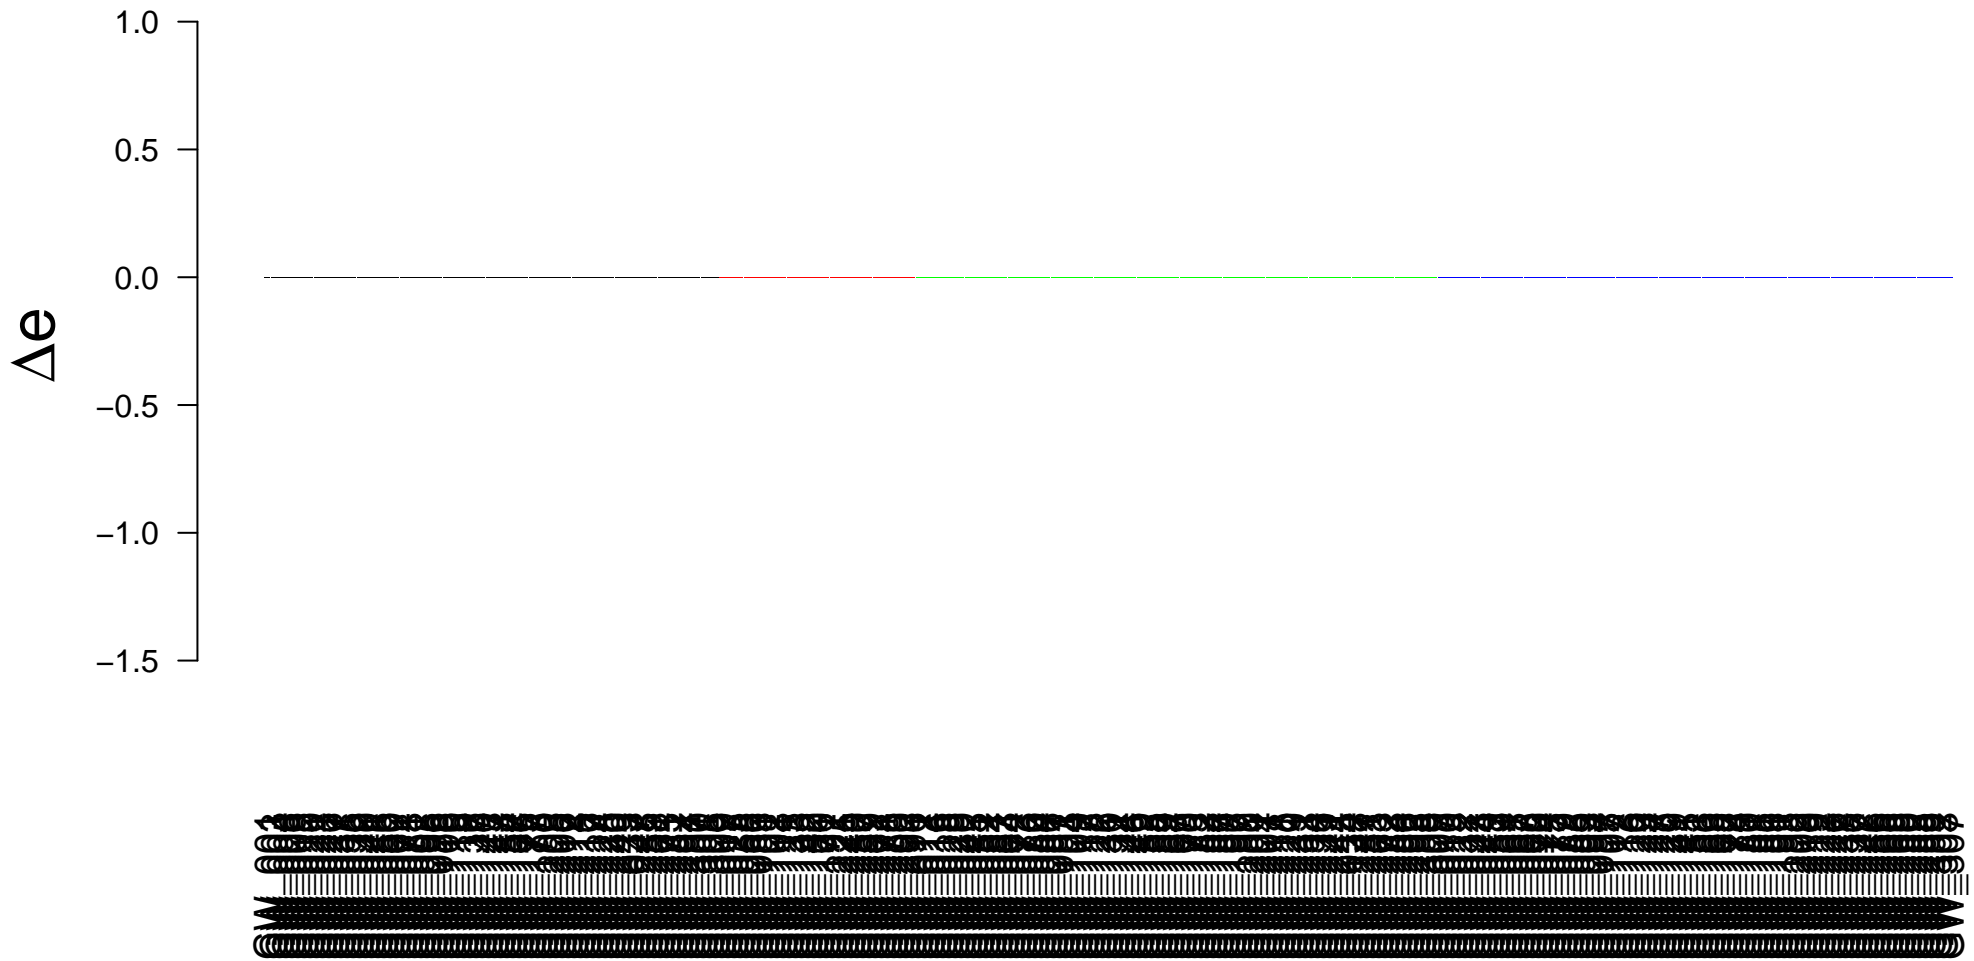

Expression of type I interferon signaling pathway in Spot H

Δe

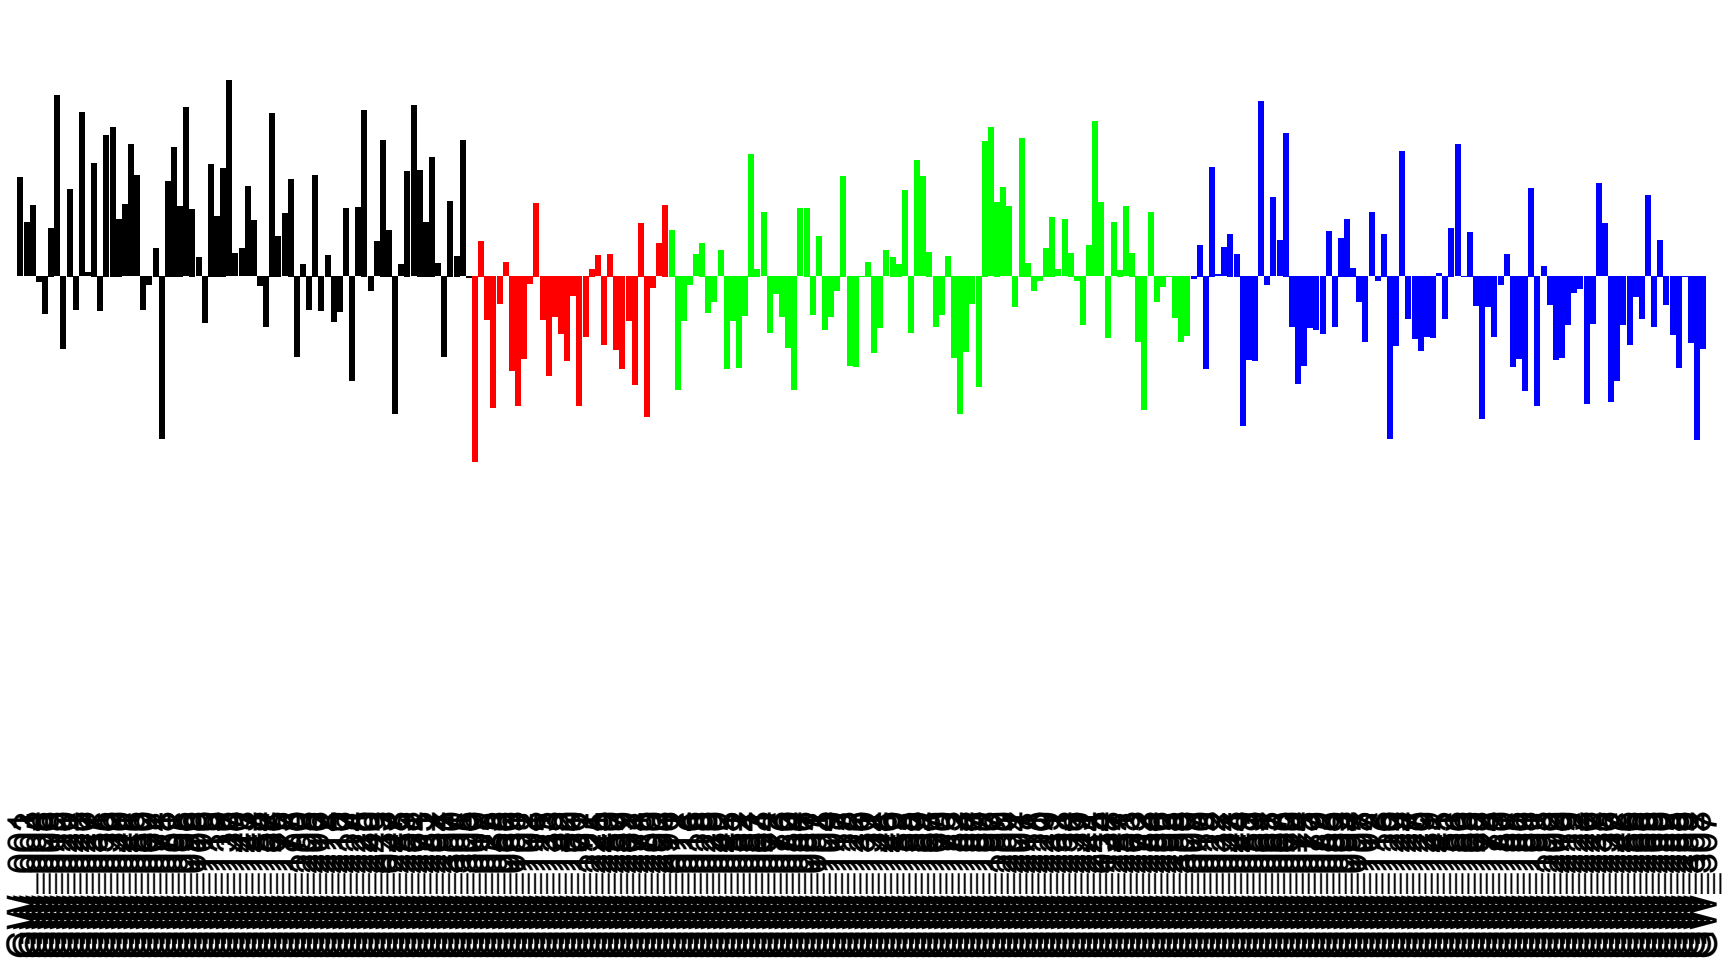

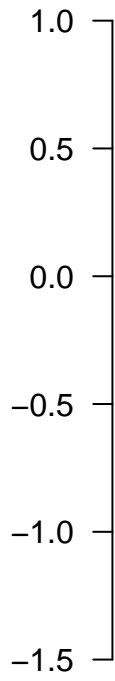

Expression of type I interferon signaling pathway in Spot I

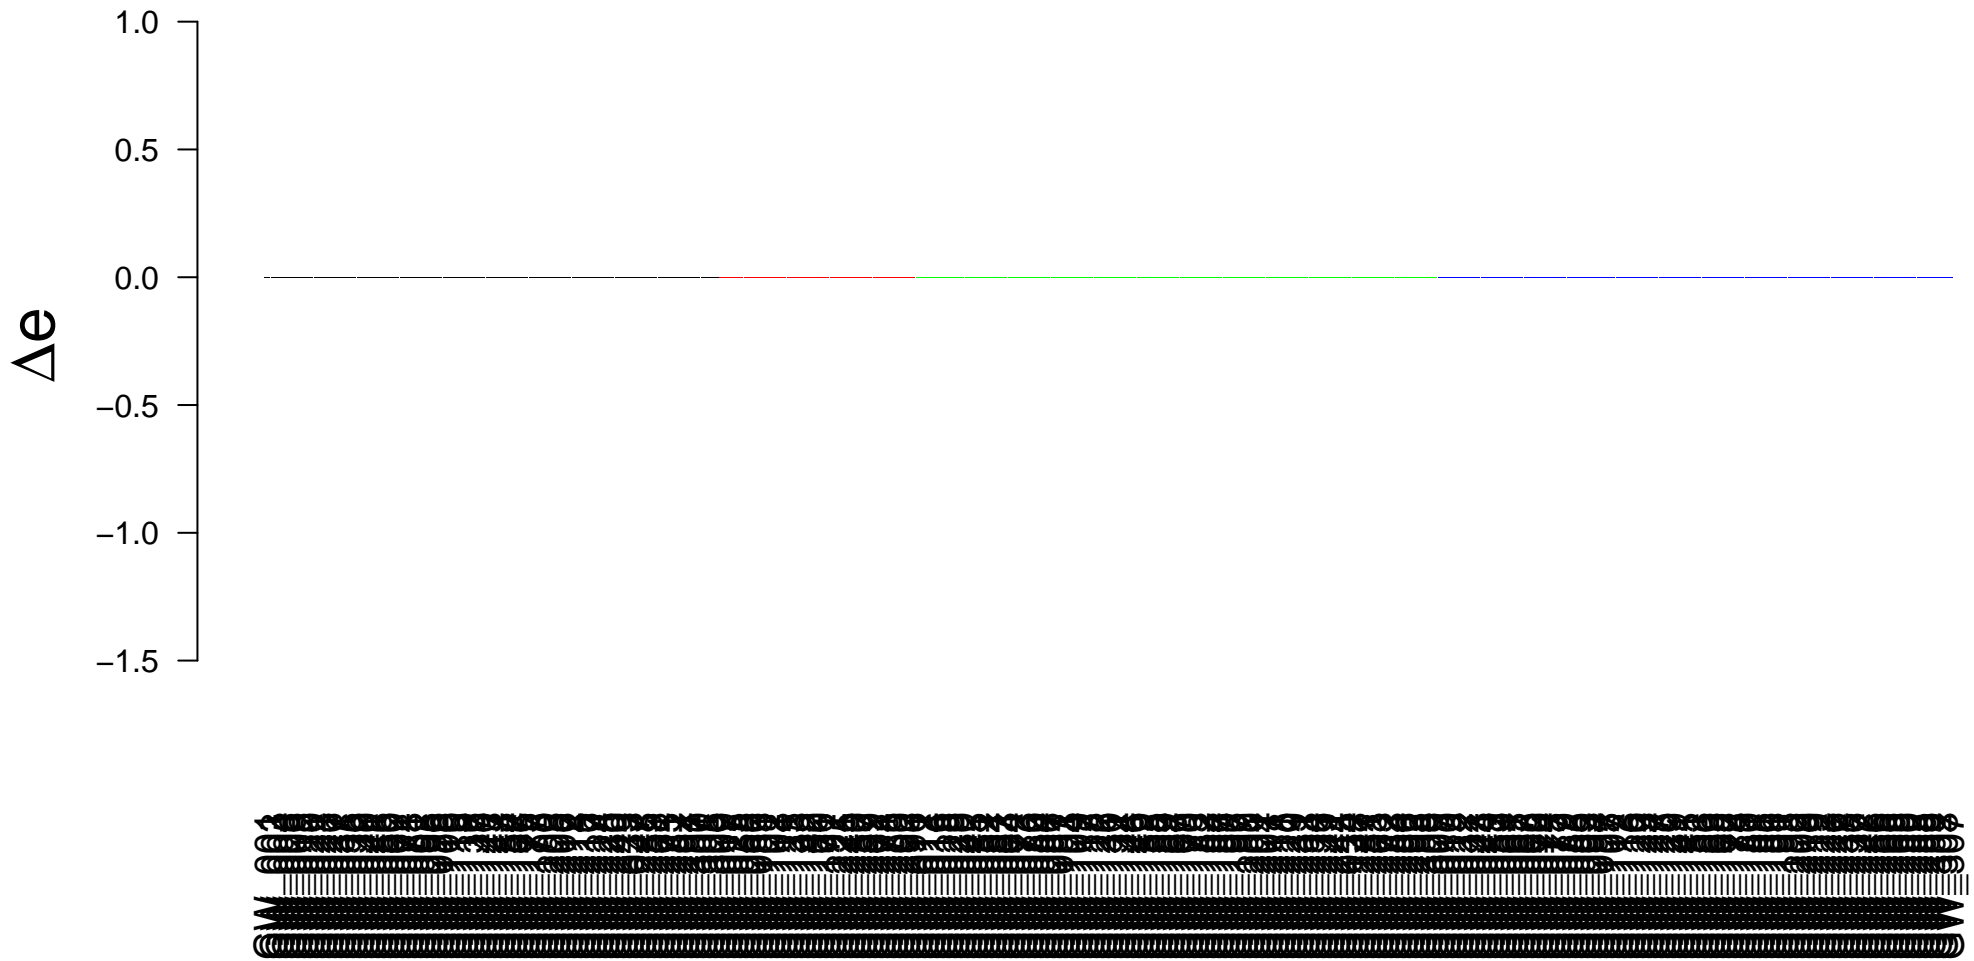

Expression of type I interferon signaling pathway in Spot J

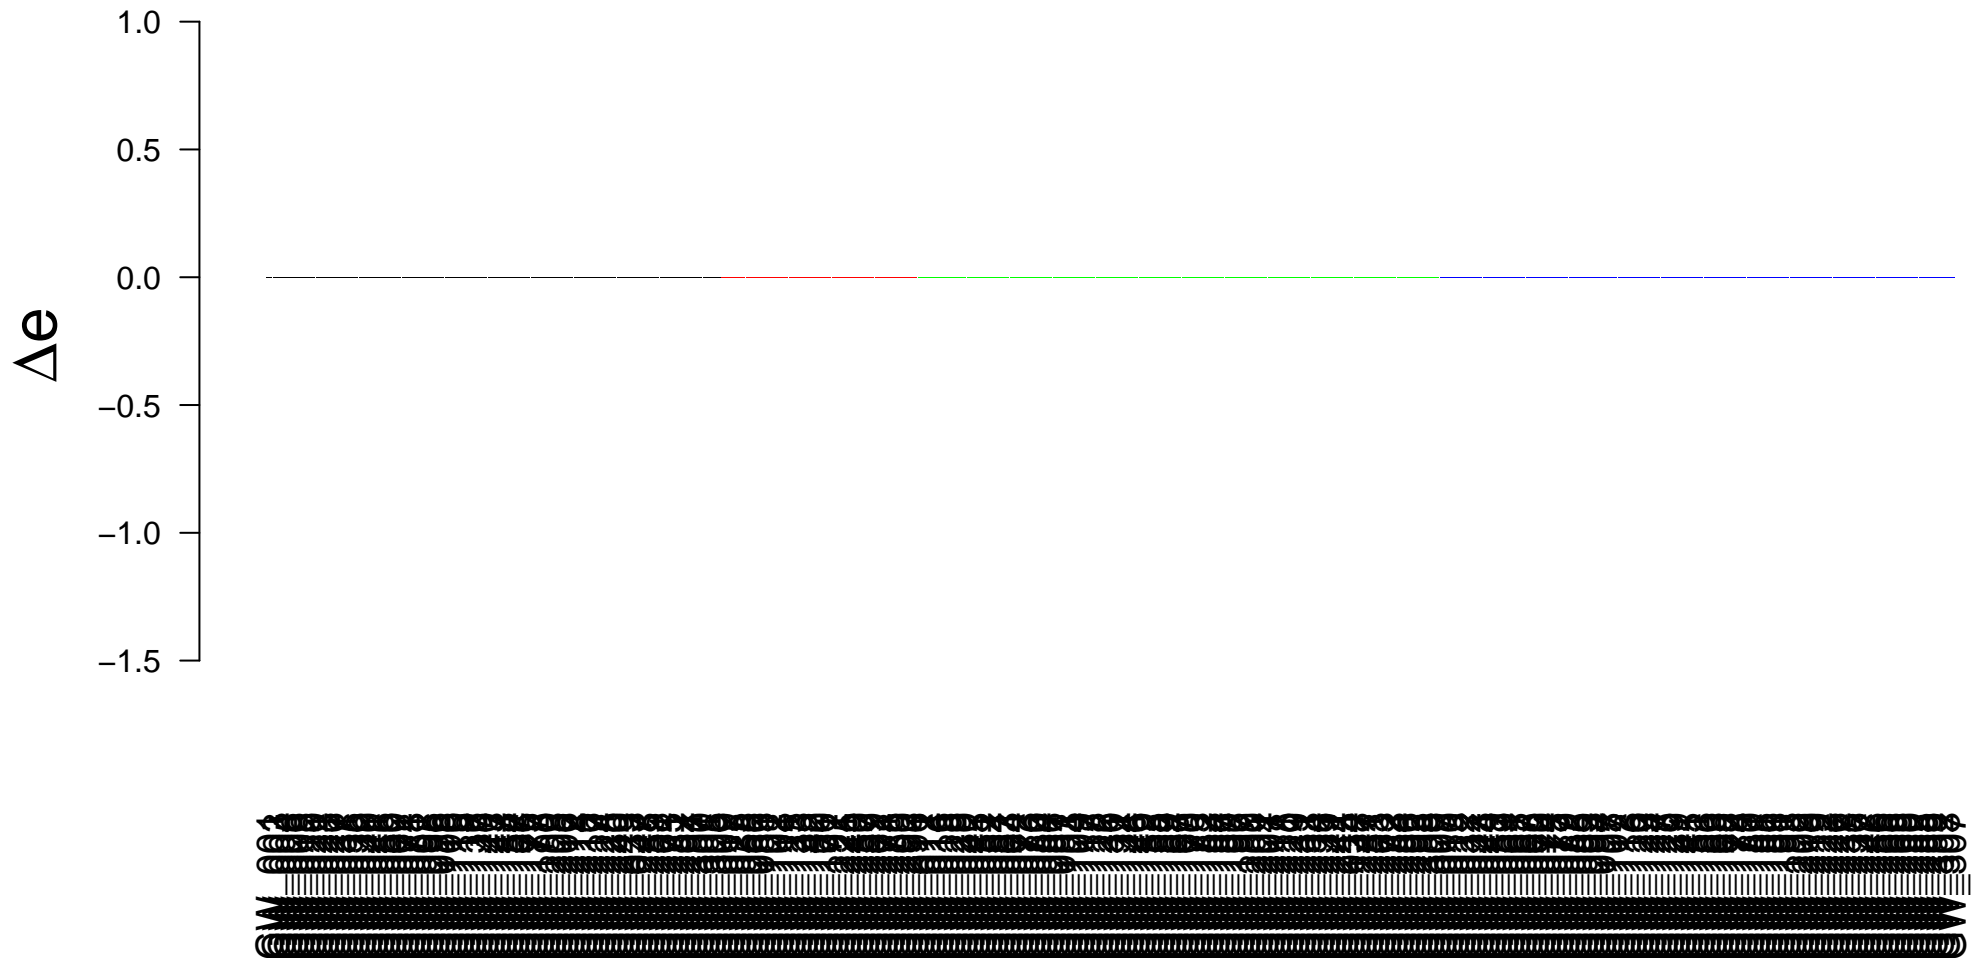

Δe

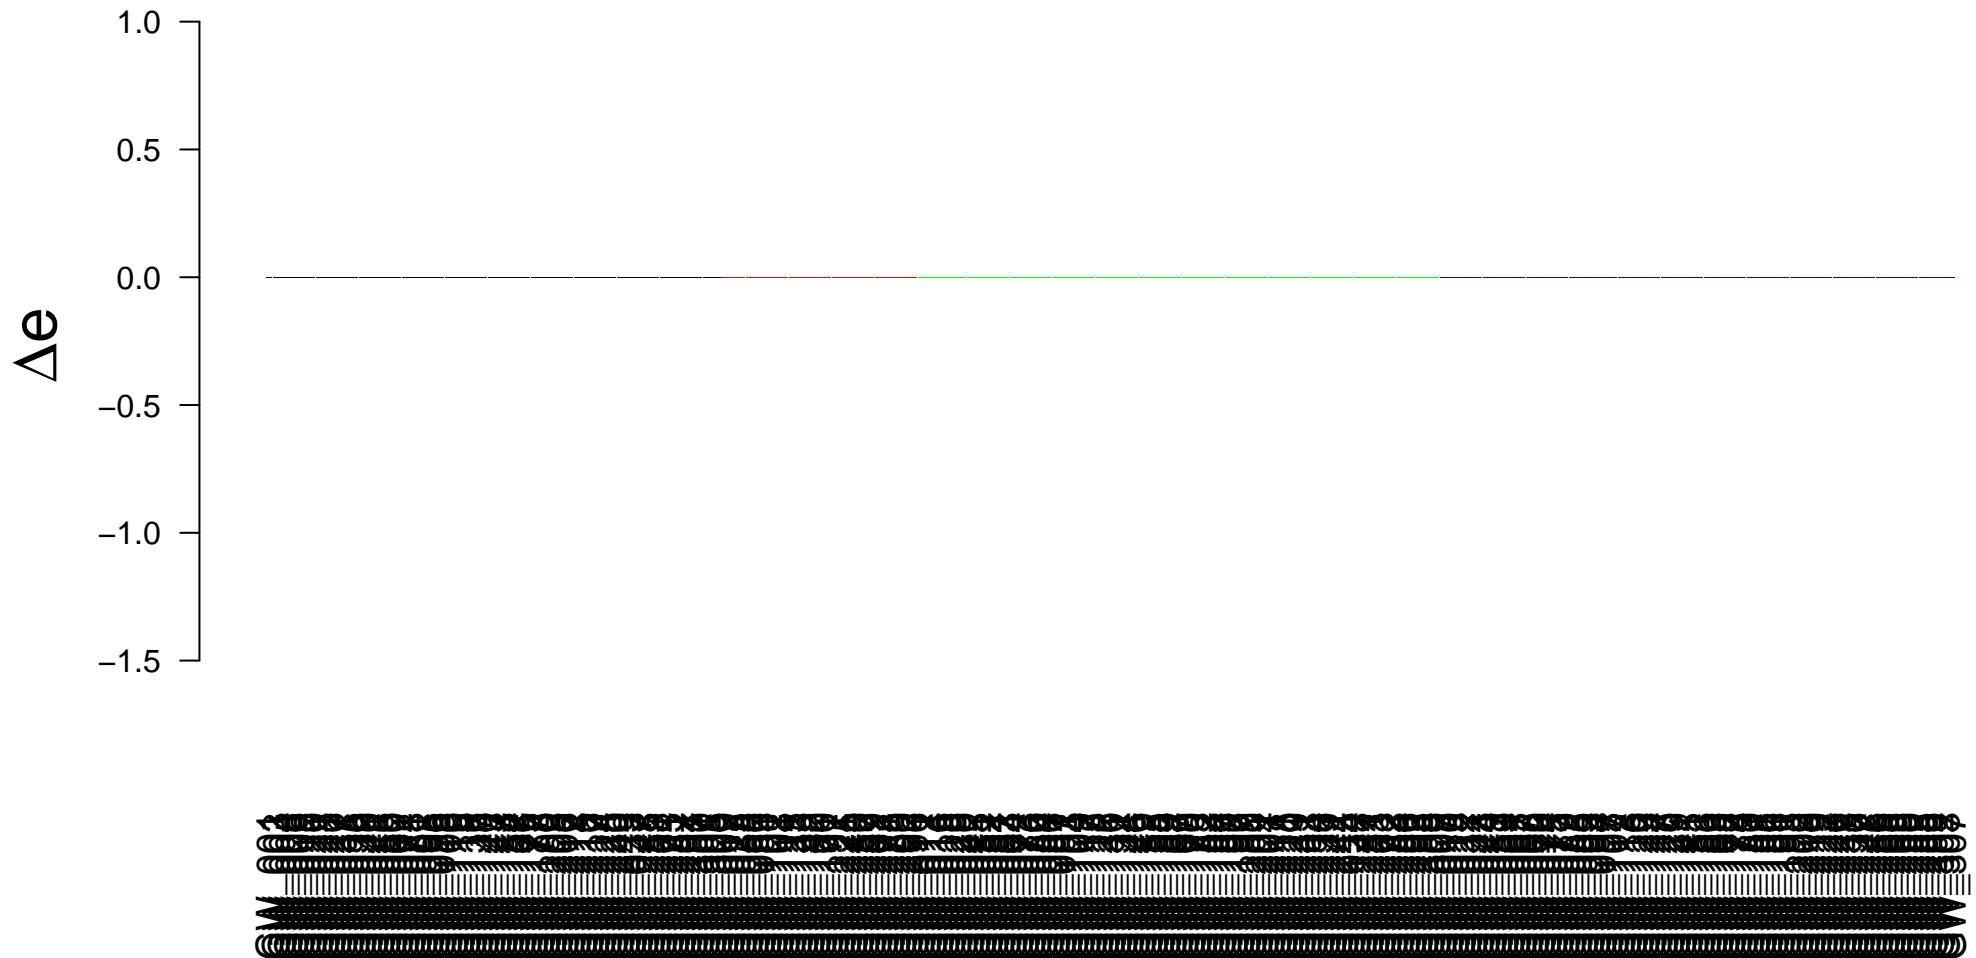

Expression of type I interferon signaling pathway in Spot K

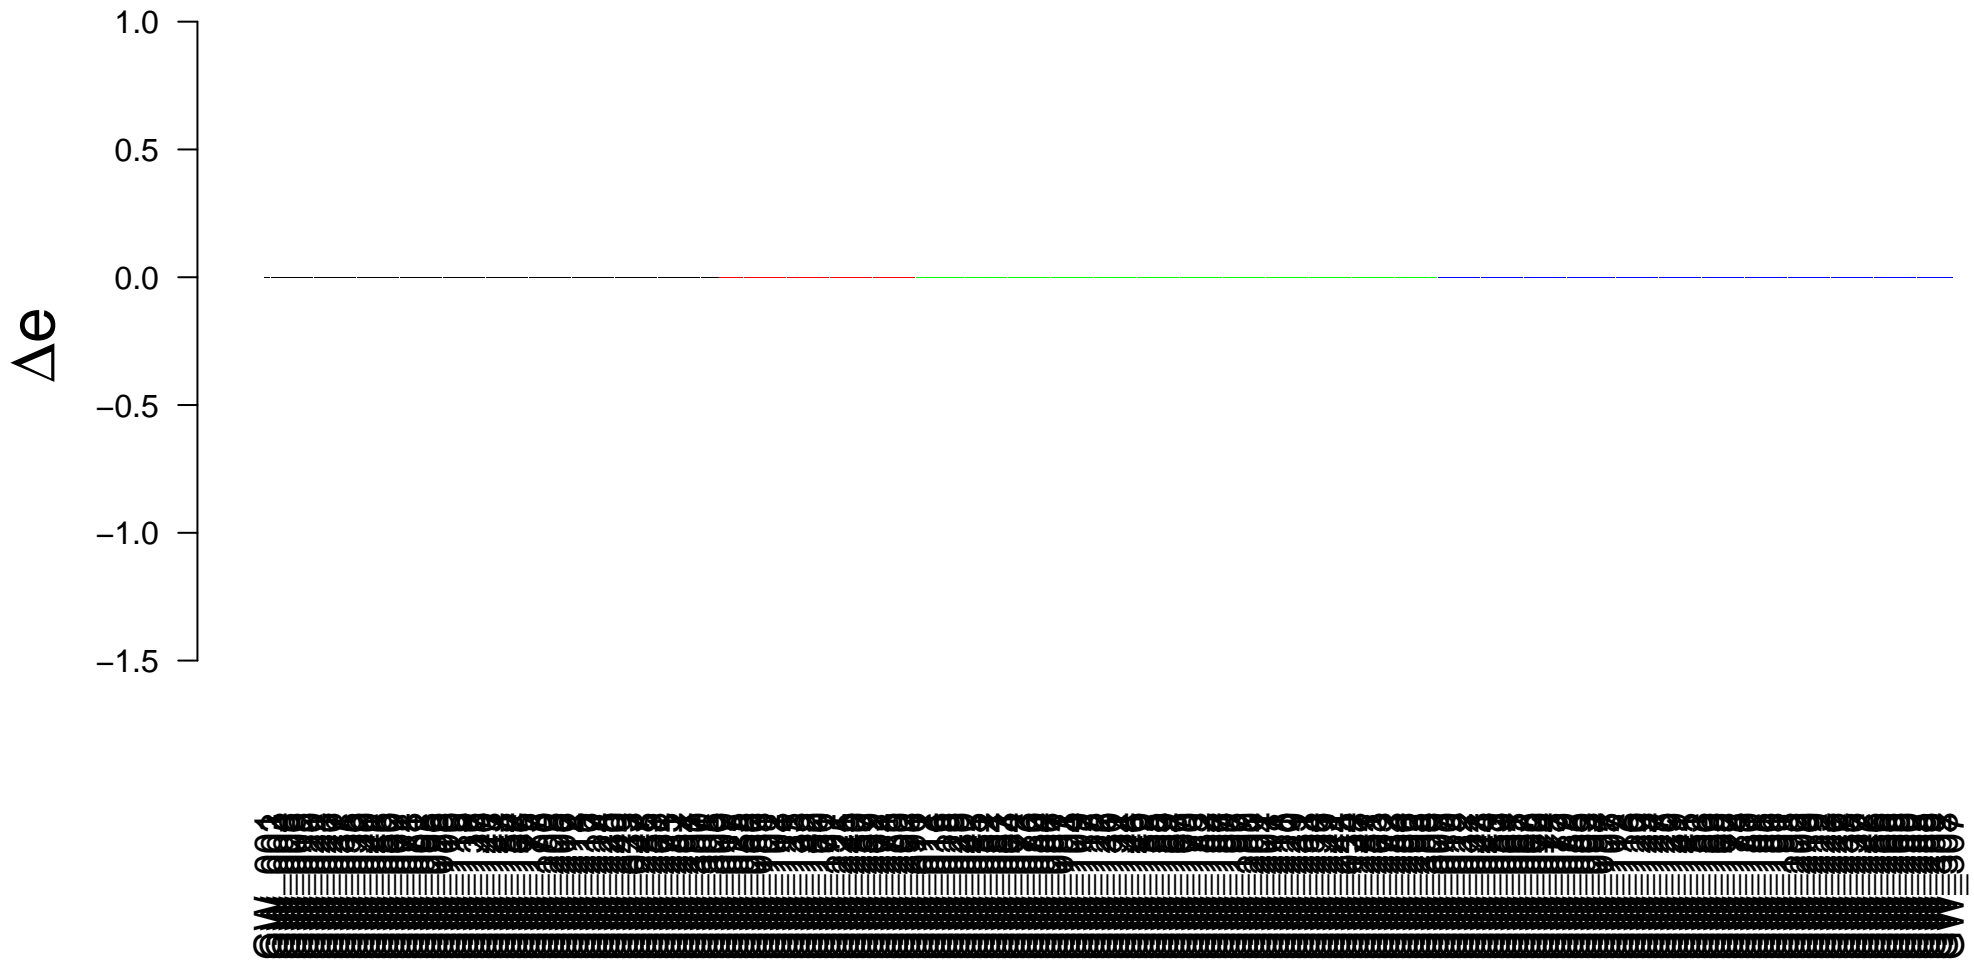

Expression of type I interferon signaling pathway in Spot L

Expression of type I interferon signaling pathway in Spot M

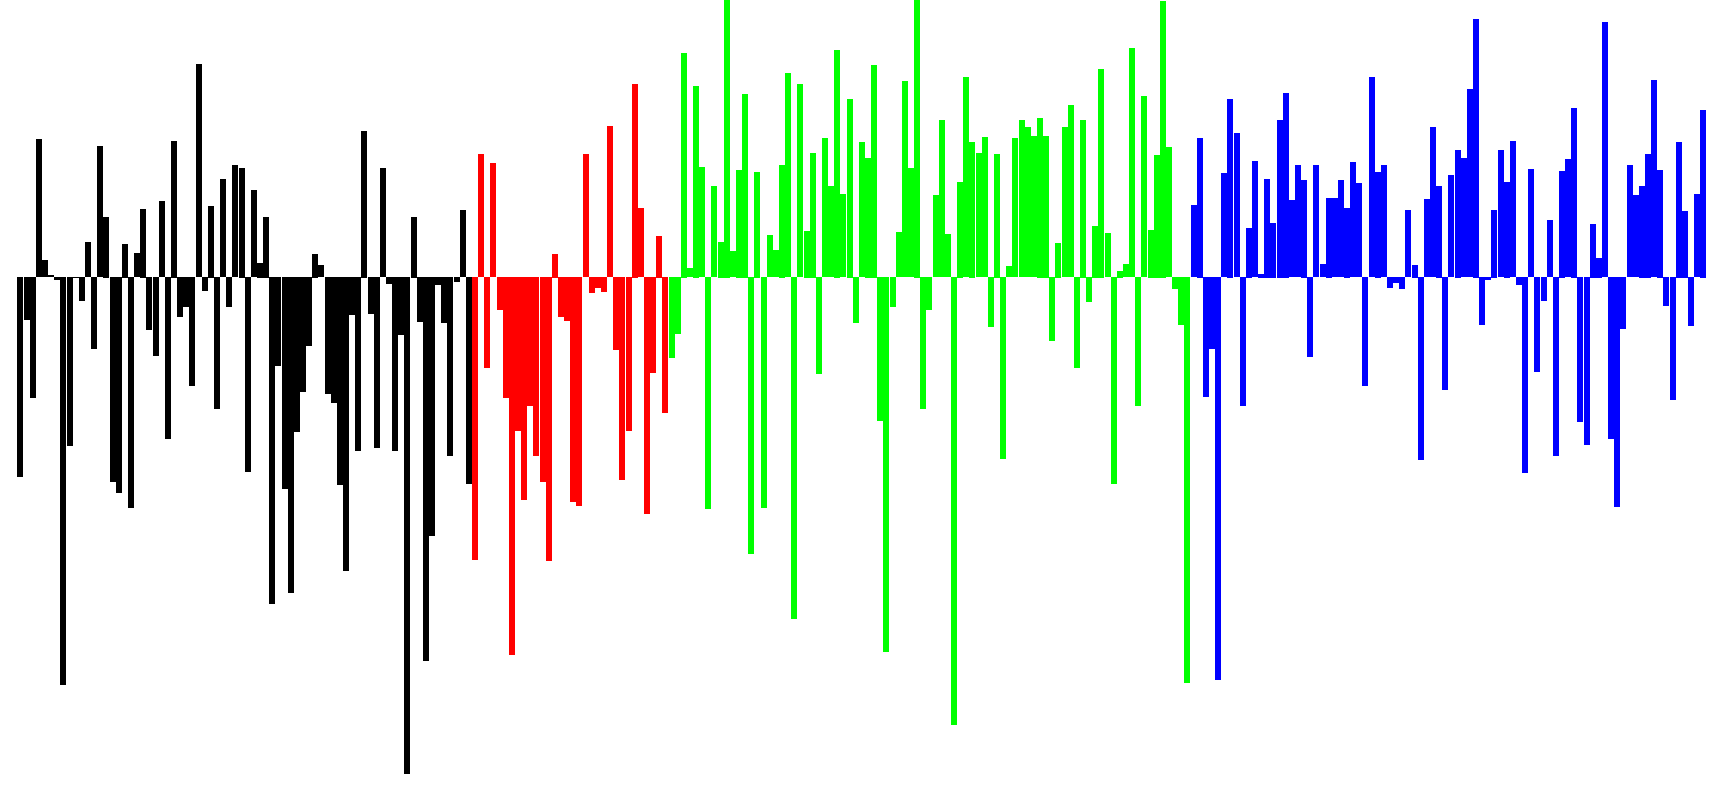

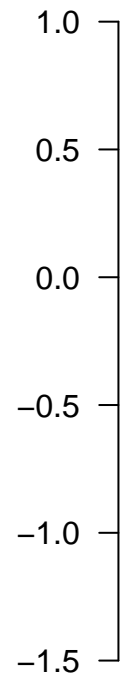

Expression of type I interferon signaling pathway in Spot N

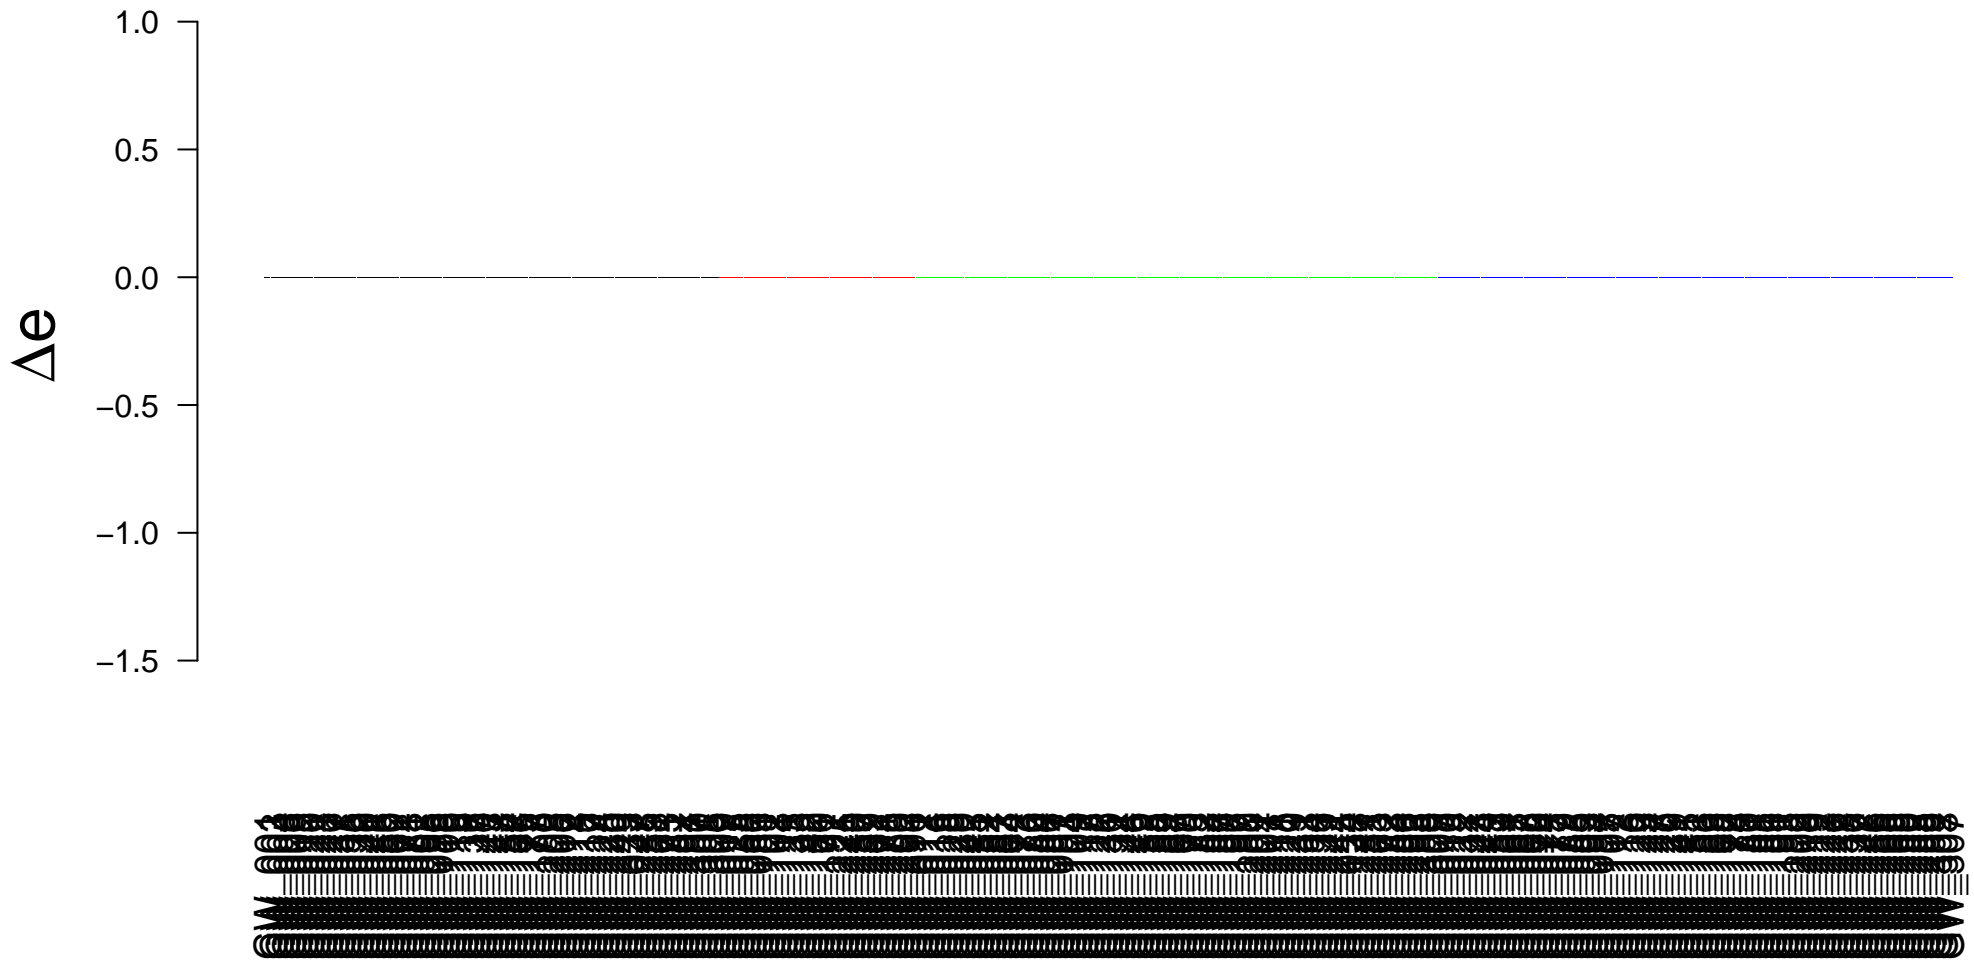

Expression of type I interferon signaling pathway in Spot O

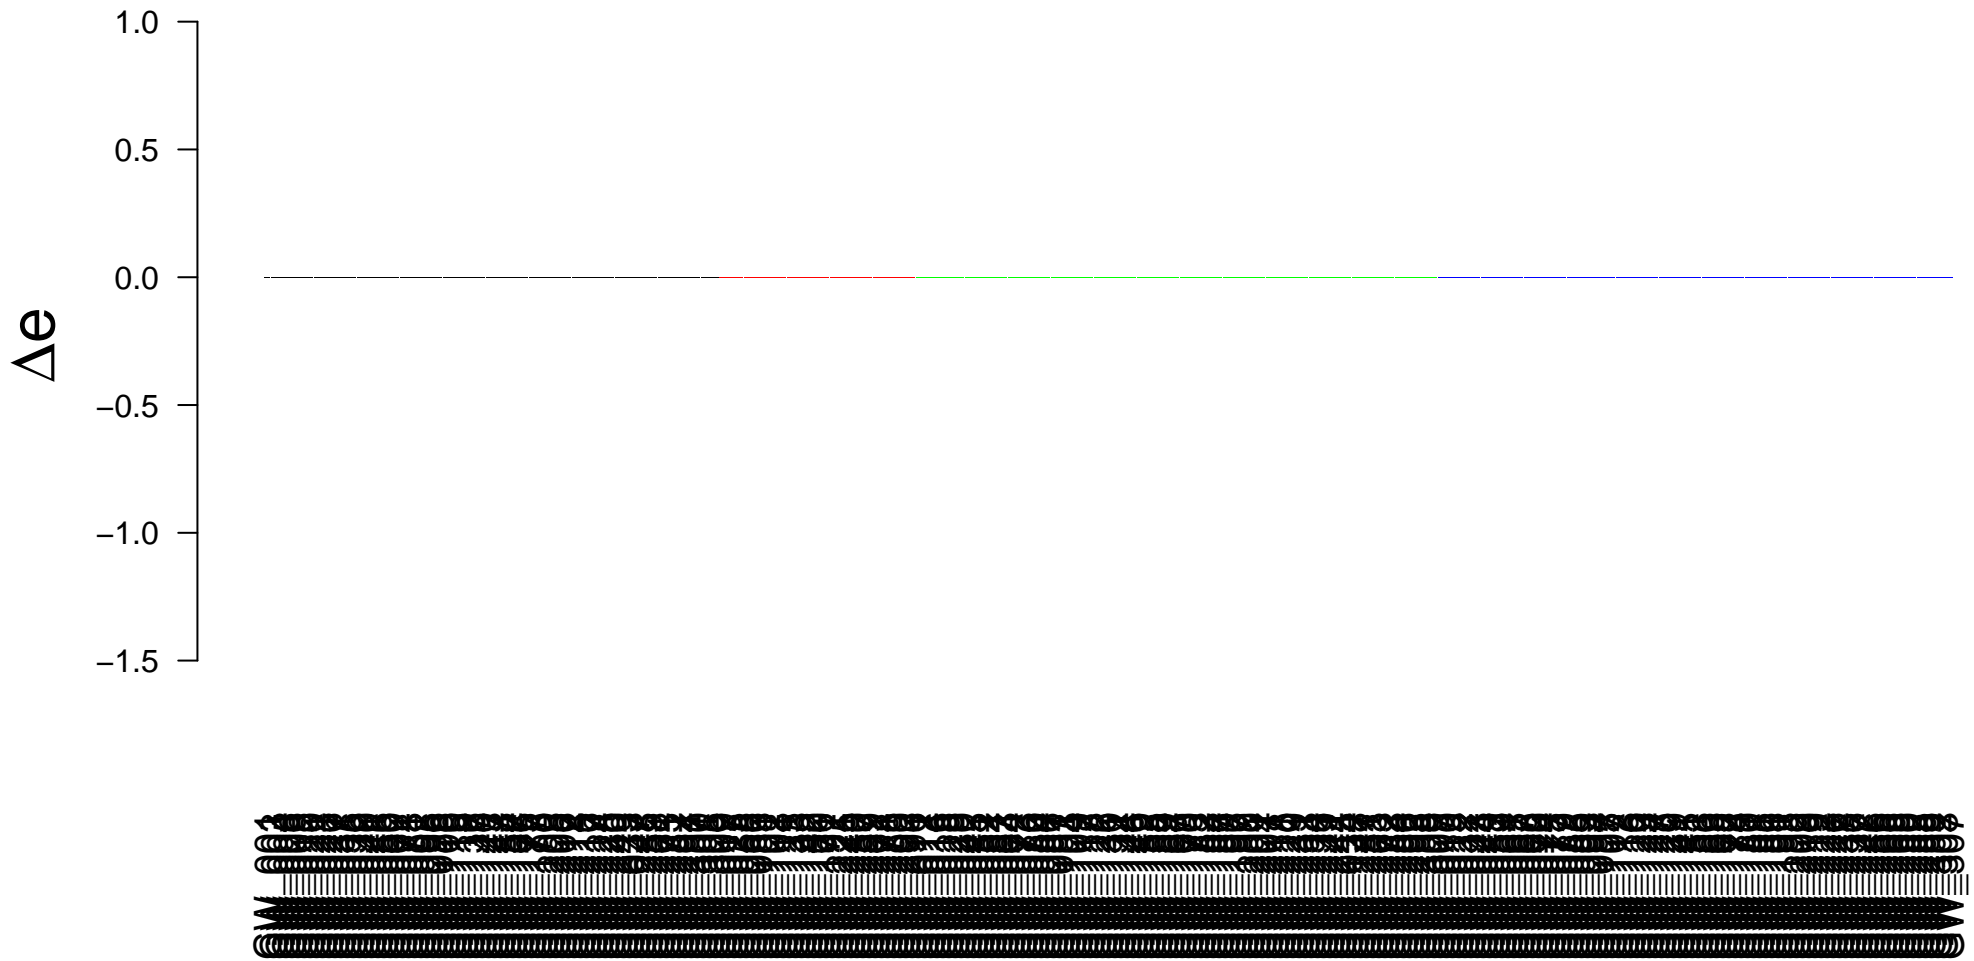

Δe

Expression of type I interferon signaling pathway in Spot P

Expression of type I interferon signaling pathway in Spot Q

Expression of type I interferon signaling pathway in Spot R
